The Outdoor Boy

The All-in-One Model Airplane

THERE are fifteen different types of model airplanes used for endurance flights. These are divided into three classes, the stick tractors, the stick pushers and the fuselage models. There are five of each of these three classes: the hand launched, the R. O. G.—rise-off ground; the R. O. W.—rise off water; the R. O. S.—rise-off snow; and the amphibian model, which can rise from either land or water. As the average model of this type requires ten parts in its construction, it would take 150 parts to build the entire fifteen, which would require weeks of work, as well as considerable expense.

But for those who wish to own and fly all fifteen, here is a single model that will solve the problem. It requires only nine simple parts and these will do the job quite as well as the 150, as they can be assembled in various ways to form the entire fifteen models. It would be impossible to carry fifteen models anywhere, but these parts can be easily packed in a shoe box.

To build them is the work of a few hours, and the entire material costs less than a dollar. As will be seen, the wing is the dihedral, sweep-back type, while the fuselage is the sentinel design so popular today. Six strands of rubber form a powerful motor.

Do not confuse this model with the average stick-and-fuselage endurance plane, as it far surpasses any of them in performance. Weighing less than half an ounce it can be counted on to give a good record of itself as any model ever. The builder should experiment with various propellers, as well as other motor strengths, so that the maximum of endurance can be had from his plane. As each model varies slightly in the building, this will be found worth the effort. Here is a model worthy of the attention of novice and expert alike, for its construction are tremendous. —EDWIN T. HAMILTON.

Editor's Note—Boys who wish to build this All-in-One Model Airplane may have working plans and drawings without cost. Model airplane clubs, normal training and vocational classes, boys' camps, Scout clubs and other groups can obtain a set of instructions for each member. Just inclose a three-cent stamp for each set of plans desired and address your request to The Outdoor Boy Department, THE COUNTRY GENTLEMAN, Philadelphia, Pennsylvania.

Hey! You Buzz Barton Fans . . . .

Cast Your Eye Over the New 1933 Daisy Line

"Starting with the gun they designed and named for me, the Daisy people have brought out the niftiest bunch of new guns for 1933 you ever saw.

"And how close they have figured the prices on these snappy-looking, straight-shooting, hard-hitting Daisy Air Rifles.

"When the Daisy people saw what a big hit they made with that gun they built for me, they got me to go over the whole new line with them, and took my suggestions regarding special features and prices, and here they are, ready to show to you fellows and get your verdict.

"First off, we took the famous old Daisy Pump Gun, the finest air rifle ever built, and I got them to reduce the price from $5.00 to only $3.95. Hundreds of thousands of this model have been sold at $5.00 and expert gunsmiths have wondered how such a fine rifle could be built for such a low price. I'm awful glad the Daisy people have found a way to sell it for only $3.95.

"And the next surprise is the new Junior Pump Action Repeater for only $2.95. There's a gun my pals are going to go for in a big way.

"And from there on down the line from the Super 1000-Shot Daisy at $2.50 to that wonderful new Single-Shot for one buck, every model with the latest improvements, and priced right for my pals to buy.

"If you've been wanting an air rifle, here's your big chance. Look at the pictures of the new models shown below, and then hot-foot it to your nearest hardware or sporting goods dealer, and ask him to let you give them the once-over.

"With these low prices all of you can afford to own a gun of your own. I'm getting to be a crack shot with my new Daisy, and I want all my pals to fall in line and do the same.

Here's Something You Can Do For Me

"Is the moving picture theatre in your town showing my pictures? If not, won't you drop me a line, care of the Big 4 Film Corporation, Paramount Bldg., New York City, and tell me the name of your theatre, and that you would like them to show my latest pictures? I'll pass the word along to them, and see if we can't get action.

And About My Picture

"I have authorized every Daisy dealer to give a free portrait of me to every boy who drops in to see these new Daisys. Be sure to ask for it, and let me know if you don't get it, and I'll see that you get one. Write me care of the makers of these famous guns.

"*Here's a tip about the shot to use.* As you know, real marksmen are always very particular about their ammunition. Some say no gun is better than the ammunition you use. Most of you have found out that you shoot better with Bulls Eye 'Copprotect' Steel Shot, the copper-jacketed shot that is 'tailor-made' for Daisy Air Rifles."

Your Pal, **BUZZ BARTON**
Care of Daisy Manufacturing Company, Plymouth, Mich.

CHEMCRAFT
THE CHEMICAL OUTFIT

Brings you real fun with Chemistry!

Amazing Tricks and Marvelous, New Experiments that Show You the Wonders of Chemical Science!

Chemical experimenting with CHEMCRAFT will give you practical information because these outfits are scientifically correct and give accurate instruction on every suitable chemical subject. They cover many branches of chemical research and hundreds of subjects are explained and demonstrated by actual experiments. A CHEMCRAFT outfit will help you lead your class in chemistry and science.

Each CHEMCRAFT outfit is a complete laboratory containing a liberal assortment of non-poisonous chemicals, all necessary apparatus and a Manual of Instructions. Quantities of chemicals permit each experiment and trick to be repeated many times. Any boy or girl who can read can experiment with these outfits.

There are the original chemistry outfits, invented by chemists, used in schools and colleges, and endorsed by teachers and professors. They contain more and better experiments, superior chemicals and apparatus, and offer greater value in every way. There are nine different size outfits to select from; each is complete with everything required, the larger outfits containing larger and more varied assortments.

Get a CHEMCRAFT outfit this Christmas! They are sold wherever good toys are found. Look for the name CHEMCRAFT on the box. If the set you want is not obtainable in your local store, we will send it, fully prepaid, upon receipt of price.

Now WITH EVERY ORDER FOR THIS DOLL

A 16 IN. STRAND OF IMITATION *Pearls*

Three Subscription Value for Two

HOW to increase values in a rising market is a man's own job in these exalted days. But here's how we do it.

Nancy Lee, whose lifelike picture you see here, was born during the throbs of depression when wages and material costs were close to zero. Even so, Nancy was intended to be a two-subscription baby. Read what Nancy has to say for herself:

"I'm looking for a mother. Will you be my mother? I want you to care for me and love me and take care of me. I am 15 inches tall and I have soft-colored locks, arms and legs. My body and legs are stuffed with sawdust. My arms and my head are of pressed sulfocasein composition, finished very lifelike. You can wash my face and hands and I will not run because it does not hurt me. My head has a detachable ribbon mad in a regular bow to hair ribbon. My arms and legs are jointed at the shoulders and at the hips, so that I can sit down and hold you my arms to you. I have bright eyes, pink cheeks, and a kissable mouth. I have a pretty, flowered print which is trimmed with lace. My stockings are dark colored and I have black half-shoes. I will be a good baby if you will be my mother to care with you. Send for me quickly and be my mother just as soon as you can.

A lucky day it was for you, too, when an importer offered us a large number of Japanese imitation pearls at a ridiculously low price.

Pictured above is a single pearl strand, 16 inches in length, held at ends with a snap fastener set with a flashing rhinestone. Japanese manufactured pearls outrank in beauty and luster the finest imitations. Practically indestructible, creamy tinted and beautifully shimmering these pearls have come to be regarded as one of the most prized of neck ornaments.

A doll and a string of pearls go together as a single reward. The doll for little sister, the pearls for big sister or even mother. That's the bargain we offer. Two gifts in one, and under all ordinary conditions surely worth three subscriptions.

BARGAIN OFFER

Send only **two** subscriptions at 25¢ each and we will send you Nancy Lee and the 16-inch strand of Imitation Pearls. Postpaid No. 4705. Each subscriber will receive Comfort for two years.

PERFORMANCE

August 21, 1933

Sterling Engine Co.
1270 Niagara Street
Buffalo, New York

Gentlemen: Att: Mr. C. A. Criqui, Jr.

This will acknowledge receipt of your letter dated August 18th requesting a picture of my 40-foot Runabout Cruiser "MARU II".

In accordance with your request I am enclosing a picture which I think will be suitable.

I am particularly pleased to say that the Sterling Petrel Engine is by far the most satisfactory [illegible] I have ever had. Needless to say, there are times on the great lakes when the reliability of an engine is put to the severest test, and it is a great relief to be able to know that the driving power under my bridge is always "STERLING".

Very sincerely yours

A. W. Chapin, Commodore
FAIR HAVEN YACHT CLUB

AWC/MH

MARU II—Owned by Mr. A. W. Chapin of Syracuse, N. Y. 40' long, 11' beam, 38" draft. Designed and built by the Wheeler Shipyard, and powered with a Sterling Petrel 6 cylinder engine, Maru II attains a speed of 18 M.P.H.

GEORGE H CONRADSON
[illegible]
NEW YORK

August 23, 1933.

Mr. C. A. Criqui, Jr.
Sterling Engine Company,
1270 Niagara Street,
Buffalo, N. Y.

Dear Sir:

In reply to your letter of August 17, I am enclosing a picture of my boat "Sea Toy". This boat was built by Gordon Shipbuilding Corporation of Brooklyn, N. Y. and she undergoes is the Marine Basin Club, City Island, N. Y.

Last year I made a trip on her from New York to Georgian Bay, Canada, and through the Great Lakes, covering about 2,000 miles and except for the slipping of a nut on a Bosch spring, I had no trouble with either engine. I have been through many difficult experiences with the boat and the engines have never failed me, and that includes quite a few thousand miles.

In view of the experiences some of my friends have had with other engines, I feel duty bound to inform you that it is hard for me to conceive of the Sterling Petrel engine being excelled by any other.

Yours truly

GHC:B
Enclosure.

SEA TOY—Owned by Mr. George H. Conradson of New York, N. Y. 40' long, 12' beam, 3' draft. Designed by John Lehmus and built by the Gordon Shipbuilding Corp. SEA TOY is powered with 2 Sterling Petrel 6 cylinder engines and has a speed of 24 M.P.H.

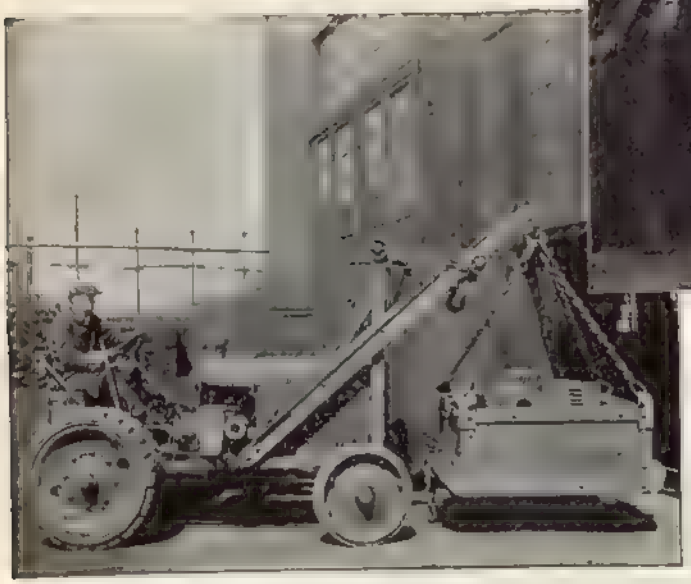
These Tractors Simplify Materials-Handling



One of the McCormick-Deering Industrial Tractors at the Great Northern's Superior, Wis., shops, carrying heavy materials into the car repair shop.

The Missouri Pacific system has instituted many short cuts at the Dupo, Ill., roundhouse by using McCormick-Deering Industrial Tractors.

McCormick-Deering Industrial Tractors have a prominent place in the railroads' campaign for greater economy and efficiency. These tractors, available in wheel and crawler types, operate individually or serve as power plants for a varied list of cranes, loaders, bull-dozers, air compressors, snowplows, and other equipment. Many roads have developed special trailers for different types of loads, and maintain working schedules which keep these tractors moving regularly between departments as needed, to load and unload the heavy material.

Additional savings are made by using the tractors for switching and spotting passenger cars in and out of the passenger car and paint shop, switching and spotting cars in the freight car shop, and moving cars loaded with heavy locomotive materials in and out of the erecting shop.

These are just a few of the jobs handled by the versatile McCormick-Deering Tractors. New uses are being found all the time. Ask the nearest Company-owned branch, or a distributor, for a demonstration. Write us for information and catalogs.

"Help
Cuba
Quickly"–says Senator Bor

"Sure I can Beat You — I'VE GOT TWIN IGNITION!"

NRA

Boys will be boys and there's never been any end to the heated arguments they have about motor cars—and in knowing what a car should have to rate a leading figure in performance.

Who can resist entering all the good humored competitions about Nash Twin Ignition performance? And who can't beat it talked about more and more? This great development is appearing the case of Nash performance to the far corners of the earth.

In a Nash Twin Ignition valve-in-head motor two spark plugs instead of one ignite the gases in each cylinder—from opposite sides of the combustion chamber.

This makes the gasoline mixture burn faster and more thoroughly—producing more energy.

Developing in fact a whole lot more energy. Engineering tests show 7% more power, 2 miles an hour more top speed and 2 more miles per gallon of gasoline from a Twin Ignition motor than from the same motor with single ignition. And with it all, much greater smoothness.

And now wonder why there are have not as yet adopted Twin Ignition just remember that it costs more to build a Twin Ignition motor—and it has to be a more efficient motor which in itself is costlier to build.

One ride in a Twin Ignition Nash and this latest development will explain itself as it has to thousands of motorists throughout the world.

NASH

A Car of Quality

ALL 1934 NASH MODELS will have TWIN IGNITION

RAYMOND SOMMER

Prominent European driver and winner of the 1932 LeMans 24 Hour Endurance Race, "Champion Spark Plugs have co-operated to our entire satisfaction to the achievement of this success"

The CHAMPION AUTOGIRO

piloted by Captain Lewis A. Yancey made the first flight by autogiro to Cuba. After over a year's service Captain Yancey reports "entire freedom from spark plug trouble with Champions."

Chinese Cloisonne—An Ideal Gift

IMPORTED FROM THE ORIENT

The history of Cloisonne is perhaps the most interesting of all the ancient arts of the Orient. It dates back to the court of Kublai Khan, A. D. 1275—an age of glittering splendor.

Emperor Ching T'ai, A. D 1450-1456, patron of this art, gave personal attention to the workshops and from him Cloisonne takes its name. It was first called "Ching-T'ai-Lan" thus, Cloisonne held imperial prestige. Its manufacture and use was restricted until 1911 by royal edict.

Chinese Cloisonne is all hand made and comes in assorted colored backgrounds in a choice variety of floral designs and colors

Ash Tray. Diameter, 3⅝ inches.

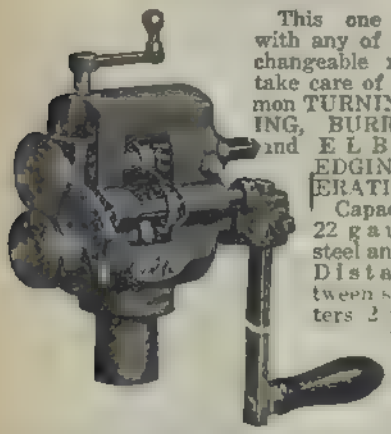
PEXTO TINNERS' MACHINES

Universal Combination Rotary Bench Machine



This one machine with any of its interchangeable rolls will take care of the common TURNING, WIRING, BURRING and ELBOW EDGING OPERATIONS

Capacity—No. 22 gauge soft steel and lighter. Distance between shaft centers 3 in., shipping w't complete with standard 33 lbs.

F544A0—Without any rolls complete with screw nuts for holding rolls and offset standard and spanner wrench, each .....$20.00★

F1544A0—With (A) thin turning rolls, (B) thick turning rolls, (C) burring rolls including spare upper burring rolls, (D) wiring rolls and offset standard and spanner wrench .....each $32.00★

Elbow edging rolls No. 1 will be included only when specified and are furnished at an extra cost.

F2544A0—With (A) thin turning rolls, (B) thick turning rolls only including offset standard and spanner wrench, each .....$25 50★

F3544A0—With (C) burring rolls only including spare upper burring roll and offset standard and spanner wrench, each .....$24.00★

F4544A0—With (D) wiring rolls only including offset standard and spanner wrench .....each $23.00★

F5544A0—With No. 1 elbow edging rolls only including offset standard and spanner wrench .....each $23.00★

NOTE—At an extra cost any of the above machines can be furnished with foot treadle attachment instead of crank screw for depressing upper roll.

Standard Rolls Interchangeable with Pexto Universal Combination Rotary Machine

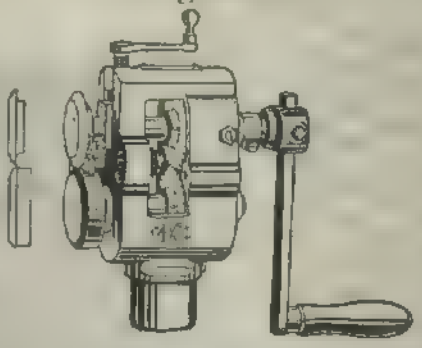
A B C D No. 1

A—Thin turning rolls, largest wire No. 11 gauge.
B—Thick turning rolls, largest wire No. 7 gauge.
C—Burring rolls, widest flange ¾ in.
D—Wiring rolls, largest wire No. 7 gauge.
No. 1—Elbow edging rolls.

A spanner wrench for interchanging rolls packed in every machine.

Prices for extra rolls on application.

Wiring Machine

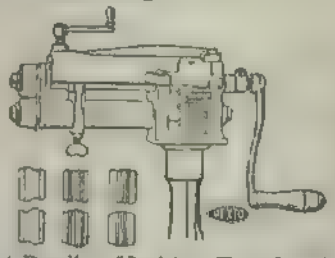


For 22 gauge iron and lighter. Heavy frames and shafts, positive gauges, solid steel adjustable hand cranks for fast or slow speeds, machine cut steel gears and gears enclosed are a few of the improvements.

Diam. rolls 3 in. Largest wire that can be used is gauge No. 0. Complete with standard, w't 36 lbs.

F525A0 .....each $32.00★

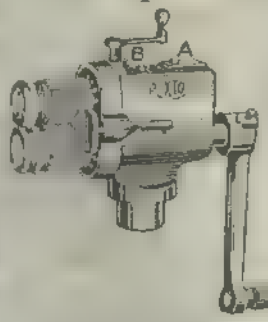
Beading Machine



Light Beading Machine. For No. 24 gauge iron and lighter. Depth of throat 6¾ in., diam. rolls 1⅛ in., width of rolls 1⅛ in. Furnished with four pairs of rolls, one pair each ogee ⅜ in., triple ⅜ in., single ¼ in. and ⅛ in. Furnished with standard, w't each 50 lbs.

F620A0 .....each $38 00★

Crimpers and Beaders



For making a uniform crimp and bead or crimp only in pipe of black or galvanized iron. Furnished with pair of steel blank collars making machine convertible into cornicemakers' crimper.

Width of crimping rolls 1½ in., width of beading rolls 1 in., diam. beading rolls 1⅛ in., diam. crimping rolls 1⅛ in., size ogee bead ¾ in. Cap. No. 24 ga. iron and lighter, w't 30 lbs.

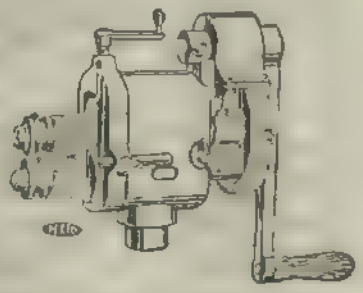
Furnished with rolls for straight crimp.

F581A0 .....each $18.50★

Furnished with rolls for spiral crimp.

F581AA0 .....each $18 50★

Crimpers and Beaders



Connecting gears of machine cut steel. Rolls high grade steel, scientifically hardened. Adjustments provided for regulating depth of crimp and bead.

Two speeds are provided for, back geared for heavy stock and direct drive when lighter gauges of material are used.

Cap. 20 ga. iron and lighter. Diam. beading rolls 1⅛ in., diam. crimping rolls 1⅛ in. Gear ratio 3 to 1.

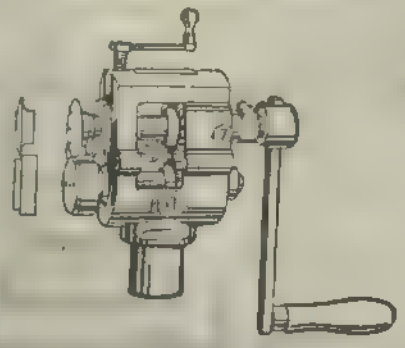
Furnished with crank screw for depression rolls, w't each 65 lbs.

F585A0 .....each $35.00★

Straight crimping rolls only, w't each 64 lbs.

F0585A0 .....each $35 00★

Small Burring Machine



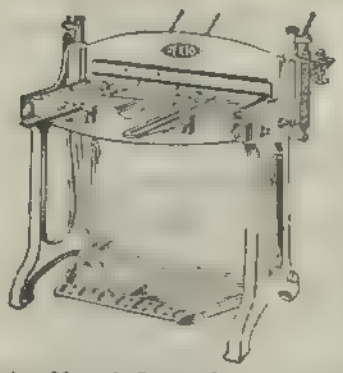
For 22 gauge iron and lighter. Heavy frames and shafts, positive gauges, solid steel adjustable hand cranks for fast or slow speeds, machine cut steel gears and gears enclosed are a few of the improvements. Diam. rolls 1½ in. Widest flange or burr that can be turned ⅛ in. Extra upper roll furnished. Complete with standard, w't 26 lbs.

F576A0 .....each $23.00★

★Items Marked Thus ★ Are Shipped from Factory Only.

PEXTO TINNERS' MACHINES

Squaring Shears



Capacity No. 18 Gauge Iron and Lighter Furnished with complete gauge equipment, one pair front arms. No. 137 has hold-down attachment.

Cuts 30 in., w't 510 lbs.

F132A0 .....each $125.00★

Cuts 36 in., w't 600 lbs.

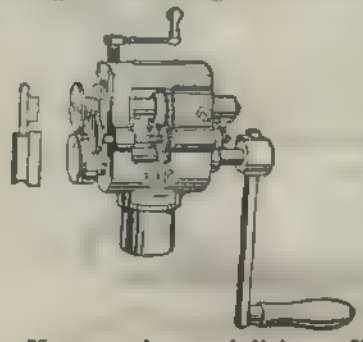
F137A0 .....each $165.00★

Wizard Hand Punch

A powerful, single, well constructed hand punch. Furnished with three punches and dies, ⅛, ¼ and ⅜ in. Length overall 8¼ in. Depth of throat 1⅛ in., w't 3 lbs.

D789A0 .....each $9.00

Large Turning Machine



For 22 gauge iron and lighter Heavy frames and shafts. Positive gauges, solid steel adjustable hand cranks for fast or slow speeds, machine cut steel gears and gears enclosed are a few of the improvements.

Diam. rolls 3 in. Smallest wire that can be used, gauge No. 9, largest gauge No. 4. Extra pair of thick rolls and standard furnished, w't 36 lbs.

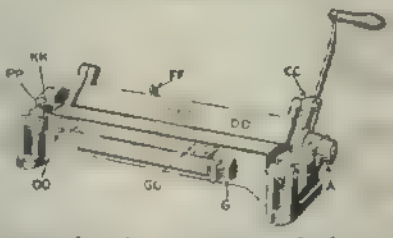
F542A0 .....each $32.00★

Champion Pipe Folder

Will fold edges of sheets formed in cylindrical shape, also desirable for edging sheets while in the flat as well. Capacity No. 24 Gauge iron and lighter for sheets 30 in. wide and will form locks ½ and ¾ in. wide, w't 80 lbs.

F1A0 .....each $40.00★

Folding Machine



Improved patterns represent the last word in Bar Folder Construction. Intended for forming the edges of sheet metal at various angles. Will produce closed locks as well as open or round locks for inserting a wire in the flat-sheet. Where speed and great durability are essential, especially in tinware and other light manufacturing.

Cap. ⅛ in. locks on No. 22 ga. iron and lighter.

Cap. ¼ in. locks on No. 24 ga. iron and lighter.

Cap. ⅜ in. locks on No. XX tin.

Will form closed and open locks ½ to 1 in. to receive a wire up to ¼ in.

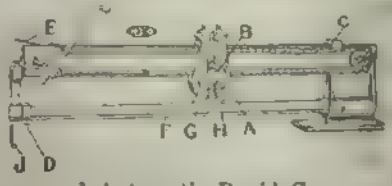
20 in., w't 140 lbs.

F62A0 .....each $75.00★

30 in., w't 220 lbs.

F63A0 .....each $95.00★

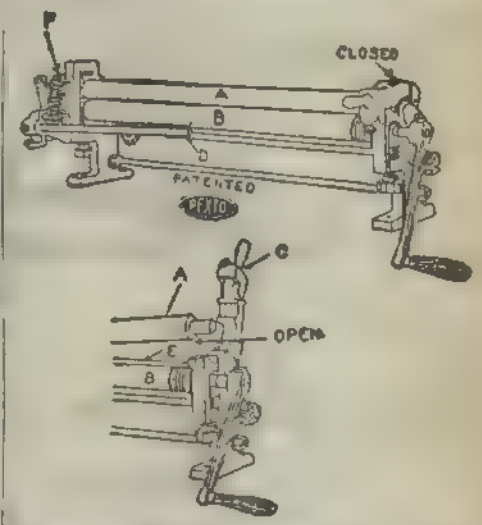
Grooving Machine



Improved Automatic Rapid Groover with Flattening attachment. Capacity 24 gauge iron and lighter. Will grove work 30 in. long and pipe 2 in. in diameter and larger. One each ⅛, ¼ and ⅜ in. grooving rolls and one flattening roll is furnished, w't 200 lbs.

F518A0 .....each $82.00★

Regular Lightning Slip Roll Formers



For 22 gauge iron and lighter. All latest features embodied in these machines. All operations performed at one end of machine.

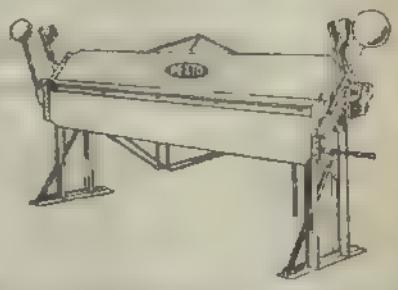
For sheets 36 in. wide or less, diam. rolls 2 in., w't packed 205 lbs.

F381A0 ..... each $45.00★

For sheets 30 in. wide or less, diam. rolls 2 in., w't packed 185 lbs.

F382A0 .....each $40.00★

Steel Cornice Brakes



These Brakes are of pressed steel construction and owing to their light weight are handy to move around for outside construction work. Furnished with one Forcing Bar and five formers for making circular and semi-circular bends. Side of formers ½, 1, 1½, 2½ and 3 in.

Capacity 18 gauge iron and lighter.

Start Skeet in Your Home Town

By J. P. Cuenin

IN my article on skeet in last month's issue of HARDWARE WORLD I gave a brief description of this comparatively new form of clay target shooting. I pointed out that because of its fascinating attraction for shooters the average owner of a shotgun will shoot skeet if given the opportunity. I suggested the introduction of skeet in communities as a means of increasing the sale of shells, clay targets and guns.

To show that despite the depression money can be made by boosting skeet, I may call attention to the fact that **there were more skeet shoots held in 1932 than in any other year, and that skeet is the only sport that increased in attendance last year.** According to statistics gathered by one of the large newspaper service bureaus, all other lines of sport, including baseball, football, golf, tennis, prize fights and regulation trapshooting, showed a decided drop in 1932. **There was not only a larger attendance at skeet shoots last year, but there were more "big" shoots held than in 1931 or 1930.**

150,000 Shells and Targets For Only One Club

During 1932 there were 25 state team and individual championship shoots held, there were a half dozen or more sectional matches such as the Western Olympic Open at Los Angeles and the Southwestern Open at Dallas, and two events which covered the country. These were the National Skeetstakes and the National Telegraphic match in which clubs from the Atlantic to the Pacific took part.

After a recent experience at a hardware dealers' convention where I spoke on skeet, and where one of the dealers asked me what I meant by skeet shooting, figures may be most eloquent to show

An actual instantaneous photograph of the author reducing a clay target to powder and dust.

clearly what the possibilities are in the way of ammunition and gun sales.

At the gun club skeet field where I do most of my shooting, there were more than 150,000 shells fired during 1932. That means that an equal number of clay targets were bought. In addition to the shells and targets used, there were at least a dozen guns purchased especially for skeet shooting by members of our club. The sale of those shells, targets and guns meant profits for dealers who could not have made those sales had there been no skeet fields in operation.

Further to show the popularity of skeet I may add that our club did not have a monopoly in its area, for another field in the city runs on Wednesdays and Sundays, and in a suburban section there is still another field open every Sunday.

I could name many clubs throughout the country that used from 25,000 to 100,000 shells and targets. The "shootin-est" group on record was the Detroit Country Club, which fired more than 400,000 shells at skeet targets during 1932. Two of the Detroit skeeters traveled all the way to Los Angeles to take part in the Western Olympic Open shoot, and at the same event this year there will be teams and individuals in attendance from all of the western states.

Stimulates Game Hunting, Too

Skeet shooting will not only make shotgun users buy more shells for breaking targets, but because of the fact that it improves the average man's gun pointing he will do more game hunting and thereby increase the sale of shells.

When a skeet field is laid out most of the shooters start burning powder for the fun of it, for the joy of seeing the targets break and for the satisfaction derived from learning how to connect with the different targets in each round. Then the competitive spirit creeps into the game and the boys shooting at the field decide that they must have a shoot for prizes. That puts them all on

edge and many shells are used in practice.

This stage is followed by the desire of the club to beat some other club in a nearby community, so a team match is arranged between two clubs. That means more shooting to determine who shall be the five men on the team representing each club, and all of this shooting means the movement of large quantities of shells that would otherwise remain on the dealers' shelves.

Skeet Layout Can Be Economical

The cost of setting up a skeet layout is not high. The pair of traps required can be bought for as little as $15. Two higher grade traps will cost around $30, or a complete set of traps and pulling rods which can be operated from behind station No. 4, can be had for less than $100.

By using second-hand lumber the cost for the two trap stands can be cut down to a few dollars, and if still further economy is necessary old gasoline drums can be used as protective material for the trap boys by cutting out the tops and bottoms and splitting the sides of the drums with an acetylene torch. Or corrugated iron roofing may be used. A small group of interested men can lay out the field and set up the traps in one day, so the cost of starting skeet shooting need not be high.

Initial Investment Will Yield Rich Dividends

It has been said that in the old days before the radio the makers of phonographs could have made a profit by giving away their instruments because every owner spent so much every year in the purchase of records. I would not say that hardware dealers could donate the equipment for skeet fields, but they should at least do something about getting skeet fields in operation as a means of profiting by the sale of shells, clay targets and guns, for if there is a place to shoot skeet men will shoot, and every time a gun pops there is a corresponding tinkle on some dealer's cash register.

Views of two home town skeet courses showing how simply the field is laid out and the large number of automobiles and visitors that such a course attracts.

Why Buy Steel Abroad?

Continued from Page 28

revival of the spirit of adventure and initiative—good old-fashioned aggressive pursuit of profits instead of a continuance of the epidemic of pessimism and retrenchment.

To the extent that we as business men catch and apply the spirit of aggressiveness, we will regain and greatly assist in the return of confidence throughout the community which has been so greatly shaken.

We believe, at last, that we are awake to the serious conditions of unprofitable distribution that have confronted us for the past few years; from now on we consider our future opportunities even brighter than in the past, and much more substantial because they will be founded on confidence and fair dealings. To this end we pledge you our unlimited support in order that our efforts may be productive of the best results for us all.

Perfumed Enamel Paint Available

A perfumed enamel, which is said to take away all the objections to the odor of the ordinary surface coating, has been perfected and is now ready to be introduced to the market. It is being put up in one-quarter pint to one gallon cans, selling at the rate of $5.00 a gallon to the consumer.

This process is said to be the result of several years of research, and the perfume odor disappears when the enamel is dry. It is felt to offer a new sale note to the department store in its perfume appeal to the woman customer.

Self-Posted Order Envelopes

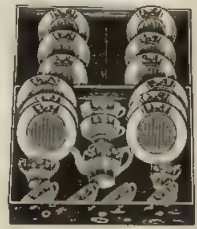
The Walter Tips Co., Austin, Texas, furnishes their salesmen with envelopes for sending in orders. In the lower left corner of the envelope is printed the amount of postage required for any number of standard size orders in one envelope.

China Toy Tea Sets

We have made an extensive study of this line and feel sure that the toy tea sets on this page represent the best values in the country today.

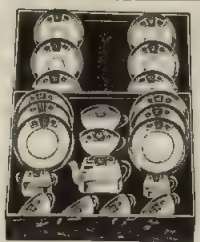
Eight-Piece China Tea Set. Service for three. Decorated with floral design. Tea pot measures 3x2¼ inches. Three 2-inch saucers, three 1¼-inch cups. Each set is packed in display box that measures 5¾x5 inches.
No. 25N36. Per dozen..... .72

Seventeen-Piece China Tea Set. Service for six. All pieces have cream color luster finish with green border. Pretty floral decoration. The set consists of tea pot measuring 4x2½ inches, six 3¾-inch saucers, six 2¾-inch cups, sugar and creamer in proportion. Packed in handsome lithographed display box that measures 7⅝x10 inches. Cover can be used for display purposes.
No. 25N38. Per dozen 3.60



Twenty-three Piece Set. An outstanding value finished in bright luster. Body is tan and has cream border decorated. Floral design on red background. This set consists of ten pot measuring 4½x3⅝ inches, six 2¾-inch cups, six 4½-inch plates, sugar and creamer in proportion. Packed in handsome lithographed display box that measures 10x13 inches. Cover can be used for display purposes.
No. 25N39. Per dozen 7.50

Thirteen-Piece China Tea Set. Service for four. Floral design. Tea pot measures 4⅛ x 2¾ inches. Four saucers, 3¼ inches each, four cups, 2⅜ inches each. Sugar and creamer in proportion. Packed in display box that measures 8x10 inches.
No. 25N37. Per dozen 1.75



Twenty-three Piece Tea Set. Finished in luster design. Cream color body with green border. Beautiful floral decoration. Tea pot measures 4½x3¾ inches, six 3¾-inch saucers, six 2⅝-inch cups, six 4⅛-inch plates. Sugar and creamer in proportion. This set is made of transparent china. "TICKLETOES"

The Wonder Doll with those life-like

RUBBER LEGS and ARMS

"In All the World — No Dolls Like These!"

RUBBER LEGS AND ARMS—A revolutionary improvement—are superior because they are amazingly lifelike and durable. They are everlasting, have no paint to chip or peel, and have an extra voice in each leg. Covered by U. S. Patent numbers 1,621,434 and 1,793,335.

FLIRTING EYES, another patented feature of Ideal Dolls, can sleep, wink or move from side to side. Makes these dolls human and lovable.

TICKLETOES—The most adorable baby doll. Has those soft rubber limbs, three voices and mischievous eyes. Beautifully dressed in lace and organdie rubber panties. Enjoys pacifier. Kapok stuffed. A perfect love of a doll.

No. 36N403 Size 4 in. $4.50 each

TICKLETOES—A Prize Baby with soft rubber limbs, three voices. Impish eyes and exquisite dress of lace and organdie. Enjoys her pacifier. Stuffed with kapok. Beautiful beyond description.

No. 36N406—Size 2½ $8.00 each

TICKLETOES—Exquisite baby with soft lifelike rubber limbs, three voices and roguish eyes. Beautiful lace and organdie dress. Pacifier. Rubber panties. Kapok stuffed. Simply irresistible!

No. 36N404—Size 4½ $5.50 ea.

TICKLETOES—Most talked about doll of the day, with her lifelike rubber limbs, three voices and captivating eyes. Exquisitely dressed in lace and organdie rubber panties. Wears pacifier. Kapok stuffed. Lovely creation.

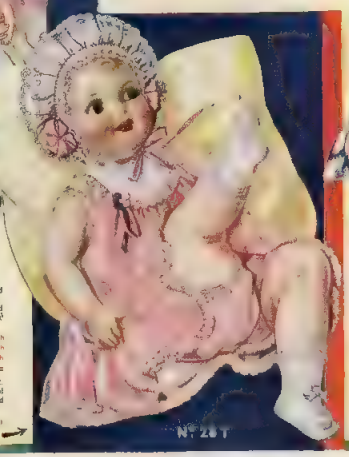
No. 36N405—Size 4½ $6.50 each

CURLY TICKLETOES—Perfectly adorable, tousled, curly-headed baby! Has soft lifelike rubber limbs, three voices and mischievous eyes. Has genuine curly Caracul fur wig that can be washed and brushed and looks as real as life! Embroidered mainsook rompers over vest and rubber panties. Kapok stuffed.

No. 36N411—Size 14½ $5.50 each
No. 36N4 2—Size 16½ 6.50 each
No. 36N4 3—Size 19 8.50 each

PRINCESS TICKLETOES—Our largest and finest dolly. Soft lifelike rubber limbs, three voices, and sleeping eyes with real eyelashes. Head that can turn and tilt. Gorgeous organdie and lace creation. Rubber panties. Kapok stuffed. Fairy Princess!

No. 36N408—Size 26 $13.50 each



TICKLETOES DE LUXE—Mother's Darling Baby all dressed for her airing. Has soft lifelike rubber limbs, three voices and roguish eyes. She wears a beautiful hand-crocheted genuine wool and silk coat and bonnet over her regular organdie dress. Rubber panties. Kapok stuffed. A bundle of love.

No. 36N4 0—Size 14 $5.50 each

"Parkette"

Pens and Sets

Made by

PARKER PEN CO.

In keeping with the trend for quality merchandise at popular prices, the Parker Pen Co. has brought out a line of pen and pencil sets at a figure astoundingly low in comparison with their regular line.

Into these sets they have put all the skilled workmanship and exactness so characteristic of "Parker" made pens and pencils. The same trained craftsmen and material as employed in the making of their regular line have used their knowledge and ingenuity to make this special line of sets worthy of the name "Parker." They have so much faith in this line that each and every pen and pencil is stamped with their name.

The pens are fitted with high grade 14K solid gold iridium tipped pen points, ground to perfection by experts so as to insure a smooth writing pen. The pens fill with the gold filled lever found along one side of the barrel. New shape clinch style clip set in such a position that it will rest comfortably in the pocket. Double bands set in both on top and bottom of the cap.

The pencils have a reliable three-action movement, which in addition to propelling the lead, also repels and expels it. A reservoir for the extra leads, together with the eraser are contained on the inside of the barrel. The trimmings on the pencil match the pen in all respects. Both pieces are put up in a neatly designed presentation case.

The colors are the most popular on the market.

Pens Only

No. 82854. Black and Gold Marble Base. Per set.. 18.00

No. 82855. Pedrara Onyx Base. Per set..... 18.00

MOISTURE-PROOF WADS

This proves it!

THE WATER TEST

The wads in the photograph were placed in the water at the same instant. The felt wad gradually became water-logged and in less than 24 hours sank to the bottom of the glass, swollen out of shape and to nearly twice its original size. You see the Seal-Tite Wad still floating on the surface—non-absorbent—still the same size and shape as when placed in the water!

Note how powder blast forces out edges of Seal-Tite Wad* against walls of gun barrel, providing a perfect *seal* between the hot gas and the shot pellets.

*Patented U. S. A. 1,606,949; 1,877,495; 1,978,079; 1,483,537

Unlike Other Wads, Western Seal-Tite Composition Wads Do Not Absorb Moisture

The Water Test demonstrates one of the big advantages of the Seal-Tite Wads used in all Western shotshells. It shows that Seal-Tite Molded Composition Wads are non-absorbent and moisture-proof; that felt wads are not. *Better wads* are one reason for the superior shooting qualities of Western shells.

A wad that will absorb moisture from the air may contain more moisture than the powder and give off some of it into the powder. This *decreases* the firing pressure. . . If a wad contains less moisture than the powder, it may absorb some from it and *increase* the firing pressure. In either case, patterns can be seriously affected, with a loss in killing efficiency.

Seal-Tite Wads Provide a Tight Seal Against the Walls of the Gun Barrel

The gun barrel diagram shows how the edges of the Seal-Tite Wad are forced out against the walls of the barrel, completely *sealing* the bore. Seal-Tite Wads keep all the energy of the burning powder behind the shot charge. None of the hot powder gas can get past the wad and melt some of the shot pellets.

Patented* Seal-Tite Wads are uniform in size, thickness, shape and texture. There is no variation as in wads cut out of felt. Seal-Tite Wads are molded—not cut. In one or a million their resilient composition always provides the same degree of "cushion" to the thrust of the powder blast.

Seal-Tite Wads are used in all Western shells—in the famous Super-X long range load, in the popular priced, hard-hitting Xpert shell—and in the Western Field, Minimax, and Record shells. . . Write us for sample Seal-Tite Wad and make the Water Test yourself! . . . .

Western AMMUNITION

Tell them about the

GREATER POWER and RANGE of Super-X .22's

..and the Sales are Yours!

WESTERN SUPER-X cartridges are easier to sell than any other .22's. Every owner of a small bore rifle wants more power for his gun—more speed in the ammunition he uses—and longer range for hunting small game and pests.

All you have to do is to tell them about the terrific shocking power, speed, range and accuracy of Super-X—and the sales are *yours!*

Here's what a shooter in Mississippi says about Super-X: "Super-X accuracy is all that anyone could desire for hunting, but it's killing power is the eye-opening revelation. Two shots, one slightly to the left and the other to the right of the center of a 1½-inch dead pine pole cut it completely apart. Two bullets on the same spot on a sandstone broke out a chunk as large as my two fists. One bullet in a large hawk dropped him like a plummet. This shooting was done with hollow-point bullets. My rifle is a new one. I have shot nothing in it but Super-X and never will."

No wonder Super-X .22's sell fast. There's power to "get there" and drop what they hit even in the .22 shorts. 50% more power—26% greater speed—made possible by Western's patented Double Action powder! The golden Lubaloy coated bullets and special non-corrosive priming keep the rifle bore as shiny as a mirror without cleaning. The gleaming nickel-plated shells make these cartridges sell on sight.

The best way to make money on ammunition is to sell and feature Western—the simplified line of shotgun shells and cartridges. You can meet the requirements of your locality with a few items. Each one is an outstanding development and shooters know it!... There's a Western jobber near you ready to give the kind of service you want and expect.

My rifle is a new one. I have shot nothing in it but Super-X and never will."

No wonder Super-X .22's sell fast. There's power to "get there" and drop what they hit even in the .22 shorts. 50% more power—26% greater speed—made possible by Western's patented Double Action powder! The golden Lubaloy coated bullets and special non-corrosive priming keep the rifle bore as shiny as a mirror without cleaning. The gleaming nickel-plated shells make these cartridges sell on sight.

The best way to make money on ammunition is to sell and feature Western—the simplified line of shotgun shells and cartridges. You can meet the requirements of your locality with a few items. Each one is an outstanding development and shooters know it!... There's a Western jobber near you ready to give the kind of service you want and expect.

Western Super-X

LONG RANGE .22 CARTRIDGES

PRINTED IN U S A

MOISTURE-PROOF WADS

This proves it!

THE WATER TEST

The wads in the photograph were placed in the water at the same instant. The felt wad gradually became water-logged and in less than 24 hours sank to the bottom of the glass, swollen out of shape and to nearly twice its original size. You see the Seal-Tite Wad still floating on the surface—non-absorbent—still the same size and shape as when placed in the water!

Note how powder blast forces out edges of Seal-Tite Wad* against walls of gun barrel, providing a perfect *seal* between the hot gas and the shot pellets.

*Patented U. S. A. 1,606,949; 1,877,495; 1,978,079; 1,483,537

Unlike Other Wads, Western Seal-Tite Composition Wads Do Not Absorb Moisture

The Water Test demonstrates one of the big advantages of the Seal-Tite Wads used in all Western shotshells. It shows that Seal-Tite Molded Composition Wads are non-absorbent and moisture-proof; that felt wads are not. *Better wads* are one reason for the superior shooting qualities of Western shells.

A wad that will absorb moisture from the air may contain more moisture than the powder and give off some of it into the powder. This *decreases* the firing pressure. . . If a wad contains less moisture than the powder, it may absorb some from it and *increase* the firing pressure. In either case, patterns can be seriously affected, with a loss in killing efficiency.

Seal-Tite Wads Provide a Tight Seal Against the Walls of the Gun Barrel

The gun barrel diagram shows how the edges of the Seal-Tite Wad are forced out against the walls of the barrel, completely *sealing* the bore. Seal-Tite Wads keep all the energy of the burning powder behind the shot charge. None of the hot powder gas can get past the wad and melt some of the shot pellets.

Patented* Seal-Tite Wads are uniform in size, thickness, shape and texture. There is no variation as in wads cut out of felt. Seal-Tite Wads are molded—not cut. In one or a million their resilient composition always provides the same degree of "cushion" to the thrust of the powder blast.

Seal-Tite Wads are used in all Western shells—in the famous Super-X long range load, in the popular priced, hard-hitting Xpert shell—and in the Western Field, Minimax, and Record shells. . . Write us for sample Seal-Tite Wad and make the Water Test yourself! . . . .

POP GUNS, WATER PISTOLS AND BB AIR RIFLES

Daisy Water Pistols

Model 80, Repeating, 5 Shots

Designed after the latest police revolver. Will throw a fine stream of water a distance of 25 feet. One filling provides five shots, the hammer falls each time the trigger is pulled. When loaded with ammonia, diluted with water, it makes a very effective weapon against vicious dogs or other animals. No rubber bulb to get out of order. Easy to load and discharge. W't each 7 oz., packed w't doz. 5½ lbs., length overall, 7½ in.

ONE IN A BOX

Benjamin BB Air Rifles

Model 200—Single Shot, Take-Down
Operated by Compressed Air

Gun metal finish barrels, walnut stock, larger barrel is the pump and air chamber while the smaller one is the shooting barrel, peep rear and blade front sights, length 37 in., w't doz. 36 lbs.

The air is compressed with a self-contained pump—three or four pump strokes will give maximum power enough to penetrate a ⅞ in. board. Pneumatic, operated entirely by compressed air, not a spring gun.

C58G1 .....each $5.00

The manufacturers recommend either lead or steel air rifle shot for use in the above air rifle.

ONE IN A BOX, ONE DOZEN IN A CASE

Benjamin's Special Advertising Package

A special packing, of three C58G1 Benjamin BB Air Rifles with a free counter window display rack and a supply of advertising pamplets entitled "The Shooter's Art." The rack is made of heavy paper board, handsomely lithographed in four colors, 27×8½ in. The air rifles, rack and advertising matter make up a package 6×4×24 in., w't about 10 lbs.

C59G1 .....package $....

WE DO NOT BREAK PACKAGES

Model 600—Automatic Take-Down

Operated by compressed air—the only automatic air rifle on the market.

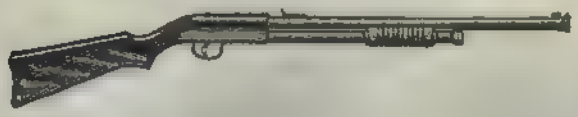
Capable of shooting up to 25 pellets without repumping or reloading, patented automatic feed, gun metal finish barrels, half pistol grip, walnut stock and fore-end, peep rear and blade front sights, length 36 in., w't doz. 40 lbs.

C60G1 ..... each $9.00

The manufacturers recommend steel air rifle shot for best results in the above air rifle, although it will shoot lead shot.

ONE IN A BOX, ONE DOZEN IN A CASE

Remington BB Air Rifles



Model 26, Pump Action Repeater, 50 Shots

Take-down model. Easily operated. Blued steel metal parts, pistol grip genuine American walnut stock and extra large grooved fore-end; adjustable rear sight, shoots either steel or lead BB air rifle shot. W't each 4 lbs. 2 oz., packed w't doz. 72 lbs., length overall, 38½ in.

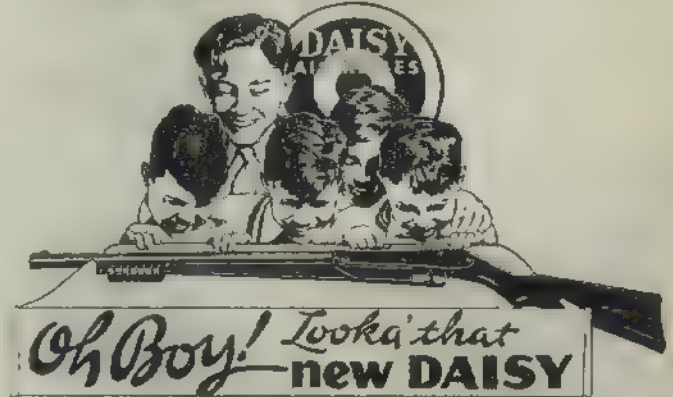
Daisy Display Racks



Made from fibre-board. The rack is about 24 in. high and 32½ in. wide, beautifully lithographed in four colors. Holds one air rifle. Accompanied by two small 12x14 in. display stands, to be placed at the ends of the large rack. One rack will be furnished upon request, without charge, to each Daisy dealer. Enter on a separate order sheet, for factory shipment.

F444G1 .....No Charge★

★Items Marked Thus ★ Are Shipped from Factory Only

Crosman .22 Caliber Air Rifle

Pneumatic, Operated Entirely by Air; Not a Spring Gun, Solid Frame

The repeating differs from the single shot model in that the former has a magazine tube holding twenty pells. Each operation of the bolt moves a pell from the magazine to the chamber. The pump lever must be operated, in both models, from three to six times in order to give maximum compression.

Accurate—Each rifle is individually sighted and will group six shots, under a dime, at 150 yards. No powder fouling to deflect flight.

Powerful—Will penetrate one-half inch of solid pine board, at 150 feet.

Noiseless—Excellent for indoor as well as outdoor shooting.

Real Rifles—These are not light-weight, ordinary air rifles, but the strongest shooting air arms on the market. The barrels are rifled like .22 caliber firearms, but shoot .22 caliber spool-shaped, lead pells.

Self-Cleaning—It is not necessary to clean the bore, after shooting, for each shot carries a little oiling through the barrel.

Economical—Contrast the cost of spool-shaped, lead pells with that of cartridges, 100 pells retail for 24c. The rifles may be used for every purpose that a .22 caliber firearm is used for. Suitable for home shooting galleries, the force and penetration of each shot is controlled by the number of times the pump lever is operated. Crosman Rifles destroy rats, cats, crows, sparrows, woodchucks, squirrels, etc.

Model P—Single Shot

.22 caliber, adapted to any standard, .22 caliber, spool-shaped pells, 20 in. round, rifled, blued steel barrel, pistol grip walnut stock, steel butt-plate, blade front and rear peep sights, length overall 35 in., w't each 5¼ lbs.

C90G2 .....each **$10.00**

Model R—Repeating, 20 Shots

.22 caliber, adapted to any standard, .22 caliber spool-shaped pells, 20 in. round, rifled, blued steel barrel, pistol grip walnut stock, checkered stock and fore-end, steel butt-plate, blade front and rear peep sights, length overall 35 in., w't 6 lbs.

C91G2 .....each **$12.00**

ONE IN A BOX, TEN IN A CASE

.22 Caliber Lead Pells

Both of the following pellets are designed for use in Crosman and other .22 caliber air rifles. They are spool shaped with rounded nose and ungreased.

Crosman Pells

.22 caliber, w't per 1,000 about 2 lbs.

C92G9—Pkg. of 500.....per 500 **$1.15**

C92G0—Pkg. of 1000.....per 500 ....

Crosman Targets

Automatic "Dodos"

Fashioned from steel plate, heavily japanned, 3x10 in. over all.

When each "Dodo" is hit it disappears from sight. A hit, on the center target, will cause both Dodos, automatically, to spring back into position. The light weight makes it convenient for carrying purposes.

Targets, heavy construction, adapted for use with all types of .22 caliber firearms cartridges as well as for .22 caliber spool-shaped pells, w't 5 lbs.

C97G2 .....each **$3.75**

ONE IN A LITHOGRAPHED COUNTER DISPLAY BOX

Crosman Target Holders

Back of Target Holder.

Showing Target Holder with Target

Fashioned from heavily japanned, ⅛ in. steel plate, 5¼ in. x 7 in. For use with No. C99G Paper Target Inserts. A 4 in. steel gong registers each bull's eye. Will stand by itself or may be hung upon a wall. Adapted for use with all types of .177 or .22 caliber or BB air rifles—it is not designed for use with firearms cartridges.

Target Holders

C98G0 .....each **$2.00**

TEN IN A CASE

Crosman Paper Target Inserts

Paper Target Inserts, 25 yard range, printed with a 5 ring target on one side and a 10 ring target on the other.

C99G2—Pkg. of 1000.....per 100 **$0.50**

BEE-VAC

Vacuum Cleaners

The Bee-Vac is a high quality, light weight, deep cleaning, dependable electric cleaner, handsome in appearance and convenient to use. A combination of 100% cleaner value and low consumer price, which does away with persuasive selling methods and puts the Bee-Vac within the reach of every housewife.

The cleaner is guaranteed against defects for two years.

Nationally advertised in women's magazines and approved by Board of Underwriters, Good Housekeeping and the Modern Priscilla, testing laboratories.

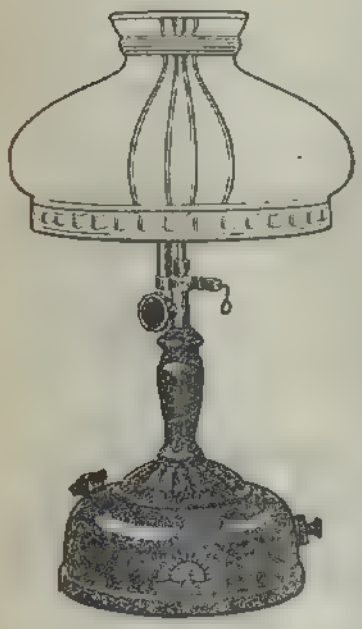
COLEMAN LAMPS

Instant-Lite—Quick-Lite



Instant-Lite

Equipped with Roto-Type Burner, Lights instantly. Finish is brown-gold Colac. Fitted with 10-inch plain Kremelite shade. Has hand-operated Filler Plug and Built-in Pump. Packed one in a carton, complete with shade, 2 mantles, hanger, cleaning pick and wrench. Height 19½ inches. Shipping weight, 10½ lbs.

H118E1—118A .....each $9.75

COLEMAN LAMPS, the result of years of manufacturing experience, provide 200 to 300 candlepower of clear, steady, natural light. They make and burn their own gas from regular untreated motor fuel. They are easy to operate, safe and dependable. Fuel capacity 3 pints. Economical to use—40 hours' service per gallon of fuel.

Two types: INSTANT-LITES, with Roto-Type Burners—the greatest advance in pressure-gas illumination; and QUICK-LITES, for years the standard of quality in construction and dependable lighting service.

Both types are listed as standard by the National Underwriters' Laboratories.

Instant-Lite

Equipped with Roto-Type Burner. Instant Lighting. Finish is brown-gold Colac. The 12-inch Kremelite Shade is decorated in colors. Has hand-operated Filler Plug and Built-in Pump. Packed one in carton, complete with shade, 2 mantles, hanger, cleaning pick and wrench. Height 19½ inches. Shipping w't 10½ lbs.

H119E1—119A .....each $11.50

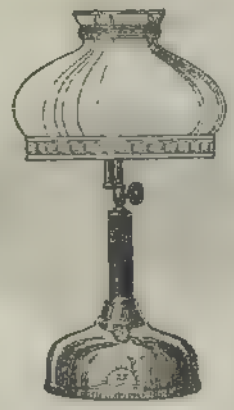
This is the popular priced instant-lighting model with Roto-Type Burner. Separate air-pump, and fount with handle is finished in dark green Colac. Packed one in carton, complete with shade, pump, 2 mantles, hanger, cleaning pick and wrench. Height 19½ inches. Shipping w't 10½ lbs.

H117E1—117A .....each $9.25

Quick-Lite



Match generating. Equipped with regular Quick-Lite Burner and separate air pump. Has 10-inch white Monax paneled shade. Fount is finished in polished nickel. Ebonized handle. Over all height, 19½ inches.

One lamp in carton complete with shade, 2 mantles, wrench, pump, cleaning pick, extra generator and hanger. Shipping weight, 10½ lbs.

H329E1—929 .....each $6.95

COLEMAN LANTERNS

Instant-Lite—Quick-Lite

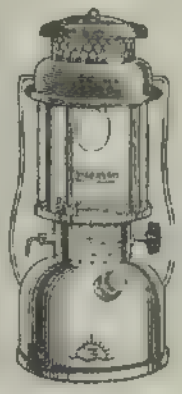
The Coleman line of Lanterns (Quick-Lite and Instant-Lite) with the addition of the new Coleman Junior No. H242E, represents the very finest in portable lights for out-door and general use. They're always ready with good light for any job—any night—in any weather. Instant-Lites have the new Roto-Type Burners—light instantly—assure continuously dependable service. Pyrex clear-glass globes increase lighting efficiency—wind-proof, rain-proof, insect-proof.

Coleman Lanterns provide from 150 to 300 candlepower of clear-white brilliance, according to pressure used. They are simple and safe to operate. They make and burn their own gas. Can't be filled while lighted. Can't spill fuel even if tipped over.

Instant-Lite

Lights instantly. Has new Roto-Type Burner. Fuel capacity 2 pints. Fount is equipped with hand-operated filler plug and built in pump. Ventilator Top is 5¾ inches diameter and porcelain enameled in green. Fount is nickel plated. Over all height, 14¼ inches. One in carton complete with Mica globe, 2 mantles, and wrench. Shipping w't. 6 lbs.

H220E1—220B .....each $8.25



The New Handy

Coleman Junior Lantern

Instant-Lite

Lights instantly. Has Roto Type Burner—single mantle type. Fuel capacity, 1½ pints—enough for 7 to 9 hours' service. Produces up to 150 candlepower of pure, white light.

Uses a single Junior Coleman Mantle. Equipped with built-in pump; hand operated and indented filler plug, and Pyrex Brand clear glass globe. Green porcelain enameled ventilator top. Fount, nickel plated brass. Height, 11¼ inches. Diameter of top, 4¾ inches, diameter of fount, 5 inches. Packed one in carton complete with globe, mantle and directions sheet. Shipping w't 4 lbs.

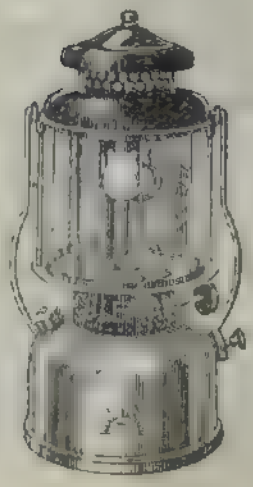
H242E1—242 .....each $5.95

Instant-Lite

Lights instantly. Has new Roto-Type Burner. Fuel capacity 2 pints. Fount is equipped with hand-operated filler plug and built-in pump. 8¾ inch Ventilator Top porcelain enameled in green, with under side in white to throw light downward. Fount is nickel plated. Over all height, 14¼ inches. One in carton complete with Mica globe, two mantles and wrench. Shipping w't 7½ lbs.

H228E1—228B .....each $8 75

Note: Nos. H220E, H228E, H427E are equipped with Mica chimneys. If desired equipped with Pyrex globe specify such on order.



Quick-Lite

(Match Lighting)

This Quick-Lite Lantern for years has set the standard for quality of construction and dependable lighting service. It is the match generating type. Has regular Quick-Lite Burner which lights quickly with matches. Fount holds 2 pints fuel—enough for 10 to 12 hours' service. Equipped with hand-operated filler plug easily removed without using a wrench, and built in pump always ready for use. Fount is nickel plated. Has 5¾ inch ventilator top porcelain enameled in green—will not discolor or tarnish. Over all height, 14 inches, diameter of fount, 6 inches.

One in carton complete with mica globe, 2 mantles, generator, cleaning pick and wrench. Shipping w't 6 lbs.

H427E1—L427 .....each $6.95

Lamp Shades

Original "BOW-BAK" Porch and Lawn Furniture

BOW-BAK
REG. U.S. PAT. OFF.
PORCH FURNITURE

Special All-Weather Finish *—Does Not Fade*

Bow-Bak porch or lawn glider, complete with stand. Special patented design. Made of oak, ash and decorated with a colorful panel. The glider itself is finished in green and orange and is also lately weatherproof an important feature to be considered when buying outdoor furniture. The stand is a curl of indestructible angle steel boxed on and has four large coil springs for comfort and smooth faultless action. Glider with stand is 70 inches overall, glider is 60 inches long; depth 18 inches; back height 20 inches. Packed K. D. in a dustproof carton. Stand bundled flat. Weight, 80 lbs.

No. 20F47. Each **$16.60**

Bow-Back Glider as above, 53 inches long over-all; glider, 40 inches long. Shipping weight, 60 lbs.

No. 20F48. Each **$14.70**

"Bow Bak" Settee. An exclusive design protected by United States patents. New and distinctive in appearance. Lighter yet stronger and exceedingly comfortable. Made of choice Indiana Hill Oak thoroughly seasoned, carefully oiled and smoothly sanded. It is finished in a very attractive weather resisting color contrast of green and orange with hand polished decorations of brilliant hue. Does not fade from the sun or weather. Height overall, 32 inches. Height of back from seat 22 inches. Depth of seat, 17½ inches. Arms are shaped fully three inches wide. Steam bentwood bow seat. Weight, 35 lbs. Packed K. D. in a dustproof fibre carton.

No. 20F26. Each $9.00

"Bow-Bak" swing shown above. An exclusive and distinctive design protected by government patents. Has a look not only distinctive in appearance but is much lighter, stronger and more comfortable than the ordinary type of porch swing. Made of solid Indiana Hill Oak in special combination stain-filled parts of beautiful orange and green and coated with weather resisting varnish. All parts are sturdily braced. Extra heavy construction. Carefully assembled for life long wear. Y chains are rustproof and are attached to heavy seat rails not from arms. Height of back from seat, 22 inches. Depth of seat 17½ inches. Seated arms 3 inches wide. Steam bent bow seat 2½ inches wide. Packed K. D. in a fibre carton.

No. 20F29. Length, 4 ft.; Weight, 35 lbs. Each $ 8.50

No. 20F30. Length, 5 ft.; Weight, 45 lbs. Each . 10.20

"Bow-Bak" furniture is quickly and easily assembled because of its much finer construction features and is finished in non-fading colors.

"Bow Bak" chair matches the settee to the left and the swing to the right above. Beautiful orange and green parts are specially stain filled and coated with weather resisting varnish. Colors will not fade in sun, rain, dampness, cold or dry weather. This is truly a unique and beautiful design which will bring much color comfort and life to the porch, lawn or sun room. Height overall, 35 inches. Width overall 26½ inches. Height of back from seat, 22 inches. Seat size 20 inches wide by 17½ inches deep. Arms are three inches wide, smooth finished and sanded. Steam bentwood bow, 1½ inches wide. Packed K. D. in a dustproof fibre carton. Weight, 24 lbs.

No. 20F27. Each $7.10

"Bow-Bak" Rocker Made entirely of choice Indiana Hill Oak thoroughly seasoned carefully oiled and smoothly sanded. Very attractive weather resisting, stain filled finish in a smart color contrast of green and orange with brilliant hand polished decorations. Colors will not fade, a new weather which makes this piece an exceptional one for porch or lawn. It is not only comfortably fashioned and generously proportioned. Height overall, 36½ inches. Height of back from seat, 22 inches. Seat are 2 x 2 inches. Arms three inches wide. Steam bent rockers 1½ inches wide. Packed K. D. in a dustproof fibre carton. Shipping weight, 29 lbs.

No. 20F28. Each $7.50

GENUINE MARBLE'S HUNTING KNIVES

Blades are forged from Razor Steel, are hand tempered, tested and honed to a Keen edge. Each Knife is fully Guaranteed. These Knives have been honored by being imitated, but the original and genuine has "MARBLE'S" stamped on blade.

Ideal Knives

The thick strong blade is relieved by hollow grinding which provides proper balance for weight and size. Strength of back is necessary for splitting kindling or digging holes in hard ground or ice. The hollows aid quick sharpening. Blade is adapted to sticking and skinning. Back of point is beveled for breaking small bones. The IDEAL is an every-purpose knife.

Laminated Leather Handle with hilt, has colored hard fibre and brass washers. Has real stag horn tip. Complete in leather sheath.

GENUINE MARBLE'S HUNTING KNIVES

Blades are forged from Razor Steel, are hand tempered, tested and honed to a Keen edge. Each Knife is fully Guaranteed. These Knives have been honored by being imitated, but the original and genuine has "MARBLE'S" stamped on blade.

Ideal Knives

The thick strong blade is relieved by hollow grinding which provides proper balance for weight and size. Strength of back is necessary for splitting kindling or digging holes in hard ground or ice. The hollows aid quick sharpening. Blade is adapted to sticking and skinning. Back of point is beveled for breaking small bones. The IDEAL is an every-purpose knife.

Laminated Leather Handle with hilt, has colored hard fibre and brass washers. Has real stag horn tip. Complete in leather sheath.

Stationary Base

The most popular type of vise for general use. The flat machined base of Columbian Malleable Iron Vises makes it unnecessary to cut into the bench for installation. Replaceable Tool Steel jaw faces, pinned on, cover the entire gripping surface of the jaws, accurately machined and heat treated. Machined to limit gauges and carefully finished.

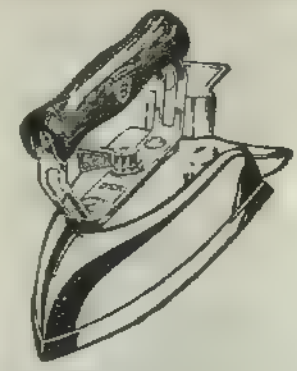
D7043P2 .....each $3.95

ONE IN A BOX

Sunbeam Ironmaster



Full Size, weighs only 3½ lbs. and guaranteed to iron faster and with less effort than any 6 lb. iron made.

Chromium Plated

Works on 110 volt A. C. only.

The new Sunbeam Ironmaster is a full size 1000 watt automatic iron made exactly the same as all other Sunbeam automatic irons except that it is only half the weight of other irons.

Without omitting a single part, the weight of the iron has been reduced one-half—1000 watts are used—this extra heat plus the faster conductivity of the lighter sole plate and pressure plate makes the dead weight in 6½ lb. irons unnecessary.

It reaches ironing heat in 6 minutes which is faster than other irons and no more pressing is needed than in other irons. Complete with cord set. W't case of six, 28½ lbs. -One in a box.

32 Volts

F053P3 .....each $5.50★

Waage Three Heat

Stock Voltage 110

Patented heat regulation.

The high heat does the work of a 9 lb. iron, adapted to the heaviest work, such as linen table cloths, bed spreads, etc.

Medium heat does the work of any ordinary 6 lb. iron. Low heat does the work of a 3 lb. iron.

Flanges on ends prevent handle from heating. Edges are ground to avoid cutting or wrinkling. Has cast iron top which keeps the iron hot long after the current is turned off.

110 volt, low heat 170 watts, medium heat 490 watts, high heat 650 watts, with 7 ft. cord and plug and two piece attachment plug, w't 6 lbs. One in a box.

TENNIS SUNDRIES

Wright and Ditson Tennis Balls

Championship

Two-Piece Plugless

Adopted by the U. S. L. T. A. for the past thirty-nine years as the ball to be used in NATIONAL CHAMPIONSHIPS; also used in all DAVIS CUP MATCHES played in this country. Every ball is inflated by machinery which automatically gives each one exactly the same air pressure. There is no plug to throw off balance. An air-retaining inner lining seals the pores in the rubber walls and retains the original air pressure.

Permawelt method absolutely assures tight, lasting covers which will not loosen or open up at the seams.

White Felt Cover

EAGLE *PRESTIGE* PENS

THE masterly use of superb materials makes every PRESTIGE pen a gem of beauty and quality. The holders are smartly styled for balance and large ink capacity. They are made from solid rods of Dupont Pyralin in the most costly and exclusive colors, in sizes to fit every hand. The 14-K gold pens are tipped with the hardest osmi-iridium for lifetime service. They are hand-ground, fitted and tested by experts who have devoted their lives to this work. Levers, bands and clips are heavily gold filled. Pictures and words cannot express the lustrous, rich appeal and absolute writing perfection of these PRESTIGE pens.

All fountain pens are shown actual size

EAGLE *PRESTIGE* PENS

EAGLE patented the original AUTOMATIC pencil in 1879. From that date practically every improvement that makes the modern mechanical pencil efficient was an Eagle invention. The pencils illustrated are the finest that skill and long experience can produce —they are perfection itself.

All Mechanical Pencils illustrated have Pro-re-expel Movement with Eraser and Supply of Leads under detachable cap.

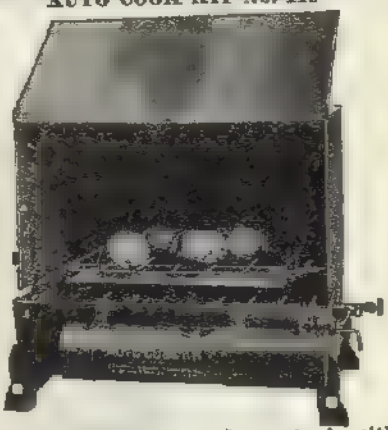
PREWAY INSTANT LIGHTING LANTERN

The new Preway bug and storm proof two burner lantern has an automatic positive pressure built-in pump. Always accessible eccentric tip cleaner. 9 inch canopy, green porcelain shade with white porcelain reflector. Copper plated font, enameled to match the shade. Mica chimney. Two Preway rayon mantles give a powerful white light, twice as bright as a 60 watt electric bulb. Height 14 inches. Capacity 1 quart. Shipping weight 7 lbs.
No. 23R39. (Mfg. No. L13G). Each **4.20**

AUTO PICNIC ICE BOX

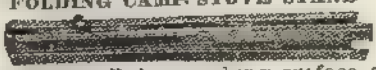
Auto Picnic Ice Box No. 85. Made of heavy galvanized non-rustable steel, prepared especially for enameling. Because of the small size of the box, it can be conveniently tucked away in the inside of an automobile. It is not equipped with clamps for fastening to running board. Has ice container, hinged cover, removable handles and is absolutely leak-proof and rust-proof. Size 20x11x8½ inches. Shipping weight 14½ pounds.
No. 23R5. Each..... **2.82**

AUTO COOK KIT No. 110



This oven type stove now has a tank with built-in pump and funnel and filler plug with a handle. Ring type burner has a flange which keeps flame from spreading and blowing away. Famous Preway instant lighter. Legs hold cover down when closed. Made of 24 gauge steel, finished in olive green baked-on enamel. Folds to 4¼x10¼x17½ inches. Oven space 9¾x9¾x17¾ inches.
No. 23R2. (Mfg. No. 110) Each..... **4.95**

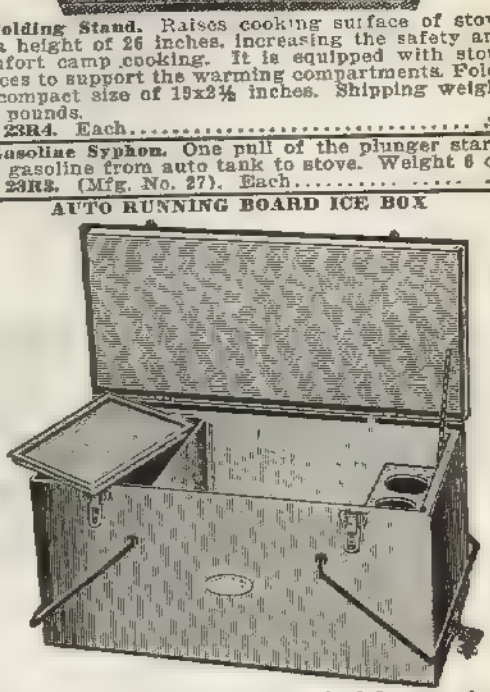
FOLDING CAMP STOVE STAND



Folding Stand. Raises cooking surface of stove to a height of 26 inches, increasing the safety and comfort camp cooking. It is equipped with stout braces to support the warming compartments. Folds to compact size of 19x2½ inches. Shipping weight 3½ pounds.
No. 23R4. Each..... **.98**

Gasoline Syphon. One pull of the plunger starts the gasoline from auto tank to stove. Weight 6 oz.
No. 23R3. (Mfg. No. 27). Each..... **.33**

AUTO RUNNING BOARD ICE BOX



Auto Ice Box No. 22. A wonderful convenience for camping or motoring. It is a real refrigerator, thoroughly insulated and leak-proof. It clamps securely on the car running board, and can be carried by handles as easily as a market basket. A separate compartment keeps "All the ice but it's Cold" away from the foods. Made of heavy galvanized non-rustable steel, prepared especially for enameling. Brass cover chain with strong suitcase clamps to keep it tight. Sockets into which removable handles snap. Equipped with bottle holder. Size 21½x10x10½ inches. Shipping weight 28½ lbs.
No. 23R6. Each..... **3.92**

Genuine Coleman Mantles

Junior

Standard

Made of high grade long fibre Egyptian Cotton, with 8-strand, double-twist, 6-cord thread. Each gross packed in handsome counter display carton. Each dozen packed in special paraffin coated boxes. Each pair packed in hard-surfaced semi-transparent glassine envelope, shipping w't gro. 1¼ lbs.

No. D41E1

Pkg. of ¹⁄₁₂ gro.....each $0.10
Pkg. of 1 gro.....each $....

Silk-Lite

New style—made of especially treated Rayon fibre, single weave design. Exceptionally sturdy—greater flexibility—lasts longer. Each gross packed in counter display carton, shipping w't gross 1¼ lbs.

No. D21E1

Pkg. of ¹⁄₁₂ gro.....each $0 10
Pkg. of 1 gro.....each $....

Large or Senior Size

Cotton

For system lamps using large full size mantle

No. D40E1

Pkg. of ¹⁄₁₂ gro.....each $0.15
Pkg. of 1 gro.....each $....

Generators

Straight Type

For Coleman Lamps and Lanterns

Fits all Quick-Lite Lamps and Lanterns as well as other makes using the same size generators. This generator is lower in price because of less metal used and fewer manufacturing operations. The D77E makes a good low priced generator and may be preferred by customers who make frequent generator changes on account of unfit grades of gasoline.

No. D77E1—Q77

Pkg. of ½ dz.....each $0 20
Lots of 1 dz.....each $....

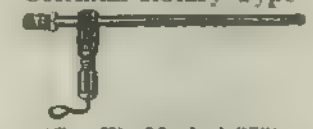
Coleman

For use on any Coleman Lamp or Lantern equipped with the Roto-Type Burner. Extra large, oversize—more space for carbon deposits—insures longer life, improved service and fewer generator replacements. Equipped with cleaning needle which provides a convenient, quick and sure method of cleaning the gas tip either before or after lighting. Operated by a permanent built-in rotary lever.

No. D44E1—T44

Pkg. of ½ dz.....each $0.35
Lots of 1 dz.....each $....

Coleman Rotary Type



(Gas Tip Marked "J")

Equipped with automatic cleaning needle which is operated by rotary lever. May be used on Models 117, 118 and 119 Instant-Lite Lamps and on Nos. 220 and 228 Instant-Lite Lanterns. One in a carton.

No. D55E1—R55

Lots of ½ dz.....each $0 50
Pkg. of 1 dz.....each $....

A rotary-type generator used only on Lantern No. 242. Has automatic cleaning needle operated by a rotary lever.

No. D66E1—T66

Pkg. of ½ dz.....each $0.35
Lots of 1 dz.....each $....

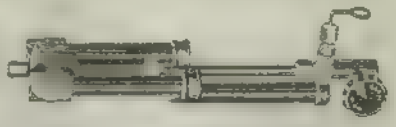
Quick-Lite Generators

The Quick-Lite generator will burn 500 to 800 hours without renewing. When finally filled with carbon, replace with extra generator furnished with each lamp. The hole in gas tip (Q18) is easily cleaned with tip cleaner. If tip becomes clogged, clean or replace with new tip furnished free with every lamp. One in a carton.

No. D99E1—Q99

Lots of ½ dz.....each $0.35
Pkg. of 1 dz.....each $....

New Roto-Type Burner

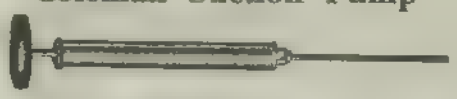


In the new Roto-Type Burner an extra-large, oversize generator provides more space for carbon, insures longer life and improved service. Generator is equipped with gas tip cleaning needle, which provides an easy, quick and sure method of cleaning the gas tip either before or after lighting. Generator and cleaning needle are only parts that need to be occasionally replaced. All other mechanical parts for operating the cleaning needle are built in as a part of the burner. The new Roto-Type Burner unit is easily and quickly installed on Instant-Lite Lamps Nos. H117, H118, H119.

D118A-399E1.....each $3 45

ONE IN A CARTON

Coleman Suction Pump



For cleaning founts of lamps and stove tanks. Especially designed for removing dirt and sediment from tanks and founts. Clean fuel means longer life for generator.

D627-590E1.....each $1 35

ONE IN A CARTON

Fount Cleaning Tube

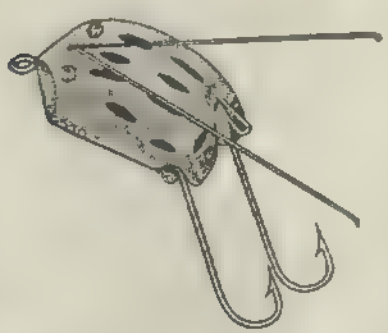
This provides a sure and easy method of removing dirty fuel from gasoline lamp and lantern founts with built-in pumps. Longer service from generators, easier lighting and greater operating efficiency will result from the use of clean fuel and a clean fount.

F199-910E1.....each $1.80★

ONE IN A CARTON

★Items Marked Thus ★ Are Shipped from Factory Only.

Creek Chub Weed Bug Bait



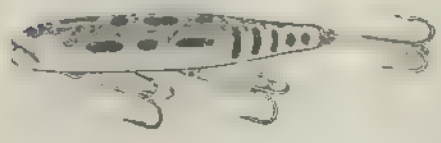
Here is a lure to take the place of the pork chunk and live frog. It is superior to the pork chunk because it floats when cast, and the hooks are presented in a better position to receive the strike. The head is so shaped to go through the reeds and lily pads and has planes to take the bait up over the moss and weeds. These planes also make a ripple and throw a spray when the bait is retrieved. It has a hook at the rear for attaching the pork rind, and the wave-like motion of the rind makes the lure still more attractive. This lure can be thrown into any kind of reeds, pads, weeds or rushes and will come back through them without fouling. Length of body 2 in., w't ⅔ oz.

C2800G9—Weed bug, yellow body, green wings .....each **$1.00**

C2819G9—Weed frog, meadow frog colors, each **$1.00**

ONE IN A BOX

The Creek Darter Minnows



A rather slim lure, as its name indicates, is a bait which when going through the water darts about near surface in a life-like manner. It's an easy caster, gets right down to work when started and is a superior lure of this knid. New Frog Coloration is a good imitation of a live frog and this frog colored lure will be found an exceptional killer when game fish are feeding on frogs, this especially early and late in the season. Length of body, 3¾ in., w't slightly over ½ oz.

C2000G1—Natural frog.....each **$0.75**

C2002G1—White with red head..each **$0 75**

C2018G1—Silver flash.....each **$0.75**

ONE IN A BOX

Sinful Sal

The Wobbling Spoon

This wobbling spoon is made in a number of popular finishes and is so constructed as to have less tendency to spin or turn over than most others. The stabilizing device in front of the spoon always rides in an upright position and prevents the swivel from not operating. You can troll the spoon all day without danger of a kinked line. Travels at a moderate depth and is a remarkably good lure of this type. Very popular for pike and muskallunge fishing. Excellent for hot weather use when the fish are lying in deeper water. For very deep trolling can be used with a sinker in the line. Length of spoon 2¾ in., w't ½ oz.

C221G1—Nickel inside, white and red outside .....each **$1.00**

C222G1—Copper inside, white and red outside .....each **$1.00**

C223G1—Nickel inside, white and black outside .....each **$1.00**

ONE IN A BOX

Creek Chub Beetle

This lure is made to represent a "Water Beetle" and travels quite deep, in use it should be reeled at a moderate to fast speed, or trolled moderately fast. You will not find it revolving or twisting the line, always runs right side up. Non-fouling hooks, the extended rear hook with spinners is a sure cure for "short biters" and the flashing iridescence of the pearl blades makes this lure irresistibly attractive. Equally good for lake or stream. Fine for small mouth. Length of body 2½ in., w't ⅔ oz.

C3850G1—Yellow beetle.....each **$1 00**

C3851G1—Green beetle.....each **$1.00**

C3852G1—White and red beetle, each **$1.00**

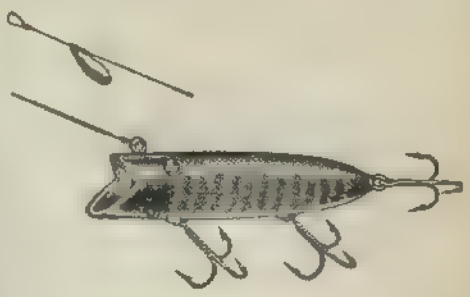
C3853G1—Orange beetle.....each **$1.00**

C3854G1—Gold beetle.....each **$1.00**

C3855G1—Black beetle.....each **$1.00**

ONE IN A BOX

Creek Chub Castrola Bait



Just like a real live minnow chasing a fly—hither and thither—up and down—sideways—just vary the speed at which you reel—now fast, now slow, then a little jerk and the antics this baby cuts up will tease the variest old he-bass into an excited rush and vicious strike. A perfect caster and equally good for trolling. 3¾ in. long, w't ⅔ oz.

Natural Pike, Scale Finish

C3100G1 .....each **$0.85**

ONE IN A BOX

Creek Chub Plunker

Toss it into a likely looking "pocket" in the reeds or pads and give it a series of very short jerks with the rod. Don't try to make it move around too much, just twitch it enough to keep it bobbing in one place for a few seconds, then reel it in a few feet and do it again. It's small enough to fit most anywhere, only 3 in. long, but it has lead in its tail so it casts like a bullet, w't ⅔ oz.

C3200G1—Natural pike, scale finish, each **$0.75**

C3201G1—Natural perch, scale finish, each **$0.75**

C3202G1—White with red head, each **$0 75**

C3218G1—Silver flash ....each **$0 75**

ONE IN A BOX

Creek Chub Pikie Minnow Assortment

An attractive four color Pikie Minnow Card, 14 in. wide, 11 in. high, suitable for window and showcase display, with double easel, carrying six of the "Famous Pikie Minnows," three "Pikie" finish and one each Perch—White and Red Head and Silver Flash—finish lures mounted on card.

C706G1 .....each $0.50

ONE ASSORTMENT IN A BOX

Creek Chub Original Injured Minnow Assortment

With slow jerks this "Bass Getting" wonder represents an injured minnow, lying on its side, just able to make a little fuss on the surface—a real fish getter.

Put up three baits on an attractive window display card, 14 in. high and 9 in. long, with a large double easel. Assortment consists of 1 each Perch, Red Side Minnow, and Silver Flash finish. Length of bait 3½ in., w't ⅝ oz.

C152G1 .....each $0.25

ONE ASSORTMENT IN A BOX

SOUTH BEND BAITS

Musk-Oreno

Red head and white body. Especially designed for muskellunge and large pike. It is a combination of the underwater and the surface type baits, diving, darting and zigzagging in a minnow-like course when being reeled and floating when not in motion. Used for casting or for trolling. Length of body 4½ in., hooks size 1/0 super-strong, w't doz. 2¼ lbs.

C976G1 .....each $1.25

ONE IN A BOX

The Famous Bass-Oreno

Wobbler type of bait, can be used for casting or trolling, has an erratic action in the dater, dives, dashes and wiggles like an injured fish, floats when not in motion, three treble hooks; length of body 3½ in., w't each ¾ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Rainbow color.
Scale finish green.
Red head, silver speckled body.
Nite Luming finish.

C973G1 .....each $1 00

ONE IN A BOX

Surf-Oreno

Surface bait rides high on water. Equipped with three treble hooks. Body 3¾ in. long, made of a special light wood, w't each ¾ oz.

Furnished in the following colors. Specify color when ordering.

Nite luming finish.
Red head and white body.

C963G1 .....each $1.00

ONE IN A BOX

Midget Surf-Oreno

Red head and white body. Surf-Oreno in a smaller size for lighter rods. Body length is 2¾ in. Equipped with two treble hooks. Two stainless steel spinners at head and tail.

C962G1 .....each $1.00

ONE IN A BOX

Babe-Oreno

Red head and white body. Wobbler type of bait, can be used for casting or trolling, has an erratic action in the water, dives, dashes and wiggles like an injured fish, floats when not in motion, two treble hooks, length of body 2¾ in., w't each approx. ½ oz.

C972G1 .....each $0.85

ONE IN A BOX

Babe-Oreno Display

Suitable for window or showcase. Contains one each of the following colors, packed in individual boxes.

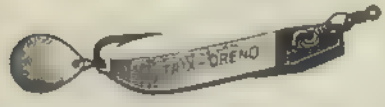
Red head and white only.
White body with red and green decorations.
Yellow perch, scale finish.
Red head and aluminum color body.
Rainbow color.
Imitation frog color.

W't asst. 1 lb.

C384G9 .....each $0.50

ONE ASSORTMENT IN A CONTAINER

South Bend Trix-Oreno
(For Bait Casters)



Thousands of casters demanded it—so here it is. A Trix-Oreno in bait casting size and also a larger one for trolling for muskies and smaller salt water fish. In retrieving, slightest movement of rod will cause Trix-Oreno to dip, dive and dart about and it has lifelike action of a swimming minnow. It is "alive" every second—either while sinking or when retrieved.

Small Size Trix-Oreno

For bass, has No. 4/0 hook, body length 2¾ in., width ⅜ in., w't ½ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Highly polished silvery chromium.

C595G1 .....each $1.00

Large Size Trix-Oreno

For the smaller salt water species and muskies. Has No. 6/0 hook, body length 3½ in., width ½ in., w't ¾ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Highly polished silvery chromium.

C596G1 .....each $1.00

ONE IN A BOX

South Bend Fly Rod Mouse-Oreno

A very close imitation of a small mouse—a favorite food of big trout and bass. Its true, life-like swimming action causes a gentle riffle on the surface. Round body has practically no resistance when cast, or when lifted from water. Very sensitive, least twitch of rod creates immediate action. Double hook is always in position for a strike. Tiny wire leader attached to headplate to prevent wear on line.

Length 1½ in. Fine for trout, crappies, bass, sunfish and smaller varieties of game fish. One in a box.

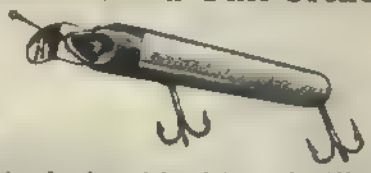
Furnished in the following colors. Specify color when ordering.

Gray mouse back with white belly.
All black.
White body with red blended eyes and throat and gray stripe down back,

C948G1—Lots of ¼ ds......each $0.75

PACKED ONE DOZEN

South Bend Pike-Oreno



Uniquely shaped headplate of stiff phosphor bronze gives new Pike-Oreno its lifelike action and causes it to travel deep when so desired. Bright chromium finish on this headplate is another powerful attraction. One-inch wire leader fastened to headplate for convenience in attaching line. Also prevents line from becoming worn on edges of plate.

Equipped with two treble hooks securely attached in such a manner that they positively cannot mar finish. Rear hook is mounted on beveled end of bait and can swing only in a limited arc, turning every strike into a catch.

Standard Size Pike-Oreno

Wooden portion of body 4¼ in. long, overall length including headplate 5¼ in., w't ¾ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Pike scale finish.
Scale finish green.

C957G1 .....each $1.00

The Baby Pike-Oreno

Wooden portion of body 3¼ in. long, overall length including headplate 4 in., w't between ½ and ¾ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Pike scale finish.
Scale finish green.

C956G1 .....each $1.00

ONE IN A BOX

South Bend Crippled Minnow

Will drive any drowsy or up-and-at'em he game fish to action.

Red head and white body. Body length 3½ in. overall, w't approx. ¾ oz., highly nickel plated. Spinners are loose and have a buzzing noise when lure is retrived. Equipped with two extra-strong treble hooks, highly nickel plated, one in a box.

C965G1 .....each $0.85

PACKED ONE DOZEN

South Bend Bait Assortment

Trix-Oreno

Covered by broad basic patents, furnished in variety of attractive colors, two sizes, for bass and larger species of game fish, No. 1 hook, body length 1⅝ in., width ½ in. Supplied with a strip of rubber pork rind, does not interfere with action. Pork rind is also satisfactory. Easily attached by means of small wire snap. Works perfectly without pork rind. If pork rind is not used, wire snap can be removed.

For trout, blue gills, crappies, perch and smaller game fish, has tiny bangle to give extra "flash." Hook size No. 6, body length 1½ in., width ⅜ in. In following colors:

Highly polished silvery-chromium
Enameled red head, white body
Enameled red head, yellow body
Pear enamel finish
Highly polished 24K gold
Enameled white head, black body.

Put up 12 on a very attractive easel display card, 6 Bass and 6 Trout Size, w't 1½ lbs.

C394G1 .....each $1.00

Tournament Casting Weights

Made of aluminum in the official type, shape and sizes used in casting tournaments, w't ½ oz.

C272G0 .....each $0.25

PACKED TWO DOZEN

Official size and type Casting Weight used in plug tournaments by the National Association of Scientific Angling Clubs. Made of wood with white enamel finish, w't ½ oz., length 3 in.

C274G1 .....each $0 30

PACKED ONE DOZEN

South Bend Wobbling Type Baits

Fly-Oreno

For use with a fly-rod, including the lightest kind without any danger of straining the rod. For trout and other game fish. Constructed along the same lines and having the same wobbling, zig-zagging and diving action in the water as the other Oreno baits. This lure preferably should be used in conjunction with a four-foot gut leader.

Red head and white body. Body is 1½ in. long. Equipped with one No. 9 bronzed hollow point, double hook, easily detached for reversing.

C970G1 .....each **$0.65**

PACKED ONE DOZEN

Trout-Oreno

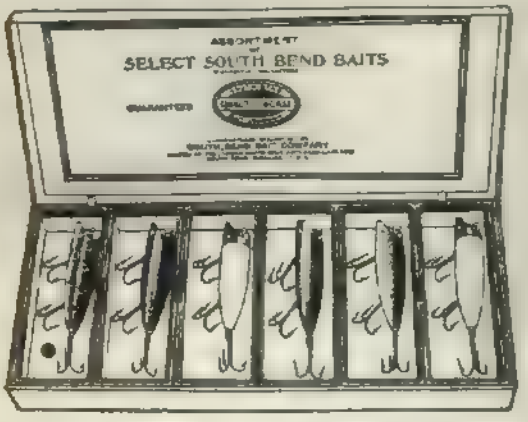
Designed primarily for fly-rod fishing, however is also successfully used with light bait rod for bass and other game fish, as well as trout. This lure preferably should be used in conjunction with a four-foot gut leader.

Red head and white body. Body is 1¾ in. long. Equipped with one double hook No. 4, bronzed, hollow point, easily detached for reversing.

C971G1 .....each **$0.65**

PACKED ONE DOZEN

South Bend Bass-Oreno Assortment



Very neat and compact. Does not consume much space nor obstruct the full use of the top of your display cases. Size is 14×6½×1¾ in. Goldenrod yellow colored box with attractive red and black printing. Has six compartments, each holding an individual box of one bait.

Assortment consisting of: One each Bass-Oreno (Wobbler) baits in selected popular colors; scale with red blend; scale finish; frog; rainbow; red head with body; red head aluminum color body, w't asst. 1 lb.

C382G1 .....each **$0.50**

ONE ASSORTMENT IN A BOX

Shur-Strike Bass-Oreno Type Bait

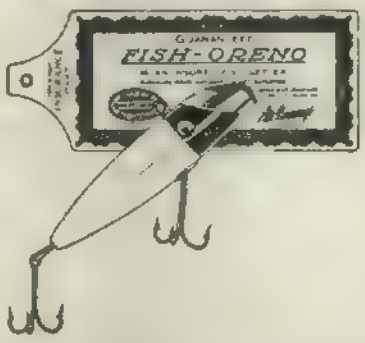
This artificial bait is a wooden plug of the popular Bass-Oreno type. It floats on the surface when at rest, but dives and has a very deceptive and enticing wiggle and wobble when retrieved. It runs at a moderate depth at ordinary reeling or trolling speeds. Finished with six coats of Duco enamel, using a high gloss lacquer for the finishing coat. This wtih the color makes seven coats of paint on the lure.

Red head and white body, length 3⅜ in., approx. w't each ⅜ oz., one in a box.

No. C177G0

Lots of ½ dz .....each **$0.35**
Pkg. of 1 dz .....each **$....**

South Bend Guaranteed Fish-Oreno



The Bait with the Insurance Policy

Only lure ever produced that is guaranteed by manufacturer to catch fish. Covered by an insurance policy attached to bait, that is backed by resources of South Bend Bait Co. Can be sold to any angler with positive guarantee of "money back" if not satisfied after one year's use.

Fish-Oreno is an innovation constructed along similar lines to our famous Bass-Oreno. It has a highly polished nickel head plate which sinks bait at approximate rate of 2 feet per second to any desired depth, where, when retrieved, it performs in an erratic, wobbling, quivering, zig-zag fashion so enticing to game fish. It is particularly desirable for hot weather fishing, when a bait that will travel deep, and still not sacrifice action is wanted by angler.

Body length overall 3½ in., equipped with two extra strong treble hooks, highly nickel plated, enamel lacquer. Highly nickeled head plated, w't doz., 1¼ lbs., one in a box.

Furnished in the folowing colors. Specify color when ordering.

White body, red head.
Pike finish.

C953G1 .....each **$1.00**

PACKED ONE DOZEN IN A CONTAINER WITH ATTRACTIVE COUNTER EASEL

Illustrating How Track, Rope Stop and Pulley Should Be Placed in the Barn

Fig. 430

Place pulley to draw the carried back into the mow directly under and in line with track, as shown in cut. Do not allow steel track hanging hooks to project below casting under track through which they are screwed, as they will interfere with carrier.

Fig. 430 shows how steel track should be put up and how rope is tied from one rafter to the other across the track to make stop for carrier at end of barn. Also shows how rafter brackets are placed.

DIRECTIONS FOR ERECTING MYERS PATENT STEEL TRACK—Scaffold by placing rope from rafter to rafter, say 6 ft. from ridge pole or peak and about 10 ft. apart. Then place extension ladder across the ropes with board to stand on. Now nail one rafter bracket at each end of barn and draw a line from end to the other and stretch tight. Then nail all rafter brackets even with this line. You are now ready to put up the track, which can be done in sections. Hoist near to rafter brackets by ropes. Then place hanging hook over rafter bracket and finish by putting in bolt.

Material Required for a Steel Track Outfit for Different Length Barns

FOR A 40 FOOT BARN—One Hay Unloader. 36 ft. Steel Track. 19 Hanging Hooks. 19 Rafter Brackets. 5 Knot Passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 150 ft. ¾ in. Manila Rope. 50 ft. ⅝ in. Check Rope. 60 ft. ⅝ in. Reverse Rope.

FOR A 50 FOOT BARN—One Hay Unloader. 48 ft. Steel Track. 25 Hanging Hooks. 25 Rafter Brackets. 5 Knot Passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 150 ft. ¾ in. Manila Rope. 55 ft. ⅝ in. Check Rope. 50 ft. ⅝ in. Reverse Rope.

FOR A 60 FOOT BARN—One Hay Unloader. 54 ft. Steel Track. 28 Handing Hooks. 28 Rafter Brackets. 5 Knot Passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 160 ft. ¾ in. Manila Rope. 60 ft. ⅝ in. Check Rope. 60 ft. ⅝ in. Reverse Rope.

FOR A 70 FOOT BARN—One Hay Unloader. 66 ft. of Track, 34 Hanging Hooks. 34 Rafter Brackets. 5 Knot Passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 190 ft. ¾ in. Draft Rope. 70 ft. ⅝ in. Check Rope. 70 ft. ⅝ in. Reverse Rope.

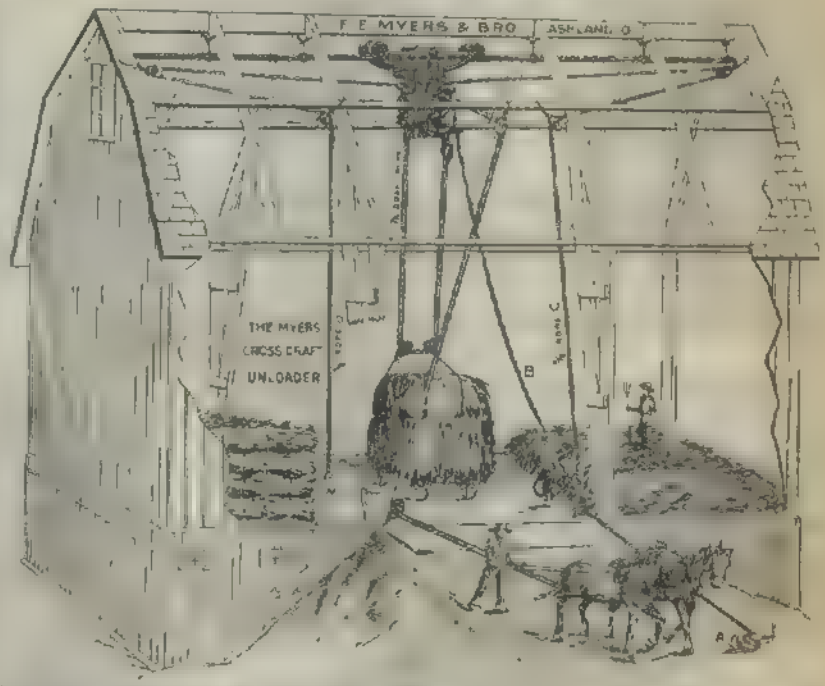
FOR AN 80 FOOT BARN—One Hay Unloader. 78 ft. or Track. 40 Hanging Hooks. 40 Rafter Brackets. 40 lbs. Bracket Nails. 5 Fig. 1120 Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 210 ft. ¾ in. Draft Rope. 80 ft. ⅝ in. Check Rope. 80 ft. ⅝ in. Reverse Rope.

Different lengths of barns will use track, hanging hooks and rope in same ratio as above.

If required to take hay in at end of barn and have rope pass down at far end to horse, same amount of draft rope. If draft rope be returned to same end of barn and then down, this requires about one-fourth more draft rope.

HOW TO REVERSE CARRIER—Set the pulley [illegible] to which horse and weight are attached. Pull on small rope until knot comes to the floor, then untie ropes. Fasten weight G on small [illegible] change pulley A to floor hook H. This reverses carrier for opposite direction without leaving the floor or climbing up. Use all knot passing pulleys. For taking in hay at end of barn use V shaped brace for track support, as shown in cut.

Directions for Putting Up and Operating the Myers Cross Draft Unloader



The Carrier is mounted on the track with the smaller sized rope sheave facing the front of the barn or the large barn doors. The end of the draft rope **E** is tied to the small swivel eye in the center of the carrier. The other end of the draft rope is then passed through the two malleable frame pulley blocks with the flat flanged faces facing each other, after which the end of the rope is passed over the large sheave and directly through the center of the carrier, passing over the top of the small sheave. From this point it is carried to a pulley suspended to the perline plate over the center of the floor. From this point it is carried down to a pulley located at the side of the barn door.

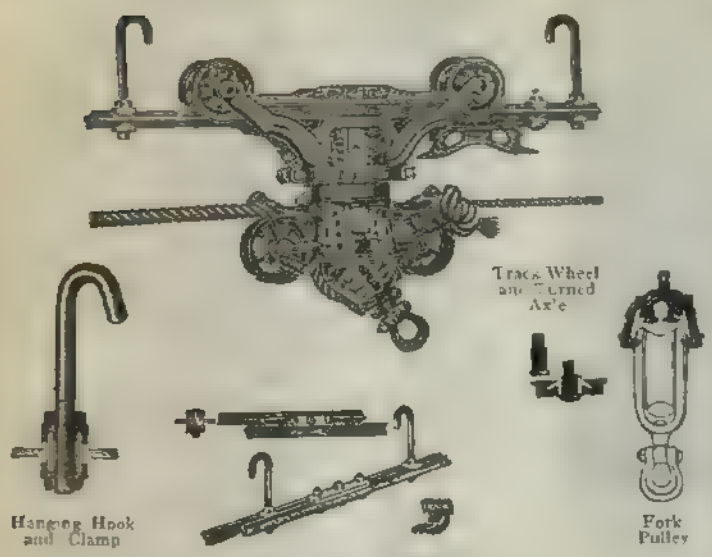
Reverse Ropes, or the Smaller Ropes to Draw the Carrier and Load Into the Mow—Use ⅜ or ½ in. rope **C**, attaching same to the loop on the side of the frame of the carrier; then carry this rope through a pulley attached to the rafter at or near the end of the track. From this point carry the rope to a pulley tied to the perline plate over the floor just outside of the mow, thence down and through a pulley on the floor at the opposite side from where the draft rope pulley is attached. This small rope is then carried out in front of the barn and passed through a pulley attached to a stake. This stake is located a distance from the barn corresponding to the distance from the center of the barn floor back to the end of the mow plus about 12 ft. (which equals the length of the team and hitch). To the end of this rope attach the wrought iron hook that is furnished with the carrier. A similar rope **D** is attached to the loop on the opposite side of the carrier and carried through pulleys at the other end of the barn in the same manner, which allows the car to be operated in either direction without further change than using this opposite rope instead of the one referred to.

OPERATION—The team is attached to the draft rope **E** and driven out the distance necessary to lift the load as high as required; this only need be such distance as will permit the load of hay to clear the cross beams at which point the team can be stopped. (The carrier is so arranged that it will hold the load at any point.) Then turn the team about, and in coming back past the stake to which the pulley is attached you attach the large wrought iron hook **A** to the doubletree or singletree, and the horses passing back to the barn draw the load into the mow. The result is that when the load is back over the mow the team is at [illegible] to the barn. Now we get [illegible] the [illegible] and pull on the ground. The operator on the ground has only to pull on the rope **B** to trip the [illegible] and allows the load to drop. To drop the load it is necessary to give a straight pull by hand on the draft rope **E**, at which time the lock on the carrier and allows the slings to drop. The carrier is thus arranged to retain the rope **B** to be operated from the load to release the lock to drop the slings. This rope **B** can be used instead of pulling on the large draft rope **E**.

Most users attach a weight to one of these small ropes **D** or **C** of sufficient weight to return the carrier to a point over the load, which makes it much easier for the operator. This, however, is optional with the user.

HAY CARRIERS

Myers' Clover Leaf



Double Steel Track with Splicing Clamp

This combination machine (both swivel and reversible) can be reversed by drawing the rope through from end to end or by turning the swivel.

No. 301F1 Rafter Bracket

It is constructed with flanged wheels revolving on ⅝ in. turned steel bearings. The lock is composed of three parts and has no springs. The carrier has a large flaring mouth to receive the fork pulley. The pulley can swing backward or forward without becoming detached. This swinging fork pulley is a decided advantage when used for filling a mow above beams, as it relieves all side strain from car.

M118F1—**Adjustable Hay Carriers**, for double steel track, malleable iron, aluminum finish, ⅝ in. turned steel axles, swivel and reversible, positive force lock, no springs, w't 27 lbs., each $9 00

A824F1—**Double Steel Track**, with splicing clamps, length 6 and 12 ft., w't per ft. 2 lbs.....foot $0.21

302F1—**Hanging Hooks**, 6 in. measured after bending, with clamps, w't per doz. 8 lbs.....each $0.15

301F1—**Steel Rafter Brackets**, w't per doz. 24 lbs., each $0.05

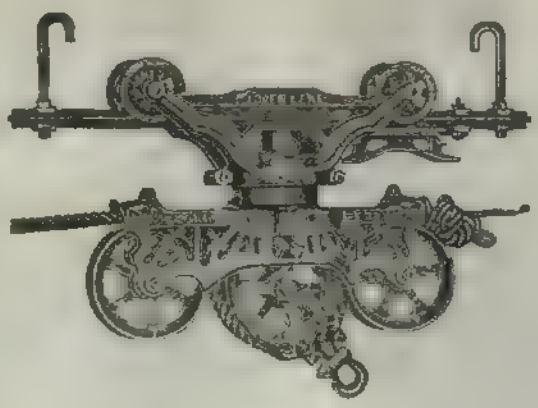
104F3 (1042)—**End Stops, for double steel track**, each $0.15

Extra Knockers

Extra Knockers, or Trip Blocks, for **Myers' Clover Leaf** steel or wood track and **Imperial** wood track hay carriers, w't 1¼ lbs.

413F1 .....each $0.65

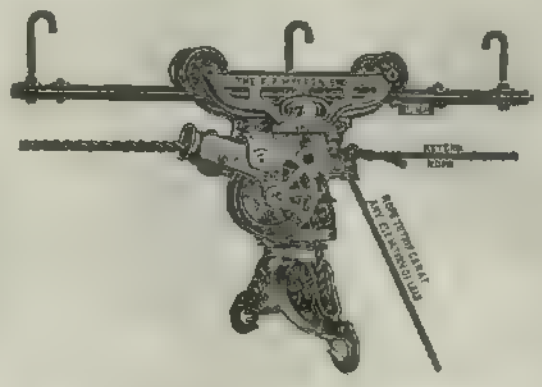
Myers' Clover Leaf



Adjustable, 7 in. sheaves with 1 7/16 in. steel bearings with groove suitable for carrying wire cable or ⅝ in. Manila or Sisal draft rope, w't 37 lbs., otherwise same as No. M118F1.

M126F1 .....each $11.00

Myers' Sure Lock



Adjustable. Myers' Sure Lock sling unloader, rope draft for double steel track.

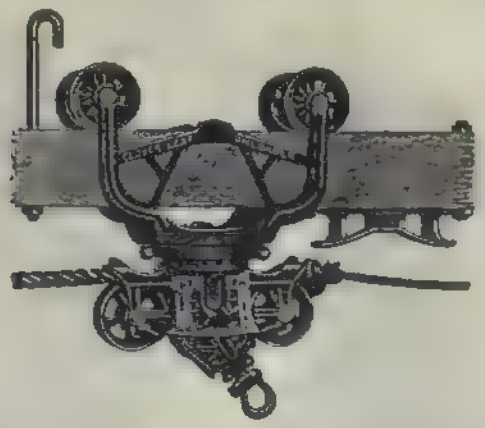
Four wheel truck for double track. Elevates load at right angles to track. Can be used with slings or forks. Designed to meet requirements of modern farming.

Operates on regular Double Rail Steel Track, uses ⅜ in. to ½ in. rope, or ⅝ in. cable without adjustment except changing lock. Load is elevated at right angles to track and when discharged into the mow it lays parallel with the load on the wagon, requiring less labor in distributing hay over mow. Operates automatically, tripped by sling pulleys striking plate immediately under machine, also arranged with separate trip rope which allows load to be carried into mow at any elevation desired.

M32F1 .....each $19.00

HAY CARRIERS, ETC.

Myers Clover Leaf—Wood Track



An average outfit consists of one carrier, twelve hanging hooks, twelve rafter brackets, five pass knot pulleys and two floor hooks.

This carrier is identical in construction throughout with the steel track carrier, with the exception of the size of track. It is adapted for 4×4 in. wood track.

M120F1—Hay Carriers, malleable iron, aluminum finish, ¾ in. turned steel axles, swivel and reversible, positive force lock, no spring, w't 32 lbs.....each $9.00

267E1—Hanging Hooks, ¼×10 in., measured after bending, w't per doz. 9 lbs.....each $0.15

268F1—Hanging Hooks, ¼×14 in., measured after bending, w't per doz. 12 lbs.....each $0.15

301F1—Steel Rafter Brackets, w't per doz 3 lbs., each $0.05

Directions for Making Wood Track

The track may be hardwood or pine scantling, 4×4 in., dressed to about 3½ in. width. If not convenient to get this size for the full length, 4×2 or 4×3 may be used by nailing a piece on where the stop is placed, so as to fit the carrier and operate the lock properly. The pulley used to pull the carrier back in mow should be directly under and in line with the track. Always put an extra hook over the load near the stop.

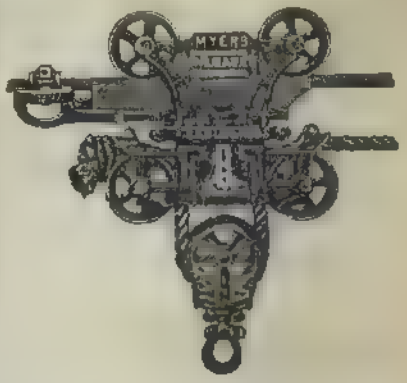
All Myers hay carriers are made of malleable iron throughout. They are constructed with flanged wheels revolving on ¾ in. turned steel bearings. The carriers have a large flaring mouth to receive the fork pulley when approaching from any direction. The swinging fork pulley is a decided advantage in drawing hay into a well filled mow or over a beam.

The locking device is composed of three pieces and is so arranged as to grasp the fork pulley on both sides of the frame.

Myers' Cable or Rod

No. 431.
Single Cable Clamp.

No. 432.
Double Cable Clamp.



The knocker is one of the special features of this machine. It is so arranged that it swings loose on the track, and stands immediately under the cable, under any and all circumstances. It is held to the cable by means of a steel sleeve through which the cable passes. The sleeve is attached to the knocker by means of two bolts, and can be removed at any time without taking down the cable. The knocker is located at any desired point on the cable by means of an ordinary cable clamp.

An average outfit consists of one cable carrier, one hay fork, 150 ft. ¼-in. galvanized wire strand, two single cable clamps, two double cable clamps, two ⅝×10 in. carriage bolts for securing poles together, 130 ft. ½ in. manila rope, two pulleys and four poles 4×4 in. × 30 ft. long.

M165F1—Hay Carriers, for cable or rod track, malleable iron, aluminum finish, with ¾ in. turned steel axles, double lock, w't 31 lbs.....each $9.00

431F1—Single cable clamps, 2 pieces, bolted, easily removed, w't per doz. 9 lbs.....each $0 25

432F1—Double cable clamps, 2 pieces, bolted, w't per doz. 15 lbs., ...each $0.40

Cable

P165F1—Cable, ¼ in., 7 strand, galvanized, w't per ft. ¼ lb., per 100 feet.....Market

Hay Fork Hooks

Wrought Iron.

2665F1—⅝×6 in., w't per doz. 16 lbs., each $0 15

2663F1—⅝×6 in., w't per doz. 16 lbs., each $0.20

Hoisting Single-Trees

M1100F1—Myers' wood, with malleable iron attachment, w't 6¼ lbs.....each $2.90

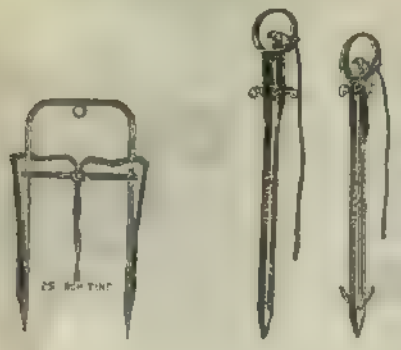
Myers' Rope Hitches

The rope can be released from whiffletree instantly with this hitch. The hitch can be shortened to any desired length by drawing on the end of the rope.

376F1—Malleable iron, swivel hook, w't per doz. 15 lbs.....each $0.40

HAYING TOOLS

Hay Forks

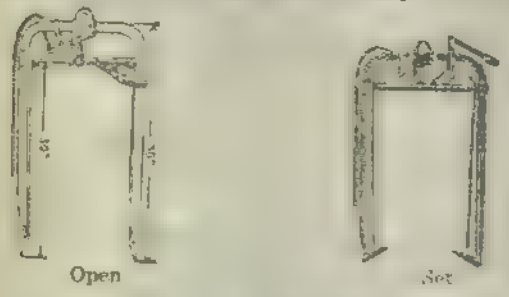


M268F1—Harpoon, double point, 25 in. spring steel tines, w't per doz. 204 lbs. ..... each $2 25

M451F1—Harpoon, double point, 31 in. spring steel tines, w't per doz. 222 lbs. ..... each 2.50

M773F1—Harpoon, single point, spring steel, w't per doz. 144 lbs., each $4 50

Lock Lever Harpoon Hay Forks



Lock Lever Harpoon

Made of spring steel, sets with one lever and locks either open or closed. While not larger than regular harpoon fork has 50% more capacity, owing to cross bar being placed nearer top. Trip rope placed at top assists greatly in withdrawing fork from mow, as the tines trail and do not catch on beams

M670F1—19 in. wide, w't each 24 lbs. ..... each $6.00

MYERS', automatic grapple tines and arms of high carbon spring steel, locks of best annealed malleable iron, spreads 55 in. This fork is unlike any other, inasmuch as it is not only balanced at all points, but in addition the natural pull on the trip rope closes the fork and locks it securely, thus returning it to the load all ready to enter the hay, without any attention whatever from the operator as to setting of locks, etc.

M135F1—(1351)—4 tines, double grapple, w't 40 lbs., each $9 50

M143F1—(1438)—6 tines, tripple grapple, w't 47½ lbs., each $11.00

Slings

Center Sling Adjustable

5 ft. seasoned ash cross bars, Malleable iron center trip spring locks, 3 ropes, adjustable from 17 to 20 ft., w't 24 lbs.

M172F1—(1728) ..... each $5 00

Utah pattern, 6 ft. seasoned ash cross bars, Myers' center trip spring lock, ½ in. ropes, extra end and center ropes, adjustable from 17 to 20 ft., w't 26½ lbs.

M621F1 ..... each $6.00

Meyers Handy Adjustable Rope Slings

Made of best quality ½ in. two rope. Has adjustable takeup, by means of which the sling can be lengthened or shortened to suit the user. The adjustable takeup has center loop or ring to which a third rope can be attached, making a three rope sling.

M161F1—(1695)—Pure Manila, w't 2 lbs ..... each $1 80

M162F1—(1695)—Sisal, w't 2 lbs. ..... each 1 20

LOOSE

Made of best quality ½ in. three rope. Has adjustable takeup, by means of which the sling can be lengthened or shortened to suit the user. The adjustable takeup has center loop or ring to which a third rope is attached.

M163F1—(1697)—Pure Manila, w't 3½ lbs. ..... each $2.50

M164F1—(1687)—Sisal, w't 3½ lbs. ..... each 1.70

LOOSE

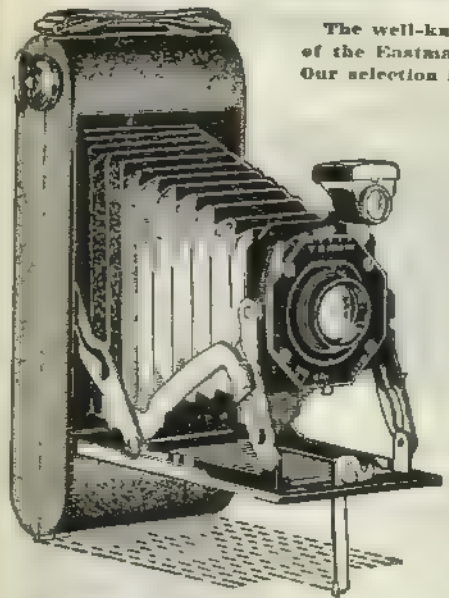
Meyers Handy Sling Holder or Lock

Made for 2 or 3 rope slings, attached direct to the hook on Self Locking Sling Pulley No. 806 or to the hook on Parallel Sling Pulley No. 1799. Pulling on trip rope drops one end of sling, releasing load, w't each 2 lbs.

169F1—(1699) ..... each $1.15

Famous Eastman Hawk-Eye Cameras

The well-known line of Hawk-Eye cameras is made in the famous factories of the Eastman Kodak Company, and each camera bears the Eastman name. Our selection includes the latest new numbers in both box and folding models.



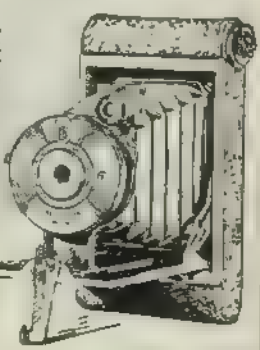
Six-16 and Six-20 Folding Hawk-Eyes

New folding models, notable for their unusual compactness, simplicity, and smart finish. Opening the camera automatically extends the bellows and brings the lens into picture-taking position. Compactness is gained by the use of Eastman's new, smaller film spool. Loading and unloading are easily done by opening the back, which is hinged, remaining attached at all times. Neat morocco-grained covering material. Trimmings in enamel and nickel. Both of these cameras come in a choice of black or brown. (State color wanted.) Choice of tested single lens or Kodak doublet lens, both with dependable shutters for time and instantaneous exposures. No. Six-16 takes pictures 2½x4¼, loads with Kodak film No. 616. No. Six-20 takes pictures 2¼x3¼, loads with Kodak film No. 620

No. 99J301. Six-16 Folding Hawk-Eye, single lens. Each.. 7.50
No. 99J302. Six-16 Folding Hawk-Eye, doublet lens. Each. 9.00
No. 99J304. Six-20 Folding Hawk-Eye, single lens. Each.. 6.75
No. 99J305. Six-20 Folding Hawk-Eye, doublet lens. Each. 8.25
No. 99J42. 3A Folding Hawk-Eye, with single lens, pull-out front (black only)..... ..... 7.65

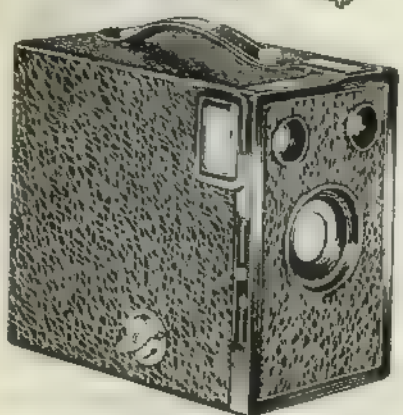
Vest Pocket Hawk-Eye

One of the smallest cameras ever produced—and one of the most beautiful. It is supplied in black and in four charming color combinations. The key colors of the colored models, orchid, marsh green, steel blue and rose, are carried out in a rich damaskene lacquer finish. Blended with them are harmonizing tints on bellows, shutter and finder. Nickeled trimmings and a gold or silver sheen on the body set off styles that represent the peak of new-day camera design. The black model is covered with imitation leather and trimmed in brilliant nickel. Picture size, 1⅝x2½. Loads with Kodak Film No. 127



Vest Pocket Hawk-Eye Black
No. 99J49. Each 3.00

Vest Pocket Hawk-Eye (Specify color wanted)
No. 99J120. Each 3.00



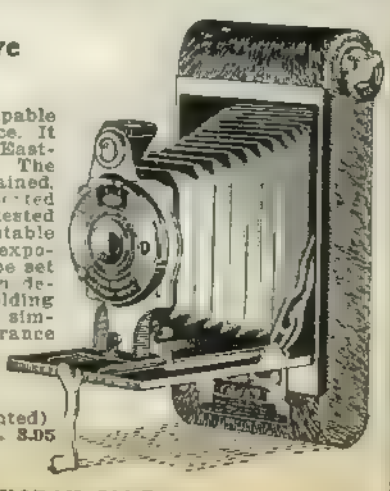
Six-16 and Six-20 Target Hawk-Eyes

New, distinctive cameras—more compact, more beautiful and more efficient than the usual box models. Both use Eastman's new, small, all-metal film spool. Equipped with Magna-finders—sighting devices that show larger images and make it easier to aim at the subject. New cover lens protects working parts. Both models extremely easy to open and load. Fitted with tested lens, Rotary shutter, for snapshots and time exposures. (vertical or horizontal) Leatherette grain covering material, in choice of black, brown or blue. (State color wanted.) No. Six-16 takes pictures 2½x4¼. Loads with Kodak film No. 616. No. Six-20 takes pictures 2¼x3¼. Loads with Kodak film No. 620

No. 99J323. Six-16 Target Hawk-Eye. Each 2.05
No. 99J324. Six-20 Target Hawk-Eye. Each 1.70

No. 2 Folding Hawk-Eye Model "C"

An unusually compact and capable camera, offered at an unusual price. It takes pictures 2¼x3¼. Like all Eastman cameras it loads in daylight. The metal body is covered with fine, grained, black imitation leather, in assorted colors. Fitted with a carefully tested lens, and new Kodo shutter adjustable for either time or instantaneous exposures. Simple focusing scale can be set at fixed or universal focus when desired. This model combines the folding type of construction with extreme simplicity of operation, neat appearance and low cost. It uses Kodak Film No. 120.



No. 2 Model "C" (Specify color wanted)
No. 99J227. Each 3.05

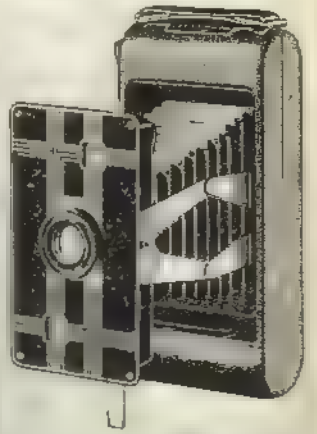
Genuine Kodaks ▪ *"If it isn't an Eastman, it isn't a Kodak"*

Jiffy Kodaks Six-16 and Six-20



The Jiffy Kodak Is Eastman's Latest. The simplest folding camera ever devised. Touch a button: **Pop**—it opens. Touch another: **Click**—it snaps the picture. Jiffy Kodaks have box-camera simplicity. Because of their ingenious fronts actuated by strong extension arms, they literally leap into action. They have the advantages of fixed focus, plus a simple adjustment on the new Twindar lens that keeps near subjects in focus even if they are only five feet away. Unusual compactness, made possible by Eastman's smaller all-metal film spool. Smart, black, morocco-grained covering. Black and nickel etched metal front. Built-in shutter with time and instantaneous actions. Two crowned brilliant finders. Swinging foot to support camera for time exposures. No. Six-16 takes pictures 2⅛x4¼, loads with Kodak film No. 616. No. Six-20 takes pictures 2⅛x3¼, loads with Kodak film No 620. At the prices given these new Kodaks are sensational values.

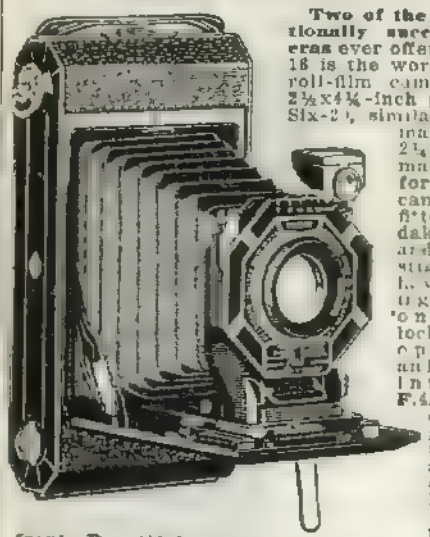
Kodaks—Brownies—Kodak Film

Kodaks Six-16 and Six-20



Two of the most sensationally successful cameras ever offered. No. Six-16 is the world's smallest roll-film camera making 2½x4¼-inch pictures. No. Six-20, similar in design, makes pictures 2¼x3¼, a remarkable size for so small a camera. Models fitted with Kodak Doublet and f.6.3 Anastigmat lenses have self-erecting features—one pull on locking lever opens camera and snaps lens into position. F.4.5 models, capable of good pictures under almost any conditions have convenient pull-out front. Beautiful octagonal construction on shutters and side panels. Body covered with handsome, black, pin grain material. Matching cases of genuine pin-grain leather available if desired. Six-16 loads with Kodak Film No. 616. Six-20 loads with Kodak Film No. 620

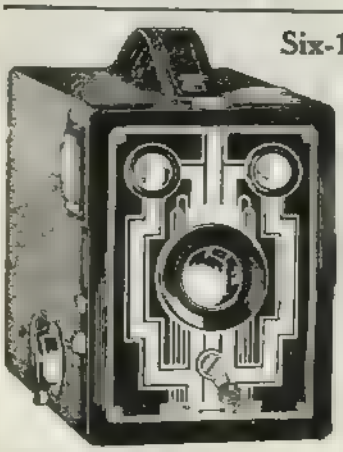
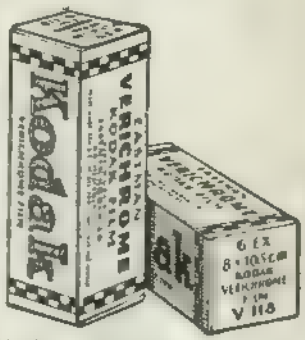
Six-16 and Six-20 Brownies



New, compact, super-efficient models. Provided with precision feature new to box cameras—the Diway lens. Without sacrificing Brownie simplicity this lens, controlled by a lever, gives sharper, clearer pictures of both near and far subjects. Front element of lens protects moving parts. Crowned, brilliant Magna-finders for vertical and horizontal views. Eastman Rotary shutter for snapshots and time exposures. Rich, black, morocco-grain covering. Decorative two-tone etched metal front. Nickeled fittings. Six-16 makes pictures 2½x4½, loads with Kodak Film No. 616. Six-20 makes pictures 2¼x3¼, loads with Kodak Film No. 620

No. 99J329.	Six-16 Brownie	2.65
No. 99J330.	Six-20 Brownie	1.90

Kodak Film—Regular and Verichrome



Genuine Kodak Film is available as before with all the qualities that have made it famous. Kodak Verichrome Film has remarkable latitude and speed, which increase the range of conditions under which any camera may be used. It is highly color-sensitive. Verichrome gives prints of greater richness and beauty, and makes possible many "shots" that would otherwise be out of the question. In the 116 and 120 sizes these films now have 8 exposures instead of 6—⅓ more film—at no advance in price.

Fountain Pens Pencils DORIC Combination Sets

To complete their line of Doric Pens, Eversharp has brought out the Junior Doric, a fountain pen and pencil priced low but yet retaining all the quality and charm which so characterizes the Eversharp line. They have done this so that anyone, regardless of the price of pen or pencil he or she may purchase, can enjoy the pride of owning this new-shaped and exceedingly fetching pen.

The ladies' pens are made with a short clasp at the top of the cap so that the pen can be clipped onto a pocket in the purse. The men's style has the clip set further down the cap to fit snugly into the vest or coat pocket.

The points of the pens are all 14k solid gold, iridium tipped. The pencils are all equipped with Eversharp's three-action movement.

A beautiful range of colors enables even the most fastidious to choose with the utmost satisfaction. A Jet Black for the conservative, Kashmir Pearl (an Emerald Pearl and Black), Topaz Pearl (a rich golden brown and pearl closely resembling the semi-precious stone), and Carnelian Pearl (a deep reddish brown color).

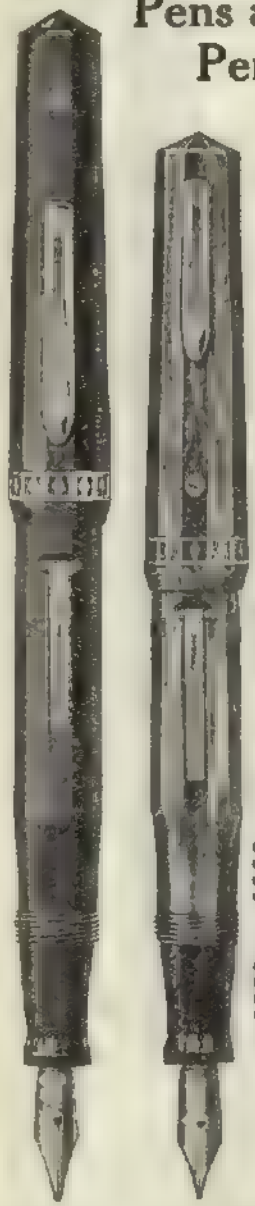
Individual Pens and Pencils

DORIC

Attractively Boxed Combination Sets



Realizing the need for a popular priced line of pens made up along the lines of the new Doric, Eversharp has brought out a line of these pens at prices which are as low, in some instances lower, than many ordinary round model pens on the market. The same exotic colors, the same slim, tapering lines so characteristic of the Eversharp Doric, are found in this popular-priced Doric as well.

This line of pens carries the Eversharp factory guarantee, and are all fitted with the interchangeable nibs.

Eversharp pencils are all equipped with Eversharp's propel repel and expel movement, enabling the user to manipulate the lead at will.

The same colors featured in the Doric are supplied in this line (jet black, kashmir pearl (an emerald pearl and black); and morocco pearl (a ruby pearl and black). These are all exclusive colors and must be seen to be truly appreciated.

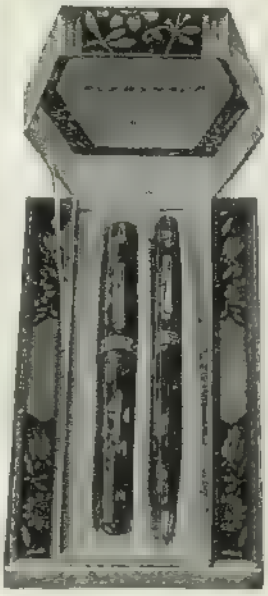
DORIC

By Eversharp



DORIC

The "Doric" fountain pen and pencil line. Eversharp's newest creation, is the last word in writing instrument design. Its shape is distinctive, the trimmings exquisite, and quality unimpeachable.

"Doric" pens, instead of being round, are twelve sided. The pencils, a little more slender, are only ten sided so that the panels on both pieces would harmonize

The colors in this extraordinary line have been copied from Oriental treasure hues never before reproduced. A selection of shades that will please both the conservative and the modern, is available. Ebony Black; Kashmir Pearl, (a soft deep-sea green). Burma Pearl (a true reproduction of the Black Pearl of the Far East); Cathay Pearl, (an exquisite mixture of a light green and silver); and the Morocco Pearl, (a flashing ruby red spotted with black).

"Doric" sets are put up in attractive presentation case made up in a manner harmonizing with the pens and pencils it so richly displays.

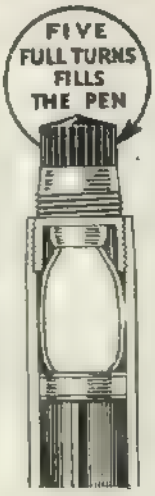
Wahl-Oxford Vacuum Filler Pens

Hold Twice

Here is a revolutionary new pen that's a regular Camel for ink. Holds more than double the amount of ink held by ordinary rubber sac pens of the same size, because it fills entirely by vacuum. No pumps—valves—or levers. Five complete turns of the filler button at the end of the barrel does the trick

The pens come in three styles Large, Oversize Men's Model; Standard, regular size men's model; and the Standard, Ladies' size model with the new clip at the end of the cap.



As Much Ink

They are made of unbreakable Pyralin in three colors: Jet Black, Cloisonne Pearl (Brown and Blue), and Sapphire Pearl (Blue and Green). All trimmings are yellow gold filled. Fitted with 14K solid gold pen point tipped with iridium. VACUUM FILLER MECHANISM. Small removable cap at end of barrel which, when removed, reveals the red filler button for vacuum filling operation

This new principle, coupled with Wahl's reputation for good merchandise, insures the user an article that has merit and value.

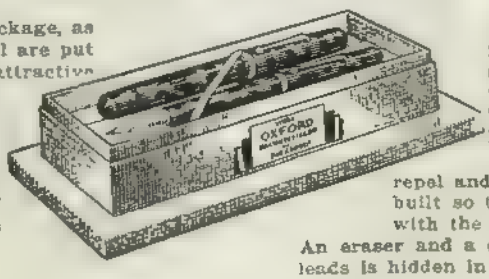
Wahl-Oxford Vacuum Fill Sets

DOUBLE THE USUAL INK CAPACITY

An ideal gift package, as the pen and pencil are put up in a very attractive presentation case The variety of styles enables one to make a selection most suitable for the type of work the pen is needed for.



The Vacuum pen, as stated above, comes in a variety of colors To match it, Wahl has brought out a pencil in propel, repel and expel mechanism built so that it harmonizes with the pen in all details. An eraser and a chamber for extra leads is hidden in the center of the barrel.

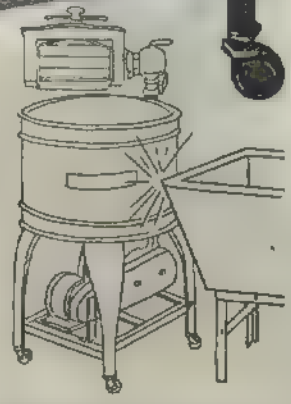
Sell the New Hibbard Star Leader Washer *and You'll Sell Satisfaction*

Showing the inner tub, protected by the air insulation chamber and the outer tub. It is not chipped or jammed from the bump illustrated.



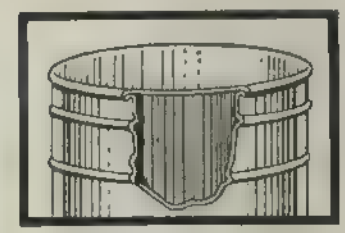
The outer shell of the Hibbard Double Tub construction also forms a protective covering for the inner tub. It is made of heavy lacquered steel.

This efficent, sturdily built Hibbard Washer gives perfect performance and is rapidly gaining in popularity with the modern home maker. Its thorough yet gentle washing action speedily produces sweet clean linens. Even the daintiest o f silks and fine old laces can be safely washed.

The gyrator of the Hibbard Star Leader gently swishes the suds so that the air in the water acts as a cushion. The gentle water action does it work more carefully than it can be done by hand.

The popularity of the Hibbard Star Leader Washer is also due to its simplicity and dependability of operation. No fussing, no lost motion, no greasing and oiling, no complicated mechanism to get out of order, always on the job, it serves you so quietly that you can scarcely hear the motor.

The specially constructed double walled tub provides air insulation which retains the heat 40% longer than the ordinary washer tub. The protective outside shell is of heavy gauge annealed steel. The inner tub is of green porcelain enamel fused on Armco Ingot Iron. It is easy to keep sweet and clean. This model is equipped with a 12 in. Lovell wringer with 2¼-inch balloon rolls of pure rubber.



Specifications

Washing Capacity—6 lbs. dry clothes every 10 minutes.

Tub Capacity—14 gallons.

Height to Top of Tank—33 in.

Height to Top of Wringer—44 in.

Tank—22 in. in diameter by 13 in. deep.

Cover—Of Steel, lacquered.

Motor—Standard ½ H.P., ample capacity to operate both washer and wringer at the same time.

Weight—Crated 198 lbs.

Porcelain Inner Tub, fused on Armco iron.

Wringer—High grade Lovell, with 2¼ in. "balloon" rolls.

The Hibbard Aluminum Agitator

Gently forces hot soapy water through the fabric, loosening the dirt. Is like squeezing the fabric in the palms of your hands although it is more gentle to clothes because the air in the water acts as a cushion.

Big ¼ H.P. Motor

Small floor space, 23x26 in.—center post overhead drive—eliminating leaks and service troubles. All metal construction. This is the vital part of a washer and tested and proven parts which have been used in thousands of quality washing machines of Hibbard make.

Single Unit Gear Case

The drive mechanism operates smoothly and quietly, without shock, jar or vibration. The complete mechanism consists of worm gear, worm, sector and pinion, operating in heavy oil, enclosed in a cast iron sealed leak-proof housing. Precision gears built to micrometric tolerances of 1/1000 in. are used throughout, assuring absolute silent operation. The drive is transmitted through the fewest number of moving parts, assuring long life. There are no oiling worries.

The Hibbard ★ STAR ★ LEADER ★ WASHER

for Homes without Electricity . . .

Equipped with the Briggs-Stratton Four Cycle Gasoline Engine

Easy to Start, Easy to Operate, Low in Price

Identically the same as the W3060 Hibbard Porcelain Inner Tub Washer with the exception that it is equipped with gasoline engine instead of electric motor.

Specifications of the engine are as follows:

Power—Rated at ¾ horsepower.

Speed—1750 R.P.M.

Type—Single cylinder air cooled, 4 cycle, 2¼ in. bore, 2¼ in. stroke.

Ignition—Built-in flywheel magneto standard motorcycle size plug.

Lubrication—Positive oil pump, assuring ample lubrication. Oil supply easily determined. No guessing.

Carburetor—New adjustable jet double valve type. Quick starting.

Cooling—By strong air current from flywheel blower. Extra large cooling fins on cylinder.

Governor—Centrifugal flywheel type—adjustable.

Starting—Foot pedal starter—motorcycle style.

Finish—Black enamel.

Power Take Off—Direct from crankshaft.

Crankshaft—Drop forging—ground heavy counter balances reduce vibration.

Fuel Capacity—Regular base holds 3 gallon—8 hours' supply.

Hibbard—Washer, with gasoline engine, w't 250 lbs.

Hibbard Electric Ironer

By ironing the Hibbard way you can iron in not over two hours, that which requires five hours when using hand iron. It is possible to do all of the weekly laundry on a Hibbard, flat work, shirts, slips, blouses, dresses, etc. By simply touching a button it is instantly converted into a presser, so that you can press trousers, plaited dresses, cuffs, outer garments, etc.

Hibbard Ironers have these exclusive built-in features that make ironing machine sales easier. The Hibbard is fully automatic, being equipped with dual finger touch and rubber padded knee automatic control. Single pressure lever, one heat control switch, full open end roll and conveniently operated presser are only a few of the outstanding features. An Ironer that is not absolutely full open end without any limitations as to this feature whatever, and not completely automatic, is deficient in its performance.

Ironing the Hibbard way gives your clothes a far better finish than is possible by hand ironing. This finish is far better because of uniform pressure, the even distribution of heat in the ironing shoe and the material is ironed only one way of the nap. The ironing shoe containing a greater amount of metal than the hand iron, its temperature is not so quickly effected by coming in contact with the moisture in the material being ironed, resulting in an excellent finish.

Specifications

Roll—26 inch full open end.

Shoe—26 inch polished steel. Heating element constructed to automatically provide more heat at open end of roll where greatest percentage of ironing is done.

Automatic.

Dual Control—Bakelite finger button and interlocking rubber padded knee control.

Frame—All metal construction, lacquered green by special process. Mounted on hard rubber casters, easily moved about and absolutely noiseless.

Mechanism—Fully enclosed. Quiet—all parts running in oil.

Heat Control—Convenient control switch—1300 watt element complying with all Underwriters requirements.

Motor—½ H.P. 100 volt, 60 cycle standard. Odd frequency or direct current motors furnished when required, at additional charge. (This model ironer not operable on 32 volt D.C. farm lighting system.)

Space Required—Floor space only 18×33 in.

Weight—Uncrated 175 lbs., crated 210 lbs.

W26H2—With 110 volt, 60 cycle AC motor..... .....each $69 50

STANLEY PLANES

Rabbet and Fillister

The sides and bottom being square with each other, the planes will lie perfectly flat on either side. Adjustable fence slides under bottom to regulate width of cut. Has one spur on each side and adjustable depth gauge. Is suitable for either right or left hand work. The front part of plane can be easily detached thus providing a bull nose plane.

Japanned iron stock and fence, 6¾ in. long, 1 in. cutter, w't 2 lbs.
278A2—Each $3 30
PACKED SINGLY

Skew Cutter, Fillister and Rabbet

The fence and depth gauge can be attached to either side so that the plane can be used equally well for right or left hand work. The adjustable fence slides under the bottom, regulating the width of the cut. By removing arms and fence a skew cutter rabbet plane is obtained.

8½ in., japanned, 1¼ in. cutter with fence and depth gauge and two adjustable spurs, one on each side, w't 4 lbs.
289A2—Each $3 95
PACKED SINGLY

Duplex Rabbet and Fillister

Two seats for the cutter, one for regular work and the other where a bull nose is required. Spur and removable depth gauge. Adjustable fence can be used on either side and slides under the bottom regulating width of cut. To use as rabbet plane, remove fence and arms.

8¼ in. iron stock japanned and fence, 1½ in. cutter, w't 3 lbs.
78A2—Each $2 70
PACKED SINGLY

Bull Nose Rabbet

4 in., iron stock japanned, 1 in. cutter, w't 8 oz.
75A2—Each $0 65

Side Rabbet

Convenient tools for side-rabbeting and trimming dados, mouldings and grooves of all sorts. A reversible nose piece will give each tool a form by which it will work close up into corners.

4 in., nickel plated, right hand, ¾ in. cutter, w't 8 oz.
98A2—Each $2.15
PACKED SINGLY

Length 5¼ in., ¾ in., cutter, nickel plated, right or left hand. A convenient tool for light work in trimming dados, mouldings and grooves of all sorts. W't each ¾ lbs.
79A2—Each $2.30
PACKED SINGLY

Improved Rabbet

Iron stock japanned, length 8 in., with depth gauge.

With Spur

Lies perfectly flat on either side, used with right or left hand equally well, while planing into corners or up against perpendicular surfaces.

Cutter, in.	1½	1¼	1
W't, lbs.	2¼	2¼	2
Nos.	190A2	191A2	192A2

PACKED SINGLY

Router

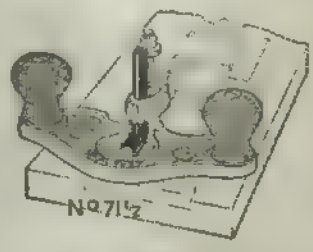
Length 3 in. nickel plated, ¼ in. cutter. Can be set on either side of the base and used as open or closed throat, enabling user to trim out grooves or depressed surfaces used for bull nose work by having cutter on closed side of plane, w't ¼ lb.
271A1—Each $0.80
PACKED SINGLY

Woodworkers' Router

For surfacing the bottom of grooves and depressions parallel with the general surface of the work. The open throat design gives more freedom for chips and a better view of the work and cutter. The latter has an attachment for regulating the thickness of the chip and a second attachment for closing the throat for use on narrow surfaces.

Open Throat

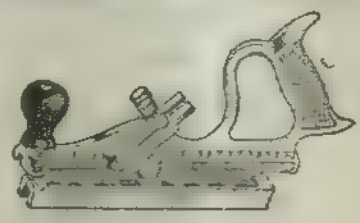
Nickel plated, width 7¼ in., ¼ and ½ in. steel bits, with throat attachment, w't 2¼ lbs.
71A2—Each $3 90
PACKED SINGLY



Closed Throat

Nickel plated, width 7¼ in., ¼ and ½ in. steel bits, w't 2¼ lbs.
71½A2—Each $3.00
PACKED SINGLY

Tonguing and Grooving



Nickel plated iron stock and face, including tonguing and grooving tools.

The fence is set in a center pivot and can be swung around and locked either way. Set one way it exposes two cutters for cutting the tongue and when reversed leaves only one exposed for making the groove.

D7043P2 ..... each $3.95

ONE IN A BOX

Sunbeam Ironmaster

Full Size, weighs only 3½ lbs. and guaranteed to iron faster and with less effort than any 6 lb. iron made.

Chromium Plated

Works on 110 volt A. C. only.
The new Sunbeam Ironmaster is a full size 1000 watt automatic iron made exactly the same as all other Sunbeam automatic irons except that it is only half the weight of other irons.
Without omitting a single part, the weight of the iron has been reduced one-half—1000 watts are used—this extra heat plus the faster conductivity of the lighter sole plate and pressure plate makes the dead weight in 6½ lb. irons unnecessary.
It reaches ironing heat in 6 minutes which is faster than other irons and no more pressing is needed than in other irons. Complete with cord set. W't case of six, 28½ lbs. -One in a box.

No. 12R18,
Per dozen.... 10.00 | Each ... .90

Valve Type, and Official Size, Football. Good weight grain cowhide. Rubberized cloth lining. Rubber covered valve cap. Combination valve tool in cloth bag. Ready laced with leather lace. Each in box

No. 12R19. Each..... 1.25

Wilson

Mfg. No. FL4

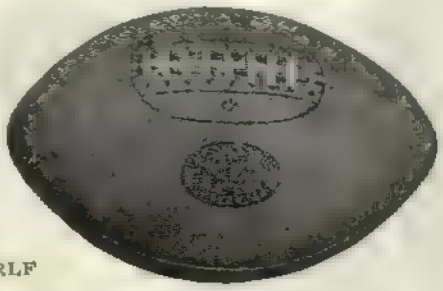
Dick Hanley Scholastic Football. An exceptionally good quality low priced ball—made of pebbled grain cowhide, canvas lined and valve inflated. Complete with stemless valve type bladder, laced ready for inflation.

No. 12R55. Each..... 3.35

Mfg. No. 22RL

Wilson Valve Football. New criss-cross rawhide laced. Made of selected pebbled grain cowhide, with our patented double lining feature, which holds the ball in shape. Complete with stemless bladder, and laced ready for inflation.

No. 12R48. Each..... 4.81



Mfg. No. RLF

Wilson Interscholastic Ready Laced Foot Ball. No lacing worries, as the ball is laced with a rawhide lace ready to inflate. No bladder stem to tie, inflates in a jiffy through a valve same as in an auto tire. Made of fine selected pebble grain cowhide with our patented double lining feature which holds ball in shape and prevents stretching. Regulation size and weight. Complete with stemless bladder and laced ready for inflation. Each in box.

No. 12R13. Each..... 5.64

Mfg. No. KR

The Wilson-Rockne Double Laced, double lined Official Intercollegiate foot ball has become known as the perfect foot ball

It's a livelier ball and holds its shape permanently because of the patented double lining. The double lacing double locks and permanently closes the lacing aperture and also insures a finer grip in passing

The KR comes already laced, ready for instant inflation—through a valve just like an auto tire.

Made of finest selected Gunnison pebble grain cowhide, sepecially tanned. Complete with seamless patented valve bladder. Each in box.

No. 12R37. Each..... 8.82

Wilson Football Helmets

Mfg No. 78B

Wilson Boys Helmet, made of special black strap leather, moulded crown with four leather cross bands, one piece rear and ear extensions, white felt lined throughout, adjustable chin strap made in small size for boys only. Each in box.

No. 12R80. Each..... 1.72

Junior Rockne Helmet. Made of special tanned "pig skin" strap leather, tan color, lined throughout with white felt, moulded crown reinforced with fibre; also six leather crown bands equipped with inner web suspension, one-piece moulded ear and back of neck extension. Each in box.

Mfg No. JR22

No. 12R43. Each..... 2.80

Wilson Football Helmet made of tan strap leather with black strap leather crown section and crown bands running from front to back. Reinforced with genuine fibre throughout and lined with white felt. Cushion edge forehead piece, inner web suspension crown, moulded leather ear pieces, adjustable chin strap

Mfg No. 261

No. 12R81. Each..... 4.12

Mfg. No. 274

Wilson Handley-Bachman Scholastic Model Helmet. Streamline design with elongated crown so shaped as to conform to the curves of the head; crown straps extending from front to back; new improved molded ears; deep snug fitting concave curved back giving full protection to the occipital bone. Lower portion of helmet is firmly attached to the crown. Lower portion of helmet white felt lined. Each in box

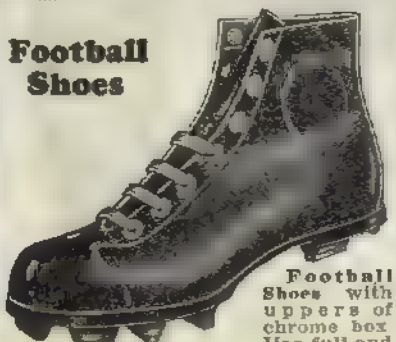
No. 12R84. Each..... 5.00

Mfg. No. 280

Wilson Hanley-Bachman Game Model Helmet. aviator style. Made of black strap leather throughout with cushion edge forehead piece; deep concave back and moulded ears. The crown is padded with special sponge rubber and the entire helmet is lined with white felt. Extra large ventilating holes in crown provide circulation of air in hot weather. Adjustable chin strap

No. 12R85. Each..... 5.20

Football Shoes



Football Shoes with uppers of chrome box. Has full and slip sole with wedge heel, semi-square box kicking toe. Regulation cleats. Sizes 5 to 12.

No. 12R66. Per pair..... 4.25

Football Shoes

Henry Friedman Model, equipped with detachable cleats which have been tried and proved on the country's gridirons. Sprint style with flexible shank that will not crack. High cut full leather vamp lining. Sizes 5 to 12

No. 12R86. Per pair..... 5.25

Wilson Football Equipment

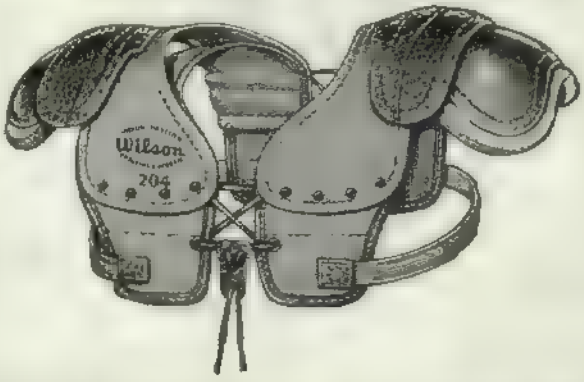
Mfg. No. 5

Wilson Shoulder Pad. A light weight pad, made of fine quality white felt covered with strap leather, tan color; moulded fibre shoulder caps, elastic under arms. Laced front and back with Wilson "Adjusto" rapid lacer in front.

No. 12R75. Each..... 2.16

Wilson Intercollegiate Shoulder Pad. Best quality sanitary white felt lined, fibre reinforced over chest. Duck pad covered with tan strap leather. Moulded strong leather shaped shoulder caps, lined with white felt. Straight reinforced at chest. Sound skin leather collarbone protector. Round elastic under arms. Special Wilson "Adjusto" Rapid Lacer.

No. 12R68. Each..... 3.29



Wilson Hanley-Bachman Scholastic Model Shoulder Pad. An extremely light weight pad embodying a special shock absorption feature constructed on the principle of the architectural truss. The pad is made of fibre canvas covered with non-adjustable suspension over shoulders. Leather shoulder caps felt lined. Collar bone protector of fibre, leather covered. This pad has been designed by experts of the game, men who know just what is needed in a protector of this kind. It embodies the latest ideas and developments that have been brought forward in the manufacture of fine football equipment. Each in box.

No. 12R72. Each..... 5.39

Mfg. No. B1066

Boys' Football Pants, good quality tan color twill, white felt kidney pads, well padded hips, one-piece curved fibre thigh guards in special pockets, well padded knees, leather patch over knees and leather fly. Sizes 24 to 34 only.

The NEW FREE

SKAL-RITE Anti-Tarnish

MANOR CHEST

Grosvenor Design (Engraved)
Also Furnished in Noblesse, Bird of Paradise, Adam and Parician Modern Designs

Mellow tones of beautifully finished natural woods, velveteen lining of Peacock Blue, and the substantial construction that assures enduring use, are unmistakable evidences of quality that make this an outstanding Free Chest. Like all Community Chests it is tool-fitted to protect silverware through the years, from tarnish

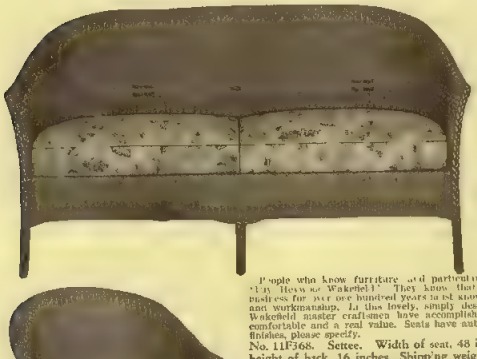
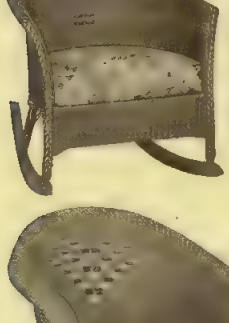
Heywood-Wakefield Fibre Suites, Low in Price



NOTE: The fibre pieces on this page may be had in the following finishes (be sure to specify finish desired when ordering): Fallow, Cafe, Ivory, Jade Green, Cactus, Tiger Rose, Blue-Green, Black, Royal Blue, Malay Orange, Shaded Pale Green, Rust, African Brown, French Blue, Shaded Cafe or Shaded fallow.

All merchandise shown on this page is packed for freight shipment. Express companies will not accept goods for shipment unless crated. On goods shipped by express, there will be the following crating charges: Davenport and larger pieces $4.00. Chairs and smaller pieces $2.00.



People who know furniture and particularly fibre furniture usually advise "Buy Heywood-Wakefield." They know that any concern which has been in business for over one hundred years is not known as an "overnight" furniture designer and workmanship. In this lovely, simply designed fibre suite above, Heywood Wakefield master craftsmen have accomplished wonders. It is well designed, comfortable and a real value. Seats have auto spring cushions. Wide choice of finishes, please specify.

No. 11F368. Settee. Width of seat, 48 inches; depth of seat, 20 inches; height of back, 16 inches. Shipping weight, 43 lbs. Each $17.10

Davenport same as above except with three auto spring seat cushions. Width of seat, 60 inches. Shipping weight 68 lbs.

No. 11F369. Each $22.40

Rocker to match, shown to the left. Auto spring seat cushion. Width of seat 20 inches; depth 18 inches; height of back 16 inches. Shipping weight, 23 lbs.

No. 11F370. Each $10.20

Fibre Chair. Companion piece to davenport and rocker. Width of seat, 19 inches; depth, 18 inches; height of back, 16 inches. Shipping weight, 21 lbs.

No. 11F371. Each $10.20

Here is a nicely fashioned fibre suite by Heywood-Wakefield which has all the many features that makes this furniture so desirable. Comfortable backs, arms and seats with their auto spring cushions plus the closely woven fibre combine to make this suite the ultra in fibre furniture comfort. The backs are enriched by a decorated Jacquard weave which is woven into the loom fibre. Although resiliently comfortable there is amazing strength in the tightly woven fibre of these pieces. There is a wide choice of finishes, please specify finishes desired.

Davenport. Please specify finish desired. Width of seat, 60 inches, depth, 21 inches; height of back, 29 inches. Weight, 68 lbs.

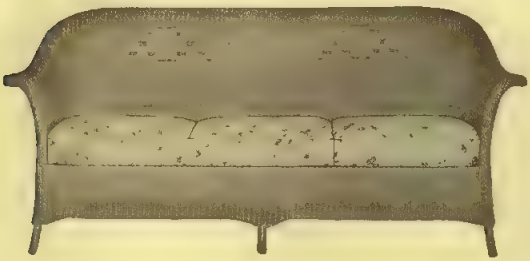
GRADES OF COVERINGS

Grade 1 consists of floral cretonnes and plain materials, while Grade 3 consists of heavy woven materials, tapestries, homespuns, etc.

Heywood-Wakefield Fibre Ensemble, New, Fashionable



Here again, in this fibre suite ensemble, Heywood-Wakefield designers have shown rare creative genius and that skill in workmanship which has made their designs so well loved for over one hundred years. The tightly woven fibre is further beautified by a decorated Jacquard design weave into the backs. Auto spring cushions complete the comfort details. These pieces are nicely styled throughout with comfortably shaped backs and arms. Finished in walnut stain only. If other color desired please specify

GRADES OF COVERINGS

Natural or Burnt Rattan Suite by Heywood-Wakefield

GRADES OF COVERINGS

Grade 1 consists of floral cretonnes and plain materials, while Grade 3 consists of heavy woven materials, tapestries, homespuns, etc.

All merchandise shown on this page is packed for freight shipment. Express companies will not accept goods for shipment unless crated. On goods shipped by express, there will be the following crating charges: Davenport and larger pieces $4.00; chairs and smaller pieces $2.00.

In this splendidly styled Rattan suite Heywood-Wakefield designers have imported a freshness of style which will always remain. Proportions are spacious and every detail was carefully watched to make sure that the outstanding feature of this suite would be COMFORT. This they have accomplished to a remarkable degree. As witness the roomy seats, the luxuriously upholstered backs and the wide arms. The back cushions are boxed spring filled while the seat cushions are spring filled over springs. Rattan itself is durable and yielding, yet it has great strength and a toughness of fibre which makes it well suited for furniture of this type. In the pieces shown on the page you have a choice of either natural or burnt Rattan, please specify Rattan desired when ordering. This suite's smart fashion is not confined to sun parlor or porch use alone. On the contrary, it lays as well equally well in the living room where its great comfort and cheerful color is particularly inviting and welcome. They too, it is extremely popular in summer homes, country clubs, hotels, porches and lobbies etc. Measurements of davenport above are: width of seat, 90 inches; depth of seat, 21 inches; height of back, 31 inches. Shipping weight, 95 lbs.

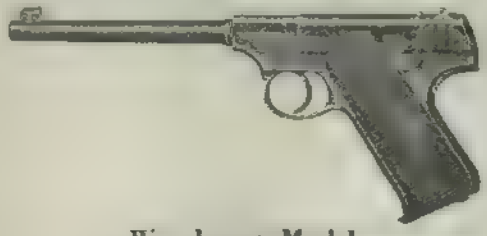
COLT AUTOMATIC PISTOLS

The action of these pistols is automatic, except that the trigger must be pulled to fire each shot, the cartridges being supplied from a detached magazine inserted in the pistol handle. One opening of the slide, by hand, carries the first cartridge into the chamber, thereafter, as the pull on the trigger explodes each cartridge, the recoil automatically ejects the empty shell and replaces it with a new cartridge from the magazine.

Every Colt automatic pistol has a grip safety, which prevents the discharge of a cartridge until the grip is pressed, also a safety when locking the slide. The .25 .32 and .380 calibers have a third safety device when the magazine is withdrawn, the pistol cannot be fired even with a cartridge in the chamber. The mechanism is not complicated, in fact there are fewer parts than in most revolvers.



Woodsman Model

The "Woodsman," as its name implies, is an ideal companion for the outdoor man—the hunter, the trapper, the hiker, camper or tourist, furnishing a large measure of protection and sport.

With its long barrel, light trigger pull, splendid balance and target sight spaced 9 inches apart, it possesses all the advantages of a single shot target pistol plus automatic reloading for rapid fire and snap shooting.

.22 Long Rifle Caliber, 11 Shots

Adapted for .22 long rifle lubricated solid ball rim fire cartridges, either Lesmok, Semi-Smokeless or Smokeless, when factory loaded either for standard or high velocities, including Palma Hi-Speed Cartridges. Not recommended for hollow point bullets. Magazine holds 10 cartridges.

Genuine Coleman Mantles

Junior

Standard

Made of high grade long fibre Egyptian Cotton, with 3-strand, double-twist, 6-cord thread. Each gross packed in handsome counter display carton. Each dozen packed in special paraffin coated boxes. Each pair packed in hard-surfaced semi-transparent glassine envelope, shipping w't gro. 1¼ lbs.

No. D41E1

Pkg. of ⅓ gro. . . . . each $0.10
Pkg. of 1 gro. . . . . each $. . .

Silk-Lite

New style—made of especially treated Rayon fibre, single weave design. Exceptionally sturdy—greater flexibility—lasts longer. Each gross packed in counter display carton, shipping w't gross 1¼ lbs.

No. D21E1

Pkg. of ⅓ gro. . . . . each $0.10
Pkg. of 1 gro. . . . . each $

Large or Senior Size

Cotton

For system lamps using large full size mantle.

No. D40E1

Pkg. of ⅓ gro. . . . . each $0.15
Pkg. of 1 gro. . . . . each $. . . .

Generators

Straight Type

For Coleman Lamps and Lanterns

Fits all Quick-Lite Lamps and Lanterns as well as other makes using the same size generators. This generator is lower in price because of less metal used and fewer manufacturing operations. The D77E makes a good low priced generator and may be preferred by customers who make frequent generator changes on account of unfit grades of gasoline.

No. D77E1—Q77

Pkg. of ½ dz. . . . . each $0.20
Lots of 1 dz. . . . . each $. . . .

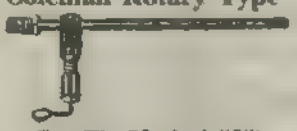
Coleman

For use on any Coleman Lamp or Lantern equipped with the Roto-Type Burner. Extra large, oversize—more space for carbon deposits—insures longer life, improved service and fewer generator replacements. Equipped with cleaning needle which provides a convenient, quick and sure method of cleaning the gas tip either before or after lighting. Operated by a permanent built-in rotary lever.

No. D44E1—T44

Pkg. of ½ dz. . . . . each $0.35
Lots of 1 dz. . . . . each $. . . .

Coleman Rotary Type



(Gas Tip Marked "J")

Equipped with automatic cleaning needle which is operated by rotary lever. May be used on Models 117, 118 and 119 Instant-Lite Lamps and on Nos. 220 and 228 Instant-Lite Lanterns. One in a carton.

No. D55E1—R55

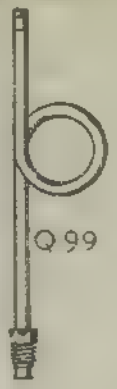
Lots of ½ dz. . . . . each $0.50
Pkg. of 1 dz. . . . . each $. . . .

A rotary-type generator used only on Lantern No. 242. Has automatic cleaning needle operated by a rotary lever.

No. D66E1—T66

Pkg. of ½ dz. . . . . each $0.35
Lots of 1 dz. . . . . each $. . . .

Quick-Lite Generators



The Quick-Lite generator will burn 500 to 800 hours without renewing. When finally filled with carbon, replace with extra generator furnished with each lamp. The hole in gas tip (Q18) is easily cleaned with tip cleaner. If tip becomes clogged, clean or replace with new tip furnished free with every lamp. One in a carton.

No. D99E1—Q99

Lots of ½ dz. . . . . each $0.35
Pkg. of 1 dz. . . . . each $. . . .

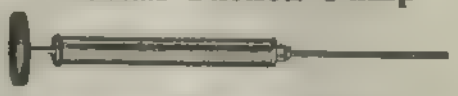
New Roto-Type Burner

In the new Roto-Type Burner an extra-large, oversize generator provides more space for carbon, insures longer life and improved service. Generator is equipped with gas tip cleaning needle, which provides an easy, quick and sure method of cleaning the gas tip either before or after lighting. Generator and cleaning needle are only parts that need to be occasionally replaced. All other mechanical parts for operating the cleaning needle are built in as a part of the burner. The new Roto-Type Burner unit is easily and quickly installed on Instant-Lite Lamps Nos. H117, H118, H119.

D118A-399E1 . . . . . each $3.45

ONE IN A CARTON

Coleman Suction Pump



For cleaning founts of lamps and stove tanks. Especially designed for removing dirt and sediment from tanks and founts. Clean fuel means longer life for generator.

D627-590E1 . . . . . each $1.35

ONE IN A CARTON

Fount Cleaning Tube

This provides a sure and easy method of removing dirty fuel from gasoline lamp and lantern founts with built-in pumps. Longer service from generators, easier lighting and greater operating efficiency will result from the use of clean fuel and a clean fount.

F199-910E1 . . . . . each $1.80★

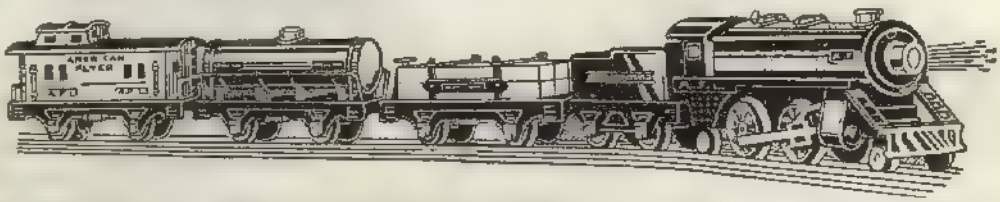
Narrow Gauge (1⅜") "American Flyer" with Transformers

For the first time American Flyer includes transformers with their popular priced regular catalog trains. The transformer which is included in the train indicated is the rheostat type which makes it possible to control the speed from almost nothing to top speed. These transformers are designed to operate the trains satisfactorily. However, should you add extensively to the train system, it is recommended that you purchase a larger capacity transformer. The transformer with the train set can then be used for lighting stations, are lights, etc.



Rail King (Mfrs. No. 1301-RT). Variable Speed Transformer Included. Lowest priced quality train. The new 7⅝-inch locomotive includes pilot and booster trucks, reversible motor, focusing headlight, brass and copper trim. The new Cars are each 6½ inches long, and are finished in bright enamel colors. Caboose has electric light. 8 curved and 2 straight tracks. 34½ inches long.

No. 39N422. Each..... 3.84

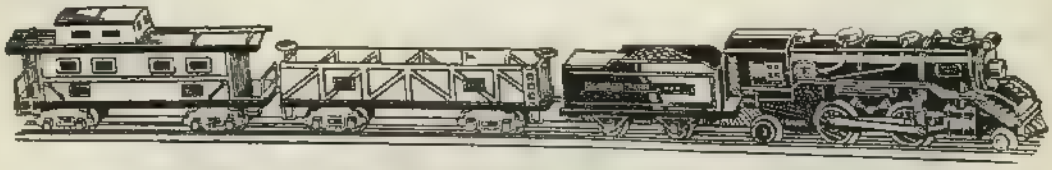
Yukon (Mfrs. No. 1302-RT). Variable Speed Transformer Included. Entirely new 7⅝-inch steam type locomotive with reversible locomotive, pilot and booster trucks and focusing headlight. Deep embossings bring out its structural details. Tender has imitation coal. The three 6½-inch entirely new different cars are finished in bright enamel and have solid brass window frames and journal boxes. Both the Passenger and the Observation Cars are equipped with lights. 8 curved and 2 straight tracks. 34½ inches long.

No. 39N423. Each..... 4.17

Narrow Gauge (1 3/8") "American Flyer" with Transformers

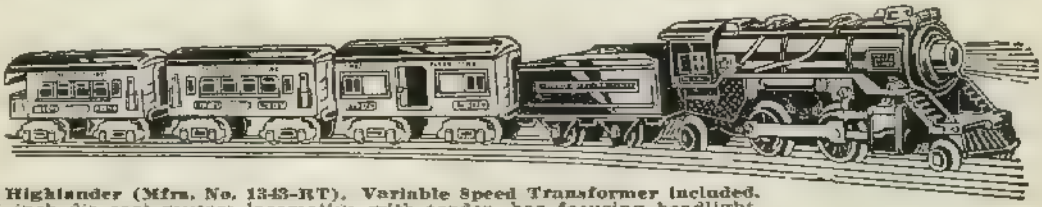
Counsellor (Mfrs. No. 1303-T). Variable Speed Transformer included. Locomotive 7½ inches, has electric headlight, brass trim. The full size cars are each 6½ inches long, and they are finished in bright enamel with brass details. Baggage car has sliding doors. Observation has large brass canopy and railing. Both Passenger and Observation cars have lights. 8 curved and 2 straight tracks. 29 inches long.

No. 39N424. Each..... **4.55**



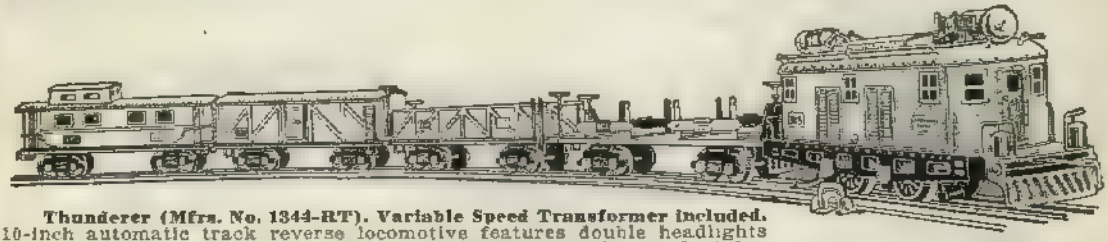
New Ranger (Mfrs. No. 1341-RT). Variable Speed Transformer and light in caboose. 15½-inch die cast locomotive with tender has patented ringing bell, reverse motor focusing headlight, realistic valve action, pilot and booster truck. The double truck cars are each 9½ inches long, the longest and heaviest made. 8 curved and 2 straight tracks. 36 inches long.

No. 39N425. Each..... **7.00**



Highlander (Mfrs. No. 1343-RT). Variable Speed Transformer included. 15½-inch die cast reverse locomotive with tender, has focusing headlight, patented ringing bell, pilot and booster trucks. The different double truck 6½-inch cars finished in two-tone enamel with solid brass trim. Baggage car has sliding doors. Passenger and Observation cars equipped with lights. 8 curved and 2 straight tracks. 37 inches long.

No. 39N426. Each..... **7.67**



Thunderer (Mfrs. No. 1344-RT). Variable Speed Transformer included. 10-inch automatic track reverse locomotive features double headlights and many solid brass details which glisten from its background of fine enamel. The four 9½-inch double truck full enamel cars are the longest and heaviest made. Caboose has electric lights. 8 curved and 6 straight tracks. 51 inches long.

No. 39N427. Each..... **8.75**

De Luxe Remote Control Trains—Transformer NOT Included

New Paul Revere (Mfrs. No. 1350-R/C). 16-inch triple action remote control reverse, steam type, die cast locomotive with tender, has exclusive and patented ringing bell, and features both pilot and booster trucks, focusing headlight and realistic valve action. 9½ inch long cars have low center of gravity and electric lights. Two-tone enamel with solid brass trim. 8 curved and 6 straight tracks. 42 inches long. (75-watt DYALTYPE Transformer Recommended.)

No. 39N428. Each..... **10.50**

"American Flyer" De Luxe Narrow Gauge Trains

Steel Mogul (Mfrs. No. 1352-R C). Triple Action Remote Control Reverse. 16-inch locomotive with tender. Has patented ringing bell, extra large drive wheels, pilot and booster trucks and focusing headlight. Log car, Sand car, Auto car and Caboose with light are each 5½ inches long. 8 curved and 6 straight tracks. 55 inches long. (75-watt DYALTYPE Transformer Recommended.)

Equipped with triple action remote control, reverse, patented lighted fire box and ringing bell. Many brass details. Locomotive and tender are 27 inches long. Six cars are each 14 inches long—longest and heaviest made. Caboose has electric light. 8 curved and 8 straight tracks. 121 inches long. **(100-watt Transformer Recommended.)**

No. 39N439. Each..... **38.50**

American Flyer DYALTYPE Transformers

To insure perfect operation of your train be certain to **specify American Flyer DYALTYPE** Transformers. No other transformer has all of these distinctive features. **Speed Control**—by "fractional voltage steps," eliminates necessity of a rheostat. **Dyal Operation**—speeds can be changed much easier than on the old fashioned switch lever. **Concealed Switch**—No contacts exposed, thus eliminating possibilities of a short circuit. **Direct Reading**—The arrow on the dial leads points directly on the chart to the voltage the transformer is giving. **Approved Type**—Meets all requirements and are approved by the National Board of Underwriters. **Capacity**—Guaranteed to deliver full rated capacity. While especially made to operate American Flyer Trains, they are equally as good in the operation of other toys.

110 Volt, 60 cycle DYALTYPE Transformer recommended for the following train sets

(Mfg. No. 1289)—50 Watt.

(Mfg. No. 1290)—75 Watt. Paul Revere and Steel Mogul and all other narrow gauge trains.

(Mfg. No. 1295)—100 Watt. All narrow or wide gauge trains of any manufacture.

(Mfg. No. 1296)—150 Watt: All narrow or wide gauge trains of any manufacture and with elaborately lighted and automatic equipment. Particularly recommended for window display purposes.

Prices are as follows:

Mfg. No.	Volt	Cycle	Watt	Number	Each
1289	110	60	50	39N110	2.34
1290	110	60	75	39N111	2.84
1295	110	60	100	39N112	4.17
1296	110	60	150	39N113	5.34

Circuit Breaker (Mfg. No. 1275): Automatically cuts off current and protects transformers if short circuits occur. Circuit resumed by pushing lever. No springs to get out of order. Recommended for operation with all transformers.
No. 39N114. Each 1.50

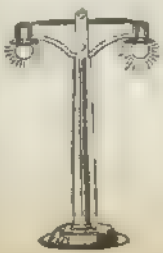
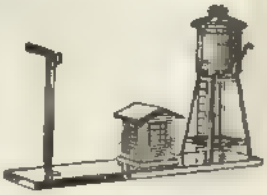
Crossing Set (Mfgrs. No. 236): Consists of watchman's tower with light, danger signal with light and operating crossing gate. Bell on watchman's tower rings. Size, 15¼"x4"x9½".
No. 39N678. Each 1.40



Arc Light (Mfgrs. No. 233): Has 2 lights as shown. There has always been a demand for lights of this type. Height, 7".
No. 39N676.
Each ..... .53

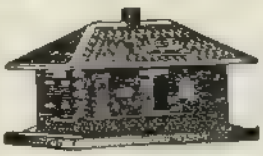


Water Tank Set (Mfgrs. No. 235): Realistic water tank with movable spout and electric beacon light. Typical railroad shanty with light, and operating railroad signal. Size, 15¼"x4"x9½"
No. 39N677. Each 1.40

American Flyer Railroad Equipment

Kenilworth (Mfg. No. 104): Equipped with an exterior frosted transparency lamp, has enameled roof and base with sides attractively produced in detail. Size 9½x5½x5½ inches.

No. 39N646. Each... 1.05



Freight Station (Mfg. No. 97): Very realistic, finished in bright lithograph and enamel. Has two sliding doors and electric light. Size 12"x7"x7"

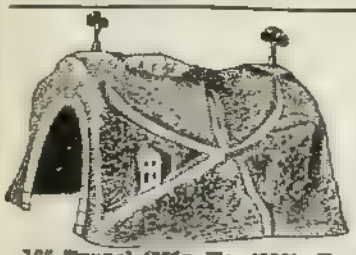
No. 39N647. Each... 2.10

Equipment Set (Mfgrs. No. 240): This consists of 10 units as illustrated above. Adds greatly to play value and realism of any train outfit. Height of telegraph poles 10½ inches.

No. 39N674. Each... 1.05

Central Station (Mfg. No. 102): Has two exterior and one interior lamp. Windows have frosted transparencies through which light shines. Size 13½"x8"x7½".

No. 39N649. Each.. 3.15



16" Tunnel (Mfg. No. 4266): For wide gauge trains. Realistic detail finish. **No. 39N650.** Each.. 2.10

23" Tunnel (Mfg. No. 4267): With two telegraph poles for wide gauge trains.

No. 39N651. Each..... 3.50

TRESTLE BRIDGES

Strongly constructed and finished in bright automobile enamels.

(Mfg. No. 212): For narrow gauge, 50¼" long

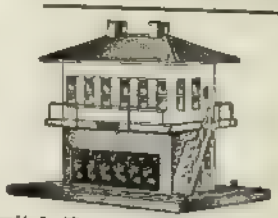
No. 39N652. Each.. .. ... 2.60

(Mfg. No. 4213): For wide gauge, 56" long

No. 39N653. Each. 2.80

(Mfg. No. 4220): For wide gauge, 70¼" long, equipped with two lights

No. 39N654. Each.. ..... 3.85



Switch Tower House (Mfg. No. 108): Has switch board for controlling six different circuits. Electrically lighted and finished in bright enamels. Size 12"x7½"x9¼".

No. 39N655. Each..... 4.20

Narrow Gauge Tunnels. Are strongly constructed and very realistic. 10-inch tunnel (Mfgrs. No 262) for narrow gauge trains. **No. 39N610.** Each .. .... .53

12-Inch Tunnel (Mfgrs No. 263), for narrow gauge trains.

No. 39N611. Each..... ... .70

Water Tank (Mfg No. 2020). Looks like the real thing. Has adjustable water spout. Structural base supports the tank on which imitation gauge is lithographed in detail. eight 9½ inches.

No. 39N605.

Each ..... .63

Watchman's Tower (Mfgrs. No. 92). A real miniature model. Has solid brass bell that rings. The ladder and bell give it a realistic appearance. Height 10".

No. 39N601.

Each ..... .56

Automatic Train Controlling Semaphore (Mfg. No. 2043): Includes controlling switch which allows the operator to control train from a distant position for either narrow or wide gauge.

No. 39N660. Each... 3.50

Double Arm Lamp Post (Mfg. No. 2210): With two 1-inch frosted lamps, lights up your railroad at night time. Height 12 inches.

No. 39N663.

Each... 1.40

Single Arm Lamp Post (Mfg. No. 2209): With frosted Mazda electric lamp. Well proportioned, enamel finish. Height 10½ inches.

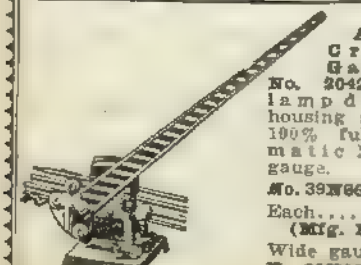
No. 39N664.

Each.... .88

Crossing Gate (Mfg. No. 2222): Manually controlled double arm with red electric light. Length, 15½ inches.

No. 39N659.

Each.... .88



Automatic Crossing Gate (Mfg. No. 2042): Has lamp die-cast housing and base. 100% full automatic Narrow gauge.

No. 39N665.

Each..... 2.80

(Mfg. No. 4042): Wide gauge.

No. 39N668.

Each 2.98

Flashing Signal. The two red lights flash at approach of train and continue until it has passed. Narrow gauge.

No. 39N667.

Each... 2.10

Wide gauge

No. 39N668.

Each .. 2.17

Automatic Danger Signal (Mfg. No. 2116): Bell rings, red light flashes at approach of the train. Height 9¾".

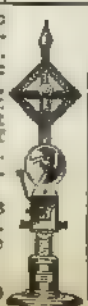
No. 39N669.

Each .. 1.93

(Mfg. No. 4116): Wide gauge.

No. 39N670.

Each 2.10



Semaphore (Mfgrs. No. 2040). Starts or stops trains, manually operated. For either narrow or wide gauge track.

No. 33N672.

Hibbard Muskrat

Used extensively by trappers, hunters and farmers for skinning and cleaning Muskrats, moles, squirrel and all other fur bearing animals, both large or small. The 2 long, narrow blades tapering down to needle points are excellently shaped and pointed to do the most delicate work of taxidermy as well as for skinning and sticking game of all kind. A dandy stockman's and cattleman's knife too.

Just the right shape and size—strong but not bulky.

Hibbard—Two long special clip point blades, one blade is etched MUSKRAT, and the other blade is etched MOLE. Both blades full mirror polished on both sides. Stag handle, brass lined, nickel silver bolsters, length when closed 3⅛ in., w't per doz. 1¾ lbs.

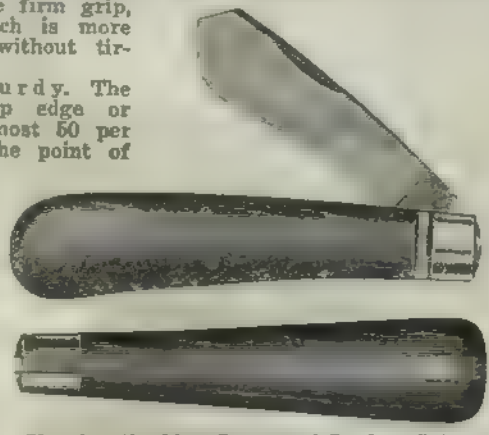
New Improved Model Murray Elson Maize Knife

With the Most Comfortable Perfect Grip Handle Ever Made

After an intensive and extensive studying and experimenting with specially made knives used expressly for cutting maize, the Improved Murray Elson pattern was decided upon to be the best knife ever made, suited for this purpose. This decision being based upon the opinion of the largest growers of maize throughout the Southwest of this country. The newest feature of this knife is the swelled end handle which is nearly twice the width of the average Maize Knife, thus enabling the user to get a better, more firm grip, the result of which is more and better work without tiring.

Strong and sturdy. The special shape drop edge or spoon blade is almost 50 per cent wider near the point of blade than it is at the tang, thus greatly adding to the serviceability and life of knife, the tang is specially rounded to prevent user's fingers being cut or blistered while knife is in use. A dandy knife for speying, budding and many other uses.



Showing the New Improved Perfect Grip Handle

Hibbard, one lare heavy drop edge or spoon blade, Full Mirror Polished on both sides and etched "Maize Knife," extra wide, cocobola handle, iron lined, hollow steel bolster, length when closed 4 in., w't per doz. 2¾ lbs.

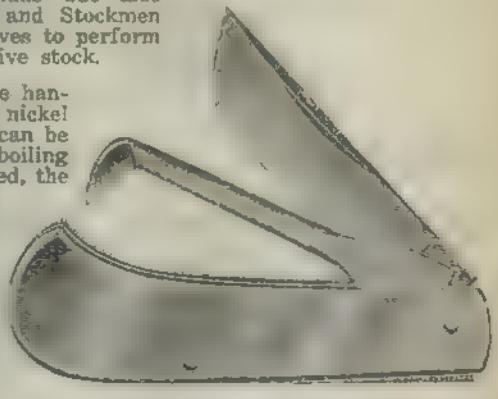
Hibbard Nickel Silver Handle Veterinary and Castrating Knives

Being made of metal they can be sterilized in boiling water so as to reduce to the minimum the chances of infection. Hibbard Castrating Knives make sure, clean, quick-healing cuts. safe, practical and sanitary.

Cattle and stock raisers are very particular about the knives they can use in altering and marking cattle, hogs and sheep.

Our Hibbard Veterinary Knives have been gotten up to take care of an ever increasing demand for knives of this character, originating not only from the Professional Veterinarians but also from the Farmers and Stockmen who prefer themselves to perform operations on the live stock.

On account of the handles being made of nickel silver these knives can be freely immersed in boiling water to be sterilized, the handles will not crack or absorb dirt, thereby making this knife absolutely sanitary. The shapes are the most approved patterns and comfortably fit the hand.



Hibbard, 1 large speying blade and 1 hook or veterinary fleam blade, nicely glazed and finished, Solid Nickel Silver Metal handle, length 2¾ in. closed, w't per doz. 1¼ lbs.

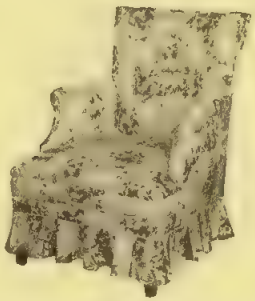
Milady Will Revel in the Comforts of these Boudoir Chairs

A Boudoir Chair of such inviting depths that it will soon become a favorite piece in the boudoir. In its nicely shaped back there is comfort that completely relaxes while the sweeping arms add greatly to its distinctive appearance. Although remarkably low in price, its construction is of the highest quality. Details were carefully watched in the making. For the frame strong Birch was chosen. This was further reinforced by a steel construction. Moss and cotton—clean and pure—was used for the filling. Covering is of a good grade of colorful chintz. Height, 33½ inches; shipping weight, 75 lbs.

No. 32F72. Each **$23.80**



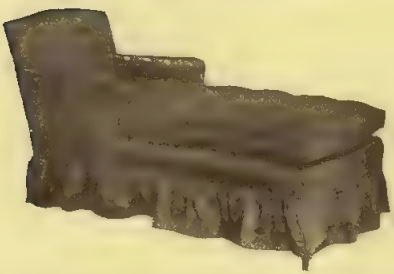
Lounging Boudoir Chair. This splendid piece was made for the woman who likes to retire to the boudoir to read and be comfortable. Its cushioned seat and deep, soft depths are ideal for relaxation. Yet these are not its only virtues for this chair has a dainty charm which is instantly captivating. It has a cozy button tufted inside back and a full ruffle bottom. The frame is of selected birch strongly reinforced by steel construction to give many years of comfort. All new sanitary Moss and Cotton clean and sanitary has been used for the filling while a high grade cretonne clothes the chair in colorful beauty. Height 31 inches; width, 30 inches; depth 35 inches; shipping weight, 80 lbs.

No. 32F74. Each **$33.70**

This lovely Lounging Chair is the luxury and comfort of finest hotel pieces. Yet its cost is no more than what one would expect to pay for an ordinary piece! In the home this chair is a mark of hospitality; its gracious charm and cozy comfort are an invitation to all to "feel at ease and at home." But more than that, it is good fashion and good taste. Its frame is of Birch reinforced by a lasting steel construction. The two front Queen Anne legs are nicely carved. Inside back is roll tufted while the loose seat cushion is filled with downy Kapoc. Upholstering is of a splendid Damask in green, orchid or rose colors (please specify color desired). Height, 34 inches; width, 28 inches; depth, 33 inches; shipping weight, 75 lbs.

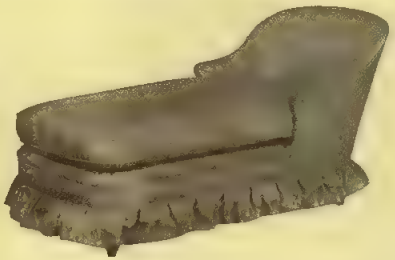
No. 32F75. Each **$52.90**

A Chaise Lounge Adds Charm To A Room



Chaise Longue. Here is a piece of furniture designed—like the vanity—particularly for milady's private use. It provides complete relaxation in the privacy of her room. Its downy soft cushions invite a few hours' rest or it may be used for reading. Frame is of hardwood, thoroughly dried, fully doweled, with corner blocks both glued and screwed. Nachman spring filled cushions with Louisiana moss and clean felted cotton. Spring edge construction insures long life to the cushions. Springs are of high carbon Premier wire, tied eight ways. Upholstered in green or peach chintz with ruffled bottom (please specify color desired). Length 60 inches, height 34 inches, depth 27 inches, weight 110 lbs.

No. 32F159. Each **$57.40**

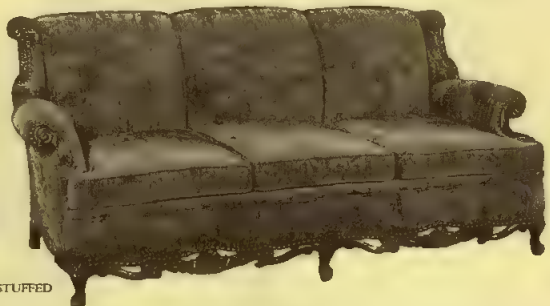


Chaise Longue to delight some feminine heart with its offering of perfect rest and relaxation. Here milady may retire with a good book and recline for hours on the billowy softness of its luxurious cushions. The construction of this masterful suite is of the highest order. Its frame is of hardwood for strength, thoroughly dried, fully doweled with corner blocks both glued and screwed. The downy softness of its comfortable cushion is due to its filling of Louisiana moss and clean felted cotton. Web construction throughout and spring edge seats assures long life to the piece. It is upholstered all over in damask with a ruffled bottom. Length, 60 inches; height, 31 inches; depth, 27 inches; weight, 110 lbs.

No. 32F160. Each **$90.00**

Two Magnificent Suites by Leading Stylists

Suites shown on this page are DOUBLE-STUFFED in muslin under cover giving longer wear and infinitely greater comfort. This is a new and exclusive feature not found on ordinary suites.



DOUBLE-STUFFED

Chair shown to the left above, matches the davenport. It is of the same superb construction throughout and a superbly comfortable piece. Length, 36 inches; depth, 33½ inches; height, 34 inches. Shipping weight, 185 lbs.

No. 32F183. Davenport. Each $132.50

No. 32F184. Chair. Each 66.20

No. 32F185. Two-Piece Suite 198.70

Here is a conventional pattern in a two piece living room suite by one of America's leading stylists. Conservatism, however, is only one of the virtues the suite possesses. Comfort is first of course, and in these two lovely pieces, the manufacturer has made it the very first consideration. You won't find a detail in the entire suite that hasn't received the careful attention it deserves. And you'll like the superb comfort of its roomy depths, the luxury of its tufted style. Here is a suite which will dress up the living room and make it the favorite gathering place for the entire family. The suite's construction is of the highest order. Frame is made of hardwood, thoroughly dried, fully doweled, with corner blocks both glued and screwed. All exposed carved parts are in solid mahogany. Webb construction throughout. Spring edge insures long life for the cushions. Filling is of Louisiana moss and clean felted cotton. The springs are of high carbon Premier Wire, tied eight ways. The cushions are the famous Nachman Cell Units with each spring separately pocketed. Upholstering materials used are in fine Rayon Frieze Tapestries in a choice of Green or Rust colors. Please specify color of coverings desired. Davenport, length, 80 inches; depth, 36 inches; height, 34 inches. Shipping weight, 250 lbs.

DOUBLE-STUFFED

Chair to match the davenport and complete the two piece suite. One can immediately see that this is no ordinary chair. It speaks quietly of fine materials, expert workmanship, of style that lives, and of comfort found only in finest hotel pieces. For instance the back with its pillow filled with downy silk floss, and the Nachman coil spring units of the seat cushion tell of comfort in its most inviting mood, which the splendid design says here is style that pleases all who love fine things. Strength is in its construction, its quality goes far beneath the surface. Length of chair, 38 inches; height 34 inches, depth, 34 inches; weight, 137 lbs.

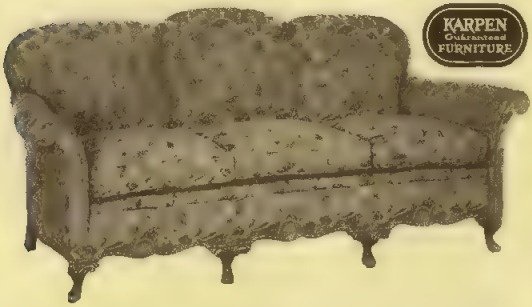
No. 32F141. Davenport. Each $137.30

No. 32F142. Chair. Each 68.70

No. 32F143. Two-Piece Suite 206.00

Fine furniture, such as this exquisite two-piece suite, represents the best efforts of America's leading furniture stylists. This lovely creation brings the ultra in smartness, high quality and beauty to the home. Pretentious in appearance, perfect in its quality construction it is a suite to be admired by all who love fine things. In the davenport extra comfort is found in the three buttoned pillow effect backs filled with downy silk floss. The cushion springs too are the last word in comfort being filled with Nachman coil units, strong and resilient. Each coil spring is in a separate compartment. Filling is of Louisiana 3X long moss and pure clean felted cotton. And the frame—there is where construction counts! It's made of thoroughly dried hardwood, fully doweled with corner blocks both glued and screwed for strength. Webb construction throughout further insures the beauty and original freshness of the pieces for many years to come, while the spring edge seat means no sagging in the fronts. Exposed parts are invisibly carved. Note the flare of the restful arms and the snugness of the back. Note also how the seat cushions fit around the front of the arms. Each detail was made perfect. The upholstering may be had in a variety of colors such as green, or rust damask overall, or taupe, walnut rust, green or woodrose mohair with reversible cushions in matching moquette. Please specify color and covering desired. Length of davenport, 74½ inches, height, 34 inches; depth, 34 inches, weight, 259 lbs.

Karpen Suites—Luxury in Style and Comfort



All of the beauty and smart fashion of the Karpen reputation is represented in this comfortable two piece living room suite. The arms are nicely flared, the backs nicely shaped, the seats a delight in cushioned comfort. The seat foundation is made with one-piece webbing bound securely to three edges and a No. 7 gauge steel wire. The webbing is securely attached to the front of the seat by tacking and double tacking to the top of the front rail, and suspended from the frame on the other three sides by small tempered helical springs, one end of the helical being inserted with the burlap and around the reinforced edge wire, the other end attached to steel anchors. Karpenesque springs are individually pocketed in muslin and tied to each other four times. The suite is covered as shown in a Grade 14 tapestry in green with a shadow pattern in tan and brown. Sofa, length, 70 inches; depth, 35 inches, height, 35 inches. Shipping weight, 210 lbs.

No. 15F411. Sofa in the following grades of coverings:

	Each		Each		Each

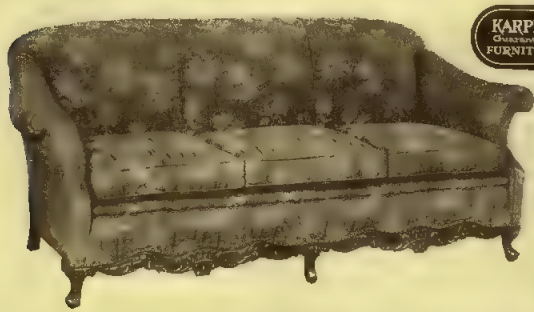
A Higher Degree of Comfort in These Karpen Suites



KARPEN Guaranteed FURNITURE

Karpen designers and skilled upholsterers have here merged their best efforts to reproduce this magnificent two-piece living room suite of refreshing style and upholstered beauty. The suite easily looks twice the price and has the exclusive Karpen quality comfort and construction features not found in other suites at any price. The seat foundation is made with one-piece webbing, suspended from the frame by steel anchors and wire helicals. Over this yielding comfort foundation goes the luxury of Karpenesque wire springs each in an individual muslin pocket tied together four times. The loose seat cushions are Karpenesque spring filled as are also the backs. The suite as shown is covered in a Grade 12 tapestry with a dull green background and a tan pattern. Sofa length, 80 inches; depth, 35 inches; height, 33 inches. Shipping weight, 230 lbs.

No. 15F421. Sofa in the following grades of coverings:

	Each		Each		Each
Grade 12 (as illustrated)	$107.40	Grade 18	$121.40	Grade 26	$140.00

Grade 18	65.40	Grade 28	78.70
Grade 20	68.00	Grade 30	81.40

Skilled Karpen upholsterers have developed in these lovely pieces a two-piece suite of great ease and comfort. Soft, deep, downy depths hospitably invite rest and comfort. The suite is nicely proportioned, excellently styled and of true Karpen construction. The seat foundation is of one-piece webbing suspended from the frame by steel anchors and wire helicals. This is topped with the crowning comfort of Karpenesque springs each in a separate muslin pocket and tied together four times. The seats and backs are also of Karpenesque inner spring construction and are filled with a layer of 16-ounce burlap and a generous quantity of curled and felted cotton linters. The suite as shown is covered in a Grade 20 rayon tapestry in rust and flavred in green and tan. Sofa, length, 75 inches; depth, 38 inches; height, 32 inches. Shipping weight, 210 lbs.

No. 15F423. Sofa in the following grades of coverings:

	Each		Each		Each

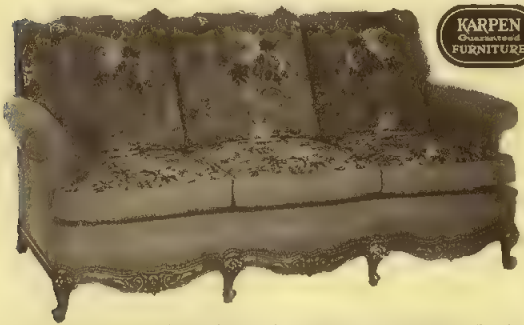
		Grade 30	88.70

Two Magnificent Karpen Suites, Splendidly Styled



Loose Pillow Backs, loose Cushions, each filled with Karpenesque inner springs give you the extra comfort you'd expect this handsomely designed suite to offer. The seat foundation is made with no-sag webbing bound securely to three edges and a No. 7 gauge steel wire. The webbing is securely attached to the frame and suspended by steel anchors and helicals. Over this goes the crowning comfort of Karpenesque inner springs each in an individual muslin pocket and tied together four times. The suite is covered as shown on the seat and back in a Grade 24 Jacquard velour in Nile green with a floral pattern in rose and green. The balance is covered in Grade 18 cotton frieze suite. Sofa length, 79 inches; depth, 37 inches; height, 35 inches. Shipping weight, 235 lbs.

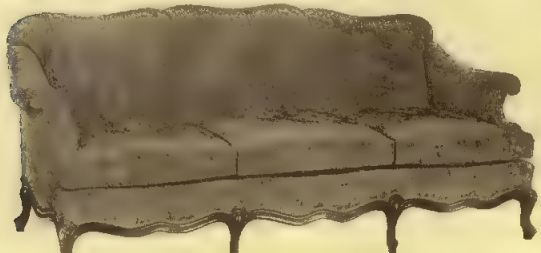
No. 15F437. Sofa in the following grades of coverings.

	Each		Each		Each
Grade 14	$142.40	Grade 20	$160.00	Grade 26	$177.60
Grade 16	148.30	Grade 22	165.90	Grade 28	183 50
Grade 18	154.20	Grade 24	171.80	Grade 30	189.40
As Illustrated.	Each		$85.40		

Lounge Chair to match sofa. Comfortable loose pillow back, reversible seat cushion with Karpenesque inner springs each in an individual muslin pocket and mounted in a layer of luxurious hairing and a generous supply of carded and felted cotton linters. Width, 35 inches; depth, 37 inches; height, 34 inches. Shipping weight, 135 lbs.

No. 15F438. Lounge chair in the following grades of covers:

	Each		Each		Each
Grade 14	$73.80	Grade 20	$85.40	Grade 26	$ 94.90
Grade 16	78.90	Grade 22	88.60	Grade 28	98.20
Grade 18	82.10	Grade 24	91.80	Grade 30	103.40
As Illustrated.	Each		$160.00		



Karpen craftsmen have added to this suite's splendid style, a saucy French accent. It is far from being superficial and gives the pieces a refreshing beauty which will grow more charming with the years. The exposed parts are of solid mahogany, while the inner frame is of hardwood, reinforced with fitted corner blocks, glued, screwed and doweled. Karpenesque inner springs each in an individual muslin pocket and tied together four times are placed over a suspended web construction, buoyant, permanent, infinitely more comfortable. The seat cushions and back also have the benefit of Karpenesque inner springs. The suite is covered as shown in a Grade 20 frieze tapestry with a beautiful shade of Amethyst in the background enriched by patterns in mulberry, green and gold. Sofa, length, 80 inches; depth, 35 inches, height, 34 inches. Shipping weight, 225 lbs.

No. 15F439. Sofa in the following grades of coverings:

	Each		Each		Each

20th Century—Model Biascope Camera

Start Now! with "The BIASCOPE"

Patent Pending

The Only Machine in the World that Takes Two Photo Buttons Simultaneously With One Exposure

THIS BUSINESS WILL NET YOU $50 TO $100 A WEEK.

YOU MAKE 8 CENTS PROFIT ON EVERY DIME.

What other business will you find that shows such profit as this—80 cents out of every dollar. Photo-buttons are made in a minute, and they sell for a dime. Your customers want them, and the BIASCOPE takes and finishes them all in just one minute, too.

The field is large, the workers few. We'll venture to say you can pay for the BIASCOPE the first week.

The Biascope takes, develops and finishes on the spot two Photo-Buttons on positive paper direct with one exposure. The Biascope-Camera is equipped with two rapid-rectilinear double lenses mounted in two automatic metal shutters which open and close with a pull of the chain suspended from them (no rubber bulbs to get out of order), and instantly two Button-Photos are photographed.

The Duo-Magazines load with "two hundred paper positive buttons," and in one second the photographed Photo-Buttons drop into developing tank and a single developer and fixtoner combined finishes them in one minute, ready to deliver on the spot.

No experience required to operate, no plates or films necessary. You load the magazine in broad daylight. No dark room required.

The "Biascope-Camera" is equipped with double rectilinear fast cutting lenses and will take perfect photo buttons in natural soft daylight. No sunlight needed and at night with 500-watt electric light.

VERY LIGHT IN WEIGHT. SO SIMPLE A CHILD CAN OPERATE IT.

THE LATEST NOVELTY IN UP-TO-DATE PHOTO-BUTTONS.

GUARANTEED FOR FIVE YEARS, FOR IT WILL NEVER FAIL.

No. 99J40L. Complete outfit of one Biascope All-Metal Camera, with tripod (stand) and 600 positive buttons, with 600 beautiful brooch frames and back-pins for same, including three cans of ready-mixed developer.

INTERNATIONAL SILVER COMPANY

Silverplate that reflects the fashion of the hour and carries the world famous renown nearly a century old.

INTERNATIONAL SILVER COMPANY makes two of the world's most famous brands of silverplate: Genuine original 1847 Rogers Bros., and Wm. Rogers & Son, the genuine original Rogers Silverplate. The first brand carries a guarantee assuring satisfactory service without time limit. The Wm. Rogers & Son silverplate which costs about half as much, is warranted for 35 years.

VIANDE KNIVES AND FORKS

No Extra Charge

Each of the ten patterns offered on the following pages, is made in your choice of the new Viande knives and Viande forks, or the regular French blade knives and regular forks. Grade for grade, both styles are the same price.

Matched services are all the vogue. International Silver Company offers complete services in both 1847 Rogers Bros. and Wm. Rogers & Son Silverplate. These lovely matched services are now offered at extremely low prices.

COMPLETE SERVICE
To Match Each Pattern

Pictured above is the 3-piece coffee set in the Paris pattern of Wm. Rogers & Son silverplate. The Paris teaspoon is shown at the right. It is a mark of good taste to have the services match the patterns of the knives, forks, and spoons. Please note the remarkably low prices at which these exquisite services are offered.

The VIANDE Knife and Fork

The REGULAR or FRENCH Knife and Fork

Featuring the glorious new pattern "Her Majesty" in the original genuine 1847 Rogers Bros. silverplate.

Arbogast Weedless Kicker

Frog, fly and minnow all jazzed up in one mangled, struggling lure. Tail spinner same as on Tin Liz, put some kick in the feather legs. Has action, color and flash and just naturally slays Bass and Pike. W't each ⅝ oz.

Six baits on a very attractive display card with six empty boxes for use when sold by dealer.

C640G1—Card of 6 baits.....bait $0.75

Arbogast Weedless "Tin Liz" Baits

Cast this bait right into lily pads and see how it wiggles through and lands your fish.

Point of guard must be kept just below point of hook.

Molded of bright, rustless metal, with every detail perfect. Most realistic crippled minnow made. Real mouth, gills, fins and shining scales irridescent green and silver. Real crippled action as she flutters and wobbles along on her side. Real swimming flash and vibration of novel tail spinner. Furnished with a simple but very effective weed guard, w't ⅝ oz.

Two colors, three silver and red head and three silver on a very attractive display card with six empty boxes for use when sold by dealer.

C630G1—Card of 6 baits...each bait $0.75

Arbogast "Tin Liz" Baits

Molded of bright, rustless metal, with every detail perfect. Most realistic crippled minow made. Real mouth, gills, fins, and shining scales irridescent green and silver.

Real crippled action as she flutters and wobbles along on her side. Real swimming flash and vibration of novel tail spinner.

All game fish pick on this poor, lil' cripple and that single hook just naturally slays 'em. Hook is the best posible design and, reaching up from that flat supporting body, grabs every fair strike. Record of 51 large mouth bass landed, without a miss.

Color, Red Side Chub. W't ⅝ oz.

C610G1 .....each $0.75

ONE IN A BOX

Arbogast Weedless Sun Fish "Tin Liz" Baits

The sun fish is a sure hooker. Molded of bright, rustless metal with every detail perfect. Most realistic sun fish minnow made. Furnished with a simple but very effective weed guard. W't ⅛ oz. each. Put up 6 baits on a very attractive display card with six empty boxes for use when sold by the dealer.

C620G1—Card of 6 baits.....each $0 75

Shoff's Mice

A new floating fly rod lure, an absolute fish getter, especially good for catching bass, pike, pickerel, muskies, and trout. It is so very life-life that it resembles perfectly the live mouse itself.

Large, size 3/0 hook.

C303G1—Lots of ¼ dz.....each $0.75

SHIPPING · FACILITIES

With our immense stock and very modern facilities for shipments we are enabled to fill orders with unequalled promptness. On some of the roads we have special through cars which enable us to reach distant points 24 hours ahead of shipment made in the regular way.

Al-Foss Pork Rind Minnows
Dixie Wiggler

Nickel plated, w't ⅛ oz., with a size 3/0 detachable hook, and a red bucktail. In designing the Dixie Wiggler, the weed problem was solved by providing a spinner that cuts its way through the weeds, making a clear passage for the hook, one in a tin box.

C887G1 .....each $1.00

PACKED ONE DOZEN

We can also furnish from factory only the following bucktails: White, Yellow, Orange, Brown, Black, and Purple.

Oriental Wiggler

Made of celluloid pyralin with a hand forged hook, w't ⅛ oz., hook detachable, one in a tin box.

Size 1/0 Hook

C431G1—Black and white.....each 1.00

PACKED ONE DOZEN

New Egypt Wiggler

Nickel plated, with a size 3/0 detachable hook, w't ⅛ oz., equipped with the new Al-Foss spinner, one in a tin box.

C886G1 .....each $0.75

PACKED ONE DOZEN

Al-Foss Pork Rind Minnows

Jazz Wiggler

It has the lowest center of gravity of any weighted hook ever made and positively cannot turn over.

It has a minimum amount of air resistance, and casts easily.

Nothing movable but the self-clearing spinner and is more "weedless" than any of the so-called weedless baits, yet has no wire guard to ward off the strike, one on a card.

Size 5/0 hook, w't ⅛ oz.

C39G1 .....each $0.50

Size 3/0 hook, w't ⅛ oz.

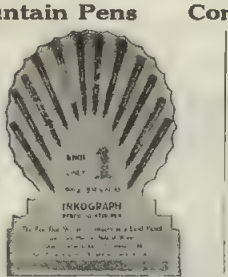
Fountain Pens



"Inkograph," the Pencil Pointed Fountain Pen. Instead of having a pen point like the average pen, the "Inkograph" uses the principle of the lead pencil in shaping the actual writing section. This section is made of hard rubber and has a specially weighted writing point. Your pen begins to write the minute you touch the paper. No waiting. No shaking of the pen. The pen barrels are made of unbreakable material in Black and White, Onyx, Jade Green, Black and Gold, Black, and are mounted one dozen assorted on display card. **Thousands of "Inkographs" have been sold at 2.50.** Out for the first time at the price quoted below.

No. 658205. Per dozen..... 7.84

Combination Pen-Pencils

WAHL'S NEW OXFORD PEN

The Wahl Co. have long felt that there was a demand for a low priced fountain pen. In order to reach this market they have put out a pen that is far superior to anything made to retail at the price these are intended to be sold at.

The pens are all precision fitted with 14K solid gold pen points, iridium tipped, by the same skilled pen men who assemble their better line. The barrels are of unbreakable material in colors which have proven to be the most popular in their line. Black and White, Burgundy, and a Foliage Green. Narrow bands are inlaid in the caps.

A striking display stand holds one dozen pens. Four each of the three colors are mounted on the stand.

No. 6785O5. Per dozen..... 7.80

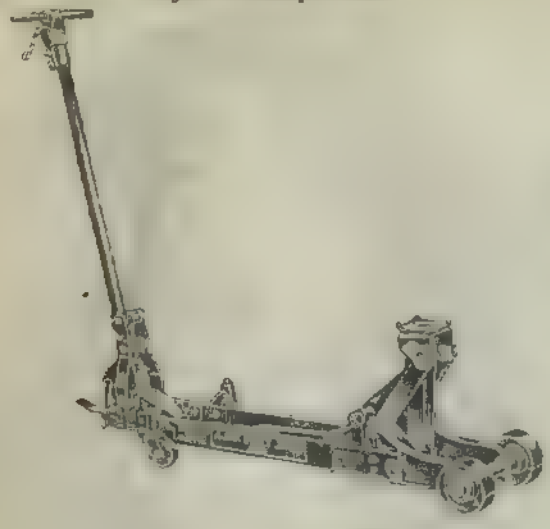
Ajax Dolly Jack



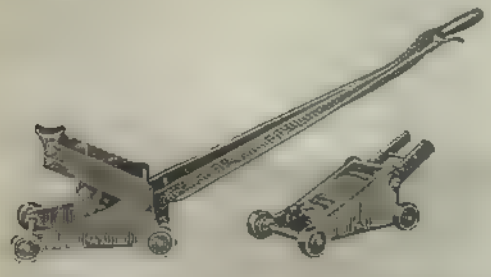
Low Cost—Big Value

No Shop or Service Station Can Afford Not to Have It

For lifting and moving cars the Ajax Dolly Jack meets every demand. It is built with ample over capacity for safety and to stand hard service. The frame is of heavy steel. Long low chassis permitting you to get under any car. The lowest height is only 5 in. with a rise of 12 in., or a total height of 17 in. The handle stroke is only 20 in. The hardened steel cap takes a firm grip and does not slip. It swivels on a substantial bearing. Roller bearings in front wheels make it easy to handle the jack when in use. Handle may be folded down when not in use. Handle is automatically thrown out of reverse when lever is released and cannot whip. Jack has capacity of 4,000 lbs., sufficient for raising either end of any passenger car. The w't of jack complete, 123 lbs.

F3030P1 .....each **$35.00★**

Marquette Super Service Hydraulic Jack

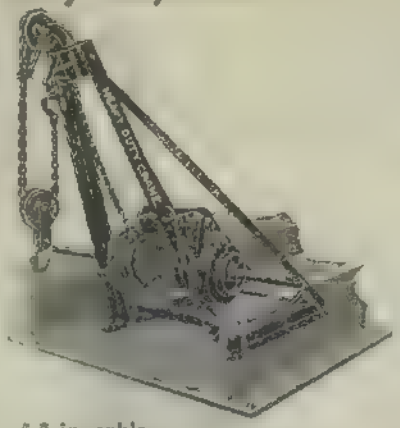


For quick, easy operation this jack has no equal. It is indispensible for tire changing, car washing, wheel aligning, brake lining, etc The powerful hydraulic action raises with few strokes and little effort. The handle goes under bumpers and other obstructions on the car without trouble. The cap is large and well formed. Any length of stroke can be used to raise load. To lower just open the release valve. Low height of this jack is 4¾ in.—with lift 11¼ in. Total height 16 in. Capacity 8,500 lbs., weighing itself 90 lbs.

FJ3300P1 .....each **$41.00★**

Marquette Heavy Duty Crane

Eleven Points of Superiority:



1. A full swivel head that permits a pull from any angle.
2. A clevis for attaching guy line.
3. No extra winch needed. Chain can be dropped through the head, permitting a direct pull from the drum.
4. Extra heavy steel construction assures absolute safety. A 3½ ton Crane.
5. 50 feet of BBB Chain furnished. Drum capable of holding 250 feet of ⅜ in. cable.
6. Full floating roller bearing winch with all gears enclosed.
7. Two speed drum—high and low. High speed for unspooling chain. Low speed for actually lifting or pulling load.
8. 12 teeth in mesh at all times. No breakage of teeth and consequent dropping of load.
9. Boom adjustable to four positions. Easily handled by one man. Chain can be hooked to back frame spacer and tightened by turning crank. Remove bolts and boom can be raised or lowered to any position.
10. Positive lock on drum prohibits load from slipping or dropping when being raised or towed
11. Easily operated on either side from the ground.

Length of base 42 in., width of base 32 in., vertical height of boom in upright position 61½ in., vertical height of boom in lowest position 30½ in., height of winch from base of crane 16 in., length of crank shaft 60 in., lifting cap 3½ tons, shippng w't 410 lbs.

F975P1 .....each **$125 00★**

Auto Creepers

Built of hardwood lumber. Fastened together with cement coated nails making it very rigid. Equipped with upholstered leatherette head rest and tool racks.

Creeper is 23x36 in., mounted on heavy steel swivel type casters. Finished in weathered oak stain, w't each 8 lbs.

C348P1 .....each **$2 00**

LOOSE

Under-Slung

All steel, sag proof, under-slung steel creeper. Low enough to get under any running board. Only 7 in. from floor, yet it is strong, with one piece angle iron frame and wide head rest, ball bearing steel casters. Has new leg rest feature. Length 39½ in., width 15½ in., height from floor 4 in., shipping w't 18 lbs.

C349P1 .....each **$5.00**

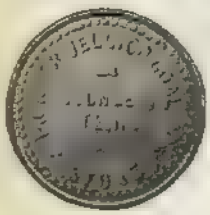
Aluminum Trade Checks



These Round Trade Checks are made of thick, non-corroding aluminum.

Prices quoted are for checks with name and address on one side, and a stock lettering die (GOOD FOR AMOUNT IN TRADE) or (GOOD FOR AMOUNT IN MERCHANDISE) is used on the reverse side in the various denominations.

Checks will not be made for any stated amount unless the wording **"In Trade"** or **"In Merchandise"** also appears on same side as the denomination. There is trade-pulling power in these trade checks, as they have proved a sure means of repeated sales and bringing back customers to merchants who issue them.

Above illustrations are actual size of the different denominations

		Per 100	Per 200	Per 300	Per 500	Per 1000

INDIVIDUAL SALAD FORK

MADE IN THE WORLD'S LARGEST STERLING SILVER MANUFACTORY

Al-Foss Pork Rind Minnows
Dixie Wiggler

Nickel plated, w't ⅛ oz., with a size 3/0 detachable hook, and a red bucktail. In designing the Dixie Wiggler, the weed problem was solved by providing a spinner that cuts its way through the weeds, making a clear passage for the hook, one in a tin box.

C887G1 .....each **$1.00**

PACKED ONE DOZEN

We can also furnish from factory only the following bucktails: White, Yellow, Orange, Brown, Black, and Purple.

Oriental Wiggler

Made of celluloid pyralin with a hand forged hook, w't ¼ oz., hook detachable, one in a tin box.

Size 1/0 Hook

C889G1—Yellow and white.....each **$1.00**
C879G1—Black and white.....each **1.00**

Size 3/0 Hook

C430G1—Red and white.....each **$1.00**
C431G1—Black and white.....each **1.00**

PACKED ONE DOZEN

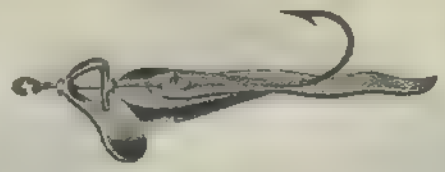
New Egypt Wiggler

Nickel plated, with a size 3/0 detachable hook, w't ¼ oz., equipped with the new Al-Foss spinner, one in a tin box.

C886G1 .....each **$0.75**

PACKED ONE DOZEN

Al-Foss Pork Rind Minnows



Jazz Wiggler

It has the lowest center of gravity of any weighted hook ever made and positively cannot turn over.

It has a minimum amount of air resistance, and casts easily.

Nothing movable but the self-clearing spinner and is more "weedless" than any of the so-called weedless baits, yet has no wire guard to ward off the strike, one on a card.

Size 5/0 hook, w't ⅜ oz.

C39G1 .....each **$0.50**

Size 3/0 hook, w't ¼ oz.

C40G1 .....each **$0.50**

PACKED ONE DOZEN

Al-Foss Shimmy Wigglers

With plain eyed hook and regular Al. Foss pork rind, with each bait an extra fish hook is packed. Any ringed fly of any size can be attached.

Size 1/0 hook, assorted Red Ibis and Parmachene Belle flies, w't ¼ oz.

C530G1 .....each **$1.00**

Size 3/0 hook, assorted Red Ibis and Parmachene Belle flies, w't ⅜ oz.

C730G1 .....each **$1.00**

PACKED ONE DOZEN

Musky Oriental Wiggler

Re-enforced and strengthened to use on Muscallunge, Tarpon, Tuna and all large salt water fishes.

Equipped with No. 5/0 hook, but other hooks can be readily attached, hook is anchored to body at eye and midway of shank, reducing breaking of hook to a minimum, spinner shaft made of phosphor bronze and anchored (not screwed) into body of lure, w't ⅜ oz.

C830G1 .....each **$1.00**

PACKED ONE DOZEN

"Gee Wiz" Rubber Frog Lure

With a life-like action. A jerk makes it kick and that gets them quick. Mounted with 5/0 sprout hook equipped with line and swivel. Natural green frog color.

Large size, 5¾ in. long.

C123G1 .....each **$1.25**

Small size, 4¾ in. long.

C124G1 .....each **$1.25**

ONE IN A BOX

Phantom Minnows

Made of extra strong waterproof rubber cloth, made especially for their manufacture. Blended with oil colors, guaranteed not to crack, peel or fade. Silver leaf overail. Mounted on gut shafts and gangs, with treble hooks, bronzed. One in a box.

Size	2	3
Length of body, in.	2¾	3
Treble hooks, for side gangs, size	10	6
Treble hooks, for tail gangs, size	8	8
C159G1 .....each	**$0.50**	**.50**

Treble hooks, for side gangs, size	6	[illegible]
Treble hooks, for tail gangs, size	4	[illegible]
C159G1 .....each	**$0.60**	**.60**

Size	6	7
Length of body, in.	4	[illegible]
Treble hooks, for side gangs, size	4	2
Treble hooks, for tail gangs, size	2	1
C159G1 .....each	**$0.75**	**.75**

PACKED ONE DOZEN

Arbogast Weedless Kicker

Frog, fly and minnow all jazzed up in one mangled, struggling lure. Tail spinner same as on Tin Liz, put some kick in the feather legs. Has action, color and flash and just naturally slays Bass and Pike. W't each ⅛ oz.

Six baits on a very attractive display card with six empty boxes for use when sold by dealer.

C640G1—Card of 6 baits.....bait $0.75

Arbogast Weedless "Tin Liz" Baits

Cast this bait right into lily pads and see how it wiggles through and lands your fish

Point of guard must be kept just below point of hook.

Molded of bright, rustless metal, with every detail perfect. Most realistic crippled minnow made. Real mouth, gills, fins and shimng scales irridescent green and silver. Real crippled action as she flutters and wobbles along on her side. Real swimming flash and vibration of novel tail spinner. Furnished with a simple but very effective weed guard, w't ⅛ oz.

Two colors, three silver and red head and three silver on a very attractive display card with six empty boxes for use when sold by dealer.

C630G1—Card of 6 baits...each bait $0.75

Arbogast "Tin Liz" Baits

Molded of bright, rustless metal, with every detail perfect. Most realistic crippled minow made. Real mouth, gills, fins, and shining scales irridescent green and silver.

Real crippled action as she flutters and wobbles along on her side. Real swimming flash and vibration of novel tail spinner.

All game fish pick on this poor, lil' cripple and that single hook just naturally slays 'em. Hook is the best posible design and, reaching up from that flat supporting body, grabs every fair strike. Record of 51 large mouth bass landed, without a miss.

Color, Red Side Chub. W't ⅛ oz.

C610G1 .....each $0.75

ONE IN A BOX

Arbogast Weedless Sun Fish "Tin Liz" Baits

The sun fish is a sure hooker. Molded of bright, rustless metal with every detail perfect. Most realistic sun fish minnow made. Furnished with a simple but very effective weed guard. W't ⅛ oz. each. Put up 6 baits on a very attractive display card with six empty boxes for use when sold by the dealer.

C620G1—Card of 6 baits.....each $0.75

Shoff's Mice

A new floating fly rod lure, an absolute fish getter, especially good for catching bass, pike, pickerel, muskies, and trout. It is so very life-life that it resembles perfectly the live mouse itself.

Large, size 3/0 hook.

C303G1—Lots of ¼ dz.....each $0.75

Small, size 1/0 hook.

C301G1—Lots of ¼ dz.....each $0.75

Musky Mouse, size 6/0 hook.

C307G1—Lots of ¼ dz.....each $1.00

ONE IN A BOX

Large Weedless Mouse, size 3/0 hook.

C309G1—Lots of ¼ dz.....each $0.90

ONE IN A BOX

Casting

Weighted for casting. They also float and are weedless. Made in two sizes.

For Bass. Size 4/0 hook, w't each ⅛ oz.

C304G1—Lots of ¼ dz.....each $1.00

For Muskies. Size 6/0 hook, w't each ⅛ oz.

C306G1—Lots of ¼ dz.....each $1.00

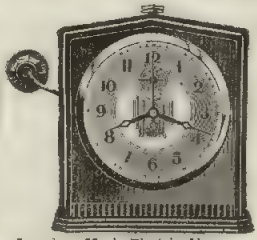
Furnished for 60 cycles—110 to 120 A. C. Current

Electric Alarm Clock. Seamless brass case, enamel lacquered black finish with nickel trimming, metal dial, sweep second hand, convex glass, back shut-off switch, 4-inch dial, dependable synchronous type manual starting motor. Height, 4½ inches; width, 4 inches.

No. 60W855. Each..... 1.25

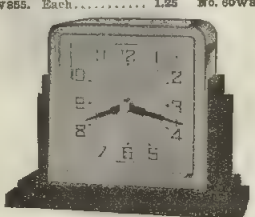


Ingraham Magic Electric Alarm Clock. Die cast case, lacquered black enamel finish, 3½-inch silver finish metal dial, stem shut-off, reliable synchronous manual starting motor with sweep second hand. Height, 6¼ inches; width, 5¼ inches.

No. 60W833. Each..... 1.35

Paris Electric Alarm. Moulded case of attractive design, 3¼ inch dial; height, 5⅛ inches; width, 3⅝ inches. Each in beautiful gift box. A real quality clock, guaranteed by makers of the Hammond Bichronous Electric Clock.

No. 60W765. Each..... 1.86



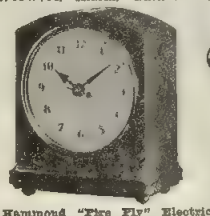
Gilbert Electric Clock. Metal case of modernistic design, chromium plated case with base and side pieces finished in black. Two-tone metal dial with embossed numerals, and modernistic hands. Height, 5¾ inches, width at base, 6⅛ inches. Fitted with manual starting electric motor.

No. 60W763. Time. Each..... 2.33

No. 60W764. Alarm. Each..... 2.60

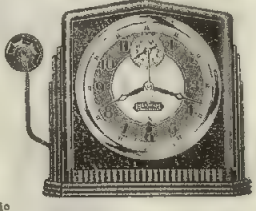
Gilbert Mimeola Electric Alarm Clock. A miniature tambour clock of unusual graceful design in a new modern finish. Jet black base and side brackets are in pleasing contrast to the chromium finish case, attractive buff dial, modernistic hands, unbreakable convex glass, guaranteed synchronous type manual starting motor. Height, 4½ inches; width, 10 inches.

No. 60W856. Each..... 2.13



Hammond "Fire Fly" Electric Alarm, with illuminated dial Moulded case. Height, 4¾ inches; width 4 inches. Dial is translucent and is lighted from behind by a miniature 2½-volt lamp. A switch for turning light on or off is located in rear of clock. A genuine Hammond Clock.

No. 60W766. Each 2.91



Ingraham Electric Alarm Clock. Genuine solid mahogany case, 3½-inch silver plated dial, gold sash, guaranteed synchronous self starting motor, bell alarm. Height, 6⅝ inches; width, 5⅝ inches.

No. 60W834. Each 3.00

Hammond De Luxe Firefly Alarm, illuminated dial is available in three striking color combinations—ivory with gold finish feet and top ornament, green with gold finish ornaments and black with chromium plated fittings. The colored cases are made of plascon and the black one is a special double dyed black bakelite. Height, 5⅝ inches, dial 3 inches; weight, 2 lbs.

No. 60W898. Black.
No. 60W899. Green.
No. 60W900. Ivory.

Banjo Clocks

Spring Wind and Electric

Banjo Clock. Molded composition case, bird design in assorted color finishes. Gold, green and rose. Height 16¼ inches, width 5½ inches. Fitted with 30-hour movement fully guaranteed.

No. 60W575. Each .95

Artcraft Banjo Clock. Molded composition case with conventional border and flower basket design. Finished in green lacquer and trimmed with red and gold, 30-hour movement fully guaranteed, with green dial to match case. Height 19 inches, width 6¼ inches.

No. 60W516. Each..... 1.50

Gilbert Banjo Clock. Green pearl finish, 40-hour lever movement, time only, 5½-inch sash with silvered dial, polished brass side rails, sash, and eagle, length 23½ inches.

No. 60W694. Each..... 2.33

Electric Clock same as above with synchronous type manual starting motor.

No. 60W858. Each..... 2.95

New Haven Whitney Eight Day Banjo Clock. Mahogany finish case, 6-inch silver dial, attractive side ornaments and eagle, eight day pendulum movement, two-tone duo rod strike, height 30½ inches, width 9½ inches.

No. 60W349. Each.... 11.12

New Haven Whitney Electric Strike Clock, same as above, with synchronous type manual starting motor.

No. 60W787. Each.... 11.14

New Haven Banjo No. 2 Eight Day Clock. Mahogany finish case, polished brass sash with side ornaments and eagle to match, eight day lever time movement, 6-inch metal dial, glass panel with marine view in colors, length 24½ inches, width 7⅝ inches.

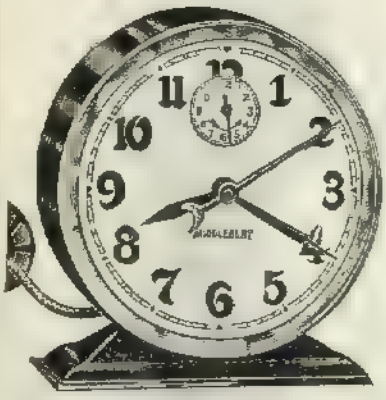
No. 60W423. Eight day time. Each 4.78

New Haven Banjo No. 2 Electric Clock, same as above, with synchronous type manual starting motor.

No. 60W535. Each..... 5.48

Electric Alarm Clocks

Furnished for 60 cycles—110 to 120 A. C. Current



Electric Alarm Clock. Seamless brass case, enamel lacquered black finish with nickel trimming, metal dial, sweep second hand, convex glass, back shut-off switch, 4-inch dial, dependable synchronous type manual starting motor. Height, 4½ inches; width, 4 inches.

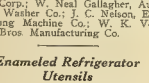
Washing Machine Manufacturers Elected

Edward N. Hurley, Jr., was re-elected for the fourth consecutive year as president of the American Washing Machine Manufacturers' Assn. at its recent Chicago annual meeting.

Other officers of the Association include the following: Vice presidents, A. H. Peters, Horton Manufacturing Co.; I. N. Merritt, Grinnell Washing Machine Co.; executive secretary, J. R. Bohnen; treasurer, William H. Voss, Voss Bros. Manufacturing Co.; assistant treasurer, Walter K. Voss, Voss Bros. Manufacturing Co. Executive board, Silas H. Altorfer Altorfer Bros. Co., T. W. Behan, Nineteen Hundred Corp.; W. Neal Gallagher, Automatic Washer Co.; J. C. Nelson, Easy Washing Machine Co.; W. K. Voss, Voss Bros. Manufacturing Co.

Enameled Refrigerator Utensils

A refrigerator dish set of three pieces and a vegetable storage pan of triple coated enamel, white with black trim, have been added to the line of The Voll-



rath Co., especially for convement use in connection with mechanical refrigeration.

Set No. 268 includes a large dish 8¾ by 7 by 2¾ inches and two smaller dishes 6 by 3½ by 2¾ inches which nest in the larger one for convenient storage.

The set is packed in an individual container, six sets in a carton. Storage pan No 5 is especially for celery, lettuce, ranishes and is 12¼ by 7⅜ by 4 inches

Mixmaster Improvements

Two new improvements are announced as applying to the new Mixmaster No 2 by the Chicago Flexible Shaft Co. The new model is non radio interfering and it also has been made detachable, so that the beater may be used at the stove for mashing potatoes, or to beat boiled frostings while they cook. The No. 2 model sells to the user for $19.50, and $20.25 west of Denver. Model No. 1 will continue to be supplied at the regular list of $18.75, $19.50 west of Denver.

The Caven Hardware Store at Gering, Nebraska, added a grocery department

New Coleman Lamp Retails for Only $5.95

A new model Quick-Lite lamp to retail for $5.95, and equipped with heat-resisting frosted glass globe to protect mantles from flying insects, is announced by the Coleman Lamp and Stove Co., manufacturers of gasoline household appliances.

It is anticipated that this lamp will be an unusually good Summer selling item for use either indoors or outdoors. In fact, this glass globe and fitter with which this new model Quick-Lite lamp is equipped can be used on any current models of Coleman lamps.

A new and attractive parchment shade is also offered for use with the glass globe which protects the shade from the heat of mantles. Descriptive literature and dealer prices on these new Coleman items will be furnished on request

Bottle Capper Patent Valid

The Everedy Co. of Frederick, Maryland, announces that its patent on the so-called double seal thread in the name of H. J. Lebherz, has been held valid by a decision of the District Court of the Northern District of Ohio on the basic patent on hand crowner for applying crown caps to bottles and also the patent on the bottle capping throat.

New Jug Numbers Shown

E. J Rouch, western branch manager of Hemp & Co., is showing the new spring line of the company. He states there have been several additions to their jug line this year. A very attractive half-gallon jug, in two sizes, liquid and food, is receiving attention. There is in the cheaper line a special gallon and two-gallon faucet jug. This competitively priced jug is in addition to their de luxe quality numbers. There is also a new 42-ounce or three-pint jug being shown

T. H. Tilley, recently of Lamar, has taken charge of the White Hardware Co. of Alamosa, succeeding C. C. Wortman who has been temporary manager since the former Heilman Seaberg Co. was taken over by the White interests. R. E. White also has stores at Lamar and other points in addition to the Alamosa store

Jack and E. F. McCarty and Earl Brown, proprietors, have moved the Snyder (Texas) Hardware & Implement Co. to new quarters in the business center of the town

New Type Sponge Combines Price and Quality Appeals

Feeling that dealers have had their fill of selling sponges with "eye-appeal" and very little else to commend them, a large distributor of sponges has launch-

ed a new type of reinforced sponge designed to win back the public's confidence. By an exclusive manufacturing process, it is made up to reinforce and reform odd shaped sponges of high grade, genuine sheepswool into a uniform desirable shape.

This production method is said to make possible soft, pliable, tough, high quality sponges which can be retailed at 25, 35 and 50 cents—substantially lower than the present price for a sponge of equal utility.

Oldest Washing Machine Contest Features Appliance Sales Drive

Travis and Yowell at Bremerton, Washington are carrying on an intensive campaign for the sale of washing machines and electrical household appliances. The firm is holding a county-wide contest to find the oldest electrical or gasoline power washing machine. A prize of a Gloritone radio is offered to the owner of the oldest machine. No conditions are attached and anyone may enter.

The contest is being made a feature of the company's advertising and also offers a talking point to Vernon L. Conyers, who recently joined the store's sales force.

The business of J. M. Stiver at Huron, South Dakota was gutted by fire with the complete destruction of the stock estimated at $19,000 Mr. Stiver had been in business at Huron for 50 years.

D. G. Vick has moved his hardware stock at Graham, Texas, into a new building especially erected for him.

Carl J. Kuch, proprietor of a hardware store at Williamsburg, Iowa, has purchased the business of the late Frank Slaboch in Tama, Iowa, and will operate both stores.

The Carlson Hardware has purchased the former stock of G. J. Olson at Soldier, Iowa.

The Eversole hardware store at Lowry City, Missouri, suffered fire damage from a burning roof.

Mr and Mrs. Basil W. Duke have moved their store at San Leandro into larger quarters at 1415 East 14th St.

Electric Roaster Developed

An electric roaster built on the same principles as the new electric casserole is announced by the National Enameling and Stamping Co. It is oval in shape and will accommodate a 10-lb. ham, a 6-lb. chicken or a complete family dinner.

The cooking well and cover are seamless steel, porcelain enameled. Body, base and handles are of baked Japan in combination of ivory and brown, and ivory and green. Sides and bottom are insulated with mineral wool fibre. In addition to heating units on the sides, the bottom of the cooking well is also heated

An enamel cooking set of three pieces can be used in the Nesco roaster at one time. A baking set of six pieces is also supplied for baking cakes, biscuits bread and pies.

Flexible Metal Ice Tray

A new type flexible metal ice tray for mechanical refrigeration is announced. A simple flexing of the tray separates the cubes and the ice is freed and ejected by means of the wedging action exerted by the tapered sides of the tray One cube or the entire contents may then be removed. Pressure applied to the sides of any cube section permits removal of individual cubes. It is not necessary to hold the tray under water and there is no waste of ice by melting

This new tray is made from tempered stainless steel with a mirror-like finish, which resists corrosion indefinitely. Trays are single row sections, two or three being required to replace one of the ordinary types of trays. It is only necessary to remove one or more sections as required, and the ice supply is conserved, kept dry and ready for use. Each section will retail for about 50 cents

This tray is the invention of Guy L. Tinkham, vice president of the General Utilities Mfg. Co., a McCord subsidiary, which manufactures washing machines and other household appliances.

W. E. Hooper, manager of the former Bayshore Hardware Co., of La Porte, Texas is opening Hooper's Hardware with a new stock and in a new location

---

W. T. Porter has moved his stock from Petrolia, Texas, to Byers and is occupying quarters formerly occupied by the Byers Hardware Co.

The McNeel Hardware store at North Platte, Nebraska, has moved to new quarters in the Zents Building.

Penetrating Floor Varnish Applied With Mop

A new penetrating floor varnish is announced, said to seal wood against absorption of moisture and to penetrate the surface and become an actual part of the wood floor, is announced by the Cromar Co. as their new product, Tone-Phlex.

It is claimed by the manufacturer that the new varnish can be successfully used on all wood surfaces, including interior and exterior trim; porch, lawn and interior furniture; floors; terrazzo; linoleum; cork; and magnesite floors and that it can be applied to oiled surfaces. It is said to go into the pores of the wood and bind the fibres together, drying hard.

Further it is claimed not to scrape off, flake, scratch or mar. It requires no steel wooling and is not slippery or sticky

In application either a clean cloth, mop or brush is used to flow a coat over the surface. When penetration is complete and before the finish becomes tacky any surplus is wiped off. Additional coats are applied at eight-hour intervals and its coverage is from 700 to 1,000 square feet per gallon. As is, it produces from a natural mellow to a golden brown color and to obtain other shades one pint of pigment oil stain to a gallon of Tone Phlex is recommended

The Cromar Co. have been established for 14 years as makers of factory finished oak flooring and the new addition to their line is the result of their experience in finishing floors, especially for office buildings, schools and institutions as well as homes.

New Camera Mail Box

The design of the newly announced No. 85 camera mail box closely resembles a pocket camera. A generous letter slot and gravity top hinge door are moulded into the design without disturbing its attractiveness. It is finished in semi-gloss black

It has been the purpose of the manufacturers that the prosaic in mail box design be thrown aside and this necessary part of home equipment brought out in the pattern of the modern vogue. Because very moderately priced, this new mail box has been planned to be especially adapted to the prevailing demand. It can retail for as low as 25 cents.

Head Bros. hardware and furniture store at Springdale, Arkansas, has been moved to a new and more advantageous location.

Steve Rorvig and N. M. Evers have purchased the stock and fixtures of the former Hammer-Thingelstad hardware store at Binford, North Dakota, and will re-open as the Binford Hardware Co.

The Fortuna Hardware & Plumbing Co. is remodeling its building and store front to give additional display windows.

New Food Mixer Attachments

New attachments developed and announced for the Hamilton Beach Model B food mixer, include potato peeler, coffee grinder, slicer and shredder, meat grinder and chopper and power unit.

The potato peeler removes peels by the abrasion method and may be used on the sink, drainboard or kitchen chair It peels from eight to ten potatoes at once and is ivory enameled finish. It retails for $7 in the central sections and $7.50 in the West.

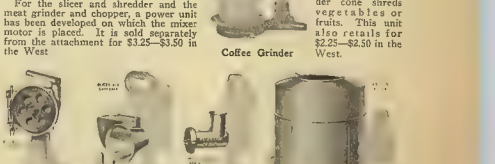
The coffee grinder sets on the motor where the extractor lifts off and has a clutch drive. It is adjustable and grinds from coarse to vacuum or drip grind. It retails for $2.25 and $2.50 in the West.

For the slicer and shredder and the meat grinder and chopper, a power unit has been developed on which the mixer motor is placed. It is sold separately from the attachment for $3.25—$3.50 in the West

The meat grinder and chopper has an inside cutter and also a coarse plate and two cutters for chopping vegetables. It is used with the power unit and retails for $2.25—$2.50 in the West.

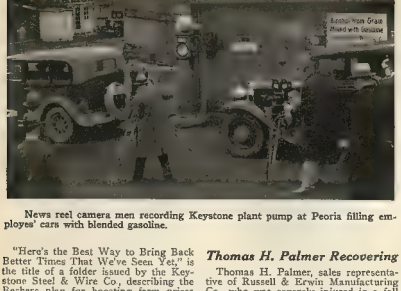
Coffee Grinder

On the slicer and shredder a slicer cone with six knives revolves to slice vegetables and fruits Or a shredder cone shreds vegetables or fruits. This unit also retails for $2.25—$2.50 in the West.



Power Unit Slicer-Shredder Meat Grinder Potato Peeler

Folder Describes Beshers Blended Gasoline Plan



News reel camera men recording Keystone plant pump at Peoria filling employes' cars with blended gasoline.

"Here's the Best Way to Bring Back Better Times That We've Seen Yet," is the title of a folder issued by the Keystone Steel & Wire Co., describing the Beshers plan for boosting farm prices by using up surplus crops. In brief, the plan provides for legislation that liquid fuel used in internal combustion engines shall be blended with a given percentage of alcohol, made from agricultural products grown within continental United States.

Keystone engineers have themselves conducted road tests to prove the practicability of the plan and also that the same number of miles per gallon can be obtained with a ten per cent ethyl alcohol-blend as when using unblended gasoline. It is held that if all gasoline sold had a ten per cent ethyl alcohol content a market for 1,700,000,000 gallons of alcohol or 680,000,000 bushels of corn would be created. This is equivalent to 750,000,000 bushels of wheat or about one-fourth of the corn crop and more than seven-eighths of the wheat crop.

The Redmond (Oregon) Hardware Co. helped to observe "Swift Day" in its community with a special sale of hardware and farm implements.

Thomas H. Palmer Recovering

Thomas H. Palmer, sales representative of Russell & Erwin Manufacturing Co., who was severely injured in a fall several months ago, has returned to business activity and is recovering from his painful and dangerous injury.

With characteristic light heartedness and buoyancy of spirit, Mr. Palmer makes light of his close call and is learning to move more slowly and humor his injured vertabrae and turn his neck and shoulders more gradually. He is at his San Francisco office part of the time and his friends and customers have co-operated heartily with him and with the company during the period of his absence and is painful experience.

The Lang Hardware Co. of South Tacoma won a cash prize from the General Electric Co. for the greatest increase of the sale of electric lamps last October and November.

The business of John Stock Sons Co. at San Jose, founded by John Stock in 1852, is retiring after 81 years of continuous operation in one family.

Creates National Market for Hook Scrapers

Abrahamsen & Skarsten are patentees and manufacturers of the hook scraper, a popular tool for painters, finishers and householders.

Alfred W. Abrahamsen is a machinist and mechanic and had become a floor scraping contractor. He appreciated the need for the device in his latter capacity, and from his machinist training he developed the hook scraper.

Anders Skarsten

With Anders Skarsten, a young cabinet maker and successful building contractor in 1928 he organized the Hook Scraper Co., at Queens Village, New York, and proceeded to put the device on the market.

Both are practical men who can jump in and demonstrate the use of their device. Both hold the high standards of craftsmen who only respect a tool that can stand up under use; they have maintained quality and have spread enthusiasm and interest. A sales arrangement has been made whereby John H. Graham & Co. are sales agents, not only for the United States but internationally.

Mr. Skarsten devotes his entire time to securing more intensive distribution and has been unusually successful in operating crews of demonstrators in connection with the paint and hardware trades. Thus the device is introduced in leading stores and steady repeat sales on removable cutters and new blades are created.

Figure of Huntsman in Motion Features Exhibit

The center focal point of this sales exhibit of Remington products was the head and figure of a huntsman, seen in the picture just under the letters OR above. This sportsman figure was a full sized wax model dressed in hunting coat. In the huntsman's hand a gun was poised.

An oscillating fan was mechanically connected so that the entire figure of the hunter with his gun pivoted back and forth, figuratively sweeping the horizon and greeting visitors from all sides.

This ingenious moving figure was invented and installed by the ever energetic Bill Shreve, who is seen standing to the left under the big K. Between him and his robot is seen Pat Lonergan, the company's special cutlery expert (under the letters EA). The assortment of Remington cutlery, guns and ammunition, samples of promotional literature and posters and the general arrangement are typical of Remington enterprise and the completeness of the line. This exhibit was arranged by Bill Shreve at a recent California convention.

"Workshop" Tool Sharpener

A portable power grinder with genuine Carborundum brand wheel, one and one-half inches wide, and with fine hone grit side, is included in the new line of Workshop tool sharpeners announced by the Luther Grinder & Tool Co. of Milwaukee.

Included in the new line are four, five and six-inch wheel sharpeners, operating from belt or hand crank with swivel base and pulley groove for V belt.

This is a quality sharpener, with refinements of construction and design. Extra equipment includes twist drill and plain bit sharpening attachment and wire wheel, buffing wheel and chuck. The list prices on the three sharpeners are $4.90, $5.60 and $7.70 respectively.

One-Man Wire Stretcher

A one-man wire stretcher has been developed by Rein Leitzke for either plain or barbed wire. The point is placed against the post, or the concaved point

is slid around the post for pulling the wire. The harder the pull, the tighter the jaws will grip. The device lists for $1.25 and is said to be unbreakable.

Bushnell and Rayner to Distribute Fada Radio

H. A. Rayner has again joined forces with L. H. Bushnell and the partners have resumed their old team name of Bushnell & Rayner. Headquarters have been established at 505-6 Pacific Building, Oakland, and the major effort of the combination will be devoted to distributing Fada radios in northern California.

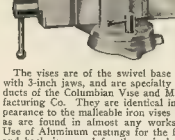
The Al Smith Hardware store has moved to a new location at Gridley, with implement warehouse in another location.

The Lustig Furniture & Hardware Co., the Palmtag Hardware Co., and the Roberts Implement Co. have joined a credit association movement at Hayward to put the business community on a cash basis.

A press report states that the St. John (Oregon) Hardware Co. was cleaned out of a stock of "specials" at the last annual nine-cent sale.

Aluminum Vises for the U. S. S. Macon

When the Navy's newest airship, the U. S. S. Macon, takes to the air, she will carry as part of her repair equipment, three light aluminum alloy machinist vises, said to be equivalent to steel vises in efficiency but weighing only a fraction as much.



The vises are of the swivel base type with 3-inch jaws, and are specialty products of the Columbian Vise and Manufacturing Co. They are identical in appearance to the malleable iron vises such as are found in almost any workshop. Use of Aluminum castings for the front and back jaws and for the swivel base reduce the weight of these vises to 12 lbs. each, as contrasted with approximately 30 lbs. for an ordinary vise.

The high-flying vises are further equipped with heat-treated, tool steel jaw faces, cold rolled steel screw and handle, malleable iron nut and swivel lock bolt. A steel washer separates the halves of the swivel base to prevent excessive wear, and a steel thrust washer is used on the main screw for the same purpose.

Webbing Strap Leader

The U.T.K. combination four-way-one-way book strap, with patented buckle and brightly colored eye appeal strap, is one of the long line of webbing straps made by the Sturges Manufacturing Co., Inc., and sold by Harvey M. Shoemaker, sales representative in the West for the past seven years.

U.T.K. utility straps come boxed individually in a gaily lithographed box, in a striking counter display carton, making them self sellers. Included are skate straps, utility straps for bed rolls, canteens, etc., with various types of snaps and buckles.

The line is handled through such jobbers as: Union Hardware & Metal Co.; Dunham, Carrigan & Hayden Co.; Thomson-Diggs Co.; Marshall-Wells Co.; Salt Lake Hardware Co.; and Hendrie & Bolthoff Co., Denver

H. B. Rice has reopened the former Rice-Hutchins-Keeling Co., at Marlin Texas and is now sole proprietor.

The Garden County Lumber Co. at Oshkosh, Nebraska, has opened a complete hardware store including kitchen and shelf hardware in connection with its lumber yard. B. E. Robinson is the manager.

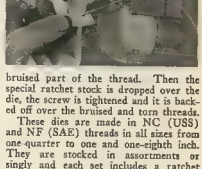
W. B Allen has opened a hardware and implement business at Byers, Texas, where he is handling the McCormick-Deering line.

Re-Threading Die Set

A new line of "Slip-On" re-threading dies with ratchet stock for repairing damaged threads is announced by the Greenfield Tap and Die Corp.

The manufacturer states that the new set will pay for itself in saved time in a garage or machine shop, and in addition will salvage costly parts which previously had to be discarded.

Resembling an ordinary round die cut in two halves, the two pieces are held together by a flat spring on the side of the die. The two halves are pulled apart and the die is split over the clean, un-



bruised part of the thread. Then the special ratchet stock is dropped over the die, the screw is tightened and it is backed off over the bruised and torn threads.

These dies are made in NC (USS) and NF (SAE) threads in all sizes from one-quarter to one and one-eighth inch. They are stocked in assortments or singly and each set includes a ratchet stock which can also be used to hold any round die two inches in diameter.

Credit to the Lenfestys

In an item appearing last month, through a misunderstanding, proper differentiation was not made with reference to the founder of the Lenfesty Hardware Co. of Walla Walla

Charles D. Lenfesty was founder of this store in 1909. He was a native of Marion, Indiana, 63 years ago and was first on the Pacific Coast in 1902, when he sold Home Comfort steel ranges in California from a wagon. For four years he covered the Pacific Coast in the same capacity, and then for three years he was with the Andrews Hardware Co. at Walla Walla before establishing his own business

His initial capital was only $450 with additional credit from the Seattle Hardware Co., and the business has grown and developed from this modest start.

R. C. Lenfesty is now associated in the business and has relieved the founder and original proprietor of many of the responsibilities and details in connection with the active management.

The Schaefer-Hitchcock Co., hardware merchants at Sandpoint, Idaho, recently were awarded the $10,000.00 contract for hardware on a new county bridge across the Pend d'Oreille River.

C. E. Hammond has opened a hardware and auto parts store at Colorado, Texas, with a complete line of shelf and heavy hardware, farm implements and motor car parts.

Prospector's Pick and Handle in One Piece

A special pick for prospectors, geologists and mining students has its steel head and handle forged of one-piece pick steel. The grip is of sole leather washers.

The maker guarantees with free replacement that the entire handle will not break, loosen or splinter until the head is worn out. The point can be dressed and retempered without injury to the handle, by merely wrapping a wet rag around the grip.

The tool is recommended to sell to the consumer for $2.75 in the high polish and $2.25 in velvet black.

The Watsonville Hardware Co. is being moved to a new location at 439 Main St. Grover Cottrell is president of this concern which succeeds the former Pajaro Valley Mercantile Co.

Complete modernization of the store has been made at Dutcher's, Livermore, under the direction of N. D. Dutcher, Jr.

The Motley (Minnesota) hardware store, operated by H. E. Thomson and Sons, was burned to the ground.

J. I. Gray, implement man at Gilroy handling the John Deere line, has leased a former garage building and apartment at 211 North Monterey St. and is moving his home and business to the new quarters across the street and on the same block from his former location.

The Christopher Hardware Co., whose main store is at 729 South Main St., Hutchinson, Kansas, has opened store No. 2 at 24 First Ave. West.

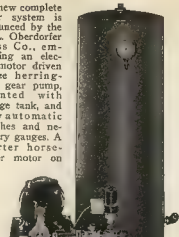
New Water System



A new complete water system is announced by the M. L. Oberdorfer Brass Co., embodying an electric motor driven bronze herringbone gear pump, mounted with storage tank, and fully automatic switches and necessary gauges. A quarter horsepower motor on cast iron base is hooked up with storage tank of from five to 120 gallons capacity, forming a simple, compact and complete water pumping unit.

The manufacturer particularly calls attention that the water unit pump is without valve, crank shaft, pistons, belts, pulleys or outside gear boxes and that the two bronze gears are the only moving parts.

Philippine Department Store Distributing Coleman Line

L. R. Aguinaldo is not only an importer and manufacturers' agent, but through a large organization centrally located, serves as a virtual department store in Manila.

The company operates branches at Iloilo, Cebu and Bacolod. Apart from its retail departments the company operates a wholesale textile department, a footwear supply department and a fishing net and twine department. Household lighting is one of their specialties, with Aladdin lamps on an exclusive agency basis for the Philippine Islands, and more recently Coleman lanterns, accessories and parts.

It is the plan of the company later to expand into the regular hardware and kitchenware line.

J. W. Mabry has purchased the Hamilton Hardware Co. stock from Corsicana, Texas, and is incorporating it with his own stock at Kerens.

A 40-foot extension has been added to the Westmorland Hardware Store and the manager, Theodore J. Schroeder, has re-arranged the interior with augmented stocks and facilities.

Elbert Johnston has incorporated the "Helpy-Selfy" grocery and also a market as new departments in his hardware store at Estelline, Texas.

Whitco Hand Power Elevator

Hand power sidewalk elevators, personal elevators for homes, and geared and direct operating dumb waiters are among the products of the Vincent Whitney Co., well known for their Whitco casement hardware.

The Whitco sidewalk elevators are of the counter-balanced type, so that the weight compensates for the weight of the car platform and a portion of the load.

The elevators are suitable for installation in Office buildings, stores, factories, apartments and schools. Loads are lowered by gravity simply by releasing the brake and applying sufficient pressure to control the speed.

Construction is of rigid steel framing and the machine is a complete self-contained unit with cut gears and roller bearings throughout. The elevators are built in all sizes and capacities and are of various designs.

The same principles are applied in the personal elevators for home installation, with overhead operation. An additional feature is the automatic brake which instantly, automatically and safely holds the cab stationary when the car is stopped at any point. The entire weight of the cab and the normal load of passenger, attendant and wheel chair are fully compensated for by the counterweight.

Whitco dumb waiters are of either the automatic brake or auto-brake type, either direct action or geared. The auto-brake dumb waiters are manufactured in four sizes, 20, 24, 28 or 32 inches outside width and are furnished in complete outfits or the machine only. The geared outfits are used where the average loads require more than ten to fifteen pounds hand-rope pull and they are made

in five sizes, varying from 20 to 36-inches in outside width and from hoist ratios of four to eight, inclusive.

John Harris, formerly buyer with the Lathrop Hardware Co. of Montrose, has succeeded Ed Johnson as manager of the Delta (Colorado) Hardware Co.

The Riesel (Texas) Hardware & Lumber Co. has completely remodeled and refinished the interior of its attractive store. Chris Sander is manager.

The Schmidt Hardware Co. has been incorporated for $50,000 at Grand Junction, Colorado, by L. Schmidt, A. M. Schmidt and J. F. Schmidt.

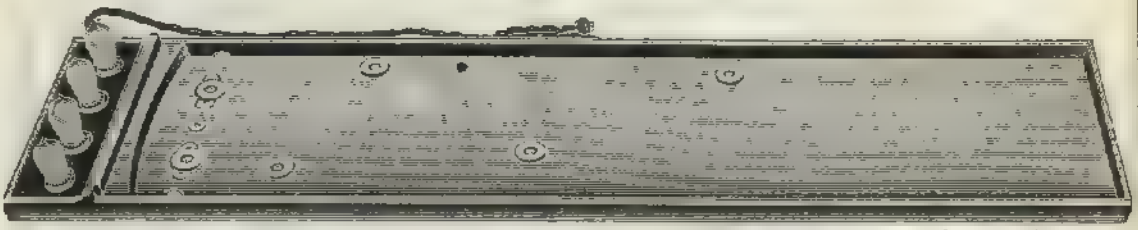
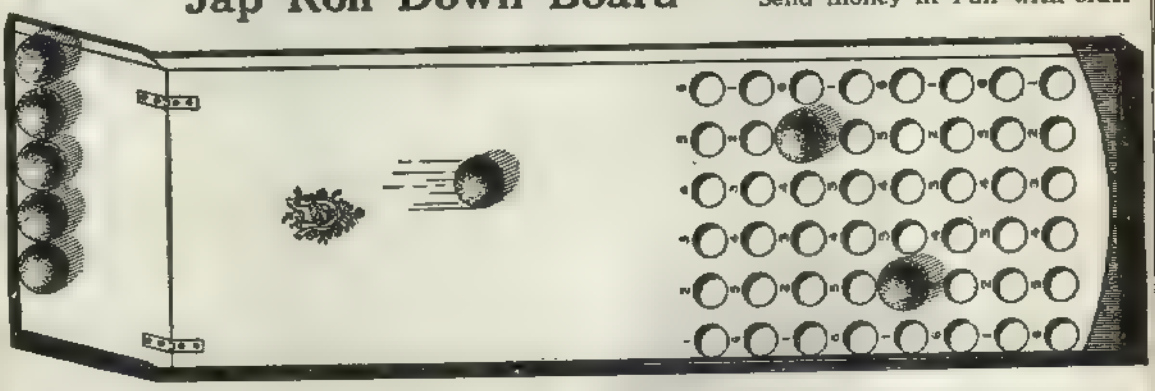
SHUFFLE BOARD — A New Game that is Fascinating and Profitable



Shuffle Board, regulation size 18 inches wide 6 feet long, made of seasoned hard wood, well made and finished with painted edges and trimmings. Wired for four electric lamps complete with cord and plug. Can be operated on any circuit. The player receives six metal discs, and the object of the game is to slide these discs on the board and light the lamps. Lamps are wired in multiples there being seven connections on the board and to light a lamp the metal disc must cover two of these connections. It is purely a game of skill. Two or three boards in a booth with prizes such as dolls, aluminum goods silverware, blankets and candy is sure to be a big winner, and will prove profitable, because there is a fascination in attempting to light all of the lamps that cannot be resisted. For lighting one light a very cheap prize should be used, such as slum jewelry, post cards, chewing gum, etc. For lighting two lights a prize can be used costing from 50 to 75 cents, such as dolls, small aluminum articles, etc. For lighting three and four lamps, a prize can be used, costing the operator as high as 2.00 which would cover the cost of the larger aluminum articles, dolls, electric lamps silverware, blankets, etc. This game is something new and the man who opens up with this game is sure to get the crowd and hold their interest.

No. H571. Price for board only without lamps or prizes 17.50

Jap Roll Down Board — A Game that Makes Big Profits. Send money in Full with order



Jap Roll Down Board, regulation size board, 15½ inches wide and 5 ft. 6 inches long. Made of hard wood in cherry or mahogany finish. Well made, presenting a nice appearance.

Each hole is numbered and the principle of the game is to roll the balls into the numbered pockets adding up the score. This game is popular and realizes handsome returns as the line of prizes that can be used in connection with this game are practically without limit. The game is fascinating yet very simple and is attractive to men, women and children as anyone can play. Fitted with hinge end to prevent balls from jumping over when they are returned to the player. One person can operate several of these tables. An attractive and popular game at all fairs, carnivals, amusement parks, etc. Complete with board and 6 wooden balls

No. H586. Each 6.00

Dutch Kid, a Prize Throw, consists of a one piece panel of semi-hardwood reinforced on back by two strong hardwood cross-cleats well nailed on, cut in outline of and painted in colors characteristic of a big Dutch Kid 13 inches wide by 27½ inches high, bloomer pants, red hair, open mouth, 2x3½ inches, behind which is a colored muslin pocket and in stomach is another opening 3½x5 inches, behind which is colored muslin pocket for receiving balls when thrown at openings, the thrower to receive a prize for each ball pocketed in this way, a large prize usually being given for throwing through the smaller opening. Hard rubber balls about 1¼ in. diameter being used.

No. H581. Price 2.75

Extra Parts

No. H661. Rubber Bumpers. Each 7.50

No. H662. Metal Ring for Bumper. Ea 3.00

No. H663. Mauls. Each 3.75

No. H664. Metal Slide. Each 3.00

The upright of this machine is made in two 12-foot sections of best seasoned lumber and is well braced the entire length and cross braces every 18 inches. These braces keep the upright perfectly straight under any weather conditions. It is painted in red with yellow figures and is given a coat of good varnish. Sections are fastened securely with angle irons and are easily put together. The chaser travels up a finished steel guide way at the top of which is a 10-inch plated gong. The base is oak covered with boiler plate 14 inches wide and 44 in. long. The beam is of best hickory and is 6 inches wide, 43 inches long and 3 inches thick, with spring on chaser end. The spring not only protects the beam from being worn out by the chaser but is also an adjustment and machine can be made to work hard or easy by a few turns of the adjustment nuts All castings used on this base are of highest grade steel and impossible to break. The rubber cushion is made of a special grade rubber and will stand very hard pounding, size of this rubber at the base is 5½ inches tapering up to 4 inches and is securely held to the beam by our split pronged ring which makes it impossible to jump out.

The most important feature of any striking machine is its base and we therefore ask you to compare this base with those made by others. With two mauls

Doll Racks

Baby Doll Rack. After a test of several seasons, during which we sold a great number of doll racks, we are pleased to state that from the point of construction and durability we think there is no other doll rack quoted at this low price that will give as much satisfaction Besides being durable, it is also sightly, well constructed and readily put together. All standards and cross bars are made of select lumber, bolted together and well braced. The dolls are clad in colored dresses, three rows of six dolls in each row, eighteen dolls in all. The bodies are select wood hinged to the cross bars. Comical painted faces, genuine fur trimmed heads. The dolls are reset from counter by pulling cord. Size of rack is 7 by 7 feet, with canvas back stop 7 by 7 feet. We challenge any one to equal this doll rack in quality or construction or price.

No. H591. Each..... 30.00

CHICAGO SPECIAL DOLL RACK

The dolls on this rack are made of rubber, 10 inches in diameter cut-out to represent well known comical figures, nicely painted and dressed in colored dresses. Each doll is mounted on a hardwood stick hinged to cross bar supporting the head, in the center of each head is an iron weight. The doll must be hit directly in the center to knock it over, if hit at any other point ball will pass thru without knocking over doll. Three rows of dolls, six in each row. Each row is equipped with a lift which resets dolls when knocked down by pulling rope at counter. This rack is especially substantial and comes with a 7x7 foot back stop. This rack is designed for those who want the best and fastest money making rack on the market. Can be set up and taken down in half an hour.

No. H592. Rack only, complete..... 42.50

A. Fontaine (Paris) Clarinets Flutes Piccolos

Can't Check! Can't Crack! A Life-Time of Service!

Here is the Metal Clarinet, developed to its highest point of tonal and mechanical excellence. In addition to the practical advantages of the almost indestructible metal construction, you find here also a richness of tone and an accuracy of intonation that stamp these clarinets as fit for exacting professional use. Fontaine Clarinets are built in standard Albert and Boehm systems. The bodies are hard, toughened nickel-silver, polished finish. The keys are also nickel-silver forged and polished. Fontaine Clarinets have always been famous for their dependable action, and these new Metal Clarinets continue the Fontaine standard of faultless workmanship. These clarinets are offered in either plain polished or in quadruple silver plate and burnished key work. The price of each instrument includes a de luxe case.

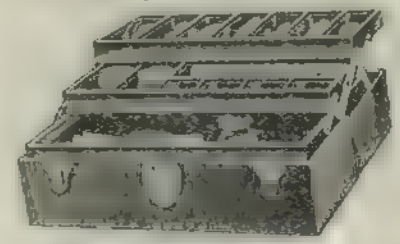
Kennedy Tackle Boxes



Flat Top, Kantilever

Trays, by means of lever attached to lid, swing out as lid is opened. Lures most used are accessible without swinging both trays in extended position because lid half opens before trays begin to move. This feature saves space in a crowded boat. There is room in tray and bottom of box for all other equipment, including reels.

Cadmium plated fittings, steel handle, finished in green mar-proof baked enamel. Interior of box mar-proof aluminum finish. Guaranteed watertight.

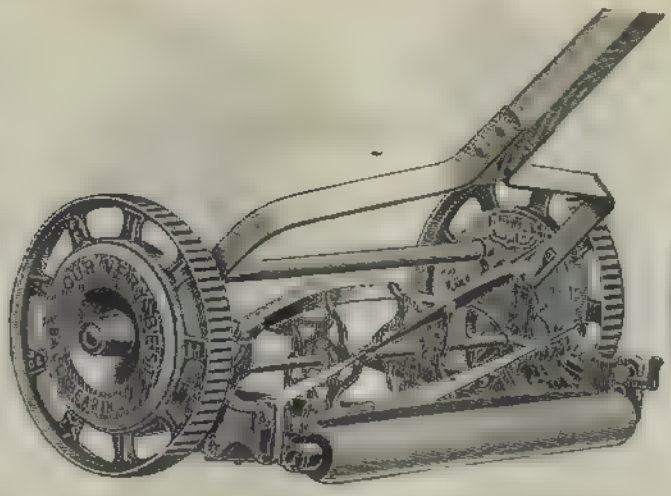
LAWN MOWERS

The Bartlett Ball Bearing



Every blade made of crucible steel in the old fashioned way, hardened and tempered in oil, notwithstanding the fact that it involves six to ten times as much expense as if made of Bessemer or open hearth steel.

Has new Braun patent cone and ball bearing adjustment which adds greatly to life of mower. This is dust proof and will not loosen.

Decoration—Beautifully finished in gold, maroon and blue, striped to enhance color effect.

10 in. driving wheels, five revolving blades, 6 in. reel, adjusts ½ to 1¼ in. Four reel braces, ⅝ in. reel axle with bicycle ball bearings, ¾ in. front cross rod. Steel hooks for attaching grass catcher, hardwood roller and handle.

Kennedy Tackle Boxes

Flat Top, Kantilever

Trays, by means of lever attached to lid, swing out as lid is opened. Lures most used are accessible without swinging both trays in extended position because lid half opens before trays begin to move. This feature saves space in a crowded boat. There is room in tray and bottom of box for all other equipment, including reels.

Cadmium plated fittings, steel handle, finished in green mar proof baked enamel. Interior of box mar-proof aluminum finish. Guaranteed watertight.

20th Century—Model Biascope Camera

Start Now! with "The BIASCOPE"

Patent Pending

The Only Machine in the World that Takes Two Photo Buttons Simultaneously With One Exposure

THIS BUSINESS WILL NET YOU $50 TO $100 A WEEK.

YOU MAKE 8 CENTS PROFIT ON EVERY DIME.

What other business will you find that shows such profit as this—80 cents out of every dollar. Photo-buttons are made in a minute, and they sell for a dime. Your customers want them, and the BIASCOPE takes and finishes them all in just one minute, too.

The field is large, the workers few. We'll venture to say you can pay for the BIASCOPE the first week.

The Biascope takes, develops and finishes on the spot two Photo-Buttons on positive paper direct with one exposure. The Biascope-Camera is equipped with two rapid-rectilinear double lenses mounted in two automatic metal shutters which open and close with a pull of the chain suspended from them (no rubber bulbs to get out of order), and instantly two Button-Photos are photographed.

The Duo-Magazines load with "two hundred paper positive buttons," and in one second the photographed Photo-Buttons drop into developing tank and a single developer and fixtoner combined finishes them in one minute, ready to deliver on the spot.

No experience required to operate, no plates or films necessary. You load the magazine in broad daylight. No dark room required.

The "Biascope-Camera" is equipped with double rectilinear fast cutting lenses and will take perfect photo buttons in natural soft daylight. No sunlight needed and at night with 500-watt electric light.

VERY LIGHT IN WEIGHT. SO SIMPLE A CHILD CAN OPERATE IT.

THE LATEST NOVELTY IN UP-TO-DATE PHOTO-BUTTONS.

GUARANTEED FOR FIVE YEARS, FOR IT WILL NEVER FAIL.

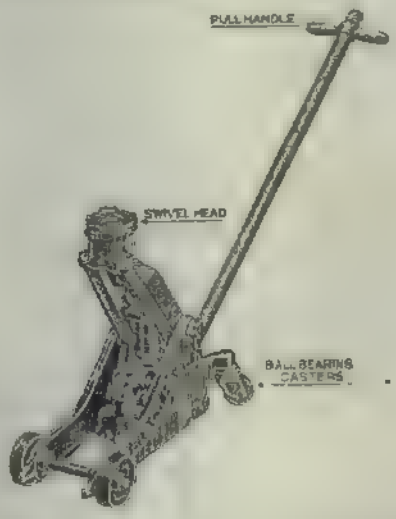
ONE IN A BOX

New Hydraulic Floor Jack



Blackhawk Short Floorjack is our newest achievement. Swivel head, ball bearing casters and effective pull handle make this S2 an all purpose service jack for parking, turning, general lifting and curb service.

"Lightning Lift"—Speed—This patented Blackhawk two-speed lift feature produces (1) amazing speed to contact the load, (2) tremendous power at slower speed to raise the load. Only 7 full strokes of handle required to raise unloaded saddle full range of 16 inches.

Finger Tip Control—for setting release valve for raising or lowering—pumping—and positioning. Positive control at all times. Screw Type release valve eliminates danger of sudden release.

Wide Practical Lifting Range—4½ in. low to 20½ in. high—16 full inches of powerful hydraulic lift—no ratchet or screw adjustment. Unusual low height to sneak under every axle. Extreme top height saves blocking or use of rigids.

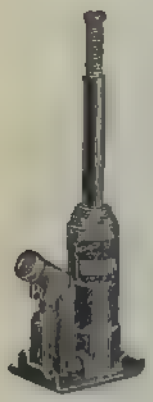
3000 Lb. Capacity—Ideal for service work on all cars and light commercial vehicles. Light in weight—sturdy and trim in construction. Ample reserve for overloads—a dependable safety factor.

Simplified Construction—no exposed rods, levers or toggles. Designed for hard service—all working parts protected. Valves readily accessible for inspection and cleaning. Trouble-proof under all conditions.

Cap. 3000 lbs., low lifting point 4½ in., lift of jack 16 in., maximum height 20½ in., length of frame 22½ in., length of handle 51 in., w't 90 lbs.

F2SP1 .....each **$45.00★**

The Warrior



1½ ton capacity for passenger cars. The height lowered 7 in. Total height 14¾ in. Lift 5½ in. Hand screw extension of 2½ in. Sled type base, hooked handle. Easy to place. Leak proof, w't 8½ lbs.

C300P1 .....each **$5.45**

ONE IN A CARTON

Low-Hi Jack

One ton capacity. Adaptable for new low chassis. The only hydraulic that will slide under axle of the low cars with small wheels and big balloon tires. Double telescope lift. Rocker base design allows jack to tilt as axle raises. Low height only 5½ in. Total height 12½ in. Hydraulic lift 7½ in. Long two piece hook handle, w't 9½ lbs.

C304P1 .....each **$8.45**

ONE IN A CARTON

The All-Car Jack

Truly an All Car jack. No axle too low or awkward. Sled type base makes it easy to slide into position on rough roads, gravel, etc. 1½ ton capacity on head. ¾ ton on toe. Western

Light weight, hand trap that can be used almost any place and with no limit to the variety of possible shots. Small enough to fit into a hand bag. Equipped with a round, wood handle, grooved, insuring a good grip. Has same type carrier as Western Automatic Trap, giving perfect control of target imparting the rotary spinning motion necessary to make it shatter readily when hit.

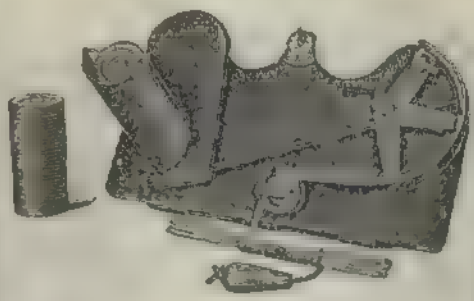
Western White Flyer

Portable, length 19 in., w't each 11 oz.

C40G1 .....each **$2.25**

ONE IN A BOX

Peters Duvrock Target Traps



This popular, portable, sport and practice trap is manufactured by the Peters Cartridge Company. It is light and folds, ideal for gun clubs, country homes, camps, touring or yachting parties. A 410 gauge or any larger shot gun may be used. The trap will throw targets approximately 35 yards and the direction of target flight may be controlled, at will, by the use of a rope tied to two holes bored in the bottom plate, this plate is adjustable, too, to regulate the flight elevation.

Duvrock Traps will throw only the special disc-like Duvrock Targets and these targets will function only in Duvrock Traps. The trap magazine has a maximum capacity of 43 targets, it throws singles, only.

Peters Duvrock Trap, shipping w't each 13 lbs.

Tango Game

Complete Instructions with Each Game

Directions for Playing Tango
TANGO
One Winner Player's Choice
Two or More Winners Our Choice
One Winner Player's Choice
Two or More Winners Our Choice

Tango or Corn Game has proven one of the most popular concession games available.

The card or board is 5x7 inches, are made 6-ply, glazed finish, printed in red and black. A combination of numbered boards are sold 10 cents each. On these cards are 24 numbers with one free space, corresponding numbers are arranged on blocks which are drawn from box as pickout by one of the operators. Grains of corn are furnished the players, and as operator draws forth each numbered block, call numbers, each player having the number called, places a grain of corn until some player gets five grains of corn in a row, which player is then declared the winner. After the winner has been declared, the blocks are placed back in the box, the cards resold and you are ready for another drawing.

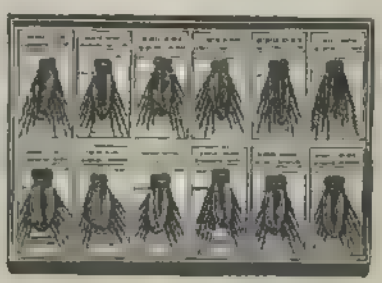
South Bend Hop-Oreno and Crick-Oreno Assortments



The Hop-Oreno and Crick-Oreno contained in the assortments below are most perfect reproductions in form and action of both the grass-hopper and the cricket, known bass delicacies. Their design combines feathers and either buck-tail or peacock herl into a lifelike resemblance of wings and crawlers. In addition to being excellent for Bass and Trout as fly-rod lures, they are most effective for Crappies, Perch and Bluegills, either trolled or used with a cane pole.

Tied over a non-slip cork body on a turn-down eye hook, size 1/0 for Bass, size 8 for Trout. Each assortment contains 3 Hop-Oreno with yellow body, brown wings, 3 Hop-Oreno with green body, green wings, 3 Hop-Oreno with brown body, brown wings, 3 Crick-Oreno, solid black. Mounted one on a perforated card, twelve cards connected. **Packed one assortment (9 Hop-Orenos, 3 Crick-Orenos) in a container. W't ¼ lb.**

Chinese Cloisonne—An Ideal Gift

IMPORTED FROM THE ORIENT

The history of Cloisonne is perhaps the most interesting of all the ancient arts of the Orient. It dates back to the court of Kublai Khan, A. D. 1275—an age of glittering splendor.

Emperor Ching T'ai A. D 1450-1458 patron of this art, gave personal attention to the workshops and from Him Cloisonne takes its name. It was first called "Ching-T'ai-Lan" thus Cloisonne held imperial prestige. Its manufacture and use was restricted until 1911 by royal edict.

Chinese Cloisonne is all hand made and comes in assorted colored backgrounds in a choice variety of floral designs and colors.

America's Smartest Lighter and Smoking Stand

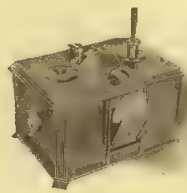
A Practical Gift Appreciated by All

Lighter Case. This substantial metal case is 5½ inches square, 8¾ inches high and weighs just 3¾ lbs. The lighter fluid in a heavy concealed glass container is fed through felt to a torch. Simply touch the torch to sparkling contact and it burns, giving a clean, blue, odorless flame. A coil and standard lantern battery in the base furnishes the spark. Finished in your choice of Chinese red, green or black ripple colors all chromium trimmed. Complete with 10 ounces of lighter fuel, battery and coil ready to operate.

No.	Finish	Each
78F11.	Chinese Red	$16.70
78F12.	Green	16.70
78F13.	Black Ripple	16.70

New combination lighter and smoking stand above as modern as today. It is by far the cleanest smoking stand made. It lights like a magic wand making a clean, blue, odorless flame. It removes the messiness of smoking with its unique invisible ash receptacle. No fumes from burning cigar ends. Trays both round or oblong, have alcohol resisting finish and are burn-proof. Trays provide a handy place for smoking accessories and glasses. The lighter fluid is in a concealed glass container and is fed through felt to a torch. Simply touch the torch to sparkling contact and it burns. All stands come complete with a 16-oz. can of lighter fluid, battery and coil, ready to operate. Stands are 24 inches high; trays, 16 inches in diameter. All chromium trimmed and finished in choice of Chinese red, hunter green or black ripple, American walnut or mahogany. Please specify color desired. Shipping weight 22 lbs.

No.	Floor Stand Only	Each
78F14.	Chinese Red	$26.00
78F15.	Hunter Green	26.00
78F16.	Black Ripple	26.00
78F17.	American Walnut	28.70
78F18.	Mahogany	28.70
78F19.	Round Tray to Match	4.70
78F20.	Oblong Tray to Match	4.70



The lighter above has the refinements of a jewel box. It is of finest solid walnut in a satin finish and has exquisite door lifts and fittings. Compartments on both sides are for cigarettes. Its many features are at your finger tips, although the lighter fluid, spark contact and ash receptacle are entirely concealed. The lighter fluid in a heavy glass container is fed through felt to a torch. Simply touch the torch to the sparking contact and it burns with a clear blue, odorless flame. Only 6 inches in height, compact and very light in weight. Ideal for fine desk, end tables, serving tables or in the library or den. Complete with 10 ounces of fuel, battery and coil ready to operate. Shipping weight, 12 lbs.

No. 78F21. Each $28.00

Resurrection Plants, Proprietary Medicines, Water Flowers

RESURRECTION PLANTS. BIBLICAL ROSE OF JERICHO

Plant Closed

Plant Open

The Sacred Resurrection Plant (Siempre Viva). Botanically known as Anasta-Tico. Latin name, Selaginella Lepiodiphylla. These rare and curious plants grow and stay green by placing them into water, will also grow in light drained soil. When taken out of water they dry and curl up and go to sleep. They will keep in this state for years and reawaken directly upon being put into water. It's an interesting and pretty house plant; grows in winter if not allowed to freeze. To grow it, simply place the mummified plant in water; it will open up and start to grow in about twenty minutes; after that simply keep the roots in water, change the water once in about four or five days to keep from becoming rancid. 100 in package.

Coleman Camp Stoves

Two Burner

The Gypsy Camp Stove

A quick, hot blast starter as speedy as a blow-torch gives full cooking heat in less than two minutes. The Gypsy Camp Stove supplies a demand for a compact, serviceable, low-priced stove. It is designed and built especially for use on picnics, week-end outings, short vacation trips, etc. Large built-in wind baffles that are held in place by spring locks. Steel wire grate, rigidly hinged to stove box. Accommodates any ordinary sized cooking vessel. Single unit construction of tank and burners—tank easily removed for filling. Tank holds one quart of fuel—a three hours' supply for both burners. Burner box strongly made of sheet metal and finished in black baked enamel.

Everything packs inside for carrying. Size when folded 4×9½×16¾ in., shipping w't 12 lbs.

COLEMAN SELF-HEATING IRONS

Model 4A

Instant Lighting

New improved Roto-Type generator with self cleaning needle.

No generating—just strike a match and turn a valve. Double-pointed, highly polished, nickel plated base is beveled for easy ironing around buttons. Burner extends full length of iron, heating entire bottom with point hottest. Two-piece ventilated lid prevents tarnishing and keeps handle cool. Has brass generator with self-cleaning tip. Heat can be regulated for light or heavy work. Perfectly balanced for easy ironing.

Nickel plated steel lid and handle frame. Blue enameled wooden handle and blue porcelain enameled body to match—unusually attractive. Fount and valve unit constructed of brass throughout. Fount fuel capacity, ½ pint.

Complete with stand, pump wrench and measuring can. Over all dimensions: 4½ in. wide, by 10⅝ in. long, by 6½ in. high. Net w't filled, 6½ lbs.; shipping w't each, approximately 8 lbs.

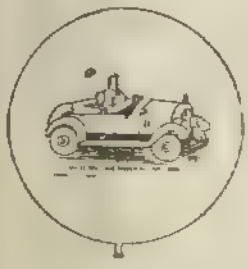
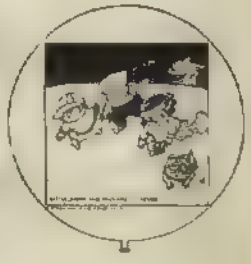
Balloon Funnies

Comic Cartoons

Gas and Air Balloons





Self Sellers at Sight! Quick money-getters! The Ever-popular Comic Characters featured on both sides of these balloons are known everywhere by everyone, old and young, being the work of world-renowned Cartoonists, whose Comic Strips appear daily in hundreds of America's leading newspapers. No other balloon has such immense, ever-alive, daily publicity background, which means—**"Sales made-to-order."** These comic characters are favorite "household words" and bring joy and laughter to children and grownups everywhere. Fathers and Mothers BUY these balloons because the kiddies RIOT if they don't. That's what you want—**Sellers Backed by a Big Reason for Buying—Balloons that Dominate the Air Everywhere!**

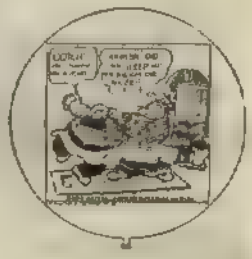
Assortment includes the following amusing cartoon characters

Pop-Eye	Maggie & Jiggs
Little Jimmy	Little Annie Rooney
Happy Hooligan	Katzenjammer Kids

Copyrighted by King Feature Syndicate.

Little Orphan Annie	Sh[illegible]
Gasoline Alley	H[illegible] Teen
Moon Mullins	W[illegible] Winkle

Copyrighted by Famous Artists Syndicate.



These Comic Balloons are more beautiful and attractive than ever, due to the fact that they are imprinted on dainty pastel colored rubber. Only the finest grade rubber is used in making these balloons.

CONLON AUTOMATIC IRONERS

Conlon Cabinet Automatic Ironers are incomparable in ease of operation, modern design and high quality. The utmost in utility and service because of its instant convertibility into a handsome kitchen table when not in use for ironing, pressing or steaming.

Automatic Dual Control—Action of shoe and roll automatically synchronized and controlled by rubber padded knee control or finger tip button. Convertible for pressing, or shoe may be tilted back for steaming.

Roll—Full open end roll made of steel shell, will not warp or get out of shape. Operates on ball bearings; ironing speed 10 linear feet per minute.

Padding—4 wraps of extra thick cotton fabric with fluffed edges, 2 wraps double napped flannel, making a resilient, padded roll that will not pack or harden.

Shoe—Triple plate chromium on special alloy will not rust nor discolor from heat. Actual ironing contact equals 117 square inches on 26 ft. shoes and 135 square inches on 30 ft. shoes. Special asbestos insulated heat trap dome prevents loss of heat. Shoe support centrally located, automatically adjusting pressure to different thicknesses of garments.

Heat—1300 watts, with 5% extra heat at the left or open end, insuring proper temperature to produce desirable sheen.

Motor—⅛ H. P., in rubber mounting insuring quietness and eliminating vibration. 10 ft. attachment cord.

Approved by underwriters Laboratories—Good Housekeeping Inst.

Mechanism—Fully enclosed in housing with built-in lifetime lubrication. Worm drive equipped with ball bearing, vertical shafts revolve in bronze bearings.

Finish—Spray gun coated and baked by special CONLON process, giving an everlasting, non-chipping finish.

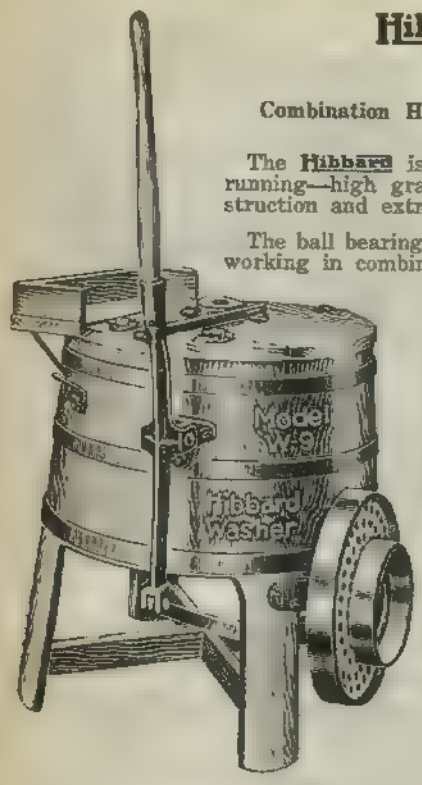
Hibbard Washing Machine

Dolly Type

Combination Hand or Power. Each Machine Fitted with Hand Power Pulley



The Hibbard is an usually attractive hand power washer—easy running—high grade in quality—sturdy and dependable in construction and extremely simple in design.

The ball bearing mechanism and the perfect, machine cut gears, working in combination with the heavy fly wheel produce a remarkable smoothness and silence of operation. There are no heavy castings nor any large moving parts at the top of the machine.

The driving gear is underneath the tub out of the way of the operator. The lid, unencumbered with castings, is light and easy to lift. It may be raised or lowered without stopping the driving mechanism.

Tubs are made of selected Louisiana red cypress. The wringer boxes are mortised and reinforced. The extended stave legs are securely braced with cross arms and the inside of the tub is corrugated to increase the washing efficiency of the machine.

Tub standard washing capacity. Floor space 22×24×33 in. Shipping w't crated 85 lbs.

W9H0 .....each **$17.95**

Hand Power Washing Machines

FAVORITE, the best hardwood most suitable for the purpose used throughout. FINISH, one coat special wood filler and one coat of varnish. INSIDE DIMENSIONS, length 28½ in., width 19 in., depth 13 in., height to top of tub 25 in., cap. 6 shirts, galvanized iron bottom, bottom rubbers removable, japanned cast ears, upper rubber can be removed for wringing the clothes or refilling the tub, legs and arms bolted, shipping w't crated 45 lbs.

Furnished Line Assortment. Consists of one dozen furnished lines with two color wood floats mounted on display card.

No. 19R115. Per assortment. .75

Winona Celluloid Floats. This long float is very popular as it never gets soggy with use. A favorite float for blue gills, crappies and perch. The line clip takes the line without threading, and holds the line in any position; adjustable for cane pole fishing or for use with casting rod. Finished with five stripes of brilliant lasting colors, red, white, gold, black and green. One dozen in box.

No. 19R128. Per dozen..... 1.95

Furnished Line Assortment. One dozen assorted furnished lines with egg and barrel cork floats mounted on display card.

No. 19R116. Per assortment. 1.20

Pork Rind Bait

The Green Frog, Pork Rind Bait. The bait with "more kick than a live frog." Body is white and made from a solid piece of pork. Back is brilliant green, marked with life-like spots. Legs are extremely flexible and set in motion by the eddy formed back of the heavy shoulder when drawn through the water. 6 baits in jar.

No. 19R158. Per dozen jars.. 3.60

Wiggle Worms, the perfect substitute for fish worms. They thread on the hook like a live worm. So lifelike they deceive the eye. Stretch one and it will crawl like a real worm; curl it and it will squirm. No rubber used in its making. Made under a secret formula of fish food. Every fisherman who tries them is enthusiastic about this bait. Put up in five and a half ounce jars, attractively labeled.

No. 19R155. Per dozen jars.. 3.95

The Polly-woggler, made like the green frog except that this bait resembles a pollywog. Has bright red flannel "side whiskers" making it an unbeatable lure. 6 baits in jar.

No. 19R159.

Per dozen jars..... 2.00

Al Foss Bass Size Pork Rind Strips. These are 4⅝ inches long and ⅛ inch wide. Grease removed and ready to be attached to lures. Twelve strips to bottle. One dozen bottles in carton.

No. 19R26. Per doz. bottles 2.75

Creek Chub Baits and Assortments

Shur Strike Minnows are modeled after an established principal whereby the sloping head causes the minnow to dive, dart and wiggle. Have glass eyes and are equipped with best nickel plated Mustad hooks. Length 3½ inches. Weight approximately ¾ ounce.

Baits That Are Popular With Fishermen

The Lucky Assortment contains a complete set of six favorite patterns of baits. They are suitable for all waters and all weathers. Just what the average angler wants. Well made of dependable materials, and will give satisfactory service. Each assortment in attractive display box.

No. 18R296. Per assortment (6 baits)..... **1.50**

SURFACE SPINNER

The Surface Spinner is a surface bait which rides high on the water, its spinners creating a swirl and churn most alluring to the big "Game Fish." It is easy to cast and will appeal to anglers who appreciate the sport of "making them hit" on the surface. Two finishes to select from.

Per dozen

No. 18R295/GS. Green Scale .. .. }
No. 18R295/R.H. White, Red Head.... .. } **3.92**

PIKAROON MINNOW

The Paw Paw Pikaroon is a real fish getter. It has the shape and finish that fools the fish and is a sure lure for bass and other game fish. Once tried by a fisherman it immediately becomes a favorite. Attractive in appearance and has an excellent finish. Each in box.

Per dozen

No. 18R285/M. Metalic Finish .. .. }
No. 18R285/R.H. White, Red Head..... } **3.92**

THE CRIPPLED MINNOW

The Crippled Minnow is one of the outstanding injured minnow baits of the year. Has two positive action spinners, creating a purring sound and a very alluring action on the surface. Good workmanship throughout. Will prove a favorite with the fishermen. Choice of two finishes.

Per dozen

No. 18R294/GS. Green Scale ..... }
No. 18R294/R.H. White, Red Head..... } **3.92**

PAW PAW'S NEW TAIL SPIN SPINNER

Here is something new, it's a wobble spoon—one of those erratic skip-dodge-dive-slither kind of baits that bring out the pike and pickerel and get the hard smashes from fighting bass. It is a copper-nickel spoon that has plenty of light value and can be used in any water with good results.

Per dozen

No. 18R297/1. No. 1 Spoon... .. .. }
No. 18R297/2. No. 2 Spoon. . ..... } **3.92**

JOINTED PIKAROON

Paw Paw Jointed Pikaroon is a lifelike, attractive lure that is very effective. This bait will sure get the big ones. The jointed feature allows it to twist and turn in such a way that the bass can't resist jumping for it. Each in box.

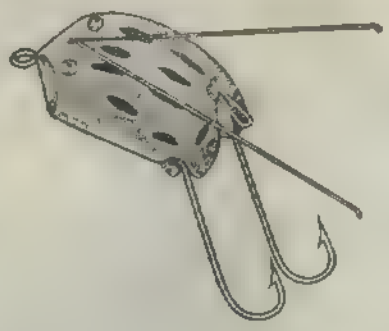
No. 18R284. Red Head. Per dozen..... **4.41**

GEE-WIZ RUBBER FROG

Gee-Wiz Rubber Frog is a lure with a real life-like action. A jerk makes it kick—and that gets them quick. Size of frog is 4⅝ inches long, mounted with 5/0 Sproat hook, equipped with line and swivel. Finished in natural green Frog color. An ideal bait for Bass, Pickerel Pike and other game fish. Each in box.

No. 18R269. Per dozen **9.00**

Creek Chub Weed Bug Bait



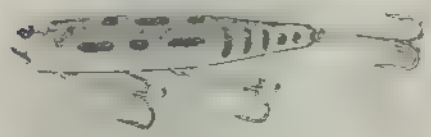
Here is a lure to take the place of the pork chunk and live frog. It is superior to the pork chunk because it floats when cast, and the hooks are presented in a better position to receive the strike. The head is so shaped to go through the reeds and lily pads and has planes to take the bait up over the moss and weeds. These planes also make a ripple and throw a spray when the bait is retrieved. It has a hook at the rear for attaching the pork rind, and the wave-like motion of the rind makes the lure still more attractive. This lure can be thrown into any kind of reeds, pads, weeds or rushes and will come back through them without fouling. Length of body 2 in., w't ⅔ oz.

C2800G9—Weed bug, yellow body, green wings .....each **$1.00**

C2819G9—Weed frog, meadow frog colors, each **$1.00**

ONE IN A BOX

The Creek Darter Minnows



A rather slim lure, as its name indicates, is a bait which when going through the water darts about near surface in a life-like manner. It's an easy caster, gets right down to work when started and is a superior lure of this knid. New Frog Coloration is a good imitation of a live frog and this frog colored lure will be found an exceptional killer when game fish are feeding on frogs, this especially early and late in the season. Length of body, 3⅜ in., w't slightly over ⅛ oz.

C2000G1—Natural frog.....each **$0.75**

C2002G1—White with red head..each **$0.75**

C2018G1—Silver flash.....each **$0.75**

ONE IN A BOX

Sinful Sal

The Wobbling Spoon

This wobbling spoon is made in a number of popular finishes and is so constructed as to have less tendency to spin or turn over than most others. The stabilizing device in front of the spoon always rides in an upright position and prevents the swivel from not operating. You can troll the spoon all day without danger of a kinked line. Travels at a moderate depth and is a remarkably good lure of this type. Very popular for pike and muskallunge fishing. Excellent for hot weather use when the fish are lying in deeper water. For very deep trolling can be used with a sinker in the line. Length of spoon 2⅜ in., w't ⅛ oz.

C221G1—Nickel inside, white and red outside .....each **$1.00**

C222G1—Copper inside, white and red outside .....each **$1.00**

C223G1—Nickel inside, white and black outside .....each **$1.00**

ONE IN A BOX

Creek Chub Beetle

This lure is made to represent a "Water Beetle" and travels quite deep, in use it should be reeled at a moderate to fast speed, or trolled moderately fast. You will not find it revolving or twisting the line, always runs right side up. Non-fouling hooks, the extended rear hook with spinners is a sure cure for "short biters" and the flashing iridescence of the pearl blades makes this lure irresistibly attractive. Equally good for lake or stream. Fine for small mouth. Length of body 2¼ in., w't ⅔ oz.

C3850G1—Yellow beetle.....each **$1.00**

C3851G1—Green beetle.....each **$1 00**

C3852G1—White and red beetle, each **$1 00**

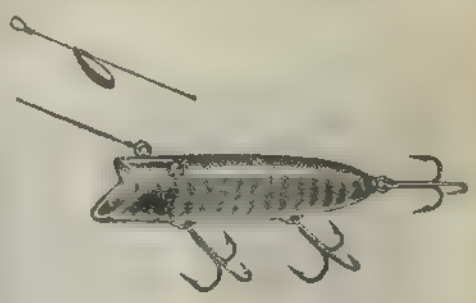
C3854G1—Gold beetle.....each **$1.00**

C3855G1—Black beetle.....each **$1.00**

ONE IN A BOX

Creek Chub Castrola Bait



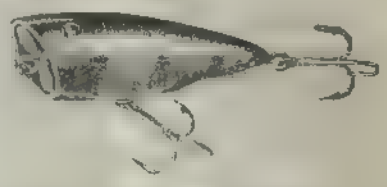
Just like a real live minnow chasing a fly—hither and thither—up and down—sideways—just vary the speed at which you reel—now fast, now slow, then a little jerk and the antics this baby cuts up will tease the variest old he-bass into an excited rush and vicious strike. A perfect caster and equally good for trolling. 3⅜ in. long, w't ⅔ oz.

Natural Pike, Scale Finish

C3100G1 .....each **$0.85**

ONE IN A BOX

Creek Chub Plunker



Toss it into a likely looking "pocket" in the reeds or pads and give it a series of very short jerks with the rod. Don't try to make it move around too much, just twitch it enough to keep it bobbing in one place for a few seconds, then reel it in a few feet and do it again. It's small enough to fit most anywhere, only 3 in. long, but it has lead in its tail so it casts like a bullet, w't ⅔ oz.

C3200G1—Natural pike, scale finish, each **$0.75**

C3201G1—Natural perch, scale finish, each **$0.75**

C3202G1—White with red head, each **$0.75**

C3218G1—Silver flash.....each **$0.75**

ONE IN A BOX

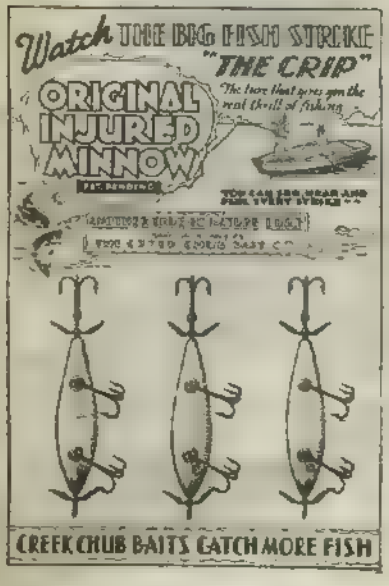
Creek Chub Pikie Minnow Assortment

An attractive four color Pikie Minnow Card, 14 in. wide, 11 in. high, suitable for window and showcase display, with double easel, carrying six of the "Famous Pikie Minnows," three "Pikie" finish and one each Perch—White and Red Head and Silver Flash—finish lures mounted on card.

C706G1 .....each $0.50

ONE ASSORTMENT IN A BOX

Creek Chub Original Injured Minnow Assortment



With slow jerks this "Bass Getting" wonder represents an injured minnow, lying on its side, just able to make a little fuss on the surface—a real fish getter.

Put up three baits on an attractive window display card, 14 in. high and 9 in. long, with a large double easel. Assortment consists of 1 each Perch, Red Side Minnow, and Silver Flash finish. Length of bait 3¼ in., w't ⅝ oz.

C152G1 .....each $0.25

ONE ASSORTMENT IN A BOX

SOUTH BEND BAITS

Musk-Oreno

Red head and white body. Especially designed for muskellunge and large pike. It is a combination of the underwater and the surface type baits, diving, darting and zigzagging in a minnow-like course when being reeled and floating when not in motion. Roller Skate Service Station

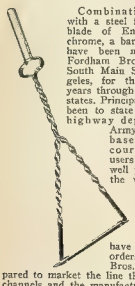
As an additional help and service to dealers handling their line of "Let's Go" roller skates, Peck, Stow & Wilcox Co. have assembled a free "Service Station" box with tools for skaters to use in adjusting their skates. The box is of a size and strength which allows skaters to use it as a seat and its finish and display lettering make it an attractive feature of a store. Tools are attached to the box by chains and it may be placed outside the store, in the entrance or in any convenient location.

Pextro roller skates are announced in Blue-Aro, Green-Aro and White-Aro styles.

Combination Weed and Grass Cutter



Combination weeders, with a steel frame and a blade of English nickel chrome, a hand saw steel, have been marketed by Fordham Bros. of 1060 South Main St., Los Angeles, for the past two years through the western states. Principal sales have been to state and county highway departments, Army and Navy bases and golf courses. These users are reported well pleased with the weeders and have sent in reorders. Fordham Bros. are now prepared to market the line through trade channels and the manufacturers are interested in contacting salesmen in all territories to handle the line.

Outstanding features of the weeder is the blade, two and a half inches wide and 14 inches long of hand saw steel, which can be sharpened and keep an edge until very narrow, which will not break and will come back to shape when bent. The safety-hook in the handle enables the user to hold the weeder so it won't turn. The steel frame is nonbreakable.

A. B. Tweeten of Swea City, Iowa, has bought the Sandven stock at Estherville and has combined it with his own.

The stock of the Chatworthy Hardware Co., formerly of Brush, Colorado, has been moved to Fort Morgan and O. J. Gibbs, manager of the former store for the past 15 years, has resigned from the organization.

The Corpus Christi Hardware Co. has opened the Laredo Moto Mart as an outlet for its automotive department in Laredo. The automotive trade of the latter city recently joined in a public reception to the new institution.

Extensive improvements have been made in the store of the Lyon Hardware Co. of 333 Walnut St., Abilene, Texas, with new fixtures and rearranged stock. Gilbert Pechacek, president, John A. Pechacek is secretary-treasurer; and Mrs. Lillian Pitts, their sister, is vice president.

C. B. Dalton has purchased the interest of his former partner, Glen Irwin, in their store at Bertrand, Nebraska

---

The building and stock of the J. M. Stiver hardware store at Huron, South Dakota, were destroyed by fire last month.

Folder on Traps and Trapping

"The Story of Animal Traps" recently issued by the Animal Trap Co. of America is in reality a brief guide for trappers. The interior spread of the folder tells how to trap muskrats, skunks, mink, foxes, raccoons and weasels and there is also information on how to prepare pelts.

The company has also included a history of the development of steel traps and instructions for setting traps, illustrated by outline drawings. The booklet should be particularly valuable to merchants in territories where traps and trapping are of interest, for every trap user would be interested in the folder.

Spring Stop and Holder Patented

A spring stop and spring holder has been patented by Curtis Greene to stop and hold doors or gates automatically opened at any point in its path.

The patentee announces that the stock is covered by the broadest patent protection, and that it is a new type which permits opening by momentum from a short push and released by only one hand, operates close to the outer end of the door, has no joints, sleeves or bearings and requires no lubrication or attention. Furthermore it is claimed to be inexpensive to manufacture and easy to install.

The patentee, Curtis Greene, has his home at 3535 Albatross St., San Diego.

Dazey Churns

sold only through

Jobbers and Dealers

The DAZEY has been the leading Churn for many years and has always been sold through legitimate Jobbers and Dealers. Endorsed by Good Housekeeping Institute, State Agricultural Colleges, and Scientific Buttermakers everywhere. It is strictly a "Quality" Churn. Only the best materials are used and carefully assembled. Made in sizes to suit everyone's requirements, from 2-quart to 10-gallon. The extension of electric power lines into rural districts has opened up a new field for DAZEY Electric Churns.

Recommend DAZEY CHURNS for mixing PAINTS, LACQUERS and PASTE—*A NEW FIELD!*

DAZEY SHARPIT—All purpose household Sharpener. Requires no skill. The original Sharpener of its type. Patented grinding wheels. Attractively finished in rust-proof electro plating. Furnished with removable, reversible clamp.

Order from Your Jobber

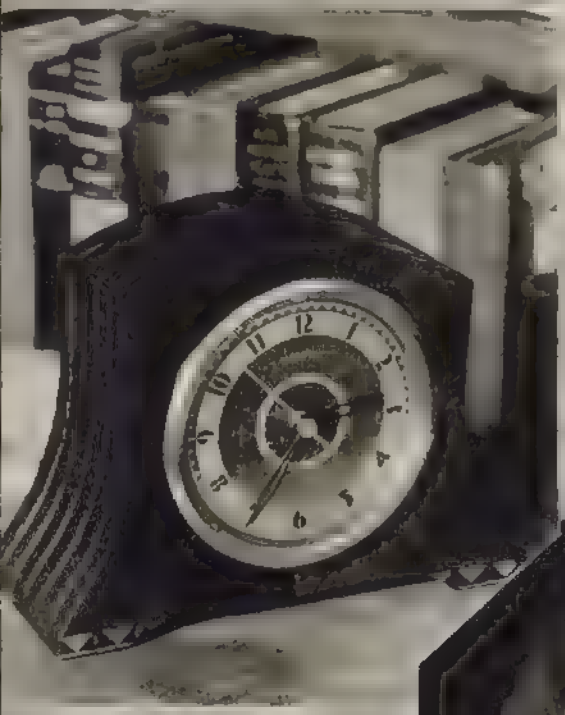
DELTRIC Electric Clocks

Newest Design Automatic Noiseless
Self Lubricating . . . Fully Guaranteed



THE DELTRIC MOVEMENT

ALL of the Deltric clocks are operated by the Deltric Movement, which is the newest and finest movement used in electric clocks. It is based on a different and sound electrical principle, carefully engineered and built of the finest material available. The accompanying blueprint shows a few of the features of the movement, which assure its quiet and satisfactory operation for many years.

THE DELTRIC ALARM

THE Broadway, Twentieth Century and Golden State models are also available with the patented Deltric automatic alarm. The Deltric Alarm features include twenty-four hour full automatic reset, and tone modulator in pleasant subsynchronous harmonic pitch. Once set the alarm requires no further adjustment and will ring every morning at the proper time, with a musical sound tuned to your preference.

THE BROADWAY*

*Courtesy of the Pennsylvania Railroad

A BEAUTIFUL case of solid mahogany with fine mahogany veneered face and imported marquetry inlay. The top and sides of this model show an interesting design taken from architectural motifs. A clock that can be used on desk or mantel and one that blends into any background

D50—List $6.70 Retail $5.75

With Deltric 24 hour modulated Alarm
D51—List $8.10 Retail $6.95

THE GOLDEN STATE*

*Courtesy of the Chicago, Rock Island and Pacific-Chicago Pacific Lines

Same design as The Twentieth Century, but finished in gold

D54—List $10.10 Retail $8.75

With Deltric 24 hour modulated Alarm
D55—List $11.40 Retail $9.85

THE TWENTIETH CENTURY*

*Courtesy of the New York Central Railroad

A STRIKING metal case of modern design, finished in silver, with bakelite base. The beautifully proportioned lines of this model, combined with the exquisite metallic sheen of its surface make this one of the most attractive and compelling clocks ever offered

D52—List $8.10 Retail $6.95

With Deltric 24 hour modulated Alarm
D53—List $8.65 Retail $7.45

THE YANKEE CLIPPER*

*Courtesy of the New York, New Haven and Hartford Railroad.

A HANDSOME Colonial model of solid mahogany, faced with walnut and inlaid with red mahogany. The dignified lines of this clock combine the utility of electric time with the artistic expression of good taste.

D56—List $12.50 Retail $10.75

The DELTAH ELECTRIC CORP., New York, U. S. A.

MUSICAL ALARM CLOCK
Wakens You to the Strains of Sweet Music

Musical Alarm Clock, with visible works, brass case, heavily nickel-plated. Heavy glass front and sides, extension base, handle on top. Set same as ordinary alarm clock and plays musical tune for several bars.

No. 60W132. Each... **3.95**

Musical Clock—*An Exclusive Creation*

The very latest idea. Originated, designed and manufactured by us. Not only is this clock ornamental in appearance but it is useful as a timepiece and each has the added feature of playing two different tunes. Simple and compact, the music apparatus is so arranged that by lifting the clock up, the strains of sweet music are immediately heard and when the clock is put down the music stops. This music arrangement is independent of the clock and can be wound and played whenever desired. The 30-hour clock movement is the best American manufacture.

The case is moulded of metal in shape of a radio console showing on front below clock dial, a panel with radio dials, etc. Lower part of front representing the doors is engraved with lifelike portraits in relief of Wagner and Schubert the noted composers, embellished with musical instruments. Each side of case is engraved with musical notes and instruments. Case is 8 inches high and 5½ inches wide. Weighs about 5 pounds.

We recommend this article, as all who have seen it have been enthusiastic about it. Order a sample and see for yourself

PORTABLE WATCHMEN'S CLOCKS

Detex "Patrol"

Approved and Labeled by the Underwriters' Laboratories, Inc., and Factory Mutuals Laboratory

Station Box Showing Recorder in Position

Clock, Showing Leather Pouch and Strap

The following points are unique with the Detex Patrol System.

Clock—Contains no recording mechanism—nothing but movement, dial, telltale and guide for key. The telltale punctures paper dial both when clock is opened and closed, guarantee against tampering.

Movement Interchangeable—Can be replaced in a few moments' time.

Each station recorder holds a male and female die that records the station's own number in full on a paper dial in the clock. Either numerals or letters can be specified for the system. Numerals are standard and preferable, as stations can be continuously numbered in sequence.

A 12-hour paper dial ordinarily used because record is more distinct. 24-hour dials may be furnished when specified at no extra charge.

There is no limit to the number of stations that may be used with one clock. Additions may be made at any time, with no re-arrangement or interruption in the service.

Detex "Patrol" Clock with Leather Pouch

A simple, durable, flexible, interchangeable, absolutely tamperproof system for checking watchmen.

Patrol clock, consisting of full jewel movement, in a cast aluminum case, 4½ in. dial, w't 3 lbs., complete with leather pouch, with grille carrying strap and one year's supply of dials, but without Recorders and boxes.

P60Y0 .....each **$66.00**

Station Boxes with Recorders

Model I (Open Type) Station Boxes with Recorders, complete.

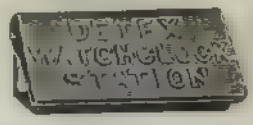
Extra dials, three years' supply.

P3Y0 .....box **$8.25**

Detex "Alert"

Approved and Labeled by the Underwriters' Laboratories, Inc., and Factory Mutuals Laboratory

Showing Clock in Leather Pouch



Showing Drop Cover Station Box, Model D

Showing Lock Station Box, Model E

In the "Alert" clock system the registering mechanism is a part of the clock. The registering key is raised in a direct line against the matrix in the clock when it embosses the record. This eliminates the turning of the key and wear on the embossing character on the key, thereby prolonging the life of the matrix and the key.

The "Alert" clock may be had with any number of stations from one to thirty-two as may be required, additional stations may be added until the total number reaches thirty-two.

A 12-hour dial ordinarily used because record is more distinct. 24-hour dials furnished when specified at no extra charge.

Detex "Alert" Clock with Leather Pouch

"Alert" clock consisting of a full jewel movement in a cast aluminum case, 4½ in. dial, w't 3 lbs., complete with leather pouch fitted with grille to protect clock dial, carrying strap and one year's supply of dials, without station keys and boxes.

Dietz Highway Flare Torches

Favored by numerous contractors who prefer this type of night warning device for use while road construction is in progress.

Made in two styles, one spherical and the other hemispherical in shape. Latter is particularly designed to comply with certain State Laws, which require their use by motor trucks and busses that become stalled on the right-of-way at night.

Built of steel to withstand roughest usage. In performance they meet every requirement of which torches are capable. A notable structural feature is the ALL-WEATHER BURNER of steel, which is fitted with carrying loop, automatic wick lock and adjustable rain shield. Flame burns perfectly with or without the shield. Shield is not intended to aid burning and torches are designed to function without it. Hence shield is kept turned down, away from flame, unless protection is desirable against rainy or snowy weather.

Burns kreosene, fuel oil or light distillates.

Made of steel. Will right itself when knocked down or skidded from position by a passing vehicle. Fitted with Dietz ALL-Weather steel burner with rain shield, carrying loop and an automatic wick lock, which prevents the wick from slipping.

SPECIFICATIONS

Shape—Spherical, with weighted bottom.
Capacity—96 fluid ounces (3 qts.)
Burns—More than 36 hours.
Height—7⅞ in.
Diameter—7½ in.
Wick—Round, ⅝ in.
Finish—Enameled black.
Shipping Weight—84 lbs. to dozen.

D96E1—Open Stock.....each $2.00

H96E1—Pkg. of ¼ dz... each $

Motor vehicle laws of certain states require that two torches of this type be carried on motor trucks and busses. In the event of stalling on the right-of-way, a lighted torch is placed on the road both ahead and behind the vehicle for protection of other traffic.

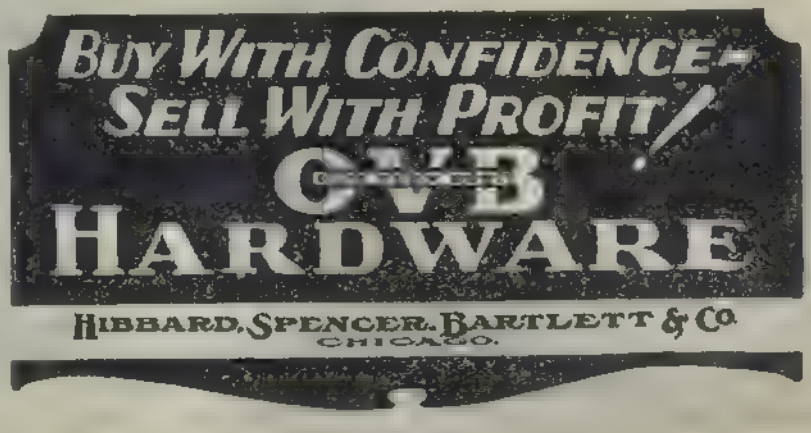
Similar construction, and functions exactly like our larger torches. Made of lesser height, so that a pair can readily be carried under the driver's seat.

SPECIFICATIONS

Shape—Hemispherical, unweighted.
Capacity—55 fluid ounces (1¾ qts.)
Burns—More than 15 hours.
Height—4¾ in.
Diameter—7¾ in.
Wick—Round, ⅝ in.
Finish—Enameled red.
Shipping Weight—36 lbs. dozen.

D55E1—Open Stock.....each $1.25

H55E1—Pkg. of ¼ doz..... each $



DIETZ GLOBES

Dietz Genuine "Loc-Nob" Lantern Globes

Selected Globes for All Standard Lanterns

Superior Globes that help Lanterns shed more light. They insure perfect fit. Dietz Globes for replacement are identical with those fitted into Dietz Lanterns and are adapted to all standard makes. Made to precise specifications as to dimensions, weights and color ranges.

Not skimped to sell at a price. They are the best and most economical globes obtainable. Imitations do not compare.

Dietz "Fitzall Loc-Nob"

The new General Utility Globe that fits all Dietz high globe tubular hand lanterns and all makes No. 0 tubular and No. 2 high globe cold blast lanterns.

A selected, first quality globe with Dietz patented Loc-Nobs that prevent the globe from slipping out of the wires and breaking, when thrown back to expose the burner.

Now standard equipment on the following lanterns:

Domo Separators

New Models

No. H02E

Small Domos are made with the same perfectly constructed parts and exceptional skimming capacity that characterizes the larger models.

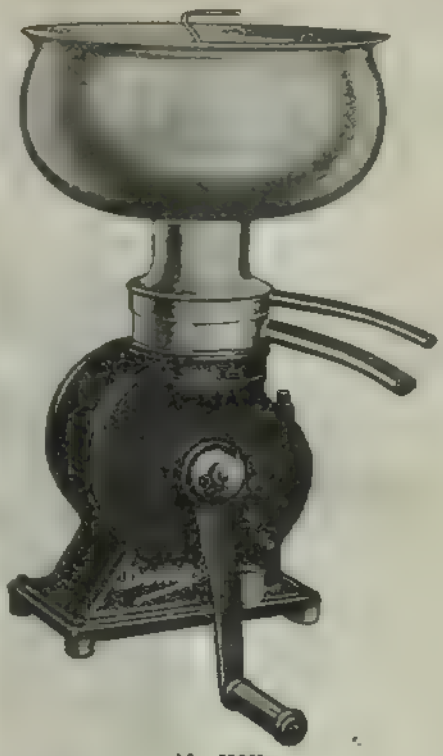
Economical for the small dariy.

All Domos are guaranteed.

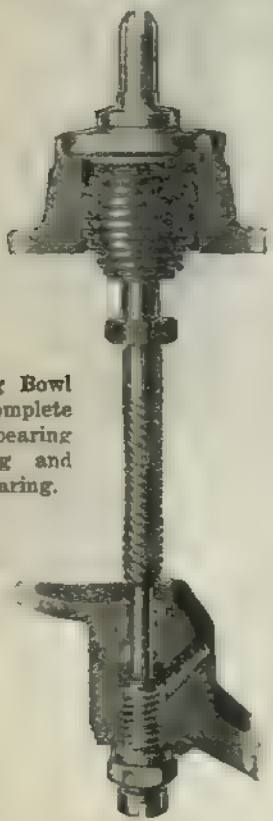
The Domo Bowl Spindle is made of the very finest Swedish steel.

A striking feature is the neck-bearing spiral coil spring, made from tempered nickel steel and tinned by Galvanic Method and therefore Non-rustable.

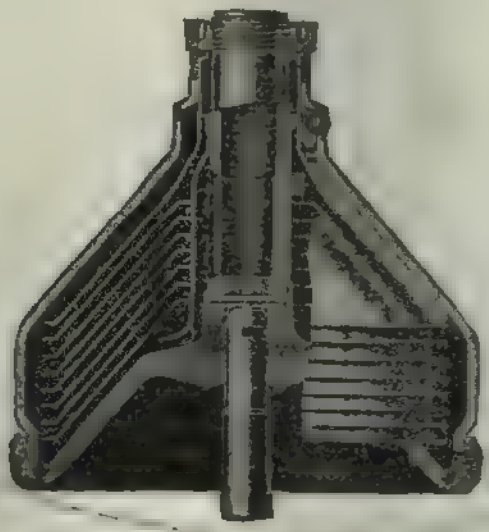
The strong construction makes it almost impossible for this spring to ever wear out, but at the same time the flexibility is such that it will absorb any possible vibration that may occur.



No. H8E



Illustrating Bowl Spindle complete with Neckbearing coil spring and Bottom Bearing.



Sectional View of DOMO Bowl
The DOMO Bowl is self-balancing possessing exceptional close skimming qualities

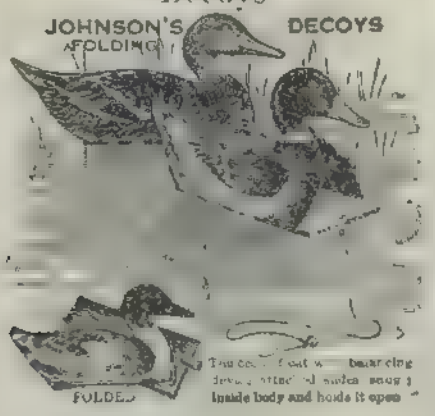
DUCK AND GOOSE DECOYS

Folding Fibre-Board Duck Decoys



Life Size

Photographic reproductions of ducks, printed in natural colors on tough, jute fibre board.

Easily carried in a hunting coat. The cedar float, slides snugly inside paper body to spread decoy and float it. Paper and float thoroughly water proofed. Balancing device attached to float makes tipping impossible.

Mallards

One dozen assorted, 6 hens, 6 drakes, wood floats in cloth in two compartment canvas bags, w't doz 7 lbs.

C25G2—Lots of 1 dz.....dozen $6.60

Extra Paper Portions for No. C25G Mallard Decoys. One dozen assorted, 6 hens, 6 drakes, in a canvas bag, w't doz 2½ lbs.

C29G2—Bag of 1 dz .. lozen $4 20

Extra Wood Floats for No. C25G Mallard Decoys. One dozen in a canvas bag, w't doz. 4½ lbs.

C24G2—Bag of 1 dz.....dozen $2.40

Stake-Out Folding Fibre-Board Duck Decoys

Johnson's

Photographic reproduction of ducks, printed in natural colors on tough jute fiber-board thoroughly waterproofed. They do not float, but are held open by triangular metal frames attached to wire stakes, to be driven into the ground for shooting over shallow water or fields.

Mallards

Complete sets, one dozen assorted, 6 hens, 6 drakes in a canvas bag, w't doz 4 lbs.

C36G2—Bag of 1 dz ..... .dozen $4 20

Extra Quality Solid Wood Duck Decoys

Genuine Northern Wisconsin Cedar

These are the finest and most natural decoys available, they are exact reproductions of the ducks. The cedar is carefully selected and especially treated to resist moisture, hand painted with the highest grades of non-shine oil paints, hand carved heads, imported glass eyes. Float high in the water but unusually light in weight.

One dozen to a package, assorted, 8 males and 4 females.

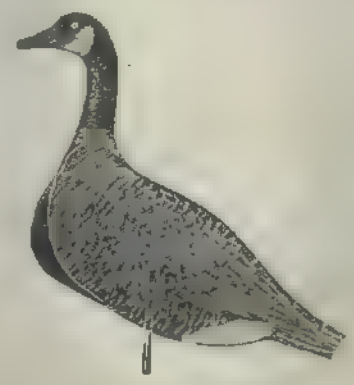
Mallards, w't doz. packed 25 lbs.

C157G2—Pkg. of 1 dz . . . dozen $12 50

Blue Bills, w't doz. packed 23 lbs.

C158G2 -Pkg. of 1 dz . . ozen $12 50

Stake-Out Folding Fibre-Board Goose Decoys



Johnson's

Photographic reproduction of Canada geese with spreading bodies, held open by inserting triangle frame attached to heavy wire stake. Fold flat. Made from heavier waterproofed fiber board than that used in paper duck decoys. For land shooting, will not float.

Complete sets, one dozen assorted, 4 hens, 4 drakes, in a canvas bag, w't doz. 12 lbs.

C40G2—Bag of 1 dz dozen 12 00

Standard Model Solid Wood Duck Decoys

Genuine Idaho Cedar

Feather finish, flat bottomed. Will not water-log. Painted to resemble the natural plumage, with non-glare paint. Glass eyes. Heads fitted with pinion dowels. One dozen in package, assorted 8 males, 4 females, w't dz. 31 to 38 lbs.

Mallards

C120G1—Pkg. of 1 dz . .ozen $10 00

Blue Bills

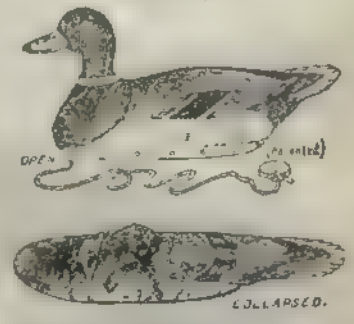
Collapsible Canvas Duck Decoys



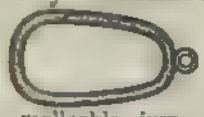
Expand by means of spring when cord is unwound.

Mallard Duck, collapsible decoys, canvas body, wood head and head block, one wire spring head support, one wire tail support, one cord with decoy and cords, when collapsed, measured 6 males and 6 females will occupy when packed 14 cubic feet.

C11G2 Pkg. of 1 dz . dozen $11 75

DECOY ANCHORS AND FASTENERS

Decoy Anchors



Galvanized, malleable iron, loop large enough to go over head of decoys, small loop for anchor cord, about 2×3¼ in. inside, w't doz. 6 lbs.

C15G2 . . . . . .each $0.15

Made from certified malleable iron that is practically unbreakable. Lighter than cast iron or lead weights, but shaped to hold. Easy to pick up or carry; the legs are useful for winding an anchor cord. Height 3¾ in., diameter 4 in., w't each 8 oz., w't doz. 6 lbs

C16G2 . . . . . each $0.15

Especially heavy for holding live ducks or geese. Cast iron, black finish, mushroom pattern, hole in stem for attaching anchor cord. Height 3½ in., diameter 3¼ in., w't doz. 15 lbs.

C55G2 . . . . . .each $0.15

Hard lead, mushroom type with large lead loop so that anchor may be placed over head of wood decoy when not in use. Height (including loop) about 5 in., w't doz. 11½ lbs.

C31G2 . . . . . .each $0.30

Galvanized cast iron, 8¼ in. in diameter with a heavy wire loop 3 in. in diameter, w't doz. 13½ lbs.

C69G2 . . . . . .each $0.40

LOOSE

Balance Weights for Wood Decoys

Cast iron, japanned. Eyelets for anchor cord, nail holes for fastening to the decoy. Will balance decoy so that it rides upright, length 6¾ in., w't each 4¼ oz., w't doz. 3¼ lbs.

C18G0 . . . . . .each $0.10

Hard lead, hole in center for attaching to decoy. Diam. 1¾ in., w't each 4½ oz., w't doz. 3½ lbs.

C20G2 . . . . . .each $0.15

LOOSE

Live Decoy Leg Fasteners

This duck hobble is a combination of a strong leather leg band with a button clasp, to be left on the duck's leg all season, a ring and swivel snap.

Fastener, complete as illustrated, metal parts cadmium plated, ⅝ in. width leather straps.

C109G2 . . . . . .each $0.45

Made from special, waterproof leather. If treated with Neatsfoot oil at the end of the season, these straps will last for many years.

Leather leg strap for live duck decoys, equipped with rust proof eyelet and swivel, special lock loop design to fit either small or large ducks, a secure fastener, easily applied or removed.

C3004G2 . . . . . .each $0.20

LOOSE

Famous Eastman Hawk-Eye Cameras

The well-known line of Hawk-Eye cameras is made in the famous factories of the Eastman Kodak Company, and each camera bears the Eastman name. Our selection includes the latest new numbers in both box and folding models.

Six-16 and Six-20 Folding Hawk-Eyes

New folding models, notable for their unusual compactness, simplicity, and smart finish. Opening the camera automatically extends the bellows and brings the lens into picture-taking position. Compactness is gained by the use of Eastman's new, smaller film spool. Loading and unloading are easily done by opening the back, which is hinged, remaining attached at all times. Neat morocco-grained covering material. Trimmings in enamel and nickel. Both of these cameras come in a choice of black or brown. (State color wanted.) Choice of tested single lens or Kodak doublet lens, both with dependable shutters for time and instantaneous exposures. No. Six-16 takes pictures 2½x4¼. Loads with Kodak film No. 616. No. Six-20 takes pictures 2¼x3¼. Loads with Kodak film No. 620.

No. 99J301. Six-16 Folding Hawk-Eye, single lens. Each.. 7.50
No. 99J302. Six-16 Folding Hawk-Eye, doublet lens. Each. 9.00

No. 99J42. 3A Folding Hawk-Eye, with single lens, pull-out front (black only)..... 7.65

Six-16 and Six-20 Target Hawk-Eyes

New, distinctive cameras—more compact, more beautiful and more efficient than the usual box models. Both use Eastman's new, small, all-metal film spool. Equipped with Magna-finders—sighting devices that show larger images and make it easier to aim at the subject. New cover lens protects working parts. Both models extremely easy to open and load. Fitted with tested lens. Rotary shutter for snapshots and time exposures, (vertical or horizontal.) Rich leather-grain covering material in choice of black, brown or blue. (State color wanted.) No. Six-16 takes pictures 2½x4¼. Loads with Kodak film No. 616. No. Six-20 takes pictures 2¼x3¼. Loads with Kodak film No. 620.

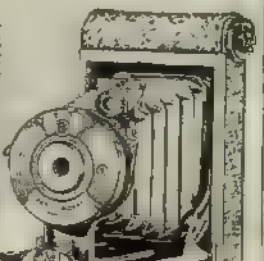
No. 99J324. Six-20 Target Hawk-Eye. Each..... 1.70

Vest Pocket Hawk-Eye

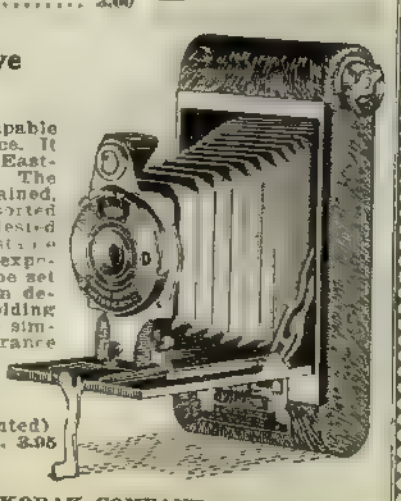
One of the smallest cameras ever produced—and one of the most beautiful. It is supplied in black and in four charming color combinations. The key colors of the colored models, orchid, marsh green, steel blue and rose, are carried out in a rich damaskeene lacquer finish. Blended with them are harmonizing tints on bellows, shutter and finder. Nickeled trimmings and a gold or silver sheen on the body set off styles that represent the peak of new-day camera design. The black model is covered with imitation leather and trimmed in brilliant nickel. Picture size, 1⅝x2½. Loads with Kodak Film No. 127.



Vest Pocket Hawk-eye, Black
No. 99J49. Each..... 3.00
Vest Pocket Hawk-Eye (Specify color wanted)
No. 99J120. Each..... 3.00

No. 2 Folding Hawk-Eye Model "C"

An unusually compact and capable camera, offered at an unusual price. It takes pictures 2¼x3¼. Like all Eastman cameras it loads in daylight. The metal body is covered with fine, grained, black imitation leather and assorted colors. Fitted with a carefully tested lens, and new Kodo shutter adjustable for either time or instantaneous exposures. Simple focusing scale can be set at "fixed" or universal focus when desired. This model combines the folding type of construction with extreme simplicity of operation, neat appearance and low cost. It uses Kodak Film No. 120.



No. 2 Model "C" (Specify color wanted)
No. 99J227. Each..... 3.95

Genuine Kodaks ▪ *"If it isn't an Eastman, it isn't a Kodak"*

Jiffy Kodaks Six-16 and Six-20

The Jiffy Kodak Is Eastman's Latest. The simplest folding camera ever devised. Touch a button: **Pop**—it opens. Touch another: **Click**—it snaps the picture. Jiffy Kodaks have box-camera simplicity. Because of their ingenious fronts actuated by strong extension arms, they literally leap into action. They have the advantages of fixed focus, plus a simple adjustment on the new Twindar lens that keeps near subjects in focus even if they are only five feet away. Unusual compactness, made possible by Eastman's smaller all-metal film spool. Smart, black, morocco-grained covering. Black and nickel etched metal front. Built-in shutter with time and instantaneous actions. Two crowned brilliant finders. Swinging foot to support camera for time exposures. No. Six-16 takes pictures 2⅛x4⅛, loads with Kodak film No. 616. No. Six-20 takes pictures 2⅛x3⅛, loads with Kodak film No. 620. At the prices given these new Kodaks are sensational values.

WE CAN SUPPLY ANYTHING MADE BY EASTMAN KODAK COMPANY

Kodaks—Brownies—Kodak Film

Kodaks Six-16 and Six-20

Two of the most sensationally successful cameras ever offered. No Six-16 is the world's smallest roll-film camera making 2½x4¼-inch pictures. No Six-20, similar in design, makes pictures 2⅛x3⅛—a remarkable size for so small a camera. Models fitted with Kodak Doublet and f.6.3 Anastigmat lenses have self-erecting feature—one pull on locking lever opens camera and snaps lens into position. F.4.5 models capable of good pictures under almost any conditions, have convenient pull-out front. Beautiful octagonal construction on shutters and side panels. Body covered with handsome, black, pig-grain material. Matching cases of genuine pig-grain leather available if desired. Six-16 loads with Kodak Film No. 616. Six-20 loads with Kodak Film No. 620.

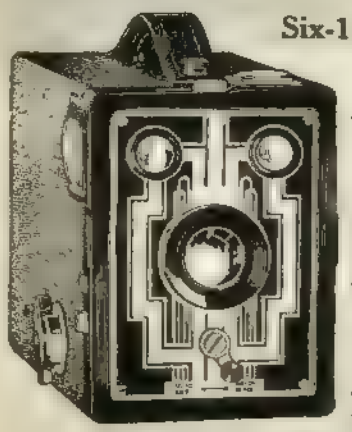
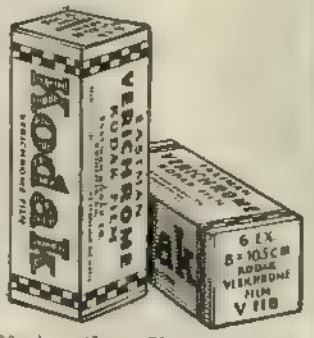
Six-16 and Six-20 Brownies



New, compact, super-efficient models. Provided with precision feature new to box cameras—the Diway lens. Without sacrificing Brownie simplicity this lens, controlled by a lever, gives sharper, clearer pictures of both near and far subjects. Front element of lens protects moving parts. Crowned, brilliant Magna-finders for vertical and horizontal views. Eastman Rotary shutter for snapshots and time exposures. Rich, black, morocco-grain covering. Decorative two-tone etched metal front. Nickeled fittings. Six-16 makes pictures 2½x4¼, loads with Kodak Film No. 616. Six-20 makes pictures 2⅛x3⅛, loads with Kodak Film No. 620.

No. 99J329.	Six-16 Brownie	2.65
No. 99J330.	Six-20 Brownie	1.90

Kodak Film—Regular and Verichrome



Genuine Kodak Film is available as before with all the qualities that have made it famous. Kodak Verichrome Film has remarkable latitude and speed, which increase the range of conditions under which any camera may be used. It is highly color-sensitive. Verichrome gives prints of greater richness and beauty, and makes possible many "shots" that would otherwise be out of the question. In the 116 and 120 sizes these films now have 8 exposures instead of 6—⅓ more film—at no advance in price.

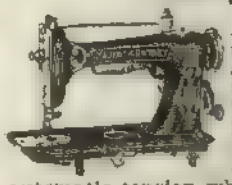
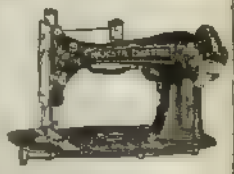
Majestic Electric Sewing Machines



The Majestic Rotary Electric Sewing Machine with built-in motor and built-in sewing lamp has a full size, streamline arm, small solid disc hand wheel, and presents a very nice appearance. It makes the strong lock stitch which is always smooth and even. It is equipped with automatic tension which adjusts itself to a perfect stitch on all classes of goods. Has automatic tension release, and automatic stitch regulator. Other features are: steel-capped needle and presser bars, automatic bobbin winder, positive cam driven take-up, positive double width steel-forged feed, self-setting needle, and self-threading shuttle



The Majestic Electric Shuttle Type Sewing Machine has just recently been improved — the motor is now built into the arm and is an integral part of the machine itself—not an attachment. A sewing lamp designed and built under the arm directs light where it is needed. It has a small, solid disc hand wheel, a long slender arm with streamline appearance, and makes the strong lock stitch which is always smooth and even. Has disc tension on side of arm equipped with release, automatic stitch regulator, and automatic bobbin winder, and all latest improvements

This cabinet, while of library table design, is popular because it serves for writing purposes or as an occasional table. When closed it measures 27x18 inches and is 30 inches high. The woodwork is a warm brown walnut, richly finished, with an attractive overlay of matched Burl Walnut on the front panel. A superior, well finished, exceptionally well designed cabinet offering beauty, quality, and strength for the purpose desired. It is equipped with our Rotary sewing head, and speed is regulated by knee control. Attachments included with each machine. Weight, crated, 104 lbs.

No. 26A10. Majestic Rotary & atts. Each.... 54.20

This attractive Desk Cabinet Sewing Machine will find its place in any home where it will serve as an occasional stand or desk when not in use for sewing. The woodwork is walnut—a warm brown—with attractive overlay medallion of light color burl walnut on front of door. When closed it measures 21½x18½ inches and is 30 inches high. It is equipped with either our Majestic Rotary or Shuttle type head described above, and speed is regulated by knee control. A complete set of attachments with each machine.

No. 26A20. Majestic Rotary and atts.
Weight, crated, 85 lbs. Each..... 41.70

No. 26A13. Majestic Shuttle and atts.
Weight, crated 85 lbs. Each ... . [illegible]

This cabinet has the air of distinction, and yet is ready for sewing instantly when needed. The woodwork is a warm brown walnut, richly finished to match the table, and handsome cross stretcher makes them decidedly rigid and strong. It measures 23¾ x 18¼ in and is 30 in high. It is equipped with either our Majestic Rotary or Shuttle type head described above, and speed is regulated by knee control. Attachments furnished with each machine.

No. 26A17. Majestic Rotary and atts.
Weight, crated, 90 lbs. Each..... 53.25

No. 26A18. Majestic Electric and atts.
Weight, crated, 90 lbs. Each..... 47.35

The Portable Rotary is convenient for persons living in a small home or apartment where space is limited. It is completely self-contained and may be carried easily from place to place. When not in use it may be put in a closet. Cover and base are of genuine Walnut, richly finished. The Rotary sewing head is described at the top of the page.

The Portable Shuttle Type Electric Sewing Machine has the popular ¾ size sewing head, with disc tension on side of arm. It makes the strong lock stitch and is well equipped with improvements. Motor is attached to rear of arm and speed is regulated by a foot control. Cover and base are genuine Walnut, richly finished. Attachments furnished with each machine.

No. 26A4. Majestic Rotary and atts.

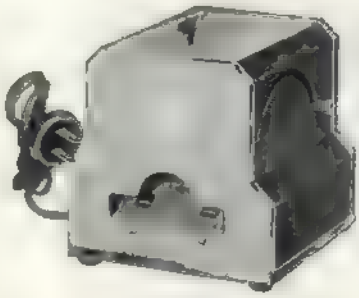
Electrical Conveniences Every Home Should Have

Ty Boy for renewing ties easily and quickly. Described at right



The Smokerette is an electric cigarette dispenser. Holds from one to sixty cigarettes. Works on A. C. or D. C. current. Fill with cigarettes, pull lever, hold same for about seven seconds. Release and lighted cigarette is delivered. Comes beautifully decorated in black or green. Size, 5x5x5 inches.

C246H01 ..... **$3.00**

Ty Boy restores a tie to its original shape and freshness in just a few minutes. Has heat control and does not get hot enough to scorch.

C246H02 **$2.50**

Who hasn't waked suddenly in the night and wished that a light would turn on automatically? Well, this electric candle does the next best thing, when it is lifted in the hand it lights, and burns as long as it is held up, going out when it is set down again. Or, if desired, it may be adjusted to burn continuously. Parents of small children will be especially grateful for the electric candle, both for their own use and for the reassurance of the child who may wake in the night and be unable to turn on a light for himself. And what a happy thought for use in dark closets and obscure corners of attic and basement. Equipped with bulb and battery.

C246H03 **$1.20**

Ultra-Violet Ray Sun Lamps for Year Round Health

C246H06
Ultra violet-ray lamp for health maintenance

Man is 85% fully clothed and only able to get the benefit of sunshine to the various parts of his body when in swimming or taking a sun bath. It is the ultra-violet radiation (ray) that causes tanning, and produces the cure for rickets (or softening of the bones) in children; it also produces Vitamin D in the body, which is an aid to a hardy and vigorous life, enabling us to enjoy the benefits.

The Dominion sun lamps are comparable to the sun of July mid-day. Every one in the home can enjoy good health through the application of these rays.

Sunshine, or its artificial means, has been used successfully for a great many years to build up human resistance against disease.

Those who could afford it heretofore convalesced at the seashore or the mountains. All classes alike can now convalesce through artificial means.

Comes in both floor and table models. Both types are adjustable so that direct rays can be thrown in any desired direction.

Equipped and endorsed by the General Electric Company using the new type S1 and S2 bulb and G. E. transformer, the most recent development of vast resources of the General Electric Laboratories. Switch in base and a detachable extension cord.

No. 39N269.

Per dozen... 11.76 | Each... 1.05

Pikie Minnows

The new Nature Lure so closely imitates the pike minnow in shape, color and movement that the combativeness of the bass is aroused and they strike it to kill.

Gives best results when reeled slow but does not revolve if reeled fast. It's a near surface wiggler, or by turning up the screw-eye a few turns and reversing the mouth-piece you have a surface splatter.

Length 4½ in., w't ⅞ oz., rust-proof bronze hooks to blend with color of body, all hooks including the tail hooks, hooks set in sockets to hold same away from the body.

C700G1—Natural pikie, scale finish, each $1.00
C701G1—Natural perch, scale finish, each $1.00
C702G1—White with red head, each $1.00
C704G1—Golden shiner, scale finish, each $1.00
C708G1—Rainbow ..... each $1.00
C711G1—Black with white head, each $1.00
C718G1—Silver flash..... each $1.00

ONE IN A BOX

Baby Pike

Thoroughbread from the Famous Pike Minnow

This lure 3¼ in. long is a smaller bait than the now famous Pikie Minnow, which has been making the record catches of game fish in every part of the country. It has a wicked wiggle and all the good qualities of the larger lure. A light, strong killer.

C900G1—Pikie, scale finish....each $0 85
C902G1—White and red..... ..each .85

ONE IN A BOX

Crawdad Natural Crawfish

Natural shaped body and tail, black bead eyes, rubber legs, bronze hooks, movement backwards, same as a crab. Wiggle mostly in tail. Rubber legs give more movement. Fine for use on bright days, in clear water and along stony shores.

Floats until started. Tail guards hooks from snags and bottom. Length of body 2¾ in., w't ⅞ oz. Casts like a bullet.

C300G1—Natural crab..... each $0.85

ONE IN A BOX

Chub Wigglers

De Luxe Wag Tail

A bait which apparently swims with its tail. Looks like a live minnow, swims like one and is a Real Fish Getter. Has a nickel plated tail which swings back and forth as the bait travels through the water, and the flash of the nickel makes a more attractive lure. Body 2¾ in. long, w't ½ oz., double hooks so placed that the fish get hooked when striking and at the same time the bait is practically weedless.

C800G1—Natural chub, scale finish, each $1.00
C801G1—Natural perch, scale finish, each $1.00
C802G1—White with red head ..each $1.00
C804G1—Golden shiner, scale finish, each $1.00

ONE IN A BOX

The Original "Injured Minnow"

Represents an injured minnow which is laying on its side about all in, but still able to make a little fuss on the surface and should be pulled in a series of small slow jerks or very slowly to properly imitate a struggling minnow. Bass will instantly take a lure which they believe to be a minnow in trouble and therefore easy to catch.

Loose vibration spinners give to strike or weeds, etc., and are superior to rigid kind. When pulled through water they spin just right and have a buzzing vibration which is very attractive. Bending of shaft will not stop them from spinning and small grass and moss do not clog them.

Easily cleaned.

Length of body 3¾ in., w't ⅞ oz.

C1505G1—Red side, scale finish, each $1.00
C1518G1—Silver flash..... each $1.00
C1501G1—Natural perch, scale finish, each $1.00

Baby

Looks like a nice little meal for the fish. Has two double hooks which can be reversed so hooks point up and when so used gives a bait that can be pulled over the surface weeds and pads without fouling.

Length of body 2¾ in., w't ½ oz.

C1605G1—Red side, scale finish, each $0.85

ONE IN A BOX

The Baby Jointed "Pikie Minnows"

This peppy little wiggler is about the size of the live bait generally used, and comes closer than any lure representing a live minnow in a hurry to get away. Found to be a deadly killer in rivers and lakes, especially in the new Silver Flash finish, which so closely imitates the Silver Shiner Minnow. Length of body 3½ in., w't ½ oz. Made in the following finishes:

C2700G1—Natural pikie, scale finish, each $1.00
C2701G1—Natural perch, scale finish, each $1.00
C2702G1—White with red head, each $1.00
C2718G1—Silver flash..... each $1.00

ONE IN A BOX

The Jointed "Pikie Minnows"

This new jointed Pikie has a beautiful wiggling movement, flexible and sensuous, which makes it a fish getter. It is a very easy caster.

Length 4½ in., w't ⅞ oz.

C2600G1—Natural pikie, scale finish, each $1.00
C2601G1—Natural perch, scale finish, each $1.00

C2618G1—Silver flash ..... each $1 00

ONE IN A BOX

The "Pickerel Pikie"

Front half of body is a solid mass of glittering silvery flakes more attractive and brighter than a spoon and tail red or yellow to imitate a fly. Has all advantages of old spoon and fly combination plus sure hooking qualities of wooden plug. Unlike spoon it casts easily and can be used without fear of twisting line. Runs a little deeper than regular Pikie and does not float.

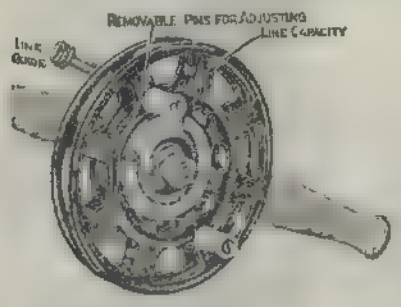
Length of body 4½ in., w't ⅞ oz.

C2605G1—Silver glitter with yellow tail, each $1 00
C2606G1—Silver glitter with red tail, each $1.00

ONE IN A BOX

Winona Fish Reels

Diameter of reel 4¼ in. Normal capacity 100 yds. 15 lb. test line can be increased to 200 yds. by removing adjustable pins.

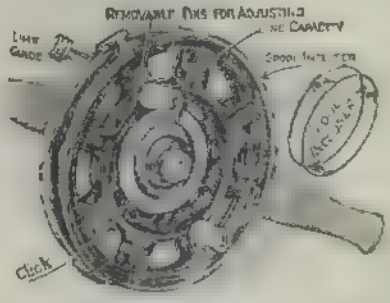


Spool nickel-silver black finish. Hub and Reel seat bright nickel and aluminum. No gears, is self-spooling, noiseless, free from back-lashes. Thumbing done on hub instead of spool of wet line. New Thumb-drag brake on lower side of reel-hub when casting, and when rod is transferred to left hand is in correct position for left thumb. Adjustable pins for increasing line capacity, w't 5 oz.

No Spool-incloser, no Click, with Thumb-Drag brake and Line-capacity Adjusting Pins.

C305G2 .... each $5 50

ONE IN A BOX



Extremely practical, well-made and serviceable. No gears to wear out, quiet and easy running. Self-spooling and no back-lashes. Thumbing done on hub. Has special Thumb-drag brake to control large fish, also adjustable pins for increasing line capacity. Automatic brake retards spool on cast only, and save thumbing and back-lashes. Thumbing done on hub. New Spool Incloser encircles circumference of reel and prevents line from coming off or tangling. Furnished with metal line guide, trumpet style to insure line entering spool properly. Supplied with adjustable click. Materials of best Nickel-silver and Aluminum. Spool nickel black finish. Bearinges toughest phosphor bronze, shaft tool steel hardened and polished, w't 6½ oz.

With Spool Incloser, Click and Thumb-drag brake with Line-Capacity Adjusting Pins.

C308G2 .....each $8.25

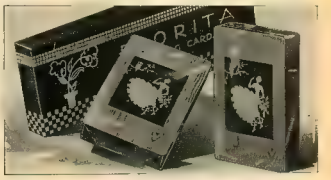
PLAYING CARDS

The quality of these fine playing cards is second to none. Every deck is gilt edged, linen finished, super-glossed for ease in dealing, cellophane wrapped, and smartly packaged in double gift boxes, each box containing TWO DECKS of contrasting color schemes. These smart playing cards make ideal gifts.

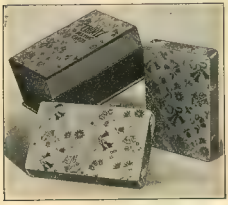
INITIAL: The new Initial Playing Card is unique and highly personal. It represents an unusual value as it combines style and durability with the distinctive initial feature. The color scheme is black and gold, and red and gold. Gilt edges, linen finish, each deck cellophane wrapped, and packed in handsome red and gold slide boxes. In ordering, be sure to specify the initial wanted on each set.

No. AR107—Twin Slide Pack containing TWO DECKS..$1.50



FLORITA: An inexpensive card on very heavy two-ply card stock, and an exceptional quality for the cost! The design is most effective with gay silhouette figure and oak panel background. Assortment of colors: red, blue, green, and orange, set off in attractive box of appropriate color. Decks are gilt edged, linen finished, cellophane wrapped. A gift that will be appreciated and used with pleasure.

No. AR108—Telescope Case containing TWO DECKS....$1.20



CHINTZ: This delicate Chintz fabric design in puce, light blues, and shades of green is one of the outstanding favorites. And what quality! High rag content linen finish with worlds of snap. Gilt edges and cellophane wrapped, of course, and packed in fancy gift boxes.

No. AR111—Twin Giftpac containing TWO DECKS.....$1.50

DISCUS: A novelty card originally imported from Europe and sold for $1.50 per deck. We now offer the same high quality—American made—at half the former price. These round cards can be used just as well as the standard shape cards for bridge and other games.

No. AR109—Round Suede Giftpac containing TWO DECKS $1.50

BROCADE: Beautiful lace figures in silver and gold against a background of deep black brocade. Super quality in every way; will not show dirt or thumb nicks. Gilt and silver edges, linen finish, cellophane wrapped. Packaged in gorgeous black and silver gift boxes.

No. AR110—Twin Giftpac containing TWO DECKS $1.95

KILTIE: The backs of Kiltie cards carry this attractive etching called "An Informatory Double" which has both originality and a touch of humor. Bordered with colorful plaid design of red, green, brown or blue. Housed in the novel Kennelpac which is as clever as the cards themselves, this set makes an instant appeal to everyone! Each deck wrapped in cellophane gilt and silver edges; linen finish. A gift that is distinctive, yet so moderate in cost.

No. AR101—Kennelpac containing TWO DECKS. .$1.50

Have a few decks of these smart cards on hand for gifts and prizes. Everyone admires their style!

WARWICK: The backs of Warwick cards are ultra-modern in style of illustration and rich in color harmony—blue yellow, red, black, gold and silver in glorious combinations. These cards of superior quality were made for those who want the best: linen finish; gilt and silver edges. Not only each deck, but the package as well, is wrapped in cellophane.

No. AR104—Twin Giftpac containing TWO DECKS...$1.50

How BIG is a Sale?

These are all major items needed in millions of kitchens—and featured in the big Florence Advertising Campaign of 44 million advertisements. How many of these items do you carry? How many would you like to sell to each customer?

- ☐ Florence Oil Range
- ☐ Florence Oil Stove
- ☐ Florence Gas Range
- ☐ Refrigerator
- ☐ Kitchen Cabinet ☐ Breakfast Set
- ☐ Broom Closet
- ☐ Ironing Board Closet
- ☐ Washing Machine
- ☐ Ironing Machine
- ☐ Iron ☐ Shelves
- ☐ Work Table
- ☐ Work Table on Wheels
- ☐ Stool
- ☐ Floor Covering ☐ Lights
- ☐ Electrical Toaster
- ☐ Electrical Beaters, etc.
- ☐ Kitchen Ware ☐ Utensils
- ☐ Clock ☐ Scales
- ☐ Paint & Lacquer ☐ Paint Brushes
- ☐ Toweling
- ☐ Curtains and Fixtures
- ☐ Brooms, Mops, etc.

Just for the fun of it, check them off and figure the profit.

THAT all depends on the set-up: what the prospect wants, what she sees, etc.

At the present time there is a wave of interest in *fixing up the kitchen.* Women's magazines are full of plans — women are interested. You can sell stoves, ranges, refrigerators, cabinets, clocks, floor covering, utensils — high unit and low unit sales that will be profitable for you this spring, if you come in on the Florence Plan.

This plan follows the advice of 249 retailers — furniture, hardware, department stores—in all parts of the country. It helps you sell, not only Florence Oil Ranges and Gas Ranges, *but your complete line of kitchen equipment.* It sends you live leads of store-wide prospects. It brings you valuable window trim, newspaper cuts, circulars, premiums — and an amazingly responsive direct mail campaign.

And best of all it gives you a line of stoves and ranges for kerosene, range oil, and gas, with models to meet each need and pocketbook.

The big sale requires the big prospect. Florence is distributing 44 million coupons to *interested* women throughout the country. Do you want some of these live leads? Then wire us right away for information.

Send for this free copy of the Florence Ranger, the tabloid news sheet that will tell you about the Florence 1933 Advertising Campaign in detail. Do it now!

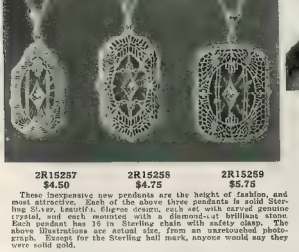
Fashionable Pendants

Sterling Silver New Designs



2R15257 $4.50 — 2R15258 $4.75 — 2R15259 $5.75

These inexpensive new pendants are the height of fashion, and most attractive. Each of the above three pendants is solid Sterling Silver, beautiful filigree design, each set with carved genuine crystal, and each mounted with a diamond-cut brilliant stone. Each pendant has 16 in Sterling chain with safety clasp. The above illustrations are actual size, from an unretouched photograph. Except for the Sterling ball mark, anyone would say they were solid gold.

NEW LOW PRICES

Rich milgraining, exquisite filigree lacework, from the inspiration of master designing and by the tools of master-craftsmen, bring exquisite beauty in these fashionable pendants of solid Sterling Silver. They have the charm and lovely appearance of the highest priced solid platinum and gold creations. Look at our low prices!

Cameos and Crosses

Note These Impressive Values

(No. 2) Pak o' Fun Moovy Sho. New—novel—fascinating. Toydom's latest sensation. Particularly adapted for little folks (both boys and girls) from three years of age up. Hours of exciting fun for them and grown-ups as well. Absolutely harmless—not enough current for even the smallest child to feel it. No more electricity used than in an ordinary flashlight. Battery operated (two standard dry cells, similar to ordinary flashlight). Hand controlled—4 bulbs operated in rotation from contact with simple commutator and metal rotating contact. (Batteries should be removed when set is not in use.) Metal covering serves as housing for batteries and lights—four compartment, angular foot light frame on which film is placed. When operated, intermittent lighting gives realistic cinema effect. Extension frame for projecting screen, correct length for proper focus. Set contains 12 duplex films of two pictures each—24 pictures in all with 12 extra blanks for making your own movies. Instruction manual tells how. For convenience additional films can be purchased separately at relatively little expense. Size of machine 9¼ inches long, 5½ inches wide x 2½ inches high. Packed in attractive colored display carton

No. 82N69. Each..... 1.35

2R25140 PRICE **$24.50**

Electric Clocks for Any 110 Volt Current—A. C. or D. C.

IMPORTANT ANNOUNCEMENT: The new clocks on this page will run on any 110-volt current. EACH CLOCK HAS 24 HOURS' RESERVE POWER for interruptions. These clocks are built with jewelled MARINE ESCAPEMENT MOVEMENTS that are micrometrically adjusted to ten seconds per month. These clocks run in any position, without winding or attention.

Ship's Clock Movement—Fully Jewelled

The six clocks on this page have marine escapement movements with seven ruby jewels, compensated for isochronism and changes in temperature. The movements are lever escapement with smooth running train wheels, extra heavy plates, burnished and polished staffs, cut pinions.

Run in Any Position

You may set these clocks in any position and they will run equally well. In case of current interruption, they will run for 24 hours or more on their own power and will not lose a second. When the current starts again, the clocks automatically wind themselves and again replenish their reserve power.

Mellow Two-Tone Normandy Chimes

All the electric clocks on this page for alternating current (except the two wall clocks) strike each hour and half-hour on two-rod Normandy Chimes. When desired the chimes can be shut off. The clocks for direct current do not have the striking mechanism.

Extremely Accurate

The six clocks on this page are extremely accurate timekeepers. They operate equally well on synchronized current or current that is not synchronized. They are easy to install for you merely attach the plug to any light socket and set the hands. You can turn the hands back or forward without interfering with the striking mechanism. In every way we recommend these clocks as the finest of this kind that it is possible to buy.

ELECTRIC BANJO CLOCK
Mellow Normandy Chimes

For absolute accuracy, the electric marine type movement of this beautiful banjo clock has no equal. Should the current fail, the clock runs on, for it has a reserve power of 24 hours. Strikes the hours and half-hours on Normandy Chimes. The case is solid Nicaraguan Mahogany, lacquered and hand rubbed. Measures 37 in. high, has 7-in. silvered dial, raised bronze numerals, serpentine hands and convex glass. Polished brass trimmings; attractively decorated panels. Made in models for alternating and direct current. Please order by number.

(No. 2) Pak o' Fun Moovy Sho. New—novel—fascinating. Toydom's latest sensation. Particularly adapted for little folks (both boys and girls) from three years of age up. Hours of exciting fun for them and grown-ups as well. Absolutely harmless—not enough current for even the smallest child to feel it. No more electricity used than in an ordinary flashlight. Battery operated (two standard dry cells, similar to ordinary flashlight). Hand controlled—4 bulbs operated in rotation from contact with simple commutator and metal rotating contact. (Batteries should be removed when set is not in use.) Metal covering serves as housing for batteries and lights—four compartment, angular foot light frame on which film is placed. When operated, intermittent lighting gives realistic cinema effect. Extension frame for projecting screen, correct length for proper focus. Set contains 12 duplex films of two pictures each—24 pictures in all with 12 extra blanks for making your own movies. Instruction manual tells how. For convenience additional films can be purchased separately at relatively little expense. Size of machine 9⅛ inches long, 5¼ inches wide x 2½ inches high. Packed in attractive colored display carton.

No. 82N89. Each 1.35

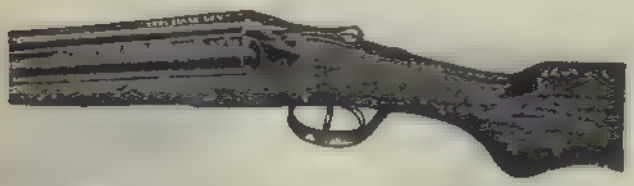
HAMMERLESS DOUBLE BARREL SHOT GUNS

Western



The Western Arms Corporation's "LONG RANGE DOUBLE" is a well finished, medium priced, double barrel, hammerless gun. It has a genuine walnut pistol grip stock and fore-end, not checkered but finished in Duco. The stock is 14 in. in length with a drop at heel of about 2¾ in. Highest grade steel locks, matted top rib and unusually smooth trigger pull.

The 12 gauge, 32 in. guns have both barrels full choke bored, all other gauges and lengths are left barrel full choke, right barrel modified choke.

C3402G1—12 gauge, 28, 30 or 32 in., for 2¾ and 2⅞ in. shells, w't 7¼ to 7¾ lbs.....each **$17.50**

C3406G1—16 gauge, 28 or 30 in. barrels, for 2⅞ in. shells, w't about 6¾ lbs. .....each **$17.50**

C3400G1—20 gauge, 28 in. for 2½ and 2¾ in. shells, w't about 6¼ lbs. .....each **$17.50**

C3404G1 .410 gauge, or 44 caliber, 26 in., adapted to .410 gauge shells (any length), 44 WCF and 44 XL cartridges, w't about 5¾ lbs. .....each **$17.50**

The .410 gauge has a smaller frame than the 12, 16 and 20 gauge guns.

Ithaca

Three separate safety indicators. Popular rotary bolt fastening. D. & E. snap forearm fastening. The lock mechanism is a new application of the fast coil main spring, to an unbreakable hammer and sear, which retains the lock speed of Ithaca guns.

Barrel—Smokeless powder steel, very durable for nitro powder, matted concave rib with bolted extension, plain extractor.

Stock—Black walnut, good color, highly finished, full pistol grip, hand checkered stock and fore-end, ornamented rubber butt plate. Stock set into frame to prevent splitting and spreading.

Frame—Case-hardened, automatic safety and all locks forged from same steel as used on higher grade Ithaca guns.

Field Grade

C3442G0—12 gauge, 30 in. barrel, for 2¾ and 2⅞ in. shells, left full choked, right modified choke bored, w't 6¾ to 7¼ lbs., each $40.55

C3446G0—16 gauge, 28 or 30 in. barrel, for 2⅞ in. shells, left choke, right modified choke, w't 6¾ to 7 lbs., each $40.55

C3440G0—20 gauge, 28 in. barrel, for 2½ and 2¾ in. shells, left full choke, right modified choke, w't about 6 lbs., each $40.55

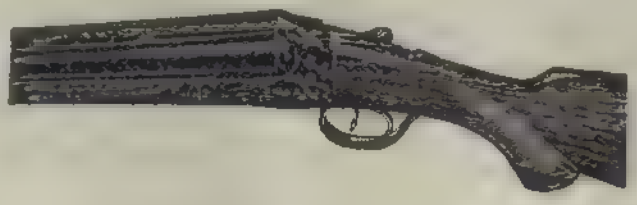
Lefever

Single Trigger Nitro Special Model 1

A sturdy single trigger gun at a low price. The trigger is set to shoot first the right and then the left barrel. The mechanism is simple and durable. The full pistol grip stock has a length of about 14 in., drop at heel 2¾ in. Every gun is proof-tested with an extreme load. Left barrel full choke, right modified choke bored.

C3512G1—12 gauge, 30 in. for 2¾ and 2⅞ in. shells, w't 7¼ to 7¾ lbs. .....each $28 35

Lefever



Two Trigger Nitro Special Model 1

A well finished, medium priced, double barrel, hammerless. Non-breakable coil springs. Stocks securely fastened to frame with a draw bolt running up through grip of stock to frame. Top snap may be tripped by simply pressing down with thumb, on a trip pin which comes up through face of frame.

The full pistol grip stock has a length of about 14 in., drop at heel 2¾ in. except in the .410 gauge which has a stock 13½ in. long.

All gauges are bored left barrel full choke, right modified choke except: 12 gauge, 32 in., both barrels full choke bored.

Every gun is proof-tested with an extreme load.

C3412G1—12 gauge, 28, 30 or 32 in., for 2¾ and 2⅞ in. shells, w't 7¼ to 7¾ lbs.....each $23.75

C3416G1—16 gauge, 28 in., for 2⅞ in. shells, w't 6¾ lbs., each $23.75

C3410G1—20 gauge, 28 in., for 2½ and 2¾ in. shells, w't about 6¼ lbs. .....each $23.75

C3414G1—.410 gauge or 44 caliber, 26 in., adapted to .410 gauge shells (any length), 44WCF and 44XL shot cartridges, w't about 5¾ lbs. .....each $23.75

The .410 gauge has a smaller frame than the 12, 16 and 20 gauge guns.

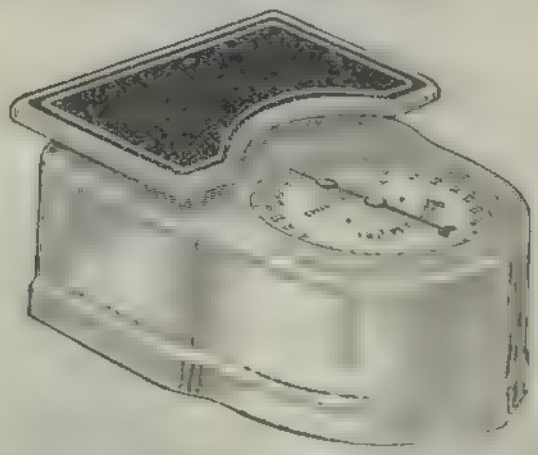
Health-O-Meter DeLuxe



By far the most attractive bathroom scale on the market today and superior in construction, operation and appearance to any scale of its kind. Entire mechanism is covered by a heavy, one-piece shell of unusually pleasing design with attractive rolled corners and edges. Handsomely finished in popular colors. The substantial appearance and finish are in accord with the most modern bathroom equipment. The improved mechanism is mounted on a heavy, cast base, independent of the shell and designed to give years of accurate service. The large, legible dial is black with white numerals, graduations and indicator, making it both easier to read and more attractive. The heavy, convex crystal covering the dial is securely held in a dust and moisture-proof seat. Capacity 250 lbs. by ½ lb. 300 lbs. capacity to order. Platform 7x11 in. Height 6 in. Space required 11x14½ in., w't 24 lbs., packed 36 lbs.

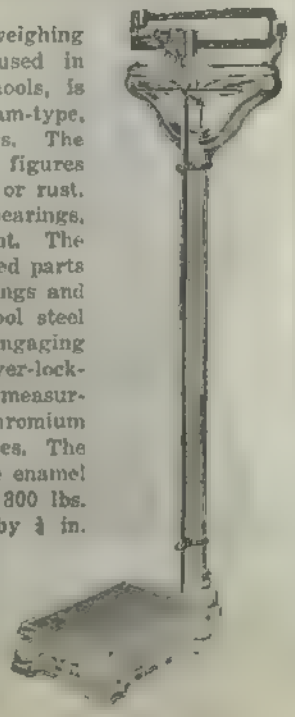
Physicians' or Bathroom Scales



For extreme accuracy in personal weighing this type of scale, the same as used in physicians' offices, hospitals and schools, is highly recommended. It is of the beam-type, operating without the use of springs. The beam is of an alloy die casting with figures cast in relief and will not bend, warp or rust. Beam is mounted on agate beam bearings, eliminating all wear at this vital point. The one-piece top does away with assembled parts that so often loosen in service. Bearings and pivots throughout are of hardened tool steel and the levers are prevented from disengaging when scale is moved by a patented lever-locking device. The two-piece telescopic measuring rod is of heavy brass tubing, chromium plated, as is the die cast beam and poises. The scale is furnished in oven-baked white enamel with cork inlaid platform. Capacity 300 lbs. by ½ lb. Measuring rod graduated by ½ in. from 30 to 78 in. Special graduations for foreign use to order. Platform 10½x14 in. Height 60 in., net weight 50 lbs., boxed for shipment 82 lbs.

T115A3 ... each $40 00

HEDDON'S NATIONALLY KNOWN BAITS

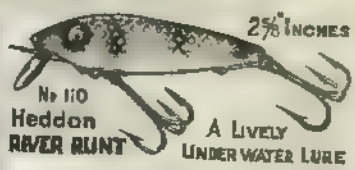
Heddon's Meadow Mouse Assortment. True to nature, even to eyes, ears and tail, and it floats and swims. Six mouse baits are mounted on attractive display card, two each of brown mouse, grey mouse and white and red mouse. Each card in carton.
No. 18R243. Per assortment. **3.92**

Heddon ALL-PURPOSE Baits
KINGS and QUEENS
For ALL Game Fish Casting or Trolling
BASS, PICKEREL, MUSKY & N. PIKE, PIKE, LAKE TROUT

Heddon "KING AND QUEEN" CARD

All baits on this card are all full nickel finish. Card contains 4 Kings and 2 Queens, single hooks. A bright red feather attached to the hook directs the attack of the fish. A very popular item.

No. 18R203. Per assortment. **3.92**



River Runt, a small, compact lively lure for light rods. Very effective for river fishing, particularly for small mouth bass, and equally good in other waters for all game fish. A slow sinking bait with attractive wiggling action. Equipped with two sets of treble hooks. Length 2⅝ inches, weight about ½ ounce. Each in box.

No.	Color	
18R287/RR.	Rainbow	Dozen
18R287/WR.	White and Red	7.06

Heddon "FISH-FLESH" Baits

Transparent with Indestructible Finish

Basser-Spook, duplicating the famous erratic action of the Heddon "Basser." This Basser-Spook has the same lively action in floating, diving and darting lure, plus the new "fish flesh" appearance and indestructible finish. Has three treble hooks. Length 4½ inches, weight ⅝ ounce. Each in box.

No.	Color	
18R286/RW.	Red and White	Dozen
18R286/G.	Green Scale	9.80

Jointed Vamp-Spook, a new lively swimming model in Pikeminnow shape. Floats, dives and swims. True "fish-flesh" appearance. Indestructible finish that outlasts many wooden lures. Equipped with three treble hooks. Length 4½ inches, weight ¾ ounce. Each in box.

No. 18R273/RW. Red and White **Dozen 10.60**

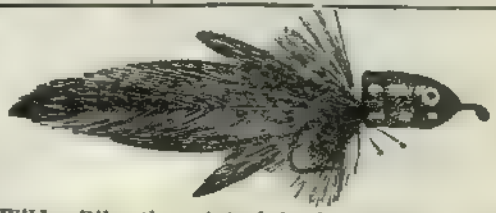
Heddon "FISH-FLESH" Baits

Transparent with Indestructible Finish

A WEEDLESS FLY ROD "POPPING" LURE

Bubble-Bug, is a deadly hooker, but unbelievably weedless. Hook is pointed up and bug can be used in thick cover with short twitches, but makes big bubbles and has lively action when retrieved slowly. An excellent caster. Each in box.

No	Color	Per dozen
18R288/WR.	White body, Red stripes	5.88
18R288/YB.	Yellow body, Black stripes	



Wilder-Dilg, the original feather minnow. Made from a light enameled cork head, brilliant eyes, a ruff of various colored hackle, and fin and body feathers that impart the curious rolling, dipping and depth-seeking throes of a wounded minnow, with a single non-twisting No. 1 O'Shaughnessy hook. Moth protected. Each in box.

No.	Pattern	Per dozen

South Bend Bass-Oreno Display. Consists of an attractive Goldenrod yellow box, containing six Bass-Oreno baits, one each of the colors RSF, SF, RH, F, Rain, and RHA. Very often an angler will buy the whole set. Packed one display in box.

No. 18R69.
Per assort. of 6..... **3.66**

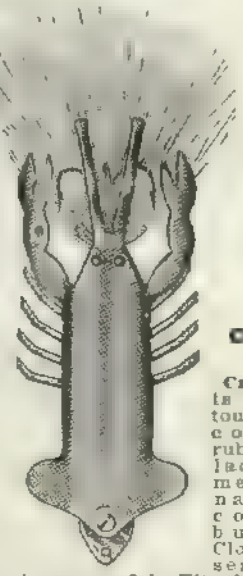
Trix-Oreno Box Display. A lure for bass, has a No. 4/0 hook, body length 2¾ inches, weight ⅝ ounce. Contains 2 baits of each of the three standard colors, red head with white body, lustrous iridescent pearl, and highly polished silvery chromium. Each bait in box.

No. 18R271.
Per assortment **3.73**

Min-Oreno

Min-Oreno with its life-like action eclipses all previous imitations of swimming minnows. Stainless steel snag proof head-fitting guides the slender body in its upright path. 4½ inches long. Each in box.

No.	Color	Per dozen
18R279 SW	Red, arrowhead and white body	6.67
18R279 RSF.	Scale finish with [illegible]	



Crab-Oreno

Crab-Oreno is made of tough brown colored rubber, red lacquered metal and natural colored bucktail. Closely resembles a crab or crawfish. Fitted with No 1 size treble hook. Weight ¾ ounce. Each in box.

No. 18R280. Per dozen..... **6.27**

HEDDON'S NATIONALLY KNOWN BAITS

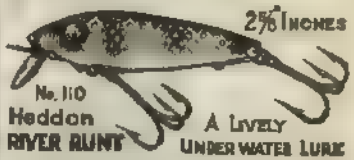
Heddon's Meadow Mouse Assortment. True to nature, even to eyes, ears and tail, and it floats and swims. Six mouse baits are mounted on attractive display card, two each of brown mouse, grey mouse and white and red mouse. Each card in carton.
No. 18R243. Per assortment. **3.92**

Heddon ALL-PURPOSE Baits
KINGS and QUEENS
For ALL Game Fish Casting or Trolling
BASS, PICKEREL, MUSKY, G. N. PIKE, PIKE, LAKE TROUT

Heddon "KING AND QUEEN" CARD

All baits on this card are all full nickel finish. Card contains 4 Kings and 2 Queens, single hooks. A bright red feather attached to the hook directs the attack of the fish. A very popular item.

No. 18R203. Per assortment. **3.92**



River Runt, a small, compact lively lure for light rods. Very effective for river fishing, particularly for small mouth bass, and equally good in other waters for all game fish. A slow sinking bait with attractive wiggling motion. Equipped with two sets of treble hooks. Length 2⅝ inches, weight about ½ ounce. Each in box.

No.	Color	
18R287/RR.	Rainbow	Dozen
18R287/WR.	White and Red	7.06

Heddon "FISH-FLESH" Baits

Transparent with Indestructible Finish

Basser-Spook, duplicating the famous erratic action of the Heddon 'Basser. This Basser-Spook has the same lively action in a floating diving and darting lure, plus the new "fish-flesh" appearance and indestructible finish. Has three treble hooks. Length 4½ inches, weight ⅝ ounce. Each in box.

No.	Color	
18R288/RW.	Red and White	Dozen
18R288/G.	Green Scale	9.80

Jointed Vamp-Spook, a new lively swimming model in Pike-minnow shape. Floats dives and swims. True "fish flesh" appearance. Indestructible finish that outlasts many wooden lures. Equipped with three treble hooks. Length 4½ inches, weight ⅝ ounce. Each in box.

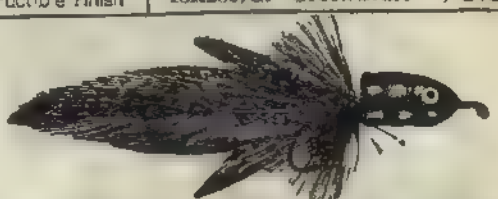
No. 18R273/RW. Red and White — Dozen **10.60**

Heddon "FISH-FLESH" Baits

Transparent with Indestructible Finish

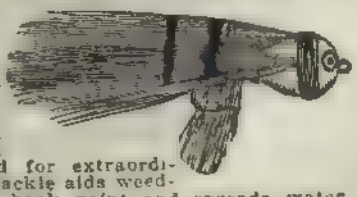
Bubble-Bug, is a deadly hooker, but unbelievably weedless. Hook is pointed up and bug can be used in thick cover with short twitches but makes big bubbles and has lively action when retrieved slowly. An excellent caster. Each in box.

No.	Color	Per dozen
18R288/WR.	White body, Red stripes	5.88
18R288/YB.	Yellow body, Black stripes	



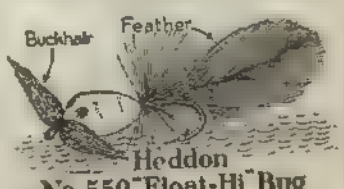
Wilder-Dilg, the original feather minnow. Made from a light enameled cork head, brilliant eyes, a ruff of various colored hackle and fin and body feathers that impart the curious rolling, dipping and depth-seeking throes of a wounded minnow, with a single non-twisting No. 1 O'Shaughnessy hook. Moth protected. Each in box.

No.	Pattern	Per dozen
18R289/2.	Mannfeld's Coaxer	5.88
18R289/7.	Peet's Chalco	



Bass Bugs, fly casting lure with solid cork body finished with Heddon superior enamel. Beautifully selected wings, hackle and tail, securely tied for extraordinary durability. Hackle aids weedlessness, conceals hook point and spreads water, supporting wings. Always alights in proper position with hook down. Hook firmly embedded in cork, will not turn. Each in box.

No.	Pattern	Per dozen
18R290/54.	Bob Davis	5.88
18R290/59.	Clark's Fancy	



Float-Hi Bug, is excellent for bass and trout. Floats high and when retrieved, the buck hair spent-wings give a lifelike motion. Cork body with No. 5 model perfect straight eye hooks. Tail feather with hackle. Each in box.

No.	Color	Per dozen
18R291/4.	Yellow	3.92
18R291/WR.	White and Red	

SPINNER AND SPOON BAITS

SINGLE SPINNERS

These Spinners are carefully designed and well contructed. Made of brass in highly polished nickel plated finish. Mounted on tinned piano wire. Each on card. Three dozen in box.

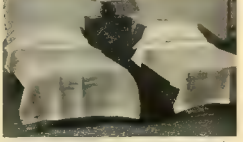
Studio Couches for Economy and Comfort

Each Couch Opens Up Into Two Separate Twin Beds or One Full Size Bed

The above picture shows the full size bed that you have when you open the perfected new studio couch. No ridges or hollows or hard spots. Full size 53x75 in.



The above picture shows the two separate twin beds that you have when you open the perfected new studio couch. Each bed presents a comfortable sleeping surface size 27½x72 in.

Studio Couch with Pillows

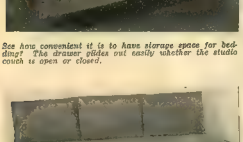
This new perfected studio couch provides lasting comfort at a small investment. It gives you the convenience of an extra bedroom, an extra full sized bed, or an extra pair of separate twin beds, while during the daytime it serves as a handsome divan or comfortable couch. Your choice of two felt mattresses weighing 50 lbs. total, or two inner spring mattresses. Both styles of mattresses are made with reinforced roll edges and button tufted. The inner construction is quality throughout, with smooth enameled resilient spring fabric. The prices include three boxed corner pillows size 16x24 in., filled with soft Kapok. The studio couch is of the new slide-out design. You merely draw it out with one hand and you have your choice of one full size bed or two separate twin beds. The beds slide out easily, with hardly any effort. We cover the studio couch including the pillows in a durable and long-wearing light weight furniture Radnor covering of small all over design in your choice of Green or Rust background.

9R78660 Complete Studio Couch with Felt Mattress and 3 Pillows. Shipping Wt. 132 lbs **$33.50**

9R78661 Complete with Inner-Spring Mattress and 3 Pillows. Shipping Wt. 144 lbs **39.80**

3 KAPOK PILLOWS INCLUDED WITH EVERY COUCH

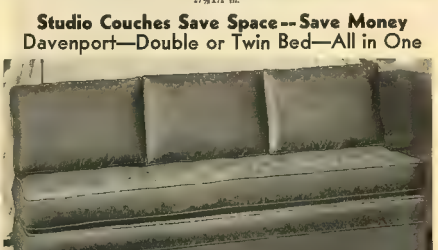
See how convenient it is to have storage space for bedding! The drawer slides out easily whether the studio couch is open or closed.



The above illustration shows our super-quality studio couch without the bedding drawer. Comes complete with inner spring mattresses and three pillows. Opens up into full size bed or two separate twin beds.

Studio Couches Save Space--Save Money

Davenport—Double or Twin Bed—All in One



THE BEST STUDIO COUCH MONEY CAN BUY

Fully Upholstered—With or Without Bedding Drawer

The limit of luxury and the highest of quality is built into this new perfected studio couch. It is instantly convertible into a full size bed with a sleeping surface 60x74 in., or into two separate twin beds each with sleeping surface size 30x74 in. Not only are the beds full size, but they are luxuriously comfortable, with no hard spots, no ridges, no hollows. The couch contains two extra quality inner spring mattresses with concealed inner roll, each inner lined with muslin and button tufted, welted all around. The bottom mattress is permanently upholstered to the frame. The couch comes complete with three full box edge pillows size 18x24 in. filled with the finest soft white Kapok.

This deluxe quality perfected studio couch is offered either with or without the bedding drawer. The drawer is spacious, size 18x68x8 in., with reinforced plywood bottom and offers ample storage space for bedding. The upholstering of the complete couch is a medium weight furniture Radnor covering of diamond self-pattern, blended mixed colors with your choice of Green or Rust background. Please order by number and specify your choice of Green or Rust.

Made by Heywood-Wakefield—Guaranteed Best

The Best Looking Fibre Suite of the Market

Every year there is one suite that is the outstanding hit of the Furniture Market. This year the outstanding favorite has been this fibre suite by Heywood-Wakefield. The suite pictured above is of superb quality. Yet see how low our prices are. The reason for these marvelous low prices is that we ship this suite direct from the great Heywood-Wakefield factory where it is made, thus saving fully a third of the usual selling cost.

The beautiful, fine loom woven fibre of this suite is finished in your choice of three beautiful finishes. The davenport, chair and rocker have auto spring seat cushions, spring filled and removable. The davenport is 60 inches wide. The woven fibre is finely loomed and expertly constructed over a reinforced frame of kiln dried rock Elm, a tough everlasting wood that will stand abuse for years. Note the graceful sweep of the arms and the scientific tilt of the back. Observe also, how far down the fibre goes so there is a complete apron in the front. Shipping weights: Davenport 83 lbs., chair 21 lbs., rocker 23 lbs., table 23 lbs.

Loomed Fibre Suite

Beautiful Heywood-Wakefield loomed fibre sun room suite pictured at the left is offered in your choice of two grades of covering material. You have your choice of cretonne or tapestry covering material. These two coverings are available in all the new colors and smartest patterns. When you order, please mention whether you prefer large or small patterned fabrics and also your color preference. If you do not specify, we will use one of the most popular patterns in a color to harmonize with the finish you select. The suite is finished in your choice of Shaded Pale Green, Shaded Cafe, Shaded Fallow, which is a Gray Tan.

Genuine Rattan Sun Room Suite by Heywood-Wakefield

Genuine rattan has always been known as one of the most beautiful materials for sun room suites but until now, its price has always been too high for the average home. Now we present this new sun room suite of genuine rattan with the highest quality of construction prevailing throughout, made and guaranteed by the famous Heywood-Wakefield factory, at the lowest prices ever quoted. You would never imagine that a genuine rattan suite could be made to sell at these low prices! The illustration above is made from an unretouched photo. It shows the davenport, two chairs and table. The davenport and chairs have removable auto type seat cushions filled with comfortable tempered springs. The back pillows are reversible, exceedingly comfortable, being filled with soft white felt and numerous feather-soft inner springs. The davenport is full 60 inches wide; table is 24x18 inches, 28 inches high. Shipping weight of davenport 76 lbs., chairs 30 lbs. each, table 16 lbs.

Genuine Rattan highest quality

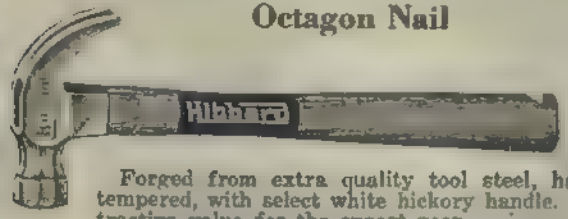
Hibbard HAMMERS

Hibbard Hammers are first quality in every particular, and in appearance, material and temper are fully up to the standard of the best and most widely known brands on the market. In price they will be found always favorable as compared to the ruling market prices on other high grade tools, and the dealer may feature and push this line with confidence that it will make friends for him and bring "repeat" orders.

Each tool is forged from extra quality, tool steel, hardened and tempered with the utmost care. The patterns are standard, and will meet the approval of expert workmen.

Handles of select white hickory, properly shaped and "hung," finish, branding and labeling so attractive as to greatly aid their saleability. We will cheerfully replace any which may prove defective.

Octagon Nail



Forged from extra quality tool steel, hadrened and tempered, with select white hickory handle. A most attractive value for the expert user.

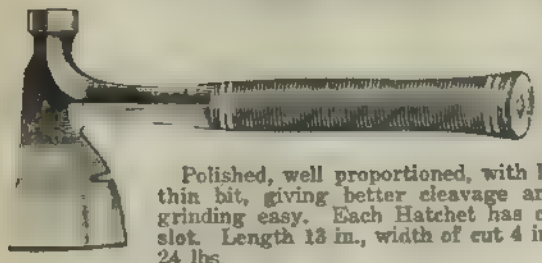
Sectional View of New I-Beam Handle with Leather Washer Covering

ESTWING UNBREAKABLE TOOLS

With Improved Leather Grip

This unique line is of unusually sturdy construction, by reason of the Heads and Handles being forged from one solid piece of high carbon steel, there being no weld or joint between the heads and handles. This results in the handles being everlasting, and for a very small additional first cost, the expense of many handle replacements and the danger of loose handles is avoided. These tools are carefully forged, tempered to give exact service, and well balanced for easy operation. The factory unreservedly guarantees the handles against breakage, and the same guarantee applies to the cutting tools and the Hammers as to all high grade tools, namely, replacement in case of any defect in temper, material or workmanship. The leather handle grips are well shaped and proportioned, easy on the hand, and are non-conductors of electricity or heat or cold.

Half Hatchet



Polished, well proportioned, with large head and thin bit, giving better cleavage and making regrinding easy. Each Hatchet has convenient nail slot. Length 13 in., width of cut 4 in., w't per doz. 24 lbs.

Hibbard

Motor-Driven Brush Cleaner

SUPER SUCTION . . . largest motor used in household cleaner . . . lifts rug up right from the floor . . . rug guard elevated inside the nozzle.

The rug is suspended over a "pocket of air" . . . which allows the dirt to shake loose easily . . . freely . . . as it is beaten by the Hibbard Motor-Driven Brush Cleaner.

The brush beats gently against the YIELDING SURFACE . . . the curving surface of the rug opens up the nap . . . the air is sucked right up through the entire fabric . . . cleaning it thoroughly.

Gentle Brush . . . Super Suction

The action of the Hibbard Brush is gentle . . . but positive. The bristles are soft and arranged in spirals. The MOTOR- DRIVEN BRUSH . . . and the POWERFUL VACUUM SUCTION . . . remove not only all surface litter . . . but also loosen and carry off imbedded dirt.

Adaptable to All Rugs

Regardless of length of nap . . . the Hibbard is easily adjusted for maximum efficiency on any rug. Equalized adjustment lever lowers the nozzle to just the right point for maximum cleaning efficiency of both Brush and Suction.

Fan—8 aluminum blades . . . . especially guarded against danger of strings catching.

Frame—All metal parts of highest quality aluminum . . . highly burnished. Motor housing, fan chamber and all metal parts are cast aluminum . . . assuring rugged dependability and long life.

Handle—Sturdy . . . all steel construction. Adjustable to any angle. Handle forks of sturdy spring steel . . . virtually unbreakable.

Outrigged Swivel Castor—Easy operation.

Rubber Bumper—Surrounding the nozzle to protect furniture, etc.

Switch—Toggle-type . . . built into handle . . . at finger tips . . . . for convenient handling.

Wheels—Rubber, vulcanized, will not streak rugs nor mar floors.

Dust Bag—Leak-proof, minerally-treated cloth . . . hand tailored. Black . . . lettered in orange. Safeguarded to keep dirt from falling back into the fan chamber and clogging suction.

H319P1 ..... each **$24.95**

Attachments

Hibbard Cleaner Attachments can be connected direct to the fan chamber by hose connection . . . automatically cutting off all suction from the nozzle and transmitting its full power through hose to cleaning tools.

Set of attachments available with this machine includes 4 pieces . . . everything necessary to perform all "off-the-floor" cleaning tasks—(1) 8 ft. flexible hose, (2) hose connection, (3) upholstery cleaning nozzle, (4) attachable brush for cleaning woodwork, etc.

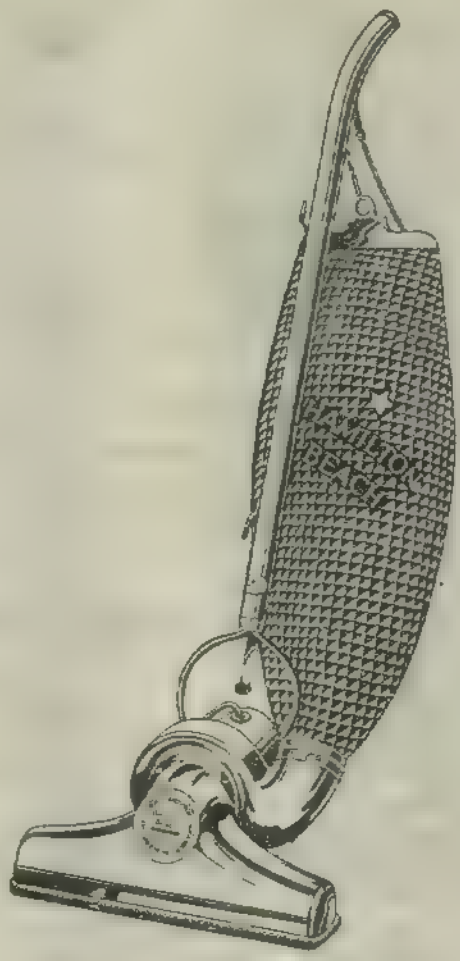
H320P1 ..... set **$4.00**

ONE SET IN A CARTON

Hamilton Beach Vacuum Cleaner

Gold Star Model

Suction . . . Sweeping . . . Beating



Has eleven improvements and refinements over former models, including: increased motor power, giving greater suction; new modernistic bag that won't show dust; and a newly designed housing, making this a cleaner of exceptional eye appeal.

Motor-Driven Brush—Picks up all dirt, threads, hair and lint. Beats out imbedded grit.

High Quality Hamilton Beach Motor—One of the largest used in any Cleaner, with great reserve power. Oversize armature, perfectly balanced. 86 bar commutator, mica insulated and undercut, representing utmost fineness of manufacture.

Precision Ball Bearings—The motor never needs oiling.

Positive Nozzle Adjustment—A turn of the red knob gives right position for long or short nap rugs. The new nozzle is scientifically designed for greater air velocity.

Only 7½ In. High—Goes under low furniture without marring.

Bumper Cord—Protects furniture, base-boards and woodwork.

Handle—Conveniently curved, trigger switch Automatically held in upright position Pressing down the handle tilts nozzle from floor—a great convenience for fringed or small rugs.

All Rubber Cord—Will not mark furniture. Easily cleaned.

Self-Lubricating Wheels—Insure quietness.

Fool-Proof Belt—Jumps off if put on wrong.

Guarantee—2-year guarantee bond furnished each purchaser. Covers every part including belt, brush and bag.

Operates on A. C. or D. C. 105-120 volts, w't 16 lbs.

Green enamel finish

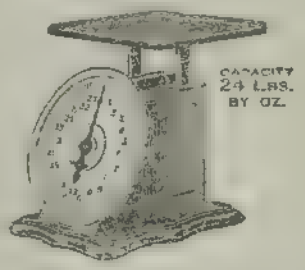
T364A3 .....each $3.25

Hibbard Family and Counter Scales

Slanting dial is made of heavy gauge steel. All of the figures and graduations are stamped deep into the steel. Three coats of finish are applied, producing a silver finish, with figures and graduations in black, and protected with an additional coat of varnish, making it impossible to rub off the figures or become obliterated, as is the case with cheap scales with stenciled dials.

Platform set on double steel uprights, distributing the weight and insuring accuracy. Inside mechanism of high grade pressed steel—no castings.

Regulating screw adjusts scale for any kind of container and is set with a self locking device. Attractive green enamel finish. Each in a carton.



With Steel Top

This style of scale is very popular for general family use. It is strong, accurate and very sensitive. Invaluable to every household. Not legal for use in trade.

Attractive green enamel finish. Slanting dial, 6¼ in., capacity 24 lbs. x 1 oz., 5½ in. square steel platform, 6¼x8 in. base, regulating screw, w't 4 lbs.

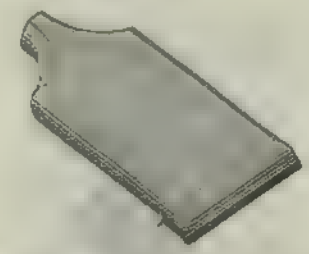
Stanley Cabinet Scrapers



Reversible, Double Edge Blade

Just the tool that every carpenter, hobbiest and handy man has been waiting for.

Two edge blade is immediately reversible, made of high quality carbon steel, best cutting edge for any wood working edge tool, same quality steel as used in the famous Stanley Plane Irons.

Tough, hardwood handle painted orange. Two screws hold double edge blade securely to handle. To reverse blade it is only necessary to loosen screws.

Cutting edge of this blade requires no hook, eliminating usual task of burnishing.

Complete directions for re-sharpening blades packed with each scraper.

Width of blade 2½ in., length of scraper 5 in., w't per doz. 10½ lbs.

273A2—Each $0.50

HONEYSUCKLE

Honeysuckle marks the very last word in Dolls—the supreme achievement of the combined genius and efforts of Sculptor, Scientist and Artisan.

The head, of unbreakable composition duplicates most faithfully the charm of the chubby-cheeked, dimpled, round eyed infant. The Body and Limbs are molded from an exclusive **Rubber** composition which simulates perfectly the natural texture, softness and color of human flesh. **Honeysuckle** sleeps, rolls its eyes, cries when you squeeze its legs, holds its head, arms and legs in any position is remarkably light in weight and can be washed with soap and water. Every curve, crease, fold and dimple even finger and toe, is reproduced with the utmost fidelity all combining to form a doll of unrivaled realism and loveliness. **Honeysuckle is unquestionably slated to be the Biggest Doll Hit in history!** Packed each in ox Made in 5 sizes

Housekeeping Equipment for Domestic Little Girls

Carrie Joy—20 inches high. A really remarkable value considering its size, its curly mohair wig, its superior unbreakable composition head, legs and arms, its sleeping eyes, crying voice and its dainty organdie dress, undergarment, bonnet, shoes and socks.

C341A01. Each $2.80

Baby Smiles—14 inches high. A real cuddly doll with a charming smile, full of joy and happiness in the possession of inimitable lifelike rubber arms and dimpled unbreakable composition legs. She can walk, sleep, cry and clasp her hands. Her dainty, organdie dress, matching bonnet, rubber panties, socks and moccasins are the last word in doll styles. And like all babies, can have either her thumb or a pacifier for perfect contentment.

C341A02. Each $2.80

A perfectly adorable miss from the crown of her marcelled hair to the tips of her slippered feet. Costumed in fancy creation with slip, panties and hat to match. She can say mama as real as life, cries when you squeeze those soft, lifelike rubber legs, and does all sorts of tricks with her little rubber arms and fingers, turns her head this way and that, and closes her eyes in deep slumber. Height, 18 inches.

C341A03. Each $6.80

C341A04. Same description as C341A03, except height is 22 inches $8.50

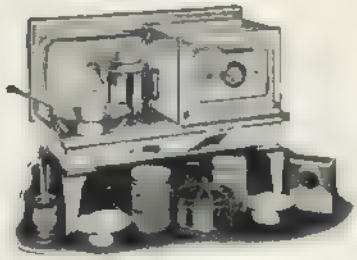
Doll carriage—body, 25x13 inches. Wood dowels, reclining back. The entire bottom, back, full sides and hood upholstered in princess cloth. Finish, olive green. Reversible gear and wheels cafe. 10-inch artillery wheels, 1-inch rubber tires. Weight, 37 pounds.

C341A05. Each $18.50

Body, 20x10 inches. Metal bound, reclining backs, finish, meadow green. Gear and wheels cafe. 8-inch rubber-tired artillery wheels. 21 pounds.

C341A06. Each $10.00

Other doll carriages can be had on special order. Write for quotations and descriptions.



Range cabinet. A low-priced range in keeping with modern design. Includes handles and utensils. 9⅝x5¼x8¼ inches.

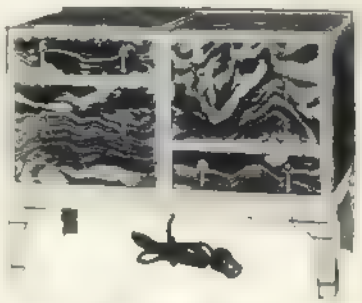
C341A07. Each $3.00

A high grade range. Includes utensils and complete plug. Color, green with ivory panels and legs.

C341A08. Each $5.90

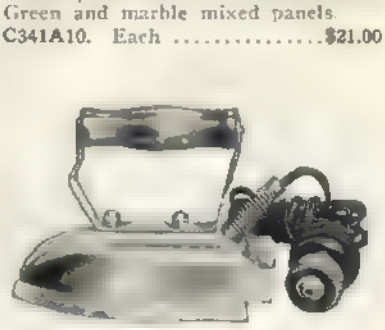
Equipped with two switches and oven-heat indicator. Complete set of utensils. 15½x7½x12 inches.

C341A09. Each $11.00



Marble range, open top, includes utensils, switches and heat indicator. Green and marble mixed panels.

C341A10. Each $21.00



Juvenile iron, fully guaranteed, an iron that will actually iron.

C341A11. Each $1.50

Winking, Sleeping, Cuddling Baby Dolls

Honeysuckle

The most adorable infant ever created. The head is of unbreakable composition and has a soft, baby expression of infinite charm. Body and limbs are molded from an exclusive rubber composition—Truflesh—which feels and looks like flesh, and reproduces most faithfully every dimple, curve, and fold of the healthy baby.* Honeysuckle sleeps, rolls its eyes, holds its eyes, arms and legs in any position, cries when you squeeze its legs, is light in weight, and can be washed with soap and water. Twelve inches high.

*Feel the ribs and shoulders!

Tickletoes—Below

Tickletoes, 14 inches high. Baby's only rival! A smiling, dimpled rosy face; eyes that can wink and sleep and watch you roguishly through their corners, and above all, soft, warm, lifelike rubber arms and legs that yield to the touch as baby arms and legs should yield. Squeeze those dimpled knees and hear the voice which is in each leg, besides the one in the body. You can wash her legs and arms with soap and brush as often as you please, because there is no paint here to chip, crack or peel. She cries. You can stop her tears with either thumb or pacifier. She is stuffed with [illegible] kapok. She is dressed as becomes a dolly of such superior merit in charming organdie, lace and rosette trimmed, with slip and bonnet to match, also rubber panties, socks and moccasins. All in all, she is the most lovable, cuddly adorable baby in all dolldom!

C342A08. Each $4.70

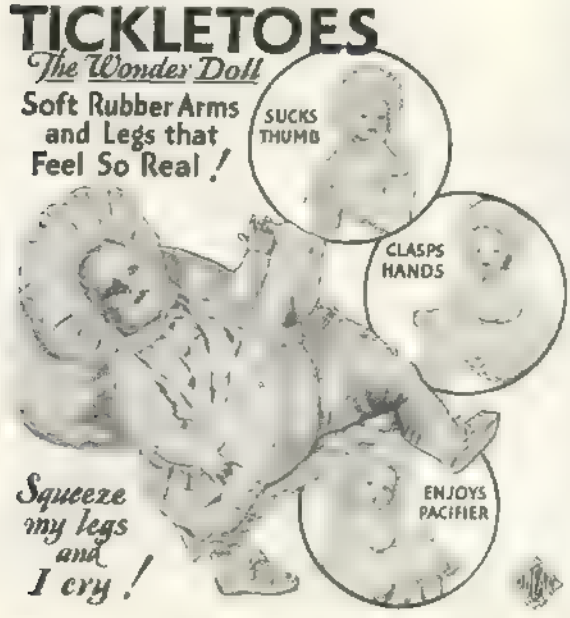
C342A09. Same as above except height is 16½ inches 6.00

C342A10. Same as above, except height is 19½ inches 7.40

Ticklette—Above

Ticklette is the latest newcomer in the Tickletoes family, and now brings the charm of her big sister within the reach of every purse. Ticklette is 13 inches tall, fully dressed in [illegible] and bonnet to match with slip and pacifier. Soft, cuddly kapok body, head of unbreakable composition [illegible] eyes. Rubber legs and arms. Squeeze her legs and hear her wail. You will love this sweet little baby doll.

C342A11. Each.....$3.24



Curly Tickletoes—Right

Curly Tickletoes with genuine fur wig—14½ inches high. A tousle-headed, roguish baby with flirting, sleeping, winking eyes. All dressed for play in her embroidered nainsook rompers, over her flannel shirt, rubber panties, socks, moccasins. She has the same marvelous lifelike rubber arms and legs, three voices—one in each leg and one in the body; and her mop of hair, made of genuine caracul fur can be mussed, combed, washed and brushed without harm. When tired of play, she goes to sleep on her warm kapok-stuffed "tummy" with either thumb or pacifier in her rosy mouth.

C342A12. Each $6.00

The May & Malone Seneca

This watch is 17 ligne, or 12 size, and has 17 ruby jewels. It is adjusted to temperature and two positions, and is fitted in a Star case, designed especially for us.

C39W06. White 14K gold filled, plain butler finish $55.00

C39W07. White 14K solid gold, plain butler finish 65.00

THE reception which May & Malone Seneca watches met during the last five years has been even better than we anticipated. As you know, this is the only watch movement which we sell under our own trade name, which should be a sufficient guarantee of its quality. For years we searched for a movement to which we wished to affix our trade name "Seneca." In June of 1927 we selected this one and our good judgment has been confirmed many times by satisfied Seneca purchasers.

Like all merchandise which we sell, Seneca watches are backed by our unequivocal guaranty of satisfaction.

See page 21 for other Seneca models.

Each watch furnished complete in a beautiful gift box.

GALLET TIMERS

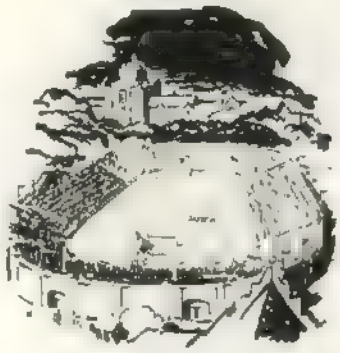
Where Lost Moments Mean Lost Money—Use a Timer!

These Gallet and Guinand Timers are Accurate

Gallet Plain Timer

An excellent timer—simple to operate, easy to read. For industrial and general sports timing. Long hand registers fifths of seconds and small hand indicates minutes up to 30. Start stop and fly back from crown seven-jeweled lever movement

C40W300. Nickel case ...**$21.00**
C40W100. Galco 16.80



IN the pursuits where time's tiniest divisions must be measured with inflexible accuracy, Guinand and Gallet timers are outstandingly preferred by technicians, scientists, surgeons, aviators, industrialists, sports coaches and referees

To record football or track events —to gauge the keying up of factory production schedules—to clock a filly's try-outs—to time a laboratory experiment—Guinand and Gallet Timers insure unfaltering accuracy—from the fifth to the tenth and hundredth part of a second

Gallet Decimal Timer

This dependable instrument divides the minute into 100 parts Ideal for time-study and chart plottings. Side slide for taking time out. Small hand registers revolution of long hand. Fly back from crown. Seven-jeweled lever movement

C40W301. Nickel case .. **$22.40**
C40W101. Galco ... 18.20

Gallet Football and Basketball Timer

With Patent Locking Device

Endorsed by leading coaches and sports authorities. Highly dependable. Fifth second, 30-minute register; fly back from crown, side slide for starting and stopping; seven-jeweled lever movement

C40W402. Nickel case **$23.25**

F60W502-3

Imported Strike and Chime Clocks

These clocks have solid mahogany American made cases, finest quality imported Westminster chime movements with solid rods. Also hour and half-hour strike movements with heavy deep toned spiral gongs. Very attractive and decorative dials and hands. The cabinets are exquisitely finished in hand rubbed antique brown mahogany.

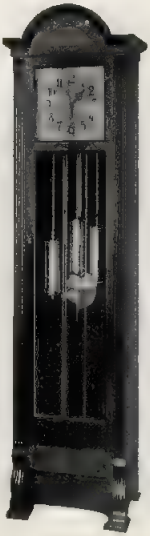
Left—HALL CLOCK

One of the finest Colonial design hall clocks to be found anywhere for the money. Distinctive. Handsome. Has a solid mahogany base and an eight-day imported German movement which is the finest German skill can produce. Musical hour and half-hour strike on gong. Chain wind weight construction. Height, 79 inches; width, 17 inches; depth, 11 inches. Gilt dial, 12½x12½ inches. Weight, 120 lbs.

No. F60W502. Each $89.00

Above can be furnished also with full Westminster chime weight movement having splendid tone. Also chain wind weight construction. Weight, 130 lbs.

No. F60W503. Each $134.00



F60W504-5

Quality and Distinction

Left—HALL CLOCK

The magnificent hall clock shown on the left possesses a rare charm and distinction. Although massive in appearance, it does not lose one bit of its beauty which is accentuated by a solid mahogany case. Eight-day imported German movement—as skillfully made as the world can produce them. Musical hour and half hour strike in gong. Chain wind weight movement. Height, 80 inches; width, 21⅛ inches; depth, 13 inches. Gilt dial, 13½x12½ inches. Weight, 140 lbs.

No. F60W504. Each $94.00

Above can be furnished with full Westminster chime weight movement, having splendid tone. Also chain wind weight construction. Weight, 150 lbs.

No. F60W505. Each $139.00

F60W505

Right—HALL CHIME

Colonial in design, distinctive in the deep toned solid mahogany beauty of its case. A clock remarkable for the rich tones of its eight-day full Westminster quarter-hour chime, strike on five rods. Finest and most skillful of imported movements. Spring wound clock. Weight, 95 lbs.

No F60W506. Each $108.00

F60W507

Fully Guaranteed By Us

Left—HALL CHIME CLOCK

This dignified hall clock, shown at the left, is suggestive of stately manorial halls and lordly castles. Yet it is as modern as tomorrow in every detail. Solid mahogany richly toned case hand rubbed in a brown mahogany finish to a velvety smoothness. Finest imported, German eight-day quarter hour Westminster chime movement. Arched dial, 15x11 inches with silver numerial ring. Height, 80½ inches; width, 20 inches; depth, 11 inches. Gold finished. Weight, 100 lbs.

No. F60W507. Each $170.00

Right—HALL CHIME

The massive hall chime clock on the right might well have come from the stately hall of some noble warlord. It possesses that dignity and distinctiveness of structure. Very excellent quality. Solid mahogany case finished in a hand rubbed antique brown. Pierced gold dial with raised gold finished numerals. Three train cable wind weight movement of finest and most skillful German construction. Full Westminster quarter hour chime on five musical tubes of finest quality. Height, 79 inches; width, 23¾ inches; depth, 16 inches. Weight 333 lbs.

No. F60W508. Each . $410.00

F60W508

Imported Chime Clocks

A better grade of solid mahogany is used in all three clocks shown at bottom of this page. These cases are designed and constructed by skilled American cabinet-makers. The material used in these movements, together with the superb as well as simple construction makes a clock which will not only last a lifetime but will be handed down from generation to generation as a family heirloom. The musical tone is unexcelled as the tubes are specially constructed and carefully tested by a well-known American musical instrument concern.

Right—HALL CHIME

Our highest grade and finest quality clock in a solid mahogany or solid walnut case. Please specify wood desired. Massive. Dignified. Beautiful. Will be treasured in many generations of your family. Has a pierced dial with raised gold finished numerals. Three train movement of finest quality, striking full Westminster, Whittington and Oxford quarter-hour chime on nine tubes. 1¼ inches in diameter. Height, 79½ inches; width, 24 inches; depth, 16¾ inches. Weight, 375 lbs.

No. F60W509. Each $600.00

HANDIEST EVER

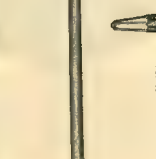
Here is the handiest ash tray ever made. You just hang it over the side of your lounging chair. The ash tray is finished in Black and Gold. It is mounted on a flexible hand of genuine leather with weighted fringed ends, that keeps the tray just where you want it. An ideal gift for every smoker.

2R46210 PRICE.... $1.50

THERM-O-CLOCK

From 60 degrees below to 160 degrees above, the new Therm-O-Clock registers temperatures accurately, quickly, without adjustment. Beautiful composition case, your choice of Mahogany or Jade Green. Clock can be submerged in water without damage, can be dropped without disturbing its accuracy! It's the kind of a thermometer people want to own the minute they see it. Measures 8½ in. high, 7 in. wide. Accuracy and reliability absolutely guaranteed. State choice of Mahogany or Jade Green.

2R25096 PRICE.....$1.50



SMOKING STAND

Handsome Up-proof smoking stand, 24 in. high. No smoke, no odor, no ashes. Inside the tray is a supply of Sani-fil paper cups which contain a pleasant deodorant that neutralizes tobacco odor. The stand comes in your choice of the following finishes. Black and Pewter, Green and Gold, Red and Gold, all chromium, Black and chromium.

9R46211 PRICE.... $9.50

SMOKERS' FAVORITE

Desk model odorless, smokeless ash tray. Inside is a supply of Sani-fil paper cups which contain a pleasant deodorant that neutralizes tobacco odor. Beautifully finished in Black and Red, bright chromium top with golfer ornament. Four inches wide.

2R46200 PRICE.... $2.20

DESK SCISSOR SET

A handsome and useful desk set of scissors and a letter opener. Fine German quality with gold plated handles. Scissors and letter opener come in attractive brass tipped leather scabbard. Over-all length 7⅛ in.

Walker Cup DeLuxe Matched Irons

with

Stainless Steel Heads and Drawn Steel Shafts

Walker Cup Irons are fine implements of the game, accurately matched and balanced to the closest possible relationship in length, weight and feel. Their stainless steel heads with compressed blades are given added power by placement of additional weight, in scientifically correct positions, in each blade of the set. Shafts are of drawn steel, covered with a black protective sheath and have green and white ferrules at the top of the mahogany adapters. Black Reminder grips and Wilson No-Shock Hosels complete the desirable features of these clubs.

Ice Skates

FIRST IN THE HEART OF THE AMERICAN BOY

When you buy Nestor Johnsons you buy the skate made by the first manufacturer of tubular skates in America; you buy a specialized product made by the firm that has made skates and nothing but skates for 38 years. The superiority of Johnsons' specialized production and balanced designing is demonstrated by the fact that more people skate on Johnsons than any other skate in the world.

JUNIOR JOHNSONS

High quality, comfortable, well-fitting child's shoe with regular hockey type skates, especially designed and made for children. Aluminum finish, vanadium tool steel runners, that hold a keen edge and stay sharp longer. Sizes 11 to 14. Complete with shoes.

No. F20R84. Per pair $8.00

MEN'S FLYER HOCKEY

These skates are welded throughout with seamless cups of one-piece drawn steel and high carbon steel blades. In hockey type shoes, the blades are rockered for easy turning on small radius. In aluminum finish or chromium plate over nickel and copper. Size 1 to 12, complete with shoes.

No. F20R78. Aluminum finish. Per pair $8.50
No. F20R77. Chromium plate. Per pair 9.50

LADIES' FLYER HOCKEY

Because they are both light and strong Johnson Flyers give ladies the skating ease and security which begets confidence. Made in two finishes, chromium plate over nickel and copper or aluminum finish. Sizes 1 to 9, complete with shoes.

No. F20R82. Aluminum finish. Per pair $8.50
No. F20R81. Chromium plate. Per pair 9.50

MEN'S FLYER RACER

A perfectly balanced skate, attached to a shoe in correct scientific position. That means easier mastery of the skates and the development of great speed. A great favorite with all who want a real racing skate at a moderate price. In aluminum finish or chromium plate over nickel and copper. Sizes 1 to 12, complete with shoes.

No. F20R76. Aluminum finish. Per pair $8.50
No. F20R75. Chromium plate. Per pair 9.50

LADIES' FLYER RACER

For Racing, women want the same type of skates that men use, but adapted to ladies' requirements. Shoes are comfortable and skates come in either aluminum finish or chromium plate over nickel and copper. Sizes 1 to 9, complete with shoes.

No. F20R80. Aluminum finish. Per pair $8.50
No. F20R79. Chromium plate. Per pair 9.50

FLYER HOCKEY SKATES WITH HARD TOE SHOE

An ideal hockey combination. Shoe of black grain leather. Brown tongue heavily padded, with substantial hard toe affording full protection. Skates made with seamless cups, vanadium steel runners, "Diamond Tested." Aluminum finish. Sizes 6 to 12. Complete with shoes.

No. F20R83. Per pair $9.50

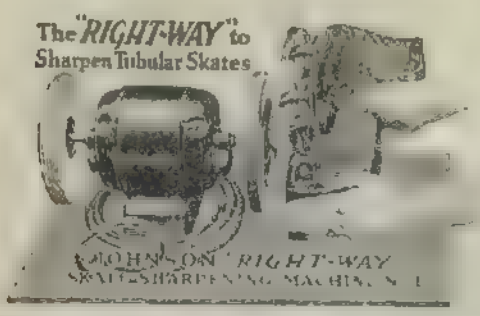
No. F5R39. Size 14 in. Each $1.50

No. F5R40. Size 16 in. Each 1.90

No. F5R41. Size 17 in. Each 2.10

Johnson Skate Sharpeners



Motor is firmly bolted to a smooth steel plate 24×18×¼ in., thick, and is furnished with a grinding wheel of the correct grain and grade of the recess of cup type on the side and a cotton buff for polishing on the other end of the spindle. The wheel furnished is ideal for the grinding of tools, cutlery and numerous other jobs that require grinding. Either the wheel or buff can easily be replaced by a pulley and can be used for running lawn mower sharpeners, small drill press, or any other equipment that the ¼ h.p. motor can pull, thus making this outfit a practical tool that can be used all the year round.

Power is furnished by a 110 volt, 60 cycle, ¼ h.p., alternating current motor. The motor, which is totally enclosed and dustproof, is guaranteed two years.

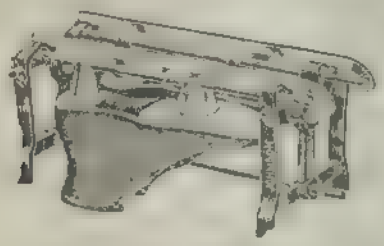
When Ordering be sure to state the kind of current to be used, that is, whether alternating or direct, the voltage and if A.C., the frequency.

Skate Sharpening Machine complete with skate holder, w't each 85 lbs.

F10G1 . . . . . each $....★

ONE IN A WOOD BOX

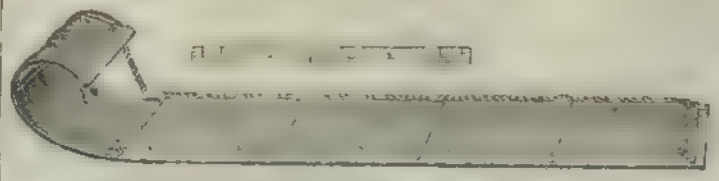
Johnson Quick Action Sharpening Stand



For sharpening skates with an oil stone. A few minutes' use after skating will keep the skates in perfect condition at all times. Simple, accurate, quick in adjustment. Anyone can sharpen a pair of skates in good order, w't each 4½ lbs.

C116G1 . . . . . each $3.00

Strand Toboggan



Made of hard maple and beautifully finished. Middle and two outside slats are thicker than other four. This adds strength and as it decreases running surface on an iced slide, it will increase speed and also make it easier to steer in snow. Furnished with heavy rope, fastened with leather loops.

Twin Blade Little Folks Ice Skates

A real skate, not a toy. They are light to wear, yet a real skate for children to young to use the ordinary single blade type of skate. This new type of double blade skate enables the little tots to take their first skating lesson and with freedom from ankle strain common to the single blade skate. Foot plates made of aluminum alloy combines lightness with great strength.

Blades of good quality steel finely plated set ¾ in. apart are strongly riveted to the foot plate.

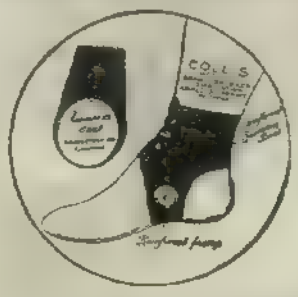
Sturdy leather straps for use with regular shoes.

Suitable for children from 5 to 8 years old. Sizes 7, 8 and 9 in., w't pr. 2 lbs.

C711G1 ..... pair $2.00

ONE PAIR IN A BOX

Collis Ankle Supporters



Made of black sateen with steel stays. These stays are made of steel springs. They are rustproof, will not break and are arranged in pockets so that they can be removed. The patent inserted tongue and patent seamless back do not chafe the foot. The reinforced shank adds to the wear. All lace holes have metal eyelets. Usually fitted one size smaller than the shoe. Can be worn in regular size shoe, under or over the stocking, conforming snugly to the foot.

For Men and Boys—Sizes small, medium large and extra large.

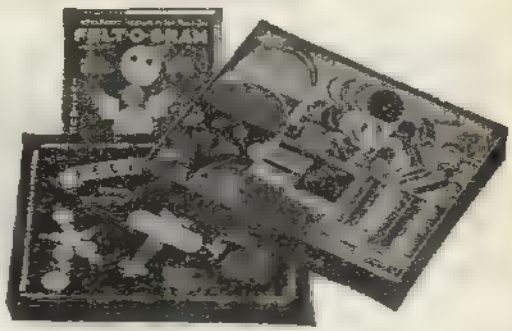
In addition to these parts, full color lithographed circus equipment is furnished, including wild animal wagon, ticket sellers' booth, barker's stand, side show banners, and entrance, circus ring and aerial background. Packed in an attractive box.
No. 33N82.
Per dozen..... 16.00 | Each..... 1.45



Felt-O-Gram consists of bright colors of felt cut into geometric shapes that can be arranged upon a specially prepared background without the use of paste or glue. The pieces cling to the background and can be used over and over again. Encourages the child to originate designs and develops its sense of color blending, thus training the mind to think while affording keen enjoyment. Thousands of designs, such as birds, animals, dolls, quilts, circus clowns, trains, airplanes, trees, flowers, buildings are but a few of the designs that can be developed with Felt-O-Gram.

Trianon Perles *

Product of France

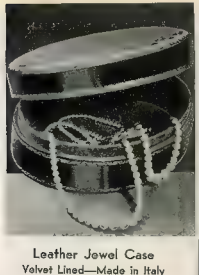
There are many good reproductions of genuine pearls available today, but do you realize the vast difference there is between just a good reproduction and an almost perfect reproduction? Trianon Perles are the latest product of France, of the same lovely colors and brilliant lustre, that make deep sea Oriental pearls so valuable. Trianon Perles reach the peak of perfection in quality, lustre and beauty.

Pearls Are Fashionable Always

Only pearls can add such charm to women's lovely person, such sparkle to eyes or softness to skin. Pearls have been fashionable since the beginning of time, and Trianon necklaces with their enduring beauty are pearls that one may wear with pride.

All Clasps Are Solid White Gold

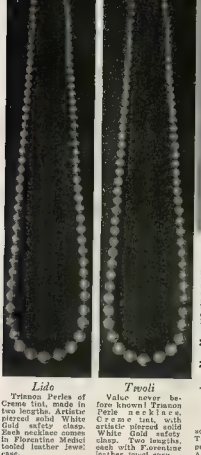
Except the Two Trios Below, Which Have Clasps of Sterling Silver



Leather Jewel Case

Velvet Lined—Made in Italy

The Medici jewel case pictured above is gorgeous Florentine leather, made by hand, tooled and stamped with 24K pure gold. The case is velvet lined, has removable top. This case is furnished with the Trianon Perle necklaces on this page. Each Trianon Perle necklace is a masterpiece, perfectly matched, perfectly graduated, in a beautiful jewel case.



Lido

Trianon Perles of Creme tint, made in two lengths. Artistic pierced solid White Gold safety clasp. Each necklace comes in Florentine Medici tooled leather jewel case.

18-Inch	24-Inch
2R15214 $10.00	2R15215 $12.50

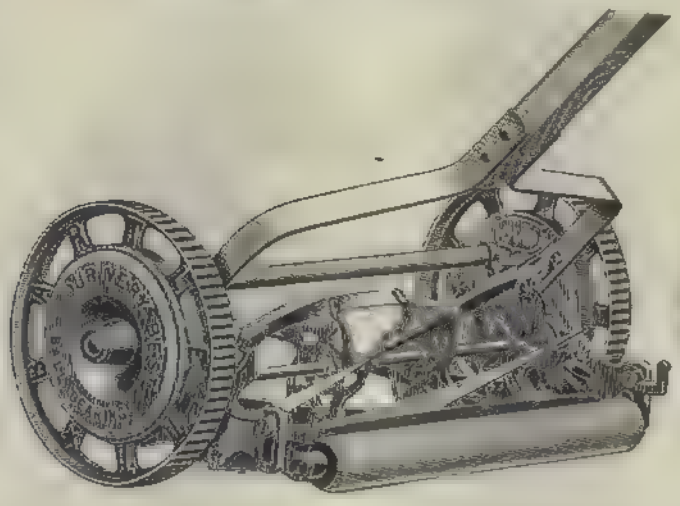
LAWN MOWERS

The Bartlett Ball Bearing



Every blade made of crucible steel in the old fashioned way, hardened and tempered in oil, notwithstanding the fact that it involves six to ten times as much expense as if made of Bessemer or open hearth steel.

Has new Braun patent cone and ball bearing adjustment which adds greatly to life of mower. This is dust proof and will not toosen.

Decoration—Beautifully finished in gold, maroon and blue, striped to enhance color effect.

10 in. driving wheels, five revolving blades, 6 in. reel, adjusts ½ to 1⅜ in. Four reel braces, ⅞ in. reel axle with bicycle ball bearings, ¾ in. front cross rod. Steel hooks for attaching grass catcher, hardwood roller and handle.

Cut, in.	15	17	19	21

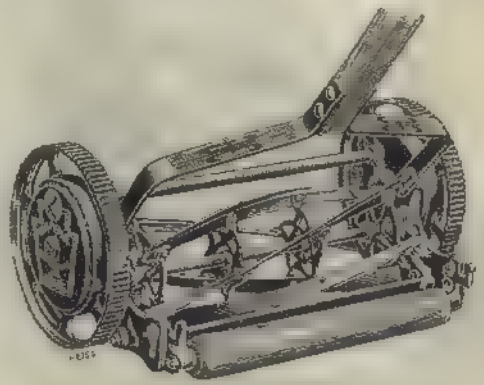
Each	$16.00	17.00	18.00

Wm. Penn All Steel Ball Bearing



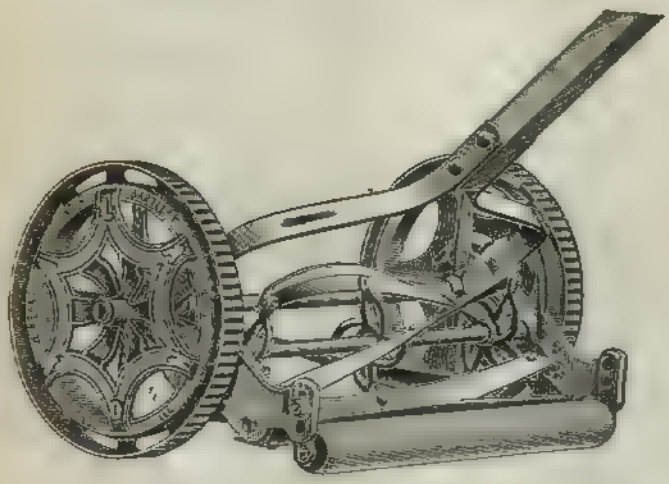
Improved model of the Wm. Penn, all steel throughout, and is unbreakable. 10 in. closed wheel of unique design, five crucible tool steel blades, raised edge, and raised edge crucible tool steel lower blade, which is screwed to the underside of the cast back. It has automatic adjustment on the dirt proof ball bearings and all lubricating points are protected by caps.

The mower is strikingly painted with high lustre, orange striped with blue, with attractive decalcomania label on the Pennsylvania Staytite handle. Each handle is packed in bag for protection in shipping. It is made in one size only, 17 in.

W1917A4—17 in., w't 58 lbs.....each $16.00

LAWN MOWERS

Il-A-Noy Ball Bearing



Four revolving blades of high grade steel, self sharpening and ground under water to preserve temper, reel bearings equipped with new automatic adjustment, ball bearing part of high quality cone steel, carefully hardened.

Decoration—Wheels red and gold, gold reel and bar, green side plates striped in appropriate colors.

10½ in. drive wheels, 6 in. diam., reel, screw adjusted cutter bar, hardwood roller and handle lacquered to protect from weather.

PACKED SINGLY

Bostrom's Farm Levels

The telescope which is "achromatic" giving a clear field, is equipped with a focusing eye-cap, and contains a system of magnifying glasses enabling you to read the target a quarter of a mile away. On account of the novel elements of construction of this level the telescope may be pointed in any direction desired without the necessity of re-adjusting the instrument.

The level has circle of degrees for obtaining angles, has spirit bubble and all necessary means of adjustment.

Brass, highly lacquered and finished, consisting of 8 in. level and 9 in. telescope, tripod, plumb bob, graduated rod and target, w't 11 lbs.

22A0—Each $18 50

PACKED SINGLY

Bostrom's Builders' Levels

Brass, highly lacquered and finished. Has a graduated circle divided into 360 degrees numbered from zero to 90 degrees in both directions, giving zero points on opposite sides of the circle and a clamping screw for holding in any position. Has a grooved level glass. The Telescope is Achromatic giving a clear field. The magnifying power of the eye-piece is 10 to 12 diameters. The Cross Hairs are set in the eye piece and cannot be dislodged except through carelessness.

Complete outfit includes Graduated Level Rod and Target. Level and Telescope is packed in handsome box for keeping when not in use, w't each 15 lbs.

The More Logs Children Have, the More Things Can Be Made.

LINCOLN LOGS

MINIATURE BUILDING MATERIAL

Made of hardwood, seasoned and stained a "weathered brown." The designs are simple and easy to understand. Instruction book included that shows how to make many different log buildings. The notched logs are easily put together and will not break. This popular wooden construction toy is now sold in five different sets:

Single Set consists of 53 logs, roof and design book.
No. 50N470. Per dozen..... 7.84

Double Set consists of 110 logs, roof, chimney and design book.
No. 50N471. Each..... 1.35

Triple Set consists of 166 logs, 2 roofs, chimney and design book.
No. 50N472. Each..... 2.00

Combination Set consists of 234 logs, 2 roofs, chimney and design book.
No. 50N480. Each..... 2.67

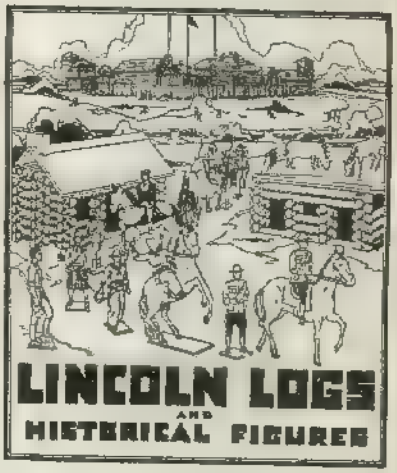
Complete Set with Wheels, containing all of the material found in the Combination Set and the Extra Long Log Set, together with wheels, pegs and connectors for making all wheel models.
No. 50N481. Each..... 3.35

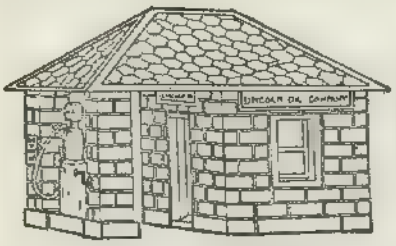
LINCOLN LOGS AND HISTORICAL FIGURES

Still greater play value has been given to the ever popular LINCOLN LOGS by the addition of an assortment of Pioneers, Cowboys and Indians made from the new hard metal which is **practically unbreakable.** These Historical Figures are correct in every detail and beautifully enameled in bright, durable colors. The new sets for 1933 are packed as follows:

Lincoln Logs (Single Set) and ten Historical Figures.
No. 50N468. Each set..... 1.35

Lincoln Logs (Double Set) and ten Historical Figures.
No. 50N469. Each set..... 2.00





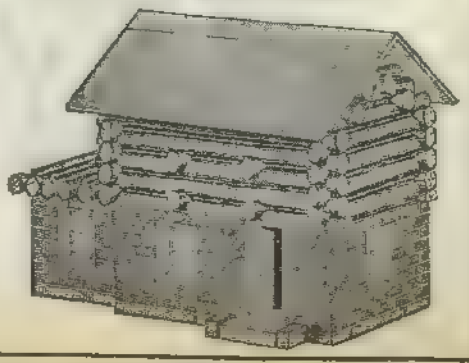
Filling Station made with Lincoln Bricks.

LINCOLN BRICKS, the Companion Toy to Lincoln Logs. Standard set consists of miniature building material—bricks, stones, window and door frames, roofs, etc.—322 pieces in all. Erected with mortar like real buildings. **Lincoln Mortar** is used to cement these miniature bricks, foundation stones, doors, windows and roofs together. It is harmless, soluble in water and packed in collapsible tubes. When desired, the built-up structures can be "torn down," the mortar can be easily washed or chipped off and operations resumed. With this outfit can be built Filling Stations, Garages, Bungalows, Silos, Fences, Walks, Furniture, etc.

No. 50N473. Each..... 1.35

Lincoln Log and Brick Sets. When children have bricks, logs and mortar at their command, the building possibilities are without limit. The set contains a Log Design Book and a Brick Design Book, showing structures made all of logs, all of bricks, and of logs and bricks together—such as a Log Cabin with a brick and stone foundation, fireplace, chimney, or a Brick House with second story of Logs as shown at the right. This set is made up of the standard Brick Set, the Logs in the Double Set and Extra Long Logs, together with an extra tube of Lincoln Mortar for plastering the chinks or fastening the logs together if desired.

No. 50N482. Each..... 3.35



Leading Line of Holsters and Chaps

4½x9¼ Inch Top Grain Cowhide Holster with 7½-inch gun, three piece belt, nickel concha and front strap. A real quality article, a true replica of a Western holster. Each in box.

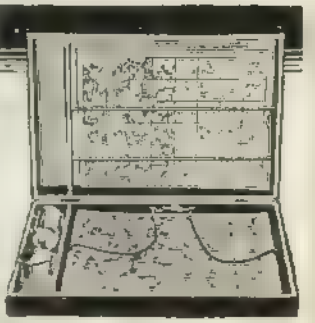
Famous Electric Questioner

The Regular Knapp Electric Questioner has been a toy leader for over 40 years. The Junior model should be a sensation. It operates on the same principle as the regular questioner with the exception when the correct answer is found, a bell rings. Twelve sets of questions and answers are included with each Questioner—3 in color. The Questioner appeals to both child and parent and is conceded to be the outstanding educational toy.

No. 50N199.
Each..... 1.00



It is a true saying that to demonstrate is to sell, and what is more easily demonstrated than the Electric Questioner. The Mysterious buzzing answer, its beautifully pictured cards, its funny conundrums, its puzzling questions, holds everyone's attention and makes the sale nine times out of ten. This is one of the greatest educational toys ever brought out. Both young and old can amuse themselves for hours with this marvelous toy. Made in a heavy wooden box, complete with the nature series of 8 beautifully colored cards and 12 printed cards, standard flashlight battery, buzzer (no other electric connection necessary).

Wilson Baseball Uniforms

Wilson-Western baseball uniforms are famous wherever baseball is played. They are preferred and worn by many of the leading American and National league teams as well as by scores of minor and semi-pro leagues and hundreds of scho astic teams throughout the country. Send for complete book of swatches showing full line of Wilson Ready-To-Wear Uniforms.

Complete Baseball Uniforms

Wilson baseball uniforms are made over large and roomy patterns from an improved specially constructed uniform flannel. Double stitched throughout, and reinforced at all points where the greatest strain comes. The comfort, fit and workmanship are unexcelled. Uniform consists of shirt, pants, cap, hose and short stationary adjustable belt of same material as uniform.

SHIRT—Made in V neck style, with two rows of silk cordage trimming around neck, down front and on sleeves. Ventilated under arms.

PANTS—Made roomy to allow for freedom of action. Finished with plain tunnel belt loops.

CAP—Brooklyn style. Unbreakable buckram visor, green underneath.

HOSE—Cotton ribbed.

COLOR—Gray with green stripe. Trimmed in green. Green button on cap.

SIZES—Chest 36, 38, 40, 42, and 44. Each set in box.

No. 8R50. Complete outfit.. ..... 5.98

GENUINE MARBLE'S HUNTING KNIVES

Blades are forged from razor steel, are hand tempered, tested and honed to a keen edge. Each knife is fully guaranteed. These knives have been bettered by being imitated, but the original and genuine has the name "MARBLE" stamped on blade.

Ideal Knives

The thick, strong blade is relieved by hollow grinding which provides proper balance for weight and size. Strength of back is necessary for splitting, kindling or digging holes in hard ground or ice. The hollows aid quick sharpening. Plane is adapted to sticking and skinning. Back of point is beveled for breaking small bones. The IDEAL is an every-purpose knife.

Marbles Game Getter Guns

Two Arms in One

A Single Shot Rifle and a Single Barrel Gun with Leather Holster

Fitted with a rear sight that gives three combinations, folding leaf with small "U" notch stationary buck-horn with large "U" notch and folding peep with ⅛ in. aperture. Folding leaves can be turned down quickly with the thumb. Front sight ⅛ in. gold bead.

Striker—Is adjustable to either barrel as desired.

Hammer—Rebounds to safety notch after firing.

Ejector—Strong, but simple, partially ejects from both barrels at the same time.

Receiver Lock—Trigger guard must be pulled back to open breech.

Folding Stock—Made from cold rolled steel, nickeled. To place in rigid position, swing it backward, pulling back on sliding lock. Stock is locked by a strong sliding lock which enters a notch ¼ in. deep, at base of grip.

Frame—Drop forged, blued.

Specifications—Round barrel, blued, single trigger, complete with fine leather holster with strap, walnut grips.

Model B

Upper Barrel—Shoots .22 caliber short, long and long rifle cartridges, when loaded either for standard or high velocities, excepting Palma Hi-Speed Cartridges.

Lower Barrel—Shoots 2½ in. 410 gauge loaded shot shells only.

SINGLE SHOT RIFLES

Iver Johnson

Model 2X, Bolt Action, Self Cocking, Automatic Safety, Take-Down

The operation, of the bolt handle, cocks the hammer and sets it in its safe position—in which the firing pin does not have contact with the cartridge. The vision is obstructed, to indicate safety, by the position of the safety lever. To fire, this lever is snapped speedily from the line of vision for sighting.

24 in. round, tapered, blued steel barrel with white metal faced patridge front and graduated screw adjustable rear sights, walnut military type stock with hand-checked full pistol grip, and fore-end with finger grooves, steel butt plate, ejector, coil springs. The bolt, bolt-handle and trigger are chromium-plated, length overall 42 in., w't about 4 lbs.

Adapted to .22 short, long and long rifle cartridges, when factory loaded either for standard or high velocities, including Palma Hi-Speed Cartridges.

C182G1—.22 caliber ..... each **$6.40**

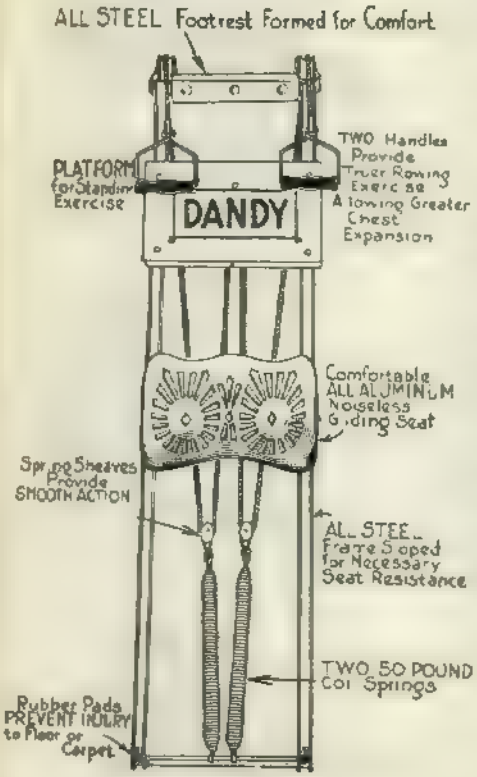
Rowing Machine Exercisers



ALL STEEL Footrest Formed for Comfort
PLATFORM for Standing Exercise
DANDY
TWO Handles Provide True Rowing Exercise Allowing Greater Chest Expansion
Comfortable ALL ALUMINUM Noiseless Gliding Seat
Spring Sheaves Provide SMOOTH ACTION
ALL STEEL Frame Sloped for Necessary Seat Resistance
TWO 50 POUND Coil Springs
Rubber Pads PREVENT INJURY to Floor or Carpet

The Dandy

All Steel Frame Construction

The Dandy Exerciser has long been placed on the market to fill a long felt need for an inexpensive means for indoor exercise. The frame is constructed entirely of steel, rigidly welded. Side rails are structural steel channels designed with the proper slope to provide the necessary seat resistance. Steel foot rest of comfortable shape. Entire frame cadmium plated as protection against rust and will not chip off. Large wooden pulleys, scientifically designed and located with reference to the malleable iron spring sheaves, assure an even pull in almost all directions. Wood grip swivel handles. Two fifty pound nickel plated coil springs are provided which allow a vertical pull of sixty inches for standing exercises. All aluminum seat provided with noiseless rubber tired rollers, assures easy gliding and comfort. Machine cushioned with six rubber bumpers to prevent scratching floors.

No. 10R54. Each..... **2.75**

The Challenge

with Aluminum Front and Platform

The Challenge Exerciser has an all steel frame construction which has been Cadmium plated. It is provided with an all aluminum front and platform which are polished and buffed. Handle frames are made of cast aluminum and provided with wood grips. Aluminum seat is highly polished. Equipped with four thirty-pound nickel plated coil springs with wood roller rope sheaves, making a practically noiseless but smooth acting combination. The method of attaching springs to sheaves and back cross members is such that immediate and easy changes can be made when it is desired to use on two springs.

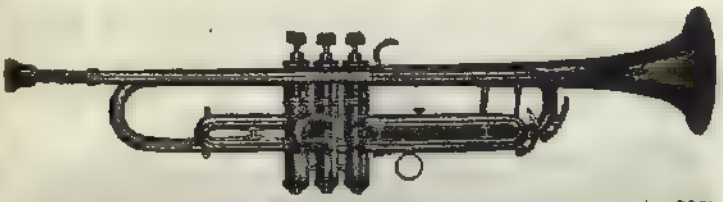
New Yorker Band Instruments, Ideal School Equipment



B-♭ and A Trumpet

Here is the trumpet that meets the demand of the school musician because it is a quality instrument, yet the price is so low that it is in the reach of every student. A distinguished new model, long and compact in its lines and notably brilliant in tone. Built in B-b low pitch (A440) with slide change to A, 23¾ inches long with 4½ inch bell. Has pearl tipped valve buttons and is complete with lyre and silver plated professional mouthpiece. Note these features: extra large calibre valves, unusually short sure valve action; double water-key, third valve finger ring.

No. 3A66. Polished brass, no case. Each 13.80

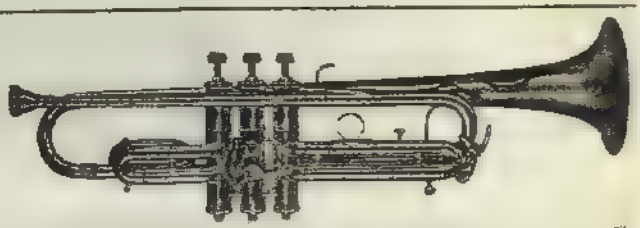
No. 3A67. Nickel plated, no case. Each 15.60

No. 3A68. Silver, gold bell, no case. Each 18.85

Plush Lined Cases for Above.

No. 3A69. Each 4.80

B-♭ and A Cornet



This new cornet with its mellow true-cornet tone and built on racy trumpet lines, will produce the real hot notes so dear to the student musician's heart. Length of mouthpiece 19¾ inches; bell 4½ inches. Made in B-b low pitch (A440) with slide change to A. Valve buttons have pearl tips. Furnished complete with lyre and silver plated professional mouthpiece. Also has extra large calibre valves; unusually short, sure valve action, double water-key, third valve finger ring.

No. 3A174. Polished brass, no case. Each 13.80

No. 3A175. Nickel plate, no case. Each 15.60

"At your hardware dealers"

LET THE READER KNOW WE MEAN YOU!

Nicholson File Advertising, now appearing nationally, always ends its story of file quality by telling the reader to buy Nicholson Files from hardware dealers.

But which hardware dealer? That is the question. And here is a way to let the reader know the Nicholson File Company means you!

Now ready for your window, the Nicholson File Display for 1933 tells the hundreds of file buyers who pass your store that you are the dealer referred to in the advertising.

Lithographed in eight striking colors, compact, scientifically designed for the modern hardware store window, this display ties up your store with our National Advertising Campaign for files. Don't delay. Send coupon. Display is free on request. (Display is 44" x 36", side cards 9" x 16" — can be electrically lighted.) Nicholson File Company, Providence, R.I., U.S.A.

FANCY HATCHET

Our Hatchets are expressly made for the expert, whose requirements are most exacting. Each tool is forged from highest quality tool steel, scientifically heat-treated, and tempered to give a cutting edge which is hard, yet tough. So seldom is resharpening required that Hatchets will be found remarkably long-lived.

Well-shaped handles of selected white second growth hickory, waxed, with flared end to prevent slipping. The balance or "hang" is correct for easy, fast and accurate work. Heads are beautifully shaped and finished. Hatchets will be cheerfully replaced if any defect develops in material or temper.

OUR VERY BEST HAMMERS

Steel—Crucible steel of special analysis, proven the best by years of experience, and tested constantly to insure uniformity of composition.
Temper—Tempering and hardening heats regulated automatically by Thermostat. Steel of uniform composition, uniformly treated, must give uniformly perfect results.
Faces—Of extreme hardness, yet not brittle, will do any reasonable work without cracking, denting or breaking down.
Claws—Short, compact, tough, with fine drawn slot, whose sharp knife edge will grip and hold and pull straight any nail which will enter it.
Patterns—Embodying the best suggestions of scores of practical mechanics. No "hit or miss" designs, but the best shape in each tool for comfort and efficiency.
Handles—Turned from best second growth white hickory, split, not sawed, insuring straight grain. Made with full grip and slightly flared end, will not slip from hand. Securely wedged, heads and handles never part company.
Packing and Finish—Nickel plated or highly polished, and put up one in a display box, a beautiful setting for showing these attractive tools in show case or in window. The artistic stamp and label brand each tool now and always as [illegible].
Guarantee—We will cheerfully replace any [illegible] Hammer which may prove defective.

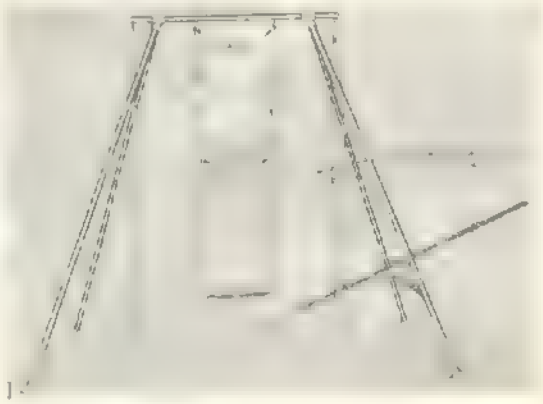
C335A10. Complete **$25.20**



H-B WELDLESS AXES

ONE PIECE CONSTRUCTION

Eliminating high welding heats, mis-welds, soft body steel and all other faults of old-style welded axes, H-B Axes are one-piece from bit to head, with no joint, seam, weld or weakness of any sort.

HIGHEST GRADE STEEL

The result of years of experience and service tests, evolving a special high-quality alloy axe steel which is a revelation in hardness and toughness.

SPECIAL DOUBLE TEMPER

Careful heat treatment gives extreme toughness and stiffness, combined with special tempering at the bit to produce a keen edge, hard, yet tough.

LONG SERVICE

Bits are hardened all the way through, 2 inches back, or more. Can be ground repeatedly without reaching soft temper, thus doubling the life of the axe.

RIGIDITY OF EYE

The toughening of the steel, together with the reinforcing of the eye by our taper-punching process, affords an eye which will never buckle, even under severest service.

HARDENED FACES

Not soft steel as in most axes, but tempered alloy steel. Will stand hard service without battering.

UNIFORMITY OF SHAPE

Patterns are accurate and uniform, not the hit-or-miss patterns resulting from usual guess-work methods.

HANDLES

H-B axes are factory-handled with handles of second-growth white hickory of unusual value.

Below are shown reproductions of AXES RETURNED FOR REPLACEMENT.

These axes were returned to a manufacturer who does not sell axes warranted.

Similar ones continue to be returned for credit, though for many years this manufacturer has endeavored to avoid contention from just such imposition, by DECLINING TO SELL A WARRANTED AXE.

These axes are plainly examples of attempted imposition, illustrating what experience has shown, that to WARRANT an axe is the initial step to a trail of trouble, misunderstanding, dissatisfaction.

A WARRANT IS HONESTLY REGARDED BY MANY AS MEANING THAT THE AXE CANNOT BE INJURED OR WORN OUT, THAT IT CANNOT BE BROKEN, NOR THE TEMPER RUINED BY IMPROPER GRINDING.

These illustrations are somewhat extreme, but they are examples of no infrequent claims which, of course, cannot be considered.

The more usual claims on soft edges and ordinary breaks can be avoided in most cases, if users and dealers will acquaint themselves with the proper care and grinding of an axe.

Used as a Maul

It broke across the eye and a new axe was demanded to replace it.

A Double Bit Axe

that was used sideways for striking.

Replacement was requested and evidently expected.

Used as a Maul

and though it didn't break they returned it anyway.

Crumbling With Rust

Evidently buried for years and resurrected to start quite a heated controversy.

Used for years till ground and worn too short for effective service.

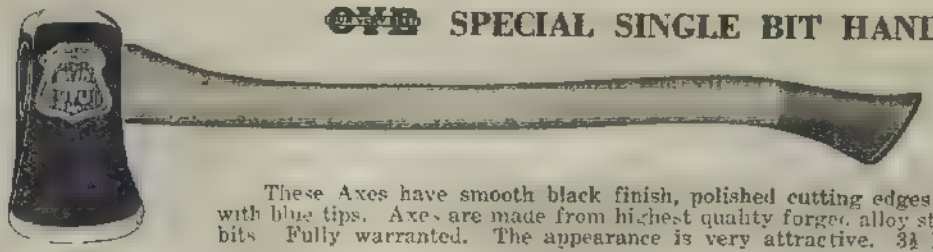
Returned for a new one and real peeved when replacement was declined.

This Is a Typical "Return"

In such cases, the FIRST break was probably accidental, a glancing blow, hit against a stone, or some such similar cause which would break any good axe.

The axe being unserviceable after the first break in each edge, only the user could explain the other breaks.

SPECIAL SINGLE BIT HANDLED AXES



These Axes have smooth black finish, polished cutting edges. High grade handles finished in white lacquer with blue tips. Axes are made from highest quality forged alloy steel. Carefully hand tempered, keen thin ground bits. Fully warranted. The appearance is very attractive. 3½ lb. w't, per dozen 62 lbs.

"Parkette"

Pens and Sets

Made by PARKER PEN CO.

In keeping with the trend for quality merchandise at popular prices, the Parker Pen Co. has brought out a line of pen and pencil sets at a figure astoundingly low in comparison with their regular line.

Into these sets they have put all the skilled workmanship and exactness so characteristic of "Parker" made pens and pencils. The same trained craftsmen and mechanics employed in the making of their regular line have used their knowledge and ingenuity to make this special line of sets worthy of the name "Parker." They have so much faith in this line that each and every pen and pencil is stamped with their name.

The pens are fitted with high grade 14K solid gold iridium tipped pen points, ground to perfection by experts so as to insure a smooth writing pen. The pens fill with the gold filled lever found along one side of the barrel. New shape clinch style clip set in such a position that it will rest comfortably in the pocket. Double bands set in both on top and bottom of the cap.

The pencils have a reliable three-action movement, which in addition to propelling the lead, also repels and expels it. A reservoir for the extra leads, together with the eraser are contained on the inside of the barrel. The trimmings on the pencil match the pen in all respects. Both pieces are put up in a neatly designed presentation case.

The colors are the most popular on the market.

LOOK FOR THE NAME "Locktite" REG. U.S. PAT. OFF
Tobacco Pouches

Tobacco Pouches. Oblong shape. Made with the famous Talon Hookless fastener. Open and close it simply by pulling zipper across the top When closed no tobacco can leak out into your pocket. Opened, it gives you plenty of room to fill your pipe. No buttons or strings to untie or unfasten. Rubber lined, thus keeping the tobacco moist at all times. In addition, there is a humidizer furnished with each to further insure the freshness of your tobacco. Made in suede and kid finish leather, put up assorted to the box. Each box also contains an assortment of colors. ½ dozen to the box
No. 15886. Per dozen..... 3.90

No. 15878. "Locktite" Tobacco Pouches, made up in the same manner as above, but the outside is of rubberized canvas, instead of leather.
Per dozen. 3.60

"Locktite" Tobacco Pouches in the New Oval Shape. Equipped with the Talon Hookless fastener, enabling the user to open and close the pouch in a jiffy. Made of leather, in assorted kid and suede finishes, also assorted colors to the dozen Rubber lined and each pouch furnished with a humidizer to keep the tobacco moist. The convenient pull tabs on the ends of the pouch enable the user to firmly grip it without retarding the flow of the tobacco. One-half dozen to the box.

No. 15885. Per dozen. .. 6.00

The New Combination "Locktite" Tobacco and Pipe Pouch. In addition to having all the regular features of the "Locktite" pouches, this new addition to the ever-popular "Locktite" line also has a compartment for accommodating any style pipe a smoker may carry. The carrying of the pipe does not in any way increase the compactness of the pouch, as it is arranged so that the pipe is held at the bottom of the pouch and the tobacco is held in the pouch proper above it, eliminating the additional bulk which a pipe would naturally cause. In this way, the carrying of the two articles is combined into one neat, attractive package

The pouch is made of smooth kid finish leather, rubber lined contains the "Humidizer"; has the Talon "Hookless" fastener attachment, same as the rest of the "Locktite" line

A new and practical idea in tobacco pouches.

MUSICAL ALARM CLOCK

Wakens You to the Strains of Sweet Music

Musical Alarm Clock, with visible works, brass case, heavily nickel-plated. Heavy glass front and sides, extension base, handle on top. Set same as ordinary alarm clock and plays musical tune for several bars.

No. 60W132. Each..... **3.95**

Musical Clock—*An Exclusive Creation*

The very latest idea. Originated, designed and manufactured by us. Not only is this clock ornamental in appearance but it is useful as a timepiece and each has the added feature of playing two different tunes. Simple and compact, the music apparatus is so arranged that by lifting the clock up, the strains of sweet music are immediately heard and when the clock is put down the music stops. This music arrangement is independent of the clock and can be wound and played whenever desired. The 30-hour clock movement is the best American manufacture.

The case is moulded of metal in shape of a radio console showing on front below clock dial, a panel with radio dials etc. Lower part of front representing the doors is engraved with relief portraits in relief of Wagner and Schubert the noted composers, embellished with musical instruments. Each side of case is engraved with musical notes and instruments. Case is 8 inches high and 5½ inches wide. Weighs about 5 pounds

We recommend this article, as all who have seen it have been enthusiastic about it. Order a sample and see for yourself

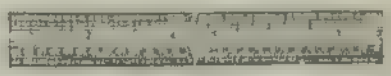
Rules and Straight Edges



36 In. Long

Laid off on one side with two rows of figures, the first like an ordinary steel square, by eighths and inches up to three feet. The second is a line of circumferences divided into 113 equal parts; each of these divisions is again sub-divided into 8 equal parts, the large divisions representing an inch to a scale and sub-divisions an eighth of an inch. Therefore, against any diameter the circumference in this line to a scale in inches and eighths of inches can be found.

The reverse side of rule gives dimensions of measures and cans. The first two tables are for flaring measures. 1st—Liquid measures, 1 to 5 gal. Second—Dry measures, 1 to 2 bu., giving diameter of top and bottom and height of each size and kind.

Third table is for cans with pitch or cone tops, 1 to 10 gal., giving diameter of top and body and compass marks for striking breast.

Fourth table is for flat top cans from 100 to 200 gal. (thirty-one different sizes), giving height and diameter.

Fifth table is for dry measure, from 1 qt. to 3 bu., giving height and diameter.

Plain polished, w't ⅔ lb.

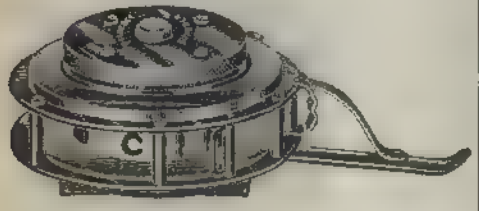
Holds 14 fishing rods any length, light or steel, revolves on an iron base, upper circular piece of stained hardwood with rubber rod holders, lower circular piece of metal with felt pad on top and adjustable iron rod holders, w't each 7 lbs.

C24G0 .....each $4.00

Pflueger Superex Automatic Reel



Holds 100 yds. of line or a short line may be used with equal convenience. Automatic for about 150 feet. Spring has friction relief at both ends so that it can be run down with any amount of force without any danger of breaking it. Springs well tested and guaranteed.

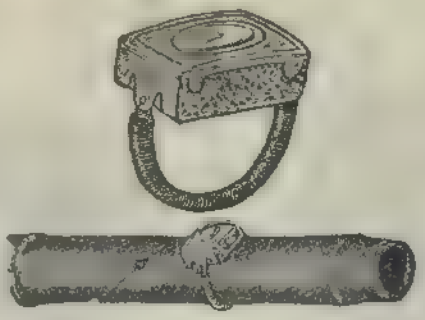
Gun metal finish, ⅞ in. pillar, 3½ in. plate, w't 8½ oz.

Without Jewel

C775G2 .....each $6.60

EACH REEL WRAPPED IN SILVER TISSUE AND ANTI-TARNISH PAPER ONE IN A FANCY CARD

Hook and Line Keepers



Little Friend

Takes care of that dangerous dangling hook. Just slip it over the end of the pole, the cork holds the hook, makes it safe and keeps the line from getting tangled. Fits any size pole.

Made of a metal stamping, a coil spring, and a block of cork measuring ⅝×2 in., 24 mounted on an attractive counter card, illustrated in colors.

C98G1 .....each $0.10

"Fly Wate" Martin Automatic Fish Reel

Weighs only 6 ounces—so light that it gives a perfect balance to light fly rods, yet so strong and full of pep that it will handle a full 30 yard H. F. H. double-tapered line, or 90 ft. of "G" line and will retrieve the full length of tapered line and 80 ft. of the "G" line with one winding.

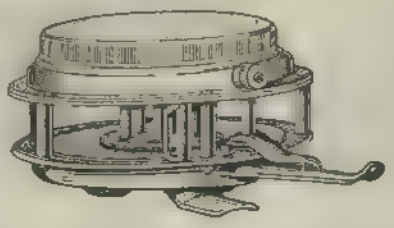
An extra large, hardened-steel line guide, a new spring tension throwoff, a large efficient brake system—these are just a few of the exclusive features of this remarkable reel.

Equipped with a line guide.

C127G2 .....each $11.00

EACH REEL IS ENCLOSED IN A NEAT LEATHER POUCH AND IS PACKED IN AN INDIVIDUAL CARTON

Martins Improved Automatic Fishing Reels with Line Protectors



Drums for above reels are made from a special grade of aluminum, reinforced on the inner rim by a collar of hard brass. Main spring is made of the best spring steel, the end of each spring being tempered by hand. Lock Brake is made of brass.

Especially adapted for trout fishing and is called a "Creek Whipper." This is the smallest of the Martin Reels and carries 75 ft. of G line. No lock brake on this reel as for light fishing it is not necessary. Largest diameter 3⅜ in., depth 1¼ in., w't 9 oz.

C641G2 .....each $4.95

Ideal for general fishing. Capacity 90 ft. of "G" line and will carry a greater amount of a finer line. Equipped with a line protector being of great convenience, keeping the line off the edges of the reel while the lin is being reeled up. Perfect workmanship, strong, serviceable and weighing but slightly over 7 ozs.

C642G2 .....each $5.50

Martins Automatic Reel with line protection, particularly adapted for Bass and other game fish. Capacity 150 ft. of "G" line. A great advantage for heavy fishing, w't 8 ozs.

C643G2 .....each $6.00

ONE IN A BOX

"Tie On" Reel Seat

Handy Reel Seat can be applied to a rod of any diameter, it is just the thing for Calcutta and Jap. poles. No cutting or fittings required as it adjusts itself and can be fastened to rod or pole by anyone, has tapered sliding bands, to hold large or small reel. Made of brass, highly nickel plated, length 6¾ in., w't doz. 1 lb.

C611G1—Lots of ¼ dz.....each $0.25

PACKED ONE DOZEN

Mildrum File-Proof Steel

Mountings constructed of a hardened carbon steel ring, silver soldered to nickel tubes and cradles. Steel rings are file-proof, treated to give the hardest possible wearing surface on a metal ring and at the same time retain the correct metallic resiliency.

Mountings have a gun metal finish which gives a beautiful appearance, and is a protection from rust.

The protection to a silk line afforded by the hardness of these steel rings, combined with their strength and beauty, makes them the ideal metal mounting.

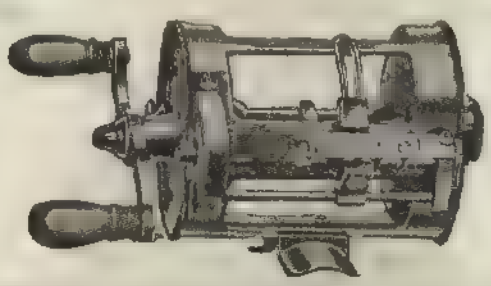
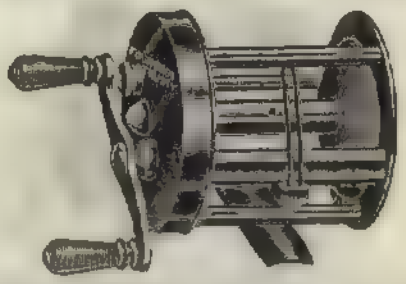
Meisselbach-Catucci Level-Winding Bait Casting Reel. Spool is hand-turned to a perfect balance. The reel is sturdily built for the most trying service. The gears are finely matched and tapped. One-piece reel seat. Designed and built by mastercraftsmen who have had years of experience making quality tackle. Capacity over 100 yards.

No. 16R94 (Mfg. No. 550) Each..... **3.60**



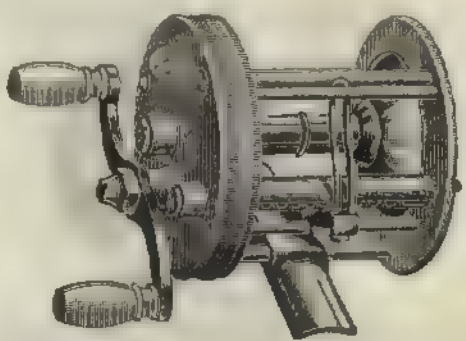
Meisselbach Catucci Level-Winding Reel, with Double Handle, that has achieved nation-wide success among fishermen. It is well made and well designed. A reel that with care should last a lifetime. Has an adjustable reciprocating shaft bearing which enables the angler to take up the play in the reciprocating shaft, assuring greater and smoother service. No other level-winding reel has this feature. Holds 100 yards of standard bait casting line. Each in box.

No. 16R46. (Mfg. No. 253) Each..... **6.47**



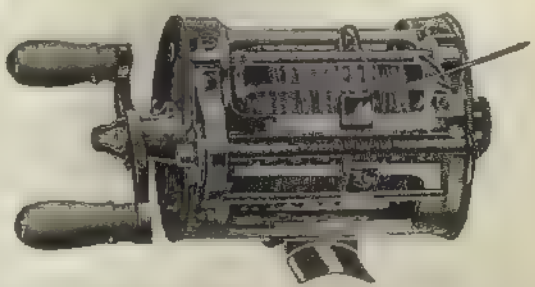
Pflueger, Four Bros. Trusty Reel. Light weight, distinctive in design, built to wear. Level-winding pawl and threads are coated with Diamolite making them non-corrosive and highly resistant to wear. Anti-back-lash operated by knurled button located near edge of front cap. Finished in polished nickel. Capacity 100 yards. Each in a box.

No. 16R100. (Mfg. No. 1798) Each..... **1.40**



Bronson Superlite Level-Winding Reel. A light, sturdy reel for the experienced particular fisherman. Head plate, head ring and tail plate of special alloy aluminum. Level-winding screw of German silver with hardened steel pawl. Dust proof oil cups on all head bearings. Exposed metal parts nickel plated. Capacity 100 yards. Each in a box.

No. 16R98. (Mfg. No. 1001) Each..... **4.08**

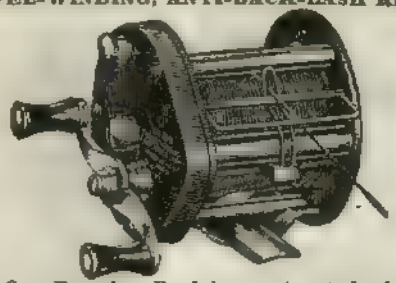


Meisselbach Catucci Level-Winding Reel, Non-Back-Lash. Built with watchlike precision. Will last a lifetime and lends itself to every weight of bait, wind condition and any length of cast. Accurate flexible and perfect control. Full 100 yards of line capacity. Each in box.

No. 16R47. (Mfg. No. 257) Each..... **7.77**

South Bend Level-Winding Reels

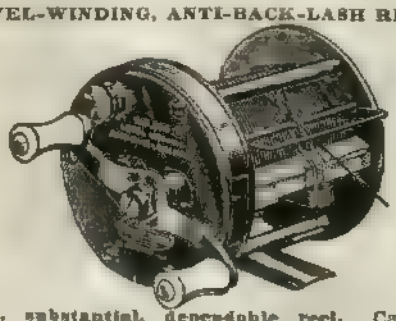
LEVEL-WINDING, ANTI-BACK-LASH REEL



This fine Running Reel is constructed of aluminum-alloy metal with gears of long-wearing, hard drawn brass. Frame is dull gray finish. Bearings, spool bushings of hard drawn brass. Caps easily removed for oiling. Gears, quadruple multiplying type. Driving gear and screw pinion of bronze. Spool pinion of tempered steel. Anti-back-lash, ball wire of nickel, chromium plated. Patented adjustment screw. Level-winding, nickel silver carriage screw revolves in bronze bushings. Crank has double grips of black ivoroid riveted to crank. Capacity, 125 yards. Weight 6½ ounces. Each in box.

No. 16R101. Each..... **2.51**

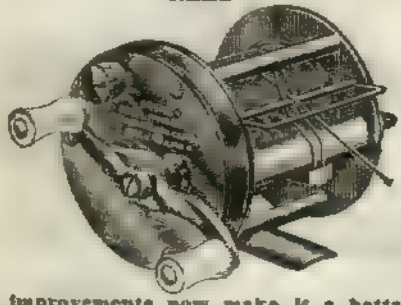
LEVEL-WINDING, ANTI-BACK-LASH REEL



Good, substantial, dependable reel. Carefully made from materials selected for their wearing qualities. Selected brass frame, highly nickel plated. Bearing spool bushings of phosphor bronze. Quadruple multiplying gears, with driving gear and carriage screw pinion of bronze. Phosphor bronze level winding carriage screw, is chromium plated. Double grips of white ivoroid riveted to crank. Capacity, 100 yards. Weight 8½ ounces. Each in box.

No. 16R70. Each..... **3.92**

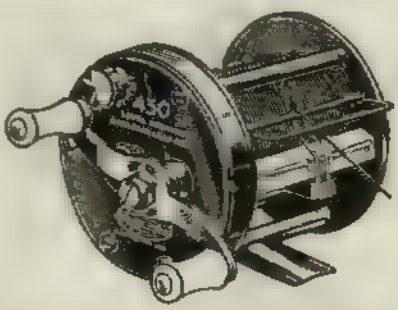
ORENO LEVEL-WINDING, ANTI-BACK-LASH REEL



New improvements now make it a better reel. In operation the Oreno requires no thumbing or spooling. Frame has a chrome plated finish. Quadruple multiplying gears. New design adjustment screw of anti-back-lash assured positive operation. All parts of level-winding chrome plated with exception of pawl, which is of special alloy rust-resisting steel. New extension type carriage with extra long bearing on screw to insure long service. Double white ivoroid grips riveted to crank. Capacity, 100 yards. Weight 9 ounces. Each in box.

No. 16R42. Each..... **5.56**

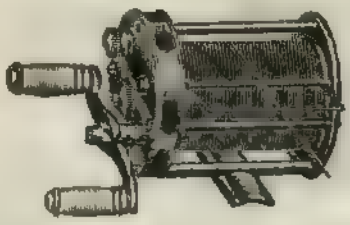
LEVEL-WINDING, ANTI-BACK-LASH REEL



This smooth running reel has a nickel plated brass frame. The bearings have spool bushings of bronze. Spool cap takes end thrust of spool. Quadruple multiplying type gears. Driving gear and screw pinion of bronze. Spool pinion of tempered steel. Level winding-phosphor bronze carriage screw, chrome plated, revolves in phosphor bronze bushings. Double grips of white ivoroid riveted to crank. Capacity, 100 yards. Weight 8½ ounces. Each in box.

No. 16R37. Each..... **3.25**

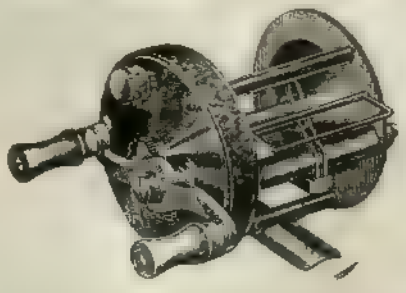
SOUTH BEND ANTI-BACK-LASH CASTING REEL



South Bend Anti-Back-Lash Casting Reel. Solid German silver, ivoroid grip, jeweled spool caps, quadruple multiplying with slide click and drag, 100 yard capacity. Absolutely guaranteed. Strictly high-class and guaranteed indefinitely. Each in box, with full directions.

No. 16R23. (Mfg. No. 1131) Each..... **4.00**

LEVEL-WINDING CASTING REEL



This new South Bend is a masterpiece in mechanical fineness and beauty. Head cap is very distinctive with mottled green bakelite ring separating two nickel silver plates. Other parts are highly polished silver. Spool caps of carnelian agate. Famous South Bend anti-back-lash and the new long wearing extension type level-winding carriage. Each in leather bag.

No. 16R88. (Mfg. No. 1201) Each..... **10.78**

Pikie Minnows

The new Nature Lure so closely imitates the pike minnow in shape, color and movement that the combativeness of the bass is aroused and they strike it to kill.

Gives best results when reeled slow but does not revolve if reeled fast. It's a near surface wiggler, or by turning up the screw-eye a few turns and reversing the mouthpiece you have a surface splatter.

Length 4¼ in., w't ⅔ oz., rust-proof bronze hooks to blend with color of body, all hooks including the tail hooks, hooks set in sockets to hold same away from the body.

C700G1—Natural pikie, scale finish, each $1.00
C701G1—Natural perch, scale finish, each $1.00
C702G1—White with red head, each $1.00
C704G1—Golden shiner, scale finish, each $1.00
C708G1—Rainbow .....each $1.00
C711G1—Black with white head, each $1.00
C718G1—Silver flash.....each $1.00

ONE IN A BOX

Baby Pike

Thoroughbread from the Famous Pike Minnow

This lure 3¼ in. long is a smaller bait than the now famous Pikie Minnow, which has been making the record catches of game fish in every part of the country. It has a wicked wiggle and all the good qualities of the larger lure. A light, strong killer.

C900G1—Pikie, scale finish....each $0.85
C902G1—White and red.....each .85

ONE IN A BOX

Crawdad Natural Crawfish

Natural shaped body and tail, black bead eyes, rubber legs, bronze hooks, movement backwards, same as a crab. Wiggle mostly in tail. Rubber legs give more movement. Fine for use on bright days, in clear water and along stony shores.

Floats until started. Tail guards hooks from snags and bottom. Length of body 2¾ in., w't ⅔ oz. Casts like a bullet.

C300G1—Natural crab.....each $0 85

ONE IN A BOX

Chub Wigglers

De Luxe Wag Tail

A bait which apparently swims with its tail. Looks like a live minnow, swims like one and is a Real Fish Getter. Has a nickel plated tail which swings back and forth as the bait travels through the water, and the flash of the nickel makes a more attractive lure. Body 2¾ in. long, w't ½ oz., double hooks so placed that the fish get hooked when striking and at the same time the bait is practically weedless.

C800G1—Natural chub, scale finish, each $1 00
C801G1—Natural perch, scale finish, each $1 00
C802G1—White with red head ..each $1.00
C804G1—Golden shiner, scale finish, each $1.00

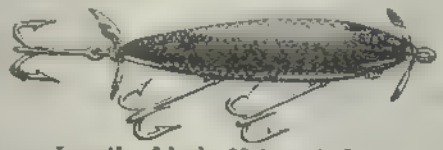
ONE IN A BOX

The Original "Injured Minnow"

Represents an injured minnow which is laying on its side about all in, but still able to make a little fuss on the surface and should be pulled in a series of small slow jerks or very slowly to properly imitate a struggling minnow. Bass will instantly take a lure which they believe to be a minnow in trouble and therefore easy to catch.

Loose vibration spinners give to strike or weeds, etc., and are superior to rigid kind. When pulled through water they spin just right and have a buzzing vibration which is very attractive. Bending of shaft will not stop them from spinning and small grass and moss do not clog them.

Easily cleaned.



Length of body 3¾ in., w't ⅔ oz.

C1505G1—Red side, scale finish, each $1.00
C1518G1—Silver flash. .....each $1 00
C1501G1—Natural perch, scale finish, each $1.00

Baby

Looks like a nice little meal for the fish. Has two double hooks which can be reversed so hooks point up and when so used gives a bait that can be pulled over the surface weeds and pads without fouling.

Length of body 2¾ in., w't ½ oz.

C1605G1—Red side, scale finish, each $0.85

ONE IN A BOX

The Baby Jointed "Pikie Minnows"

This peppy little wiggler is about the size of the live bait generally used, and comes closer than any lure representing a live minnow in a hurry to get away. Found to be a deadly killer in rivers and lakes, especially in the new Silver Flash finish, which so closely imitates the Silver Shiner Minnow. Length of body 3½ in., w't ½ oz. Made in the following finishes:

C2700G1—Natural pikie, scale finish, each $1.00
C2701G1—Natural perch, scale finish, each $1.00
C2702G1—White with red head, each $1 00
C2718G1—Silver flash.....each $1.00

ONE IN A BOX

The Jointed "Pikie Minnows"

This new jointed Pikie has a beautiful wiggling movement, flexible and senuous, which makes it a fish getter. It is a very easy caster.

Length 4¼ in., w't ⅔ oz.

C2600G1—Natural pikie, scale finish, each $1.00
C2601G1—Natural perch, scale finish, each $1.00
C2602G1—White with red head, each $1 00
C2604G1—Golden shiner, scale finish, each $1.00
C2608G1—Rainbow .....each $1.00
C2618G1—Silver flash ..... each $1.00

ONE IN A BOX

The "Pickerel Pikie"

Front half of body is a solid mass of glittering silvery flakes more attractive and brighter than a spoon and tail red or yellow to imitate a fly. Has all advantages of old spoon and fly combination plus sure hooking qualities of wooden plug. Unlike spoon it casts easily and can be used without fear of twisting line. Runs a little deeper than regular Pikie and does not float.

Length of body 4¼ in., w't ⅔ oz.

C2605G1—Silver glitter with yellow tail, each $1.00
C2606G1—Silver glitter with red tail, each $1.00

ONE IN A BOX

Joe Welsh "Telarana Nova" Leaders

Made by William Robertson, Glasgow, Scotland, and there are many substitutes offered.

Made in one piece, no knots, no splices. Very strong and durable and have the additional advantage of being made in a color that blends in with the water.

Extra heavy, breaking strain 35 lbs. For large salmon, yellowtail and muskellunge.

Length, ft.	3	6
C511G2—Lots of ½ dz., each	$0.40	.75

Heavy, breaking strain 20 lbs. For medium salmon and large lake trout.

Length, ft.	3	6
C512G2—Lots of ½ dz., each	$0 35	.65

Heavy, breaking strain 15 lbs. For bass and large trout.

Length, ft.	3	6
C513G2—Lots of ½ dz., each	$0 30	.60

Light, breaking strain 10 lbs. For bass and trout up to 10 lbs.

Length, ft.	3	6
C514G2—Lots of ½ dz., each	$0.20	.40

PACKED ONE DOZEN

Arbogast Gut Bait Casting Leader

This invisible knotless gut leader is made especially for casting with Arbogast Kicker and Tin Liz baits. The end loops are small so as to be less visible. The bait will, of course, have to be looped on before tying line. Length 4 ft. Will stand about 10 lbs. weight; 4 leaders in a glassine envelope, 12 envelopes on a display card.

C89G1 .....each $0.15

Scosciatic Knotless Gut

Scosciatic silk gut is procured from raw silk, chemically treated. It is very strong and durable. It makes a satisfactory leader for still fishing or bait casting. The quality of Scosciatic Gut is equal to any imitation gut on the market.

Put up on 10 yard coils, 4 connected, 1 dozen coils in a package.

Test, lbs..	4	10	16	25

PIONEER METAL ROW BOATS

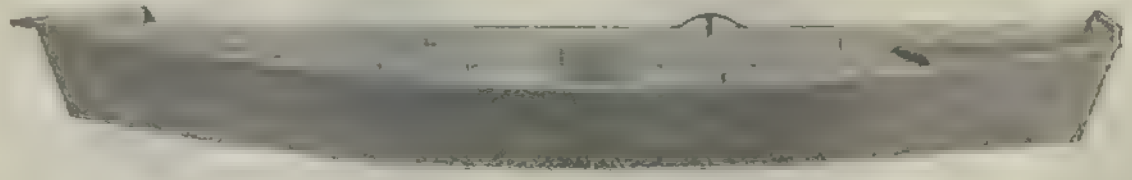
Metal boats are rapidly replacing wooden boats and the so-called composite boats because they give better service. About all the attention they require is a coat of paint once a year. They do not dry out, crack, warp or open at the seams. A metal boat may be left in the water or on the bank for a day, a week or a month and it will be always ready to use.

Pioneer boats are built of first class material by expert workmen. Large air chambers are built into every boat. **These air chambers will support two men sitting in the boat when the boat is entirely filled with water.** The boat is of rigid construction and well braced with metal ribs. The sides are joined to the bottom by double locked seams.

The Pioneer line of row boats and outboard motor boats is nationally recognized as the leader in its field.

All of these boats are guaranteed both as to material and workmanship for one year. Any defects will cheerfully be made right.

Pioneer boats are shipped uncrated and factory does not recommend crating as they go through very satisfactorily uncrated. However, if wanted shipped crated, add $4.75 net to price of boat.



Pride of Pioneer

Built of Armco or Toncan iron. Painted silver gray and trimmed in green. Equipment consists of one pair copper tipped varnished oars; varnished end and center seats; painted flooring; anchor pulley; rope tie clip; detachable motor block. An angle rail is used around the top of the boat.

PACKED ONE DOZEN

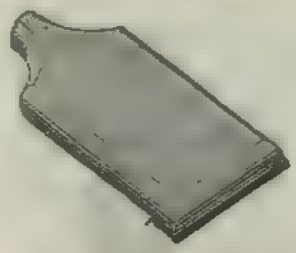
Stanley Cabinet Scrapers



Reversible, Double Edge Blade

Just the tool that every carpenter, hobbiest and handy man has been waiting for.

Two edge blade is immediately reversible, made of high quality carbon steel, best cutting edge for any wood working edge tool, same quality steel as used in the famous Stanley Plane Irons.

Tough, hardwood handle painted orange. Two screws hold double edge blade securely to handle. To reverse blade it is only necessary to loosen screws.

Cutting edge of this blade requires no hook, eliminating usual task of burnishing.

Complete directions for re-sharpening blades packed with each scraper.

Width of blade 2¼ in., length of scraper 5 in., w't per doz. 10½ lbs.

273A2—Each $0.50
PACKED SINGLY

Extra Cutters

PACKED HALF DOZEN

BRONZED HATCHETS

A line of Hatchets expressly made for the carpenter and builder, whose requirements are most exacting. We would not know where to look for better quality, pattern and construction in any hatchet than we have attained in . Each tool is forged from highest quality tool steel, scientifically heat treated, and tempered to give a cutting edge which is hard, yet tough. So seldom is resharpening required that Hatchets will be found remarkably long-lived

Each hatchet is fitted with a well-shaped handle of selected white second growth hickory, waxed, with flared end to prevent slipping. The balance or "hang" is correct for easy, fast and accurate work. Heads are beautifully shaped, with smooth, gold-bronzed finish, and highly polished cut and face. A display of these tools in the dealer's window or show case is a joy to behold. Hatchets will be cheerfully replaced if any defect develops in material or temper.

1318A1—Each $1.75

PACKED HALF DOZEN

BRONZED HATCHETS

A line of Hatchets expressly made for the carpenter and builder, whose requirements are most exacting. We would not know where to look for better quality, pattern and construction in any hatchet than we have attained in Each tool is forged from highest quality tool steel scientifically heat-treated, and tempered to give a cutting edge which is hard, yet tough. So seldom is resharpening required that Hatchets will be found remarkably long-lived.

Each hatchet is fitted with a well-shaped handle of selected white second growth hickory, waxed, with flared end to prevent slipping. The balance or "hang" is correct for easy, fast and accurate work. Heads are beautifully shaped, with smooth, gold-bronzed finish, and highly polished bit and face. A display of these tools in the dealer's window or show case is a joy to behold. Hatchets will be cheerfully replaced if any defect develops in material or temper.

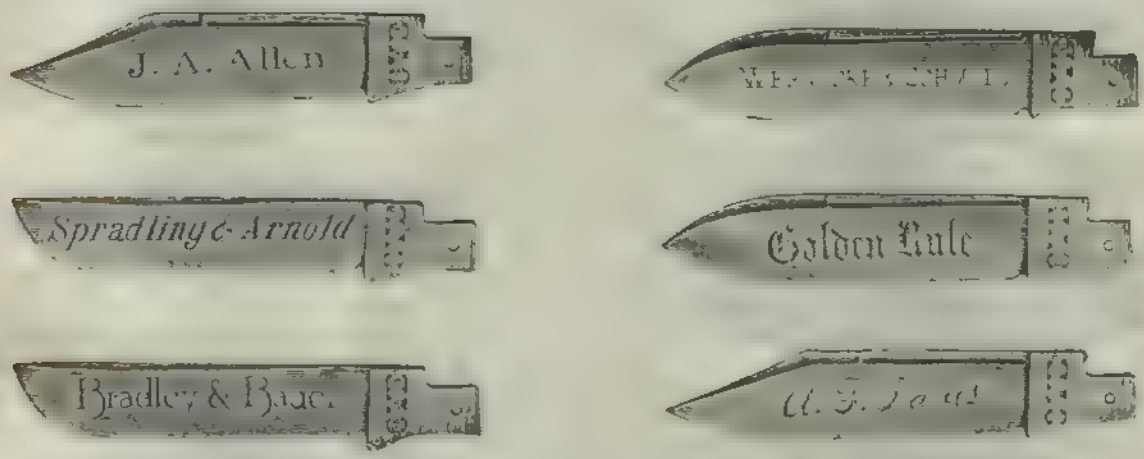
We do not carry pocket knife blades in stock. The illustrations shown on this page being reproductions of the different styles used in [illegible] pocket knives. Slight variations are made to adapt them to the different knives of which they form a part. All are made from Wardlow's Celebrated English crucible steel. Each blade is forged in the most approved manner by expert workmen. Great care is taken to avoid overheating the metal, the forging being done at a very low heat, thereby condensing the metal and making it extremely tough. The tempering is done by a new method which insures a uniform and lasting edge. All blades bearing the [illegible] trademark are carefully ground and finished. The shank is carefully shaped and finished. Every blade is inspected, whetted to a fine cutting edge and warranted to be free from flaws and neither too hard or too soft.

In material, workmanship and design, the [illegible] pocket knife blades are equal, if not superior to any made in this or any other country. They are and always have been the product of an American factory which has in its employ cutlers who have served thirty, forty and fifty years in their service.

ETCHING CUTLERY

Etching Department

Styles of Etching



The very best way of increasing trade in pocket cutlery is through the dealer's advertisement on the large blade of his best knives. If this is done wisely, it establishes a reputation for all knives bearing the dealer's name, adding his reputation to that of the maker, and thus is a convincing argument to the quality of the article The consumer is sure of a double guaranty, and if the brand is unknown, he at least knows that the dealer would not have his name on inferior goods. It is also a strong safeguard against theft. Several times every year we hear of stolen goods recovered which had been etched by us, the name on the blade identifying the knives and establishing evidence to convict the thieves. Numbers of our customers have informed us that they have been robbed, the thieves leaving the etched knives untouched.

Our etching department, beginning in 1896 in a very modest way, has grown to an important adjunct to our cutlery business. Our etchers have become artists in their work, having every appliance necessary or desirable to produce fine results.

Etching has become popular, and the public is quick to notice the enterprise of a dealer who has something new to offer.

We make no charge whatever for this work, feeling that we are amply repaid by the increased business the dealer is sure to give us in consequence of adding to the selling quality of his knives. Our only requirements are that the initial order call for at least 6 dozen pocket knives to retail at 50 cents or over, all one kind or assorted. Subsequently, it is only necessary to order a sufficient quantity each time to warrant doing this work, and that the goods are such that we as a firm would care to affix our guaranty.

We shall be glad to explain more fully through our representatives or by letter our position in this matter and show samples of the work.

WESTINGHOUSE ELECTRIC FANS

The motors have built into them all the experience and skill gained in the construction of millions of motors. All 12 and 16 in. fans have slow speed motors, which makes for more quiet operation and longer life.

Oscillating Mechanism

An enclosure case around the oscillating mechanism keeps oil from dripping on table covers. Oscillation can be stopped or started while the fan is running. An automatic safety clutch stops oscillation should the guard strike an obstruction—but the fan continues to operate without burning out or overturning. It automatically resumes oscillating as soon as the obstruction is removed.

The Blades: The 10, 12 and 16 in. fans are equipped with MICARTA blades. The 8 in. fans have metal blades. MICARTA is a moulded non-conductor, stronger and much lighter than metal. It will not warp and can easily be cleaned with soap and water. If bent the blades will spring back in position. The greater angle at which these blades are set gives maximum air delivery with minimum noise and compensates for the slow speed motor. These fans can be easily tilted back or forward or mounted on bracket or wall.

It is necessary to lubricate these fans, with cup grease, only once in a season.

Complete with 8 ft cord and soft rubber plug. All fans listed are for operation on 100-120 volt 60 cycle alternating current Fans in other frequencies and voltages or for direct current can be supplied from factory.

8 in. non-oscillating, single speed switch, 28 watts, 375 cu. ft. air per minute, w't boxed 5 lbs.

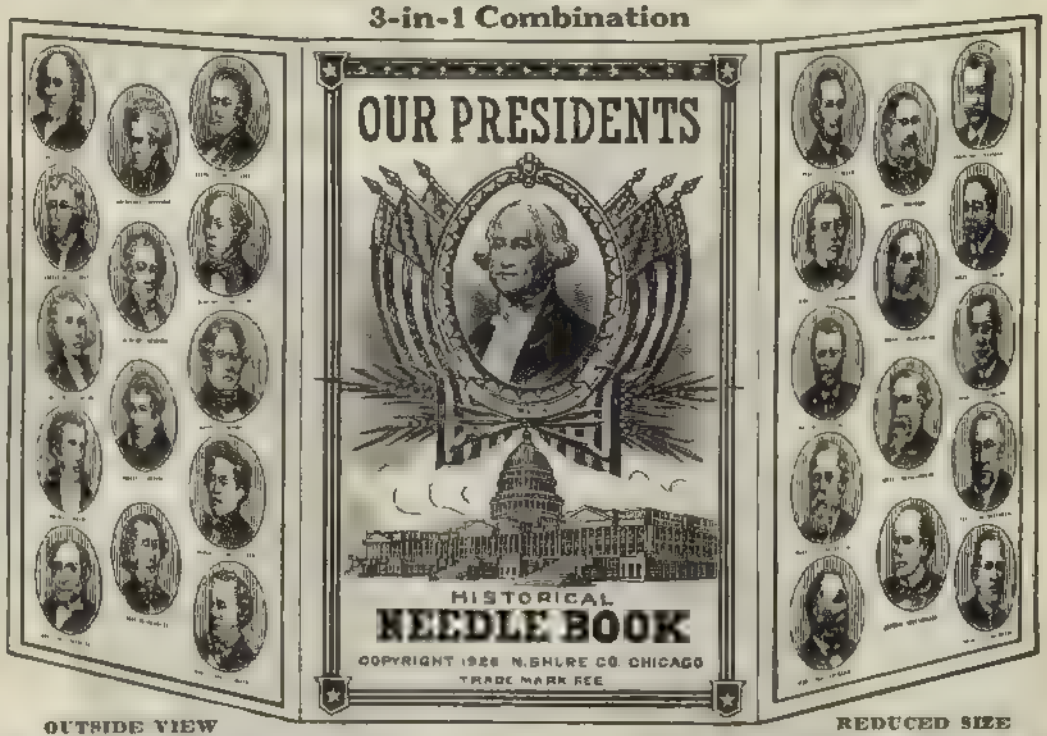
Our Presidents Needle Book

3-in-1 Combination



OUTSIDE VIEW

REDUCED SIZE

REDUCED INSIDE VIEW SHOWING CONTENTS

Read This—

Our Presidents, the world's best combination 3 in 1 needle book and handy historical reference. In 1909 we created the original Army & Navy needle book which for sales, has surpassed anything that has ever been put on the market. It has always been our aim to bring out something entirely different, and we believe that the above needle book will fill a long felt need for something better. We are justly proud and we feel sure that after you have made a careful examination of the lithographing, general make-up and the all gold-eye needle feature, you too will share our enthusiasm. For the Premium user it has the appearance of a $1.00 value.

Each in individual envelope marked as follows: Introductory Price, 50c

Contents—All Gold-Eye Needles

4 papers 16 needles each, assorted 1-5, 3-9, 4-8, 5-10.
1 wide paper, 20 count, assorted 3-9.

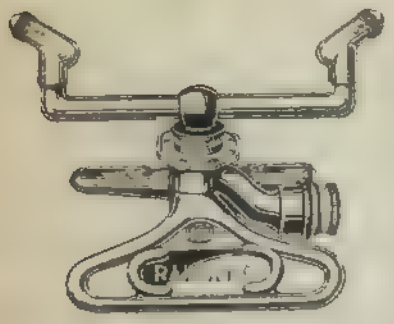
The Best Sprinklers Made



Standard Rain King

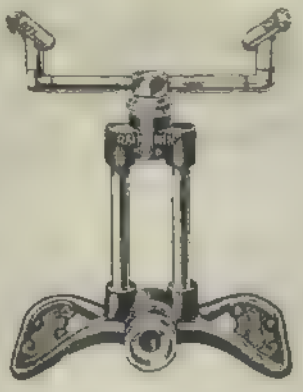
For the average lawn or garden. Sprinkles revolving or stationary. Any spray or stream. Each nozzle a sprinkler in itself. Bearings of bronze and free from pressure. Efficient on high or low water pressure, sturdily constructed.

Height 6 in., width 8 in., shipping w't per doz. 41 lbs.

540A3—Open Stock.....each $2 25

540A4—Pkg. of 1 dz.....each ....

EACH IN A DISPLAY CARTON



Double Whirling Shower

The latest Rain King and the world's greatest sprinkler value. Most beautiful in appearance and exceptionally efficient on all water pressures or any spray. Fitted with latest patent Rain King Nozzles which require just a touch to adjust for any spray or direction. Sets quickly to turn fast or slow—or for stationary sprinkling. Has double brass water column, wide spread base with exceptionally easy hose coupling. Finish red and brass, height 9 in., width 7¼ in., w't doz. 83 lbs.

549A3 .....each $1.50

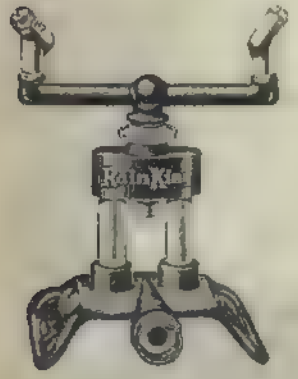
PACKED SINGLY

Model D

Sprinkles exactly like rain without damage to tender young growth or washing away of surface soil. Runs on any pressure from five pounds up. Sprinkles covers 35 feet in diameter on 20 lbs pressure. Extremely well built with precision fitted phosphor bronze bearings. Throws more water and throws it farther than any other sprinkler of its type. Finished in red and brass. Made entirely of non-corrosive metal. Will not clog. Will not leak. With ring base height 6 in., w't doz. 11 lbs.

568A3 .....each $0 75

PACKED SINGLY



"A-1" Rain King

Exceptionally attractive in appearance and design. Double brass water column. Strong and sturdy throughout. Bearings precision fitted for easy turning. Every sprinkling adjustment. Stationary or revolving.

Height 10 in., width 8 in., shipping w't each 5 lbs.

541A3 .....each $3 25

PACKED SINGLY

Majestic Rain King

Stands 15 inches high. Has attractive bird bath base. Has double brass water column. A wonderful sprinkler for large lawns and gardens.

Height 15 in., width of arms 9¾ in., shipping w't each 10 lbs.

548A3 .....each $5.00

PACKED TWO IN A BOX

Extra Nozzles For Rain King Sprinklers

This new patented nozzle is supplied exclusively on Rain King Sprinklers. Throws fine spray as far as old type nozzles throw coarse spray, coarse spray even farther. No nozzle stem or parts to lose off. Any adjustment to complete shutoff through one-quarter turn of knurled front end.

Fits Majestic Rain King and Standard Rain King made prior to 1933, w't per doz. 2 lbs.

054A2 .....each 50 50

Fits Standard Rain Kins made after 1932 and Model D Rain King, w't per doz. 2 lbs.

064A2 .....each 50 65

LAWN SPRINKLERS

Hibbard

Water circle, diam., ft.	40	40	40
Pressure at sill cock, lbs.	20	30	40
Sprays gallons per minute	5	6	7

The **Hibbard** is popular because of the low price and is successful because of the free running and efficient distribution of water. Friction in the **Hibbard** Head has been eliminated as far as possible with a ground joint bearing. Leakage is reduced to a minimum through the use of this ground joint bearing, which keeps itself ground tight.

Height 4 in., arms are 4½ in. long, base 6x7⅛ in. Brass head and arms are polished. Green duco base, w't per doz. 29 lbs.

52A2—Open stock . . . . . each **$1.15**

T525A3—Pkg. of 1 dz . . . . . each . . . .

Waters circle, diam., ft.	40	40	44
Pressure at sill cock, lbs	20	30	40
Sprays gallons per minute	5	6	7

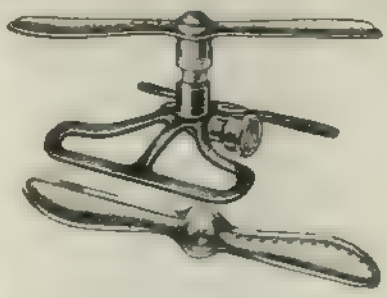
The friction in the **Hibbard** Sprinkler head has been eliminated as far as possible without using a ball bearing head. Leakage is reduced to a minimum through the use of a ground joint bearing, which keeps itself ground tight. This sprinkler is adapted for general use and is very popular.

¾ in. loose brass swivel connection. Base, black enamel. Base and stem is Red Duco finish. Nickel plated brass head and arms, 5½ in. base, 8x7⅛ in., height 10 in., w't per doz. 37 lbs.

519A2—Open stock . . . . . each **$1.40**

T519A3—Pkg. of 1 dz. . . each . . .

Aero-Mist



Equally adaptable for garden and lawn use. It breaks up the water into a finely divided spray that approximates Nature's gentle showers.

A "regular sod-soaker"—not a "gully-washer." The revolving arm is attractively shaped like an airplane propeller. Curved shape makes possible an arrangement of the outlet holes so as to supply a remarkably even distribution of water.

Larger streams near the ends of the arms carry the water further and a larger surface is covered than is usual with whirling arm sprinklers. At ordinary water pressures an area thirty or forty feet in diameter is evenly covered.

Revolving arm made of brass, 11½ in. long. Base of gray iron finished in green enamel, and size 6½x7 in., height 5 in., shipping w't doz. 30 lbs.

533A2—Open stock . . . . . each **$1 00**

T533A3—Pkg. of 1 dz. . . . . each . .

The Big Question

in business today is . . . how to get people to buy. One practical way is this:

Use printed advertising BUT be sure that each piece of printing is good enough to interest and sell the reader.

Our Dealers' Service Bureau is creating this kind of high grade direct advertising.

Write us for particulars

Whirling Fairy

Malleable Iron Base in Attractive Red Duco Finish

Unexcelled for Golf Course Greens. Non-adjustable, fool-proof, nothing but maximum spray possible. In small places, with water turned low it turns freely and sprinkles evenly.

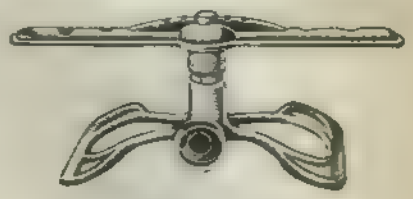
Heavy, bronze, double bearing insures long life, no leakage at bearing, which is automatically self-closing. Sprinkles 35 ft. on low pressure, 50 ft. on 50 lbs.

For ¾ in. hose height 11 in., arms across 13½ in., base 7½x8 in., approx. w't per doz. 38 lbs.

520A2—Open stock . . . . each **$1 40**

T520A3—Pkg. of ½ dz. . . each . . . .

Jewel



Nothing to Adjust—Simply Let 'er Run

On the lawn and in the garden, with 40 lbs. pressure, it will sprinkle uniformly a circle 50 ft. in diameter, 2000 square feet. In small spaces, with water turned low, it sprinkles evenly. Long life is assured by the long, smooth running, double bearing, proved by test to be the most durable type known. No leak—the bearing is self-closing against leakage. Built strong—heavy non-breakable brass sprinkling arm, 10 in. long—the malleable base will never break.

Height 4½ in., w't doz. 25 lbs.

Crosman .22 Caliber Air Rifle

Pneumatic, Operated Entirely by Air; Not a Spring Gun, Solid Frame

The repeating differs from the single shot model in that the former has a magazine tube holding twenty pells. Each operation of the bolt moves a pell from the magazine to the chamber. The pump lever must be operated, in both models, from three to six times in order to give maximum compression.

Accurate—Each rifle is individually sighted and will group six shots, under a dime, at 150 yards. No powder fouling to deflect flight.

Powerful—Will penetrate one-half inch of solid pine board, at 150 feet.

Noiseless—Excellent for indoor as well as outdoor shooting.

Real Rifles—These are not light-weight, ordinary air rifles, but the strongest shooting air arms on the market. The barrels are rifled like .22 caliber firearms, but shoot .22 caliber spool-shaped, lead pells.

Self-Cleaning—It is not necessary to clean the bore, after shooting, for each shot carries a little oiling through the barrel.

Economical—Contrast the cost of spool-shaped, lead pells with that of cartridges, 100 pells retail for 24c. The rifles may be used for every purpose that a .22 caliber firearm is used for. Suitable for home shooting galleries, the force and penetration of each shot is controlled by the number of times the pump lever is operated. Crosman Rifles destroy rats, cats, crows, sparrows, woodchucks, squirrels, etc.

Model P—Single Shot

.22 caliber, adapted to any standard, .22 caliber, spool-shaped pells, 20 in. round, rifled, blued steel barrel, pistol grip walnut stock, steel butt-plate, blade front and rear peep sights, length overall 35 in., w't each 5½ lbs.

C90G2 ..... each **$10.00**

Model R—Repeating, 20 Shots

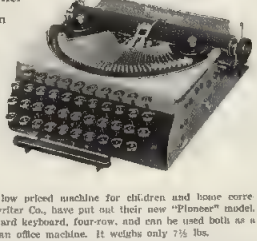
Pioneer and Corona Portable Typewriters

The "Pioneer" Typewriter
Made by Remington

NOT A TOY
BUT A
PRACTICAL
MACHINE



Realizing the need for a low priced machine for children and home correspondence, Remington Typewriter Co., have put out their new "Pioneer" model. It is a machine with a standard keyboard, four-row, and can be used both as a portable or if necessary, as an office machine. It weighs only 7½ lbs.

The machine types all capitals; cuts stencils; can be used for label writing; takes 10-inch envelope, thus making it available as an addressing machine for advertising agencies. It has the line space lever; carriage return lever; paper release; and the type touch of a standard upright machine. Takes a standard 6 yard ½-inch ribbon. Has rubber foot rest on bottom to prevent scratching. Bottom of machine is covered, so as to prevent dirt from entering the working parts of the machine. Rubber cover furnished with each machine.

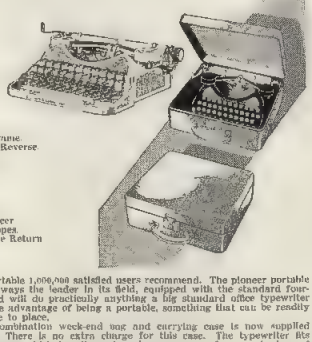
Colors: Two-tone blue, two-tone green, red and green, red and blue, red and black. Specify color when ordering.

No. F72S36. Each $42.00

Carrying case for above machine. Quite convenient, as it enables the user to carry machine along on their travels.

No. F72S37. Each .. $5.30

Corona. The Portable with a Million Satisfied Users.



Solid Aluminum Frame
Automatic Ribbon Reverse
Two Color Ribbon
Stencil Cutter
Adjustable Touch
Rubber Keytops
Paper Guide
Back Spacer
100% Visibility
Variable Line Spacer
Takes Long Envelopes
Large Size Carriage Return Lever.

Corona. The portable 1,000,000 satisfied users recommend. The pioneer portable typewriter, and always the leader in its field, equipped with the standard four-row keyboard, and will do practically anything a big standard office typewriter does, yet it has the advantage of being a portable, something that can be readily carried from place to place.

An attractive combination week-end bag and carrying case is now supplied with the Corona. There is no extra charge for this case. The typewriter fits snugly into this case which has the outward appearance of a smart piece of luggage. When Corona is not taken along, the case can be used as an overnight bag or week end case. It will easily accommodate the clothing or toilet requirements necessary for a short trip or visit.

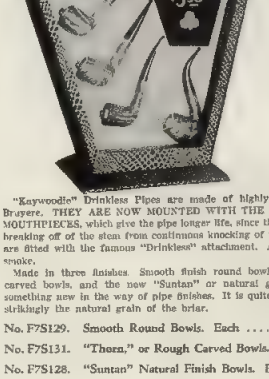
Pipes

"Mello-Root"
an
Oil Treated
Pipe That
Smokes
Sweet
from
the
First
Puff

"Mello-Root" Briar Pipes are made of the finest Italian Root Briar, and treated by a new secret expansion process. This new process expands the pores of the briar and through an oil treatment sweetens the pipe so that it eliminates the customary harsh biting, formerly so conspicuous in the breaking-in of a new pipe. This is not just a talking point, but an actual fact.

"Mello-Root" pipes come in an assortment of shapes and bowls, both straight and bent. Each pipe is packed in an individual cellophane faced carton. The bowls are of Italian Root Briar, and the mouthpiece of hard vulcanized rubber, finished in the same color as the bowl of the pipe. This truly is one of the smartest looking pipes on the market.

No. F7S121. Each .. $2.65



Drinkless
Kaywoodie
Pipes
with the New
Ambera Bits

Genuine
Smoking
Satisfaction

"Kaywoodie" Drinkless Pipes are made of highly seasoned genuine Italian Bruyere. THEY ARE NOW MOUNTED WITH THE NEW SYNCHRO-AMBERA MOUTHPIECES, which give the pipe longer life, since they eliminate the customary breaking off of the stem from continuous knocking of the bowl to empty it. They are fitted with the famous "Drinkless" attachment. Always give a cool, perfect smoke.

Made in three finishes. Smooth finish round bowls. The "Thorn" or rough carved bowls, and the new "Suntan" or natural grain finish. The latter is something new in the way of pipe finishes. It is quite distinctive and brings out strikingly the natural grain of the briar.

No. F7S129. Smooth Round Bowls. Each $5.30
No. F7S131. "Thorn," or Rough Carved Bowls. Each..... 5.30

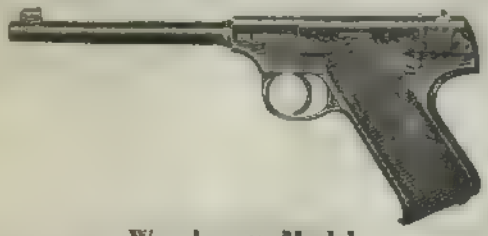
COLT AUTOMATIC PISTOLS

The action of these pistols is automatic, except that the trigger must be pulled to fire each shot, the cartridges being supplied from a detachable magazine inserted in the pistol handle. One opening of the slide, by hand, carries the first cartridge into the chamber, thereafter, as the pulling of the trigger explodes each cartridge, the recoil automatically ejects the empty shell and replaces it with a new cartridge from the magazine.

Every Colt automatic pistol has a grip safety, which prevents the discharge of a cartridge until the grip is pressed, also a safety which locks the slide. The .25, .32 and .380 calibers have a third safety device, when the magazine is withdrawn, the pistol cannot be fired even with a cartridge in the chamber. The mechanism is not complicated, in fact there are fewer parts than in most revolvers.



Woodsman Model

The "Woodsman," as its name implies, is an ideal companion for the outdoor man—the hunter, the trapper, the hiker, camper or tourist, furnishing a large measure of protection and sport.

With its long barrel, light trigger pull, splendid balance and target sights spaced 9 inches apart, it possesses all the advantages of a single shot target pistol plus automatic reloading for rapid fire and snap shooting.

.22 Long Rifle Caliber, 11 Shots

Adapted for .22 long rifle lubricated solid ball rim fire cartridges, either Lesmok, Semi-Smokeless or Smokeless, when factory loaded either for standard or high velocities, including Palma Hi-Speed Cartridges. Not recommended for hollow point bullets. Magazine holds 10 cartridges.

PORTABLE TYPEWRITERS

CARBON PAPER
TYPEWRITER RIBBONS

Royal Typewriters, have always been known for their wonderful performance and durability. Hundreds of thousands of satisfied users will swear to this statement. Below is presented a line of Royal machines from the lowest to the highest priced portable made by them. Each price style fits into a special class for which it was designed

The Royal Signet. A made-to-order typewriter for one who does not know how to type. Has only one style of type, the Mono-Face. Has no shift keys or locks, or other gadgets on its keyboard to befuddle the user. Frame in a green crackled finish. Adapted for use by the housewife, the occasional writer, the retail storekeeper, and the child just learning how to use a typewriter.

No. 72839. Typewriter without a case 22.50

No. 72839C. Complete with a carrying case..... 24.50

The Royal Signet Senior. Has all the simplicity of the Signet model but with the addition of shift keys on each side of the keyboard; marginal stop. Instead of Mono-Face type, this machine has standard Pica type which prints both capital and small letters. Frame finished in black. An ideal machine for home use by the office typist, the student in business school, and even for social correspondence.

No. 72840. Typewriter without a case 29.00

No. 72840C. Typewriter with a carrying case..... 31.00

The Royal "Standard" Portable, offers the highest development in the art of building personal typewriters. Has a four-bank keyboard with standard key dip and spacing. Exclusive Duo-Case with paper-carrier and copy holder. Open face construction for visibility and accessibility. Suction rubber feet. Dust-proofed bearings. Tilting paper table, with guide. Double cylinder knobs, and double carriage releases. Double margin and shift releases. Fractional spacer. Comes in a variety of colors: Brown, Green, Red, and Blue. Complete with carrying case. Specify color when ordering.

No. 72849. Each..... 45.00

REMINGTON'S "SCOUT" MODEL

Machine types Capitals only; cuts stencils only; takes 10-inch envelopes. Has a line space lever, carriage return lever; paper release; the type touch of a standard upright machine. Rubber foot rests on bottom of machine to prevent scratching. Black only

No. 72836. Typewriter without case..... 16.00

No. 72836C. Typewriter complete with case .. 18.00

REMINGTON'S MODEL NO. 3

Model No. 3 Remington Jr. Built like a standard portable. Comes in pica type only. Equipped with two shift keys, paper fingers, margin stop on left side, single and double line spacing; manual ribbon reverse. Frame is Black only. Machine types both capital and small letters. Ideal for home use, or for school work as it has all the advantages of a standard portable.

No. 72835C. Typewriter complete with carrying case 31.00

CARBON PAPER

Carbon Paper, for pencil use. Good standard grade, durable, blue color. Letter size 8½x11 inches. 100 sheets in box.

No. 7289. Per box..... .70

Carbon Paper for typewriter use. Comes in purple and black in letter size 8½x11.

No. 72811. Black, per box. .70

No. 72812. Purple, per box. .70

HECTOGRAPH CARBON PAPER

Purple Only. Can be used on any typewriter. Saves much of the mess occasioned with a ribbon. Simply use a sheet of this carbon and use your carbon copy as a Master, to be placed on the gelatine, in the same manner as you would when making a master copy from your ribbon. It is not necessary to use a Hectograph ribbon.

No. 7284. 8½x11 inches. 25 sheets to the package.

Per package..... 1.50

TYPEWRITER RIBBONS

18th Century Furniture Reproductions

This Duncan Phyfe lamp table of solid African mahogany has the drop leave with patented hinge construction which permits easy folding or raising of leaves. Note graceful reel panels with the reeded edge, also shapely feet with the brass capped claws. The top measures 18x28 inches; with leaves up, 18x49 inches. Height, 29 inches. Weight, 21 lbs. The satin finish will appeal to the purchaser

No. 11F436. Each $18.40

This 18th Century solid mahogany coffee table is unusual in design and exceptionally well made and finished. Note the shaped top which is undercut, a detail found only in high grade tables. The four pillars, the reeded shaped legs and brass claws on feet lend a distinction and style seldom found at this price. Top, 24x17 inches, height 19½ inches. Weight 14 lbs. Solid African mahogany only

No. 11F437 Each ..$10.20

This Chinese Chippendale lamp table is made of solid African mahogany. Note the detailed edge on top, the fluted legs, pierced stretchers and frets in corners. These features are only found on the high grade models such as this. The smooth rich mahogany finish will please the owner of such a fine piece. Size of top, 18¾x18¾ inches; height, 26¾ inches. Weight, 13 lbs.

No. 11F439. Each $14.60

Revolving drum book taole has solid mahogany top which is reeded around the edge. Note the moulded side panels which are also reeded. The partitions permit about 4 books in each. The urn turned pedestal fluted legs and brass claw feet round out the high grade details of this beautiful piece of useful furniture. Top, 18 inches in diameter, height, 26½ inches. Weight 27 lbs.

No. 11F438. Each $14.60

This Duncan Phyfe solid African mahogany end table is an excellent copy of an old original. The drop leaves have patented hinge construction. Note the graceful turned legs and skirt by base with the brass capped claw feet. The side is delightful, detailed in every respect. Top open 28x24½ inches; closed 28x11 inches, height 25 inches. Weight 18 lbs.

No. 11F440. Each $18.40

This dainty nest of tables are finished in Essex maple. They are very well made and neatly designed and usable for so many purposes. Large table measures 16½x25½ inches; 26 inches high. Middle table measures 14¾x23½ inches; 25 inches high. Small table measures 9½x17½ inches; 17 inches high. Weight, 19 lbs.

No. 11F441. Each $10.20

This large nest in Essex maple finish is early American in design, copied from a well known antique. Sturdily built and substantial proportions with its velvet like finish makes this nest a joy to the purchaser with its many uses. Large table measures 14x24 inches, 24 inches high. Middle table measures 12¾x19½ inches; 23 inches high. Small table measures 11¼x15 inches, 22 inches high. Weight, 18 lbs.

No. 11F442. Each $14.60

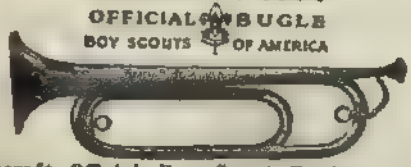
End Tables, Gatelegs and Game Tables of Beauty

[illegible] Table. This unusual piece is not only the [illegible] ornamentation, but a study of the most practical [illegible] and [illegible] the home. For example, [illegible] the top [illegible] and [illegible] ways [illegible] [illegible] [illegible]

Official Boy Scout and Camp Equipment

Rexcraft

OFFICIAL BUGLE
BOY SCOUTS OF AMERICA



Rexcraft Official Boy Scout Bugle. Its easy-blowing quality and rich tone are made possible because of the specially selected, highly polished brass from which it is manufactured. Mouthpiece is heavily nickeled and correctly designed. It conforms absolutely with the general specifications of the U. S. Army regulation bugle—key of G, with slide to F—a thorough professional musical instrument. Each in carton with instruction book.

No. 13R26. Per dozen..... $32.84
Each..... 2.90

OFFICIAL BOY SCOUT KNIFE

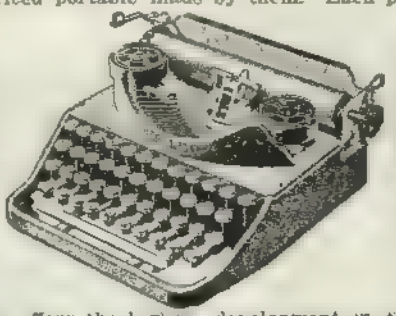
PORTABLE TYPEWRITERS

CARBON PAPER
TYPEWRITER RIBBONS

Royal Typewriters, have always been known for their wonderful performance and durability. Hundreds of thousands of satisfied users will swear to this statement. Below is presented a line of Royal machines from the lowest to the highest priced portable made by them. Each price style fits into a special class for which it was designed.



The Royal Signet. A made-to-order typewriter, for one who does not know how to type. Has only one style of type, the Mono-Face. Has no shift keys or locks, or other gadgets on its keyboard to befuddle the user. Frame in a green crackle finish. Adapted for use by the news wife, the occasional writer, the retail storekeeper and the child just learning how to use a typewriter.

No. 72S39. Typewriter without a case 22.50

No. 72S39C. Complete with a carrying case..... 24.50

The Royal Signet Senior. Has all the simplicity of the Signet model but with the addition of shift keys on each side of the keyboard, marginal stop. Instead of Mono-Face type, this machine has standard Pica type which prints both capital and small letters. Frame finished in black. An ideal machine for home use by the office typist, the student in business school and even for social correspondence.

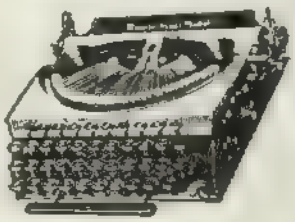
No. 72S40. Typewriter without a case 29.00

No. 72S40C. Typewriter with a carrying case..... 31.00

The Royal "Standard" Portable, offers the highest development in the art of building personal typewriters. Has a four bank keyboard with standard key depth and spacing. Exclusive Royal case with paper-carrier and copy holder. Open face construction for visibility and accessibility. Sponge rubber feet. Rust-proofed bearings. Tilting paper table, with guide. Double cylinder knobs, and double carriage releases. Double margin and shift releases. Fractional spacer. Comes in a variety of colors: Brown, Green, Red and Blue. Complete with carrying case. Specify color when ordering.

No. 72S49. Each 45.00

REMINGTON'S "SCOUT" MODEL



Machine types Capitals only; cuts stencils only; takes 10-inch envelopes. Has a line space lever; carriage return lever; paper release. The type touch of a standard upright machine. Rubber foot rests on bottom of machine to prevent scratching. Black only.

No. 72S36. Typewriter without case.. ..... 16.00

No. 72S36C. Typewriter complete with case ... 18.00

Musical Instruments That Feature Quality of Tone

Patrician Tenor Guitar

New style professional model smartly restrained in design to match guitar shown at left. Has large size body same as regulation guitar. Neck is 20 inch with full 23" professional scale and has 14 frets clear of the body. This model is especially easy to play for the player accustomed to a tenor banjo. Fine rosewood fingerboard and antique Banjo type pegs. Complete with silk neck cord and tassel

No. 3A64. Each $20.00

Patrician Guitar

Patrician genuine mahogany instruments, smartly restrained in design are constructed from solid straight grained mahogany, and smoothly and richly finished in a new durable egg shell lacquer that resists signs of wear. All edges are carefully hand rounded. Soundholes are neatly bound with purfling. Oval rosewood fingerboards bound on both top and side with neat position markers. Bridges are of rosewood with bone saddles and white celluloid bridge pins. Complete with silk neck cord and tassel

No. 3A65. Each $20.00

Pearlette Guitar

Pearlette fingerboard and guardplate make this style an outstanding novelette guitar. Fingerboard trimmed with beautiful lustrous diatine pearl celluloid; attractive guardplate to match. Body substantially constructed of birch with genuine spruce sounding board top edge and soundhole trimmed with white celluloid. Finished in rich dull brown mahogany, nicely shaded from a center and decorated with lyre and wreath in gold and pearl effect. Nickel plated patent heads with white buttons, oxidized pin bridge with bone saddle

No. 3A32. Each $12.70

The Roy Smeck *Grand Concert* Guitar

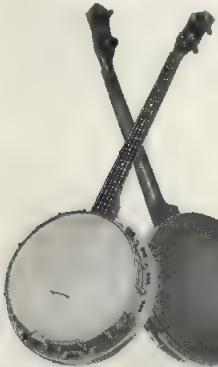
A conventional model large guitar especially fine for those who need power without sacrifice of beauty of tone. New Aero-Bridge (patent pending) guards against backing or pulling, and permits using more sensitive top or soundling board. Back and sides highly figured mahogany, finished in distinctive brown mahogany lacquer hand-rubbed and polished.

No. 3A23. Each $30.00

Roy Smeck *Hawaiian Grand Concert* Guitar

Fills a demand long existing among lovers of the Hawaiian or steel guitar . . . made with fingerboard having flush frets, avoiding any interference with the free movement of the steel bar in player's hand. Height of string nut and saddle, and adjustment of strings, in exact accordance with standards worked out by Roy Smeck through long experimentation in recording and broadcasting work. Beautiful figured mahogany body, conventional shape, grand concert size. Sounding board of selected close-grained spruce, with special bracing and Aero-Bridge (patent pending). Built to withstand strain of steel playing and to give the desired full tone. Distinctive hand-rubbed lacquer finish. An instrument that will delight the expert player.

No. 3A24. Each $30.00



Special Low Priced Walnut Finished Tenor Banjo with heavy 3-ply swelled back extension resonator and nickel plated flange. Heavy segmented rim, veneered with maple. Fitted with 10 nickel plated hexagon brackets and locks and nickel plated top hoop. Hardwood neck with veneered oxidized fingerboard, tapered dowel stick, adjustable neck brace and patent pegs. Good quality calfskin head stretched over rust-proof tone ring. Carefully finished in brown walnut stain, in durable lacquer. Diameter of banjo, 11 inches; resonator, 18 inches. Each in box.

No. 3A36. Each $19.00

Pearlette Trimmed Tenor Banjo in new shaded black walnut finish. Heavy 3-ply sweetl back extension resonator, with beautiful decalcomania ornament in dull gold and colors, and black and white celluloid trim on edge. Heavy segmented banjo shell, veneered with birdseye maple. Banjo has sixteen nickel plated bevelled brackets and hooks, and heavy deep beveled strainer hoop. Neck of hard maple with 23-inch professional scale. Headpiece and fingerboard veneered with lustrous white pearlette. Patent friction pegs with white celluloid buttons. Good quality calfskin head stretched over tasteless tone ring. Nickel plated flange between body and resonator. Finished in shaded dark walnut lacquer. Diameter of banjo 11 inches, resonator 18 inches.

No. 3A37. Each $24.00

DeLuxe Walnut Tenor Banjo with 23-inch scale new style Mellotone resonator. Resonator is made entirely of resonant wood. Rim is fitted with 26 nickel plated flat hooks and professional brackets, extra heavy 1 grooved strainer hoop, covered extension tail piece, and wrist rest. Neck of genuine walnut reinforced with contrasting wood inlays. Fine pearl design American headpiece with improved gear pegs with ivory buttons. Heavy ebonized fingerboard bound with ivory celluloid. Best quality calfskin head. Resonator veneered in burl walnut and trimmed with black and white celluloid edging, ornamented with Classic design decoration. Walnut lacquer finish, hand rubbed and polished. Diameter of banjo, 11 inches; resonator 14 inches.

No. 3A41. Each $45.00

Wilson Autograph Woods

Chromium Plated
"True Temper"
Steel Shafts

The Autograph Wood is a club of outstanding design, streamline in effect, due to the manner in which the top and sole of the club converge in a gentle slope from the rather deep face (made to fit the new ball) to a back wall considerably less in depth. A most graceful club head. Heads are of selected persimmon air seasoned, finished in ebony black with aluminum back weights and seven-spot life locked fancy faces.

Chromium plated, True Temper steel shafts, fitted with long black sleeves at the neck and gripped with black calfskin grips, have the bell top taper, and are finished with black Indestructo caps. Specially designed tapered black Indestructo cuffs at hosel and collar and base of grip, eliminate all whipping.

No. 11R207. Driver
No. 11R208. Brassie
No. 11R209. Spoon
Each..... **4.41**

If Driver and Brassie or Driver, Brassie and Spoon are ordered at the same time, Matched Sets will be shipped.

Burke Farplay Woods

with
"True Temper"
Steel Shafts

Burke Farplay Woods are made with the Fiberloid insert face in three colors with a white background, black center disc with seven green plugs. The face is diamond scored and full finished, V Type aluminum sole plate, red mahogany head finish with stamping filled with gold bronze. True Temper shafts with a grained hickory Pyratone sheath, brown calf grip with Fiberloid cap, durable cellulose collar at bottom of grip.

No. 11R213. Driver
No. 11R214. Brassie

Ryder Cup De Luxe Matched Woods

with

Chromium Plated Steel Shafts

Ryder Cup DeLuxe Model Matched Woods embody a combination of playability, style and fineness of finish that is unsurpassable. They have been specially built in answer to the demand for a super DeLuxe Club that embodies the finest playing qualities. Too much stress cannot be laid upon the fine feel of these clubs which have just enough whip to give full advantage of good wrist work.

The selected persimmon heads are finished in golden walnut with black and white Ryder Cup design face inserts and ivory-like back weights that won't work loose. Butterfly design metal sole plates. Shafts are of chromium plated HyPower steel, a new development that imparts a sweet feel and whippings not found in any other type of shaft. Long black calfskin Reminder grips flattened at one side at the top fit the hands perfectly.

No. 11R131. Matched Driver, Brassie and Spoon.

Schrade Safety Push Button Hunting Knife with Folding Guard

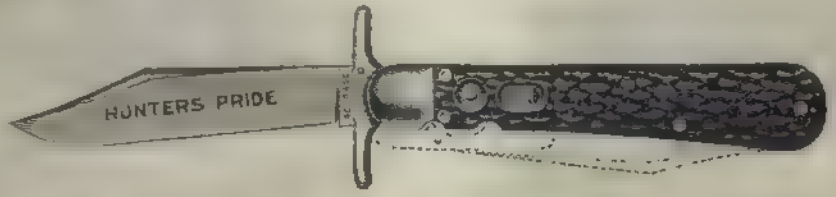
This hunting knife is safe. It is locked when open and when closed. When not in use, the blade is in the handle, doubly locked, due to the Schrade Safety. When wanted, the blade can be opened instantly with one hand, and the knife is ready for use.

When closed the guard fits snugly to the front edge of the handle, as illustrated below. When the blade is open, the guard automatically moves into position.



Schrade Safety Push Button. Length when closed 4¾ in. One large clip point blade, nicely glazed and etched "Hunter's Pride." Stag handle, steel lining, clean inside, nickel silver bolster and guard, w't doz. 4 lbs.

SKYLITE—A New Type of Indirect Lamp

The dark way

with ordinary lighting

The light way

with **SKYLITE**

The Skylite is an entirely new type of indirect lamp. It stands on any mantel, radio, piano or bookcase and lights up the entire room with a uniform diffused light. It lights the room from one source with reflected light from the ceiling. It casts practically no shadow. It does away with annoying bright lights that are harmful to the eyes. It eliminates the fuss and annoyance of drawing up special lights when playing cards. Because its light is so soft, many people prefer Skylite for every purpose.

Skylite is beautifully shaped and finished and by day when not in use forms an exquisite vase that fits in with any decorative scheme. It is finished in beautiful porcelain luster. It is made from a special fibre and mineral composition, much stronger than pottery. It remains cool during use. The reflector is of highly polished zinc. It has nothing to get out of order and will last a lifetime.

Skylite is 11½ inches tall, 7¼ inches wide at top, operates from any lamp socket, and uses only one bulb. Complete with 200 Watt inside frosted lamp and 10 feet of cord.

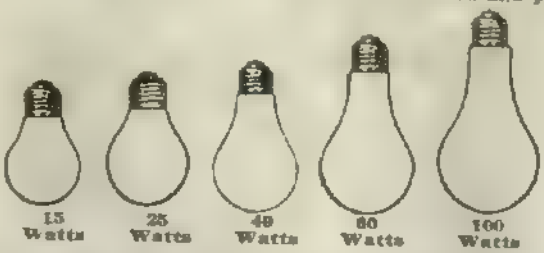
Champion Electric Lamp Bulbs

Licensed by General Electric Company. Guaranteed against defects in manufacturing. Can furnish any type or voltage of lamps. Write for information and prices.



The Standard Line inside frosted Champion lamps (A type) 115 volts represent the highest achievement in incandescent lamp manufacture and for general lighting service are distinctly superior to the older types they have superseded. They produce better illumination are more efficient, and are easily cleaned.

The 40, 60 and 100 watt lamps of the Standard Line are MAC (gas filled) lamps and should not be generally used out of doors unless protected from rain or snow.

SMITH'S AUTOMATIC MACHINE GUN

Safe and Sane. An inexpensive toy having wide appeal and proven popularity. Safe, economical, easily assembled and operated. Fifteen shots a minute obtainable with this plunger type gun — 50 shots for a penny. Uses acetylene gas and flint sparkers instead of powder andeta powder and matches. Produces very loud bang. To Operate: Charge the generator with water and load with ammunition. Push the plunger forward quickly to expel the spent gases and cock the gun. Slowly pull the plunger back to draw a mixture of acetylene and air in the barrel. Pull the trigger, and Bang she goes. Constructed of electric welded sheet steel and steel tubing. Assembled, 18 inches high, 18 inches long. Weight, 8 pounds. Full instructions for assembling and operating packed with each gun. Gun complete includes generator, tripod, can of ammunition, one sparker in gun and extra sparker. Packed in individual cartons.

No. 38N95. Per dozen..... 13.50
Each 1.25

A Can of Ammunition is good for 1,500 to 2,000 shots.

No. 38N100. Per dozen cans..... 1.50

SMITH'S RAPID FIRE MACHINE GUN

Fathers and Mothers will welcome a safe 4th of July toy that uses. Non-poisonous carbide instead of dangerous powder. A safe flint sparker instead of matches. Realistic gun shots without the dangers of blank ammunition, powder burns and bullets. No duds—30 perfect shots a minute, all louder than a cannon cracker—50 of them for 1c. To Operate: Charge the generator with water, load with ammunition, turn the crank. Acetylene gas is generated. Turning the crank automatically loads, cocks, and fires the gun until gas is exhausted Completely loaded, the barrel contains just the right amount of gas for a perfect shot. If it were possible to get too much acetylene and not enough air in the barrel, the result would be merely a dull, harmless thud. Sturdily built of seamless tubing and cast iron. Will last a lifetime. Assembled, 14½ inches high, 18 inches long. Weight, 5 pounds

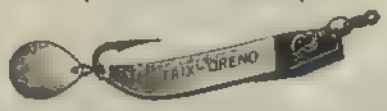
South Bend Trix-Oreno
(For Bait Casters)



Thousands of casters demanded it—so here it is. A Trix-Oreno in bait casting size and also a larger one for trolling for muskies and smaller salt water fish. In retrieving, slightest movement of rod will cause Trix-Oreno to dip, dive and dart about and it has lifelike action of a swimming minnow. It is "alive" every second—either while sinking or when retrieved.

Small Size Trix-Oreno

For bass, has No. 4/0 hook, body length 2¼ in., width ⅞ in., w't ⅝ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Highly polished silvery chromium.

C595G1 .....each $1.00

Large Size Trix-Oreno

For the smaller salt water species and muskies. Has No. 6/0 hook, body length 3¾ in., width ⅞ in., w't ⅞ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Highly polished silvery chromium.

C596G1 .....each $1.00
ONE IN A BOX

South Bend Fly Rod Mouse-Oreno

A very close imitation of a small mouse—a favorite food of big trout and bass. Its true, life-like swimming action causes a gentle riffle on the surface. Round body has practically no resistance when cast, or when lifted from water. Very sensitive, least twitch of rod creates immediate action. Double hook is always in position for a strike. Tiny wire leader attached to headplate to prevent wear on line.

Length 1⅝ in. Fine for trout, crappies, bass, sunfish and smaller varieties of game fish. One in a box.

Furnished in the following colors. Specify color when ordering.

Gray mouse back with white belly.
All black.
White body with red blended eyes and throat and gray stripe down back.

C948G1—Lots of ½ dz......each $0.75
PACKED ONE DOZEN

South Bend Pike-Oreno

Uniquely shaped headplate of stiff phosphor bronze gives new Pike-Oreno its lifelike action and causes it to travel deep when so desired. Bright chromium finish on this headplate is another powerful attraction. One-inch wire leader fastened to headplate for convenience in attaching line. Also prevents line from becoming worn on edges of plate.

Equipped with two treble hooks securely attached in such a manner that they positively cannot mar finish. Rear hook is mounted on beveled end of bait and can swing only in a limited arc, turning every strike into a catch.

Standard Size Pike-Oreno

Wooden portion of body 4½ in. long, overall length including headplate 5¼ in., w't ⅝ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Pike scale finish.
Scale finish green.

C957G1 .....each $1.00

The Baby Pike-Oreno

Wooden portion of body 3¼ in. long, overall length including headplate 4 in., w't between ½ and ⅝ oz.

Furnished in the following colors. Specify color when ordering.

Red head and white body.
Pike scale finish.
Scale finish green.

C956G1 .....each $1.00
ONE IN A BOX

South Bend Crippled Minnow

Will drive any drowsy or up-and-at'em he game fish to action.

Red head and white body. Body length 3¼ in. overall, w't approx. ⅝ oz., highly nickel plated. Spinners are loose and have a buzzing noise when lure is retrived. Equipped with two extra-strong treble hooks, highly nickel plated, one in a box.

C965G1 .....each $0.85
PACKED ONE DOZEN

South Bend Bait Assortment

Trix-Oreno

Covered by broad basic patents, furnished in variety of attractive colors, two sizes, for bass and larger species of game fish, No. 1 hook, body length 1⅝ in., width ⅜ in. Supplied with a strip of rubber pork rind, does not interfere with action. Pork rind is also satisfactory. Easily attached by means of small wire snap. Works perfectly without pork rind. If pork rind is not used, wire snap can be removed.

For trout, blue gills, crappies, perch and smaller game fish, has tiny bangle to give extra "flash." Hook size No. 6, body length 1⅛ in., width ⅛ in. In following colors:

Highly polished silvery-chromium
Enameled red head, white body
Enameled red head, yellow body
Pear enamel finish
Highly polished 24K gold
Enameled white head, black body.

Put up 12 on a very attractive easel display card, 6 Bass and 6 Trout Size, w't 1½ lbs.

C394G1 .....each $1.00

Tournament Casting Weights

PACKED TWO DOZEN

Official size and type Casting Weight used in plug tournaments by the National Association of Scientific Angling Clubs. Made of wood with white enamel finish, w't ⅝ oz., length 3 in.

C274G1 .....each $0.30
PACKED ONE DOZEN

South Bend Wobbling Type Baits

Fly-Oreno

For use with a fly-rod, including the lightest kind without any danger of straining the rod. For trout and other game fish. Constructed along the same lines and having the same wobbling, zig-zagging and diving action in the water as the other Oreno baits. This lure preferably should be used in conjunction with a four-foot gut leader.

Red head and white body. Body is 1¼ in. long. Equipped with one No. 9 bronzed hollow point, double hook, easily detached for reversing.

C970G1 .....each $0.65

PACKED ONE DOZEN

Trout-Oreno

Designed primarily for fly-rod fishing, however is also successfully used with light bait rod for bass and other game fish, as well as trout. This lure preferably should be used in conjunction with a four-foot gut leader.

Red head and white body. Body is 1¾ in. long. Equipped with one double hook No. 4, bronzed, hollow point, easily detached for reversing.

C971G1 ..... each $0.65

PACKED ONE DOZEN

South Bend Bass-Oreno Assortment

Very neat and compact. Does not consume much space nor obstruct the full use of the top of your display cases. Size is 14×6½×1¾ in. Goldenrod yellow colored box with attractive red and black printing. Has six compartments, each holding an individual box of one bait.

Assortment consisting of: One each Bass-Oreno (Wobbler) baits in selected popular colors; scale with red blend; scale finish; frog; rainbow; rod head with body; red head aluminum color body, w't asst. 1 lb.

C382G1 .....each $0.50

ONE ASSORTMENT IN A BOX

Shur-Strike Bass-Oreno Type Bait

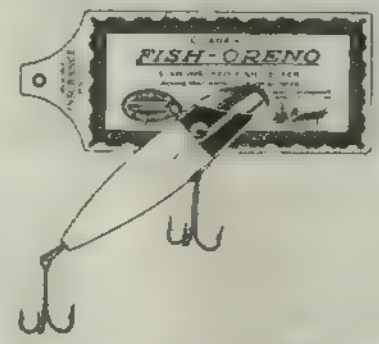
This artificial bait is a wooden plug of the popular Bass-Oreno type. It floats on the surface when at rest, but dives and has a very deceptive and enticing wiggle and wobble when retrieved. It runs at a moderate depth at ordinary reeling or trolling speeds. Finished with six coats of Duco enamel, using a high gloss lacquer for the finishing coat. This wtih the color makes seven coats of paint on the lure.

Red head and white body, length 3⅝ in., approx. w't each ⅝ oz., one in a box.

No. C177G0

Lots of ½ dz .....each $0.35
P'kg. of 1 dz .....each $....

South Bend Guaranteed Fish-Oreno



The Bait with the Insurance Policy

Only lure ever produced that is guaranteed by manufacturer to catch fish. Covered by an insurance policy attached to bait, that is backed by resources of South Bend Bait Co. Can be sold to any angler with positive guarantee of "money back" if not satisfied after one year's use.

Fish-Oreno is an innovation constructed along similar lines to our famous Bass-Oreno. It has a highly polished nickel head plate which sinks bait at approximate rate of 2 feet per second to any desired depth, where, when retrieved, it performs in an erratic, wobbling, quivering, zig-zag fashion so enticing to game fish. It is particularly desirable for hot weather fishing, when a bait that will travel deep, and still not sacrifice action is wanted by angler.

Body length overall 3¾ in., equipped with two extra strong treble hooks, highly nickel plated, enamel lacquer. Highly nickeled head plated, w't doz., 1¼ lbs., one in a box.

Furnished in the folowing colors. Specify color when ordering.

White body, red head.
Pike finish.

C953G1 ..... each $1.00

PACKED ONE DOZEN IN A CONTAINER WITH ATTRACTIVE COUNTER EASEL

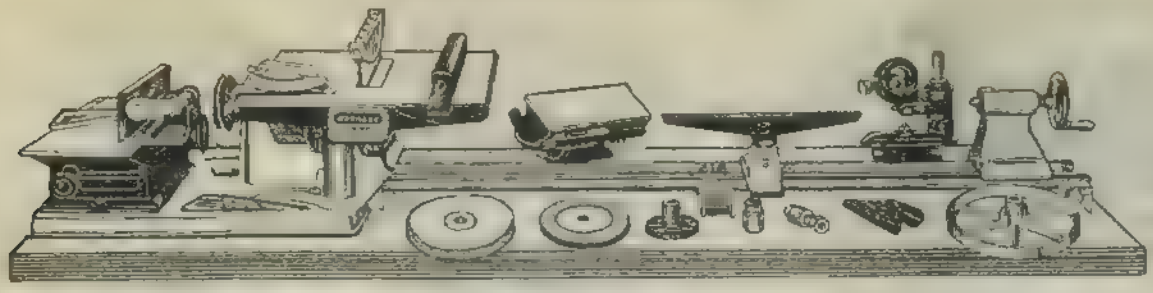
- 1 Pair Pliers (Gauge 4½x2½ in.)
- 1 Pkg. Wiggle Nails
- 1 Pkg. Asst Screws
- 1 Pkg. Asst Nails
- 1 Sanding Block

Workace Woodworker



HOME MODEL, space required 63×26 in., shipping w't 240 lbs.

T419HA0—Each (less motor) $70 00

The Workace Woodworker has been improved in design and drive—and the price has been lowered. In the design and construction of Workace Machines, Wallace Engineers have drawn upon their vast experience in the manufacture of high speed industrial Wallace Machines, of which 60,000 are now in use in factories and schools everywhere.

In the improved Workace Woodworker, the Planer Table has been lowered and the saw and planer are driven by independent pulleys. The new arrangement is more convenient as no part interferes.

Men who know machines, recognize fine construction and excellent design in the rugged Workace. Five feet long—and every inch a real tool. There is a 4 in. Planer, an 8 in. Circular Saw, an 8x36 in. Lathe, an 8 in. Sanding Disc, a 6 in. Buffer, a 5 in. Emery Grinder, a ½ in. Drill Chuck, Auxiliary Tilting Work Table and a Jig Saw attachment. The Woodworker is portable—can easily be moved from place to place. Planer guard and saw guard and splitter, cord and plug, 1×3 in. V stepped pulley and endless V-belts also furnished.

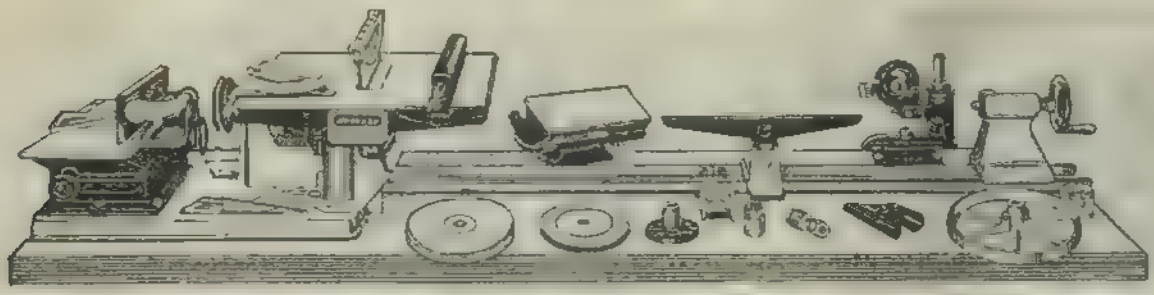
1 Pkg. Asst. Nails
1 Sanding Block

Workace Woodworker



HOME MODEL, space required 63×26 in., shipping w't 240 lbs.

T419HA0—Each (less motor) $70 00

The Workace Woodworker has been improved in design and drive—and the price has been lowered. In the design and construction of Workace Machines, Wallace Engineers have drawn upon their vast experience in the manufacture of high speed industrial Wallace Machines, of which 60,000 are now in use in factories and schools everywhere.

In the improved Workace Woodworker, the Planer Table has been lowered and the saw and planer are driven by independent pulleys. The new arrangement is more convenient as no part interferes.

Men who know machines, recognize fine construction and excellent design in the rugged Workace. Five feet long—and every inch a real tool. There is a 4 in. Planer, an 8 in. Circular Saw, an 8x36 in. Lathe, an 8 in. Sanding Disc, a 6 in. Buffer, a 5 in. Emery Grinder, a ½ in. Drill Chuck, Auxiliary Tilting Work Table and a Jig Saw attachment. The Woodworker is portable—can easily be moved from place to place. Planer guard and saw guard and splitter, cord and plug, 1×3 in. V-stepped pulley and endless V-belts also furnished.

ALVIN REPOUSSÉ

BRIDAL BOUQUET PATTERN

The masters of old drew their inspiration for fine Repoussé objects of art from the beauty of Nature as expressed in delicate flowers.

The Alvin Stylist has skillfully reproduced this early art in the BRIDAL BOUQUET pattern.

Blending with fine china and rare old linens, its scintillating high-lights reflect sterling loveliness over the entire table ensemble. A pattern that with association endears iself to the owner.

Genuine Trimo Pipe Wrenches

The improved Trimo in addition to the exclusive features and designs which have been distinctive in this wrench offers a new handle tremendously strengthened by a scientific heat treatment and a reinforced frame. Two strong lugs, a part of the handle, prevent spread when the user resorts to a side pull.

Drop forged bar steel hardened jaw with insert jaw for handle. Steel frame with nut guards to hold in place. Polished head and jaws.

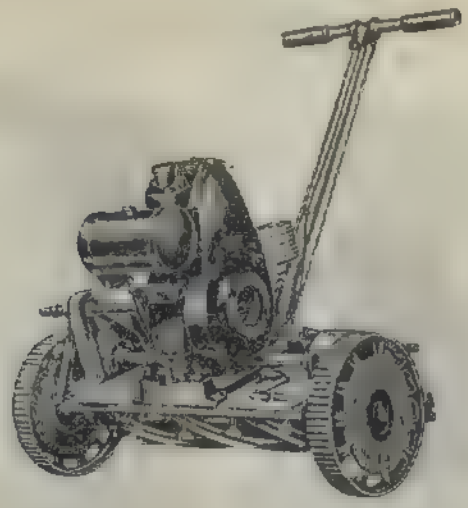
"The Super-Detroit" Moto-Mower



The SUPER-DETROIT Moto-Mower having a 27 in. cut, is a superior power grass cutter for lawns covering 4 to 5 acres. It represents the last word in lawn mower design and construction, incorporating many distinctive features that insure a long career of trouble-free, dependable mowing. Having its throttle control on the steering post and its steering control on the handle bar, the SUPER-DETROIT Model is renowned for its ease of operation. It possesses a dropout reel for easy cleaning and a cutting reel release clutch.

Frame

Width of cut 27 in., cutting adjustment ½ to 4 in., cutting speed ½ to 3¼ miles per hour, cutting capacity 4 to 5 acres per day, climbs 35% grade, gasoline consumption per day about 1 gal, color gray enamel.

Motor

Four cycle, L-head, air cooled, bore 2¾ in., stroke 3¼ in., horsepower 2, speed 800 to 2400 r.p.m. Parts to lubricate, 1 place, control, throttle, ignition, magneto, carburetor, Tillotson.

Mower

Blades, revolving, 5 crucible steel (tempered), blade, bottom, turned up edge (tempered), clutches, dry disc type, control, wheels can be engaged either together or separately, reel bearings Timken roller, self adjusting, handle tubular steel, side frames malleable iron, chains diamond roller, drive wheels indestructible steel, 14 in. diameter.

27 in. cut, net w't each 220 lbs., shipping w't 350 lbs.

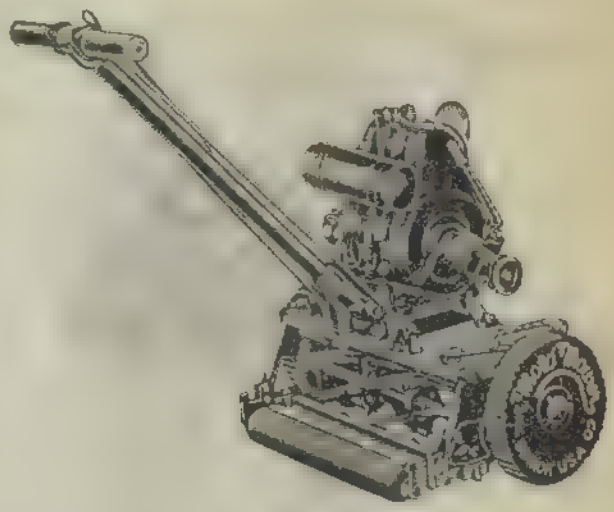
W227A0 .....each **$294.00**

Sickle-Bar Attachment

For use with W227 Moto-Mower. The clipping attachment will cut grass and weeds 3 or 4 in. above the ground after which the Moto-Mower will clip the portion left, and leave lawn cut smoothly. Can be attached in five minutes to 27 in. Mower, w't 20 lbs.

W100A0 .....each **$65.00**

"The City" Moto-Mower



Like its larger brothers, the 21 in. cut CITY Model Moto-Mower possesses the nimbleness of a hand mower. Owners of moderately large city lawns who once try out a CITY Model will never be satisfied with hand lawn mowing, so effortless and thorough is Moto-Mowing. The CITY Model is equipped with a hand-starting lever and many other improvements which make it characteristically easy and economical to operate. A twist of the wrist guides it, and its simple, sturdy construction prevents anything getting out of order.

Frame

Width of cut 21 in., cutting adjustment ¼ to 2½ in., cutting speed ½ to 3¼ m.p.h., cutting capacity 2½ to 3 acres per day, climbs 25% grade, gas consumption per day about 1 gal. Color, gray enamel.

Motor

Four cycle, L-head, air-cooled; bore, stroke 2¼ in.; horsepower, 1 h.p. at 1800 r.p.m. Parts to lubricate, 1 place; control, throttle; ignition, flywheel magneto; carburetor, Tillotson.

Mower

Blades, revolving, 5 crucible steel (tempered), Bottom blade, turned up edge (tempered), clutches, dry band type; control, wheels can be engaged either together or separately; reel bearings Timken roller, handle steel fully braced, side frames malleable iron, chains diamond roller.

21 in. cut, net w't each 185 lbs., shipping w't 265 lbs.

T1421A0—Made of heavy white canvas, heavy galvanized bottom, width 21 in. .....each **$4.50**

"Standard" Moto-Mower

Made of good material, surprisingly light considering its great strength and durability, that it can be operated at he hardest kind of work day after day without interruption for repairs or "tinkering."

The Standard Model Moto-Mower is built on a malleable iron frame. All castings requiring strength are constructed of the same material. Even though it entails much greater expense, malleable iron was chosen in place of cast iron because of the additional toughness of the former.

The driving wheels, built of indestructible steel, measure 14 inches in diameter. The handles are of tubular steel. The five cutting reel blades are of tempered crucible steel. The reel bearings are of the Timken roller type, self adjusting. The power transmission employs a diamond roller type chain to insure long wearing efficiency. Grease lubrication is made simple and easy by the availability of a Zerk type grease gun and easily reached nipples.

A four-cycle, air-cooled, high-speed L-head motor supplies an abundance of power to meet every demand. Carbon is most easily removed in this type of cylinder construction.

Frame

Width of cut 24 in., cutting adjustment ⅞ to 3¼ in., cutting speed 1½ to 3 m.p.h., cutting capacity 4 acres per day, climbs 35% grade, gas consumption per day about 1 gal. Color gray enamel.

Motor

Four cycle, L-head, air-cooled; bore, 2¼ in.; stroke, 2¼ in.; horsepower, 1 h p at 1800 r.p.m. Parts to lubricate, 1 place; control, throttle; ignition, flywheel magneto; carburetor, Tillotson.

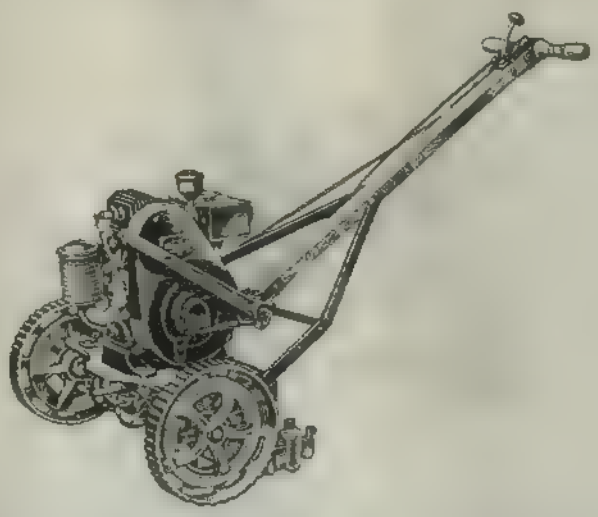
Mower

Blades, revolving, 5 crucible steel (tempered). Bottom blade (flexible tempered), clutches, dry disc type; control, wheels can be engaged either together or separately; reel bearings, Timken roller; handle, tubular steel, fully braced; side frames, malleable iron; chains, diamond roller; drive wheels 14 in.

W224A0—24 in cut, net w't 275 lbs., shipping w't 350 lbs., each **$240.00**

"The Junior"

Moto-Mower



With the JUNIOR Model (18 in. cut), the Moto-Mower Company completes a line of power lawn mowers that is unequalled for quality and suitable for every size lawn. The JUNIOR Moto-Mower puts power lawn mowing within the reach of all, allowing owners of small lawns the same long wearing, effortless mowing efficiency that larger Moto-Mowers possess. Its light weight makes the JUNIOR easy to handle and economical to operate. Its high quality construction is doubly acceptable because of low initial cost.

Frame

Width of cut 18 in., cutting adjustment ¾ to 1¾ in., cutting speed ½ to 3½ m.p.h., cutting capacity 1 to 2 acres per day, climbs 35% grade, gasoline consumption per day about 1 gal. Color, silver.

Briggs & Stratton Motor

Single cylinder, detachable, L-head, air-cooled, 4 cycle; bore, 2¼ in.; stroke, 2¾ in.; horsepower, ½; speed, 1800 to 2200 r.p.m.; parts to lubricate, one place; control, throttle; ignition, magneto; carburetor, Tillotson.

Mower

Blades, revolving, 5 crucible steel (tempered), clutch, dry disc type; reel bearings, Timken reel, self adjusting, chains, diamond roller; wheels, 11 in. skeleton type.

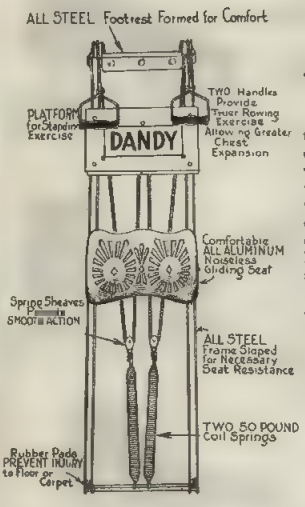
Rowing Machine Exercisers



ALL STEEL Footrest Formed for Comfort
TWO Handles Provide Truer Rowing Exercise Allowing Greater Chest Expansion
PLATFORM for Standing Exercise
DANDY
Comfortable ALL ALUMINUM Noiseless Gliding Seat
Sprine Sheaves SMOOTH ACTION
ALL STEEL Frame Sloped for Necessary Seat Resistance
TWO 50 POUND Coil Springs
Rubber Pads PREVENT INJURY to Floor or Carpet

The Dandy

All Steel Frame Construction

The Dandy Exerciser has long been placed on the market to fill a long felt need for an inexpensive means for indoor exercise. The frame is constructed entirely of steel, rigidly welded. Side rails are structural steel channels designed with the proper slope to provide the necessary seat resistance. Steel foot rest of comfortable shape. Entire frame cadmium plated as protection against rust and will not chip off. Large wooden pulleys, scientifically designed and located with reference to the malleable iron spring sheaves, assure an even pull in almost all directions. Wood grip swivel handles. Two fifty pound nickel plated coil springs are provided which allow a vertical pull of sixty inches for standing exercises. All aluminum seat provided with noiseless rubber tired rollers, assures easy gliding and comfort. Machine cushioned with six rubber bumpers to prevent scratching floors.

No. 10R54. Each..... **2.75**

The Challenge

with Aluminum Front and Platform

The Challenge Exerciser has an all steel frame construction which has been Cadmium plated. It is provided with an all aluminum front and platform which are polished and buffed. Handle frames are made of cast aluminum and provided with wood grips. Aluminum seat is highly polished. Equipped with four thirty-pound nickel plated coil springs with wood roller rope sheaves, making a practically noiseless but smooth acting combination. The method of attaching springs to sheaves and back cross members is such that immediate and easy changes can be made when it is desired to use on two springs.

Ping Pong or Table Tennis

You'll find it lots of fun to start a Ping Pong tournament, with one of these sets. And for a real test of your cleverness and ingenuity, try one of the new jig-saw puzzles! You'll want every set on this page! We'll be ready to ship your orders the same day we receive 'em!

IT'S LOTS OF FUN

A good fast game of table tennis is worth the price of this set alone! While this set is not quite so large as the others, it contains all you really need, and will give you a great deal of pleasure and some real competition. The set contains four sturdy and well balanced double sanded rackets, with both sides of batting surfaces covered with fine sandpaper; four balls, a green woven net, measuring 59 in. across, and two steel clamps that make it easy to attach the net to the table. The 13-pieces come complete in a lithographed box size 13½x14 in. An amazing value!

2R60200 PRICE **$1.65**

STANDARD PING PONG SET

This is the famous Ping Pong set that is endorsed by the famous tennis players, a set that is commended by Big Bill Tilden himself. The world's most famous indoor tennis game! Set contains two double sanded rackets which give a good "cut" to the ball, four best matched English Ping Pong balls, a 42 in. green Ping Pong net, white bound, two steel table clamp posts and book of rules and instructions for playing.

2R60201 PRICE **$4.00**

TABLE TENNIS SETS

Two complete table sets are offered here. The STANDARD set has four 8-ply racquets, sanded two sides with lacquered handle and includes a 66-inch net, nickel plated extension table clamps, eight table tennis balls. The SPECIAL set contains four 8-ply racquets, two of which are sanded two sides and two covered with rubber on two sides. These racquets are made with lacquered handles. The special set also contains ten best quality table tennis balls, one 66-inch net, two nickel plated extension table clamps with rubber table protectors. Please order by number.

BETTER THAN KENO OR LOTTO

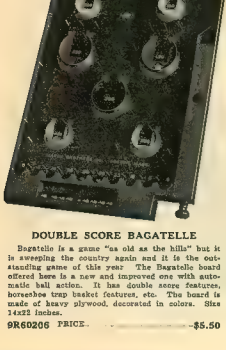
Have you played the new Dice Keno? It's even more entertaining than the old Keno or Lotto! It's a game for two to eight players, includes a pair of dice, eight heavy cards, each having 16 sections representing the spot values of the dice faces, and 128 paper checks for covering the cards. Interesting instruction leaflet with each set.

2R60034 PRICE **$1.65**

NEW—FIT 'EM TOGETHER

They look easy, and they are easy when you know how. But what a time you'll have when you first start to fit them together! There are six large, heavy pictures of "Farm Friends," lithographed in attractive colors. The pictures are scroll cut, the backs of pictures are each covered with a different colored paper, so that they will not be confused. Wrapped in cellophane, this set comes in a colorful box, size 10⅝x12½ inches. You'll have a great time with these puzzle pictures!

2R60097 PRICE **$1.50**



DOUBLE SCORE BAGATELLE

Bagatelle *is* a game "as old as the hills" but it is sweeping the country again and it is the outstanding game of this year. The Bagatelle board offered here is a new and improved one with automatic ball action. It has double score features, horseshoe trap basket features, etc. The board is made of heavy plywood, decorated in colors. Size 14x22 inches.

9R60206 PRICE **$5.50**

IT'S NEW—BRIDGE KENO

Here is the thrill of bridge combined with the Mexican game of Keno. It's a pleasant evening's relaxation from bridge. Equally good for any number of players. You play it with table boards showing bridge cards in miniature, five in a row, five up and five across. Set has four table boards and generous supply of colored counters.

2R60101 PRICE **$1.65**

Sunbeam Eternatime

Kitchen Notifier

This new and improved electric kitchen clock by Sunbeam has many features First, it gives you all the conveniences of a regular electric clock, giving you accurate time to the exact second for life, without winding, adjusting or regulating. In addition to this correct electrical time, this great clock gives a new service, a NOTIFYING service. Eggs boiled just right, vegetables cooked through but not falling apart, roasts done to a turn, neither under-cooked nor over-done — The Sunbeam Notifier makes these possible by "notifying" you the instant your cooking is done.

SEE WHAT THIS WONDER CLOCK WILL DO!

You just set the red tipped pointer on the clock for any period from one minute to three hours. At the end of that time, exactly on the second, this clock notifies you. You can set your notifier hand by fractions of an inch from a few seconds to three hours. This clock actually pays for itself in the foods it saves. Accurate timing makes better cooking. The case is handsomely finished in green or ivory with bright silvered bezel and clear white dial. Size 6½ inches, may be set on table or stove or hung on wall.

2R25159 PRICE **$12.15**

8-DAY OR ELECTRIC

This handsome wall clock is suitable for kitchen, living room, or any other room in the house. It is also used in schools and stores. The case is 6½ in. wide, of metal, lacquer finished, your choice of Green or Ivory. Fitted with you choice of Synchronous electric movement or 8-day spring wound lever movement; 5½ in. silvered metal dial, embossed bronzed numerals, bronzed hands. Electric clock has Red sweep second hand. Convex crystal: fits flush against wall

2R25160 Electric **$5.00**

2R25161 8-Day **4.25**

KITCHEN WALL CLOCK

Here is a clever kitchen wall clock of patented design. It's an attractive green enameled frying pan for hanging on the kitchen wall, with a clock to tell you the correct time! The clock is fitted with dependable 40 hour lever movement, with silvered metal dial and brass sash. The dial measures 2 in. wide. The complete clock is 11⅜ in. long. A clever gift!

2R25162 PRICE **$2.00**

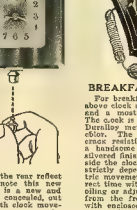
NEW HAVEN AUTO MIRROR CLOCK

"Just Pull It to Wind It"

New! Improved shock proof automobile clock with anti-glare rear vision mirror. Your choice of 30-hour clock movement with plain dial or 8-day clock movement with luminous dial for telling time in the dark. The mirror is finest plate glass with beveled edges in a gunmetal non-glare color that removes the strain and danger of night driving, when the bright lights from the rear reflect into your eyes with the ordinary rear vision mirror. And note this new feature—there is no bothersome winding stem. Instead, there is a new and patented small cable, you just pull it to wind! The cable is up, concealed, out of the way until you reach for it. Please order by number. Both clock movements are compensated for temperature changes and will give you accurate, dependable time. Both New Haven clocks are sized to fit the present bracket on your car. Size 2¼x7 inches.

2R25163 With 30-Hour Clock, PRICE . . . . . **$ 3.90**

2R25164 With 8-Day Clock and Luminous Dial, PRICE **13.75**



BREAKFAST NOOK CLOCK

For breakfast nook or kitchen, the above clock is an attractive ornament, and a most dependable time teller. The clock is made of heavy sculptor's Durolloy metal in a soft Jade Green color. The case is chip resisting once painting, break-resisting, with a handsome metal art dial in satin silvered finish, and convex crystal, beside the clock is a silent-running and strictly dependable synchronous electric movement. It will give you correct time without winding, regulating, oiling or adjusting. It sets and starts from the front. The clock is made with enclosed back, jeweled electric cord, 6ft. invisible wall hanger. Measures 8½ in. high, 6¼ in. wide, 2¾ in. deep. Featured here at a sensationally low price.

TRIAD

Honor Built

Radio Tubes

The Triad is a tube that is made for perfect radio reception, because it is built on a quality basis. It operates without hum, and is more rigid than ever. Triad engineers are justly proud of type T224A. Screen Grid. Its rigid construction eliminates microphonics and burn-outs which cause noisy reception. All Triad tubes are as perfect as T224A.

LONGER LIFE MATCHED TUBES

These tubes will improve any radio set—Finer Tone —Greater Distance—Longer Life—with Triads.

GUARANTEE

Triad Tubes are guaranteed by the manufacturer against electrical or mechanical defects and will be replaced free of charge.

NOTE—Triad uses standard numbers. For instance the T224 is numbered by some manufacturers as 124, 324 or 424. Remember Triads are standard and can replace any tube where the last two numbers correspond.

TYPE T-201A

T-201A is a standard battery operated tube for use as detector and amplifier in any circuit.
Fil. Volts ..... 5.0 | Plate Volts 45-135
Fil. Amps. ..... .25 |
No. 4R39. Each..... .32
(List price .70)

TYPE T-226

T-226 A. C. Amplifier for radio frequency and audio stages. Raw A. C. is used on the filament.
Fil. Volts ..... 1.5 | Plate Volts 90-135
Fil. Amps .....1.05 |
No. 4R40. Each..... .34
(List price 75)

TYPE T-227

T-227 A. C. detector or amplifier, separate quick heater type.
Heater Fil. Volts.... 2.5 | Used as amplifier
Heater Fil. Amps.... 1.75 | Plate Volts 90-135
Detector Plate Volts 45 | 5 prong Y type base.
No. 4R41. Each..... .36
(List price .80)

TYPE T-171A

T-171A power amplifier for use in last audio stages only. Will handle great volume without distortion.
Fil. Volts ..... 5.0 | T-71A Fil. Amps..... .25
T-71 Fil. Amps. .... .5 | Plate Volts 90-180
No. 4R42. Each..... .38
(List price .85)

TYPE T-280

T-280 is a heavy duty full wave rectifier tube for use in A. C. receivers or A, B, and C eliminators.
Fil. Volts ..... 5.0 | A. C. Volts.....300
Fil. Amps. ..... 2.0 | D. C. M/A.....125
No. 4R43. Each..... .36
(List price .80)

TYPE T-245

T-245 is a power amplifier for use in the output of receivers designed especially for its use. (Not interchangeable with T-171 or T-171A.)
Fil. Volts ..... 2.5 | Plate Volts 180-250
Fil. Amps. ..... 1.5 | Negative Grid Bias..33-50
No. 4R44. Each..... .38
(List price .85)

TYPE T-224A

T-224A is an A. C. four element screen grid tube for radio frequency stages in special circuits. Separate heater type and operates directly on A. C.
Heater Fil. Volts.... 2.5 | Plate Volts (max.)..180
Heater Fil. Amps....1.75 | 5 prong Y type base.
No. 4R45. Each..... .68
(List price 1.40)

TYPE T-112A

T-112A output amplifier tubes are designed for use in the last audio stages of battery operated and A. C. sets
Fil. Volts ..... 5.0 | T-12A Fil. Amps.. ... .25
T-12 Fil. Amps. ... .5 | Plate Volts 90-180
No. 4R46. Each. ..... .59
(List price 1.30)

TYPE T-210

T-210 power amplifier tube for use with voltages up to 425. Capable of producing extreme loud speaker volume without distortion.
Fil. Volts ..... 7.5 | Plate Volts 425
Fil. Amps. .....1.25 |
No. 4R47. Each..... 2.25
(List price 5.00)

TYPE T-281

T-281, a half way rectifier for use in A, B and C eliminators.
Fil. Volts ..... 7.5 | A. C. Volts.....750
Fil. Amps. .....1.25 | D. C. m/a... 110
No. 4R48. Each..... 1.58
(List price 3.50

TYPE T-250

T-250 power amplifier for use with power packs capable of producing 450 volts Will handle several times the undistorted volume obtained from T-10
Fil. Volts ..... 7.5 | Plate Volts 450
Fil. Amps. .....1.25 |
No. 4R49. Each..... 1.80
(List price 4.00)

Can supply all standard type tubes—Write for price quotations.

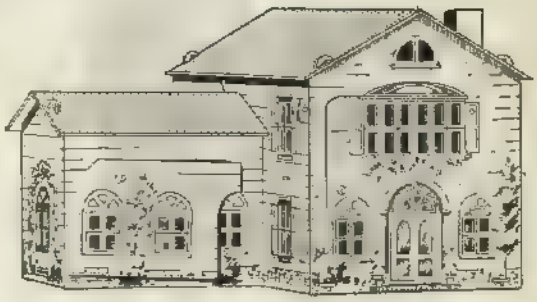
Doll Houses and Trunks

Doll House, two rooms. Decorated in bright colors. Size set up, 14½x7¾x11 inches. Packed each in box.

No. 42N30. Per dozen..... **2.00**

Doll House, 4 rooms. Decorated in bright colors. Size set up, 16½ inches long, 10½ inches wide, 13½ inches high. Knocked down, 16½ inches long, 10½ inches wide, 1¾ inches deep. Boxed each.

No. 42N26. Per dozen..... **4.00**



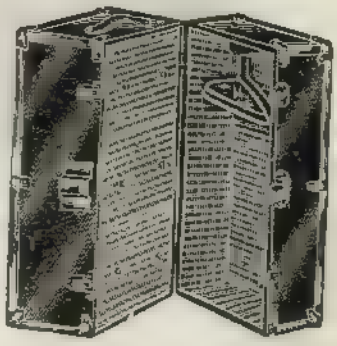
Trixytoy Mansion. Consisting of main building with two stories, 5 rooms and adjoining sun room. Outside of house lithographed in 4 colors. Inside of house beautifully colored. Size of main building, 18 inches long, 11 inches wide, 13 inches high. Size of run room, 10 inches long, 9 inches wide, 9 inches high. The front and rear walls of the main building and one wall of the sun room swing open for free access to all rooms. Complete house packed knocked down flat in box, size, 18½ inches long, 13 inches wide, 2 inches deep. Easy to assemble, strong and durable.

No. 42N27. Per dozen..... **8.00**

Tootsietoy Furnished Doll House

Five Sets of Up-to-Date Furniture and latest model Doll House comprises this 5.00 retailer. Furniture is made of a new strong alloy and finished in attractive colors. Doll House is made of heavy container board and finished in contrasting colors to furniture.

No. 42N19. Each..... **3.35**



WARDROBE TRUNKS

Wardrobe trunk, metal covered, gilt metal bindings. Brass hardware, tags of famous resorts on the outside, nicely lined. Has drawers and hangers for doll's dress, coats, etc., a substantial toy that will stand lots of hard usage. Sell on sight. Do not fail to stock these trunks. Made in three sizes.

No. 86N322. 12 inches high. Each **1.30**

No. 86N323. Complete with lock and key. Each..... **2.00**

No. 86N324. Complete with lock and key. Each..... **3.00**

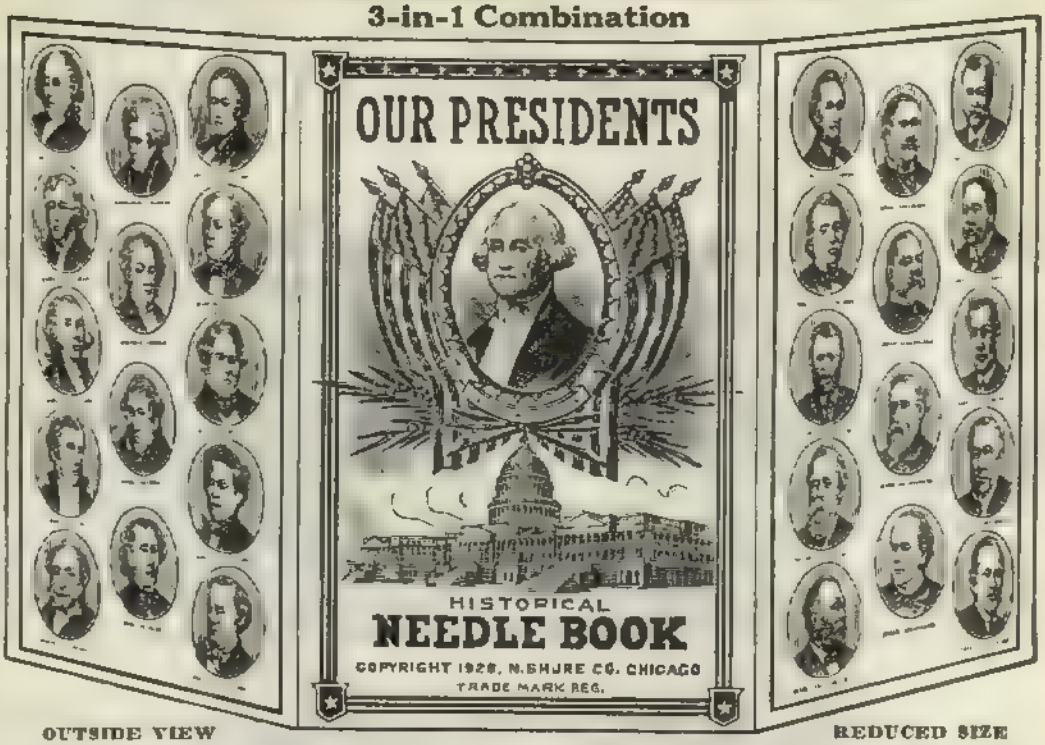
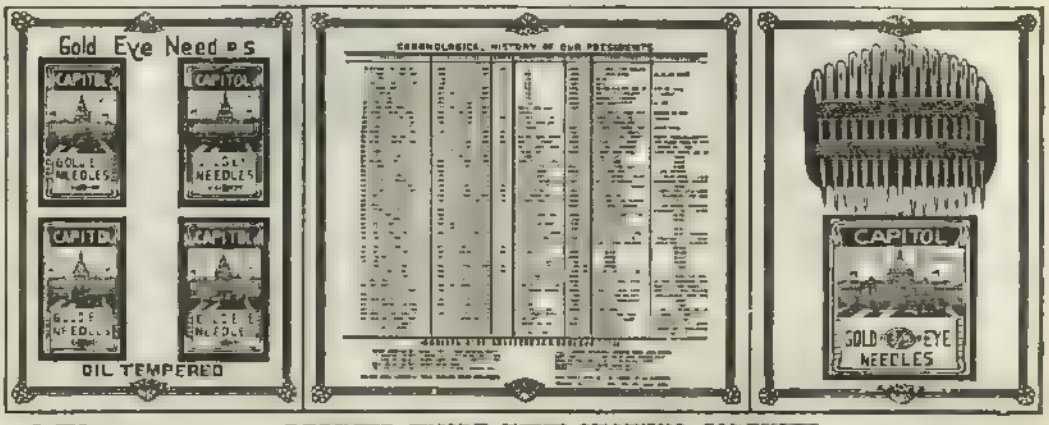
Our Presidents Needle Book

3-in-1 Combination



OUTSIDE VIEW — REDUCED SIZE



REDUCED INSIDE VIEW SHOWING CONTENTS

Read This—

Our Presidents, the world's best combination 3 in 1 needle book and handy historical reference. In 1909 we created the original Army & Navy needle book which for sales, has surpassed anything that has ever been put on the market. It has always been our aim to bring out something entirely different, and we believe that the above needle book will fill a long felt need for something better. We are justly proud and we feel sure that after you have made a careful examination of the lithographing, general make-up and the all gold-eye needle feature, you too will share our enthusiasm. For the Premium user it has the appearance of a $1.00 value.

Each in individual envelope marked as follows: Introductory Price, 50c

Contents—All Gold-Eye Needles

4 papers 10 needles each, assorted 1-5, 3-9, 4-8, 5-10.
1 wide paper, 20 count, assorted 3-9
1 blue steel flat bodkin, gold-eye and tip.
2 gold-eye crewel or embroidery needles.
12 darners, assorted sizes.

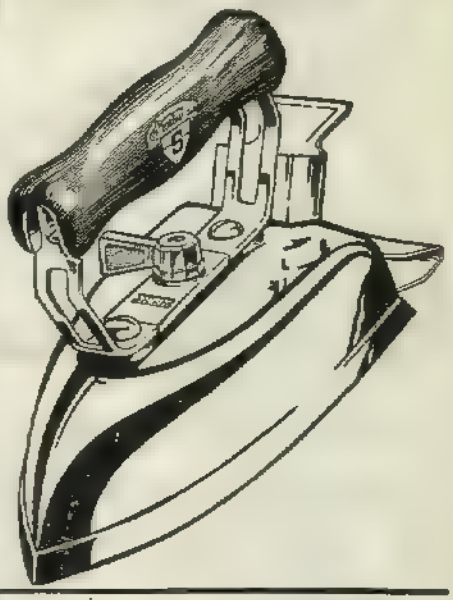
The Famous 3 LB *Sunbeam* IRONMASTER

IRONS FASTER—EASIER—BETTER *than 6 lb. Irons*

So amazing it's hard to believe, yet this marvelous new Ironmaster will iron heaviest damp tablecloths and the lightest of lacy fabrics quicker, better and easier than any 6 lb. iron you have ever used.

Fast, extra heat replaces the needless excess weight of ordinary irons. Housewives everywhere pronounce it the greatest iron achievement in thirty years. Ironmaster ends aching arms, tired wrists, weary shoulders. It irons faster—and saves a full hour each ironing day. It irons better—does smoother, neater work. It heats faster—holds the heat for which it is set.



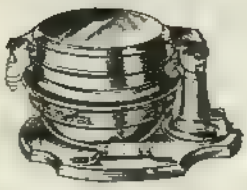
This marvelous new invention has been made possible by the Sunbeam patented free-acting thermostat together with a special alloy sole-plate which conducts heat more rapidly to the clothes. Fully automatic. Chromium plated.

No. 4G7. Each 4.77

Sunbeam Master Automatic Iron. For those people who still prefer 6 lb. irons Sunbeam offers this Master Automatic Iron. Chromium plated and equipped, like the Ironmaster, with Sunbeam patented free-acting thermostat. Can be set for any temperature desired.

No. 4G2. 660 watts. Each 4.56

No. 4G8. 1000 watts. Each 5.20



Sunbeam Waffiewitch. A complete waffle unit—batter bowl fits snugly under the grid with ladle in it, but when waffle is needed the grids swing out. No waffle iron like this on the market. Deep, generous non-sticking grids—long life heating element. Chromium plated.

No. 4G24. Each.. . .. 9.80

Sunbeam Infra-Red Heater. A powerful infra red generator in a convenient portable form. The scientifically designed parabolic reflector tilts to any angle, focusing the heat rays directly on the part of the body requiring treatment. Makes a convenient auxiliary heater in the home on damp, chilly days. Handsome combination of bright polished nickel and black lacquer.

No. 4G12. Each..... 4.24

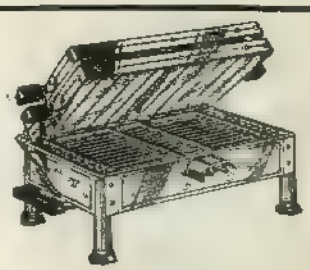
Sunbeam Coffee Maker. This remarkable French drip Coffee Maker operates **without the use of filter papers**—springs, etc. The easiest to clean on the market, for all that has to be washed is glassware. Sunbeam Coffee Maker is scientifically designed so that it extracts all the fine flavor and delicate aroma from the coffee bean—and clear coffee is deposited in the lower bowl. Automatic in operation—no necessary to stir the coffee grounds in the upper bowl. Fast heating element makes it percolate one-third faster than most French drop coffee-makers. Graceful in design—long wearing. Capacity 8 cups.

No. 4G22. Each..... 4.45

Sunbeam Wetproof Heating Pad. Soft, eider down cover is absolutely impervious to moisture and perspiration, and therefore, besides performing all the functions of a regular heating pad, can be used for wet packs with hot towels. Cover can be washed and sterilized as often as necessary. Lavender or straw colors—three-heat switch.

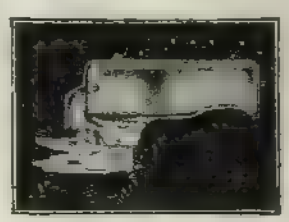
No. 4G19. Each..... 5.53

THE BEST ELECTRIC APPLIANCES MADE *Sunbeam*



Electric Toaster, toasts two pieces of bread at one time. New patented rack enables one to turn over without touching hot toast. Crumbs fall on reflector tray below which is easily cleaned by simply snapping open and shut. Size 6¼ inches wide 11⅛ inches long and 4 inches high. Furnished with special quality 6½ foot cord and detachable heat regulating plug. Chromium plate throughout.

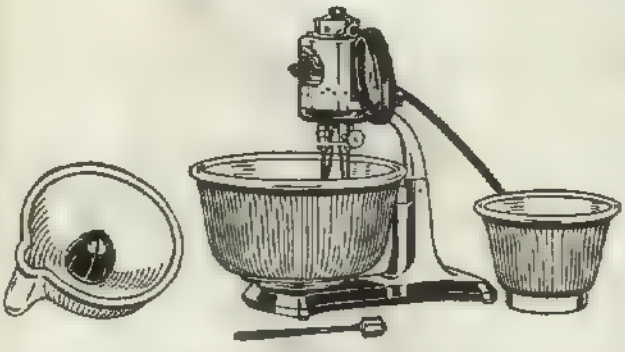
No. 4G9. Each..... .... . 4.90



Sunbeam Electric Scissors. This wonderful new invention cuts quicker, easier and better than hand scissors without any exertion. Edges are cut clean and sharp, without any fraying or pulling. Compact—fit comfortably in the hand. To be used only on 110 volt, 60 or 25 cycle current. (Specify cycle.)

No. 4G23. Each..... 4.25

Time Saving Electric Food Mixers



MANNING BOWMAN MIXER

This new Manning Bowman all-purpose Mixer is not only appealing to the eye but it is most efficient in operation. This mixer becomes portable by simply lifting the motor from the stand and the mixer can be carried to any mixing operation. Instantly convertible for extracting citrous juices. Three fluted glass bowls in French ivory color are included. Motor tips back out of the way for removing the revolving bowls. Equipped with a four speed, ball bearing motor. Base is finished in crackled effect, green enamel and metal parts are polished.

No. 2G39. Each..... 12.17

GENERAL ELECTRIC HOTPOINT MIXER

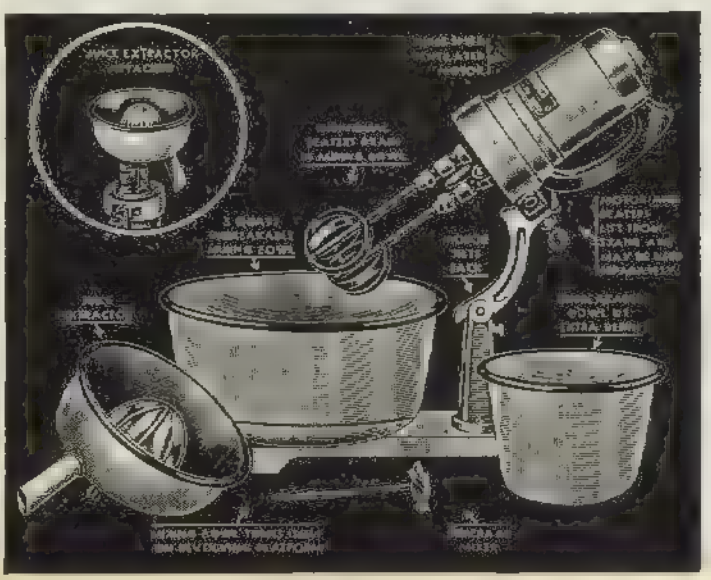
General Electric Hotpoint Mixer is efficient in operation, attractive in design and unique in construction. General Electric motor in base prevents oil from dropping in food. Equipped with 3-speed switch. Green enamel finish. Two Pyrex bowls of special shape guaranteed against breakage from heat. Included is a fruit juice extractor, drink mixer and oil dropper.

No. 17G71. Each..... 14.07

FOOD CHOPPER ATTACHMENT

In order to use the food chopper it is necessary to have a gear reduction unit which reduces speed of motor. Food chopper has 4 cutters of different sizes.

No. 17G72. Complete with gear reducer. Each 4.09



UNIVERSAL MIXER

Universal 770 Model Mixer and Beater will do all mixing, blending, whipping, creaming, stirring and juice extracting—will do them in a fraction of the time required by hand. Always ready, easy to use and easy to clean. Motor leans back to let the beaters drain or the bowls to be removed. Mixing bowls are light, sanitary, unbreakable stainless porcelain enamel, and are easily cleaned. Large mixing bowl automatically revolves when being used. Beaters are chromium plated, are removable and easily cleaned. Motor has three speeds. Mixer may be lifted from stand for special work and held in the hand. By placing extractor on top of motor, outfit quickly extracts fruit juices. Finished in Green enamel.

No. 11G34. Each..... 12.45

Universal Model 780 Mixer. This model has slicer and shredder attachments. (These attachments do not fit model 770 above.)

No. 11G35. Complete with Attachment. Each..... 13.72

The New Portable & Non-Radio Interfering

Sunbeam MIXMASTER

$13.72 Each

Endorsed by Home Economists and Popular Approval Everywhere!

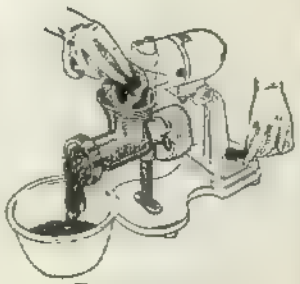
This new Mixmaster, in addition to having all the features of previous Mixmasters which have made Mixmaster the fastest selling household mixer, has a condenser which eliminates radio interference, and is portable. The motor can be removed from the base and beaters carried to the stove or any place desired.

Has fully enclosed motor with speed control on back of motor itself. Juice extractor attachment fits on top.

The Mixmaster stands out above all other mixers because: It is simple in design; it is easier to use—always ready for instant use—there are no adjustments, no bother, no fuss—beaters are always ready in fixed and proper position—come right down to bottom of mixing bowl—and give more even mix.

No adjustment of stand or bowls is ever necessary. Mixing bowls are easily removed—no lifting of motor to do this—motor tilts back. Beaters drain into bowl—avoids dripping—no mess—no turning of bowls by hand—bowls revolve themselves freely because of ball-bearing platform.

No. 4G36. Each 13.72
In lots of 3. Each..... 12.97



Food Chopper

Mixmaster has all necessary Attachments

Food Chopper. Raw meat grinding and food chopping by hand required two separate machines. Mixmaster does both by interchangeable cutters. Attachment consists of food hopper, food chopper plate, coarse and fine vegetable cutters, meat grinding plate and the meat knife. Complete with power transfer unit.
No. 4G27. Each complete..... 4.09

Can Opener. This can opener attachment operates from the same power mechanism that is used with food chopper and meat grinder. Opens any size round can—holds can while opening.
No. 4G28. Each (without power unit) 1.30

Knife Sharpener. Holds blade at correct angle in relation to sharpening wheel. Gives perfect edge every time. Sharpens both knives and scissors. This Knife Sharpener operates from same power unit that is used with Food Chopper.
No. 4G29. Each (without power unit) 1.47

Polisher. With this new Mixmaster Polisher, silverware and metal objects can always be kept bright and shiny. Operates from same power transfer unit as Food Chopper.
No. 4G30. Each (without power unit) ..... .49

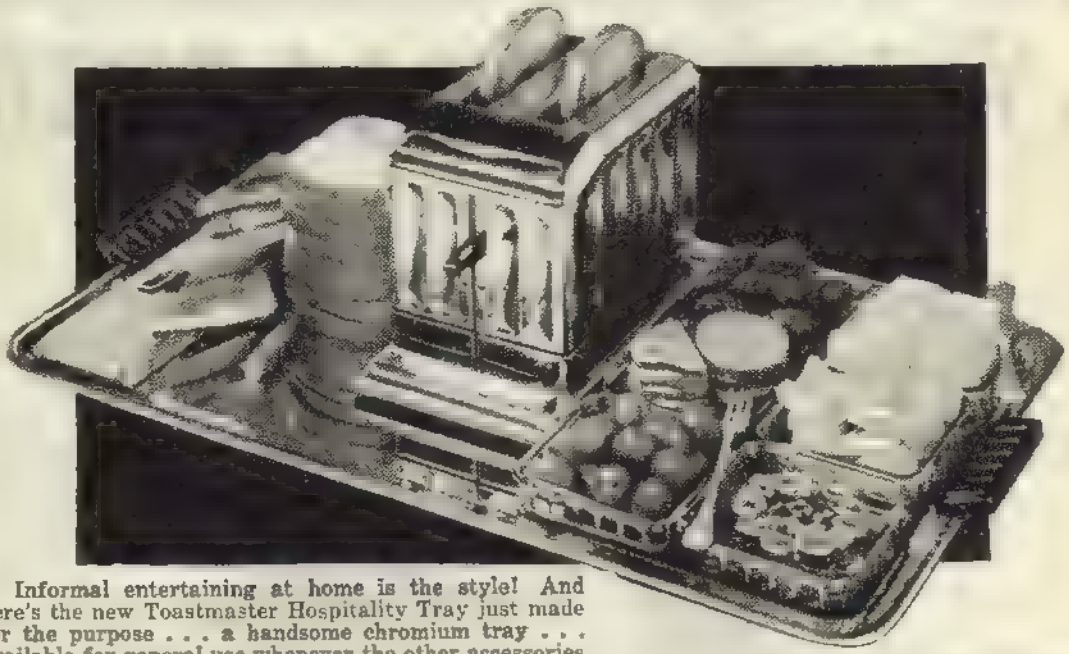
No. 4G32. Each 1.47

Potato Peeler. One of the handiest attachments that has yet been produced. Will peel any size potato perfectly—quicker than can be done by hand, and with absolutely no exertion. No power unit required.
No. 4G34. Each complete..... 2.98

Can Opener

Knife Sharpener

Now! Toastmasters with Hospitality Tray



Informal entertaining at home is the style! And here's the new Toastmaster Hospitality Tray just made for the purpose . . . a handsome chromium tray . . . available for general use whenever the other accessories are not needed . . . jaunty cutting block and knife . . . six crystal-clear glass dishes for butter, cheese, pickles and other dainties . . . and the new Flexible Clock Toastmaster itself . . . combined in one complete hospitality unit.

Here is the first and only entertainment ensemble in the electrical field. To Toastmaster beauty and convenience, it now adds the tremendous selling point of hospitality.

And the price for the complete set is only a little more than the amount paid for the Toastmaster alone! When sold with the one-or two-slice Toastmaster or Wafflemaster the Hospitality Tray retails for 8.75. The Hospitality Tray alone 7.50.

THE NEW FLEXIBLE CLOCK TOASTMASTER

In the new model Toastmaster, the manufacturers have succeeded not only in simplifying the toaster considerably, but have wonderfully improved and modernized the design in its outward appearance.

Instead of two levers, the new Toastmaster is operated by a single lever on the front of the toaster. It is practically noiseless in operation, a result achieved by the most refined workmanship on the mechanism.

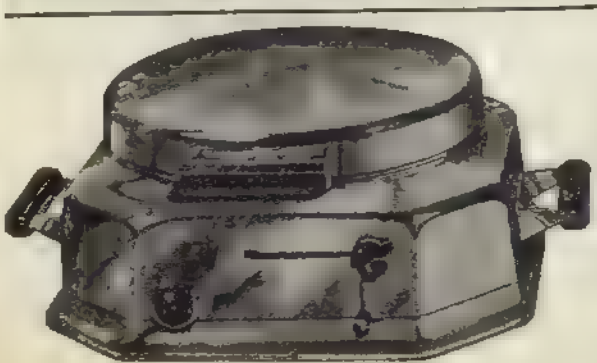
The new model Toastmaster works on the same principle as the old except it has only single instead of double lever action. To operate it you simply place the slice of bread in the oven slot, press down one lever and leave it alone. The automatic mechanism does the rest. In a minute a perfect piece of toast pops up and the current is turned off automatically.

TOASTER AND TRAY SETS

No. 52G1/1. Single Slice Toastmaster complete with Tray. Per set **10.46**
No. 52G2/1. Two Slice Toastmaster complete with Tray. Per set **13.55**

TOASTERS WITHOUT TRAY

No. 52G1. Single Slice Toaster. Each **7.89**
No. 52G2. Two Slice Toaster. Each **10.08**



THE NEW WAFFLEMASTER

Completely automatic. Makes waffles entirely without the use of grease.

Its automatic mechanism contains the well-known Toastmaster features including a positive mechanical control which cuts down the current and stops the baking automatically, producing uniform waffles.

After the waffle is removed, low heat continues to keep the grids sufficiently warm so that the next waffle can be baked at any time and a uniform waffle will result.

The grids have been designed to insure thorough baking clear through, giving a crisp light waffle rather than a thick waffle, which is inclined to be soggy and indigestible.

A removable easily cleanable ring about ⅝ of an inch wide rests around the lower grid to catch overflow of batter.

The Wafflemaster is finished with the finest chromium plate.

It makes 7-inch round waffles, and weighs 7½ lbs., is 4½ inches high, consumes 800 watts on high baking heat, and 165 watts on low.

No. 52G3. Each **9.95**

Fountain Pens

In the Latest Styles and Colors

All Fitted With the New Durium Points

All fountain pens listed on this page are made of unbreakable material in the newest styles and colors. They all have tapered caps and barrels, new filigree bands inlaid in the caps adding appearance to an article which in itself is a wonderful value at the price.

The pens are all fitted with the new DURIUM points, a development of the last year. This point is far superior to any now used in pens at this price. It has all the smooth writing quality of a solid gold point but at the price of the average steel writing pen. Durium points are non-tarnishable and are highly polished.

Pencils listed here are made up to match the pens in all details. They have the same filigree bands as the pens, and are styled in exactly the same manner. They propel, repel and expel the lead; have extra leads and an eraser concealed in the body of the barrel.

The colors listed here are those which have proven to be the best sellers. They are duplicates of colors used in the manufacture of pens selling at prices much higher than what we quote on the pens here listed.

The new 1933 Wagner Radio has extremely wide tuning range. It brings in Police Calls several hundreds of miles away. Broadcasting stations from coast to coast are brought in with the clarity and strength of local stations.

Right here in Chicago, radio sets are subjected to the most severe tests. We are surrounded by a battery of powerful broadcasting stations. Most radio owners in Chicago have to content themselves with local programs. Not so with Wagner owners! Wagner precision tuning cuts through the local barrage with knife-like sharpness.

WAGNER

THE NEWEST AND BEST IN RADIO

The new Wagner Symphonic is the greatest Wagner ever built. It is made for the radio lovers who want the very best that can be made. Every notable development of radio science has been incorporated into the design and construction of this great new set.

Super-Powered Superheterodyne

Superheterodyne—a perfected new RCA circuit—is applied with almost unbelievable results. The new power tubes and special circuits give this set the power and reach of a giant. Yet the enormous power is under your complete control. It is this extra reserve power that brings you such new, rare fidelity of tone—unequalled sensitivity—its power to bring in distant stations with the clarity and strength of locals. With the new mighty Wagner there is "a station on every point of the dial." No interference, no hum or distortion. No background of scratches or noises. The tone is REAL and lifelike, in true pitch, without the slightest suggestion of muffling or hollowness. It is as though the orchestra or singer or announcer were standing right before you. Never before any radio with such true-to-life tone like Wagner's!

Six Pentode Super-Power Tubes

The new Wagner is built with special balanced circuits to get the fullest benefit of the new super-power tubes. The new Wagner uses six Pentode tubes, two tubes in all. They include three type 56, one type 57, three type 58, two type 47, and one type 80. The new Wagner uses power detection, balanced circuits, power amplification. Where some sets claim one feature and others proudly advertise other selling points, the new Wagner has them all.

Spot-Light Tuning—Full Vision Dial

The new Wagner has perfected single spot light tuning with full vision dial. The center tuning knob is all you turn to select the stations. As you turn it, a beam of light softly glows like a spot light on the number of the dial to which you have turned. Instead of a moving pointer, you tune by the moving spot light. The center tuning knob is all you use to tune. The left hand knob is your personal tone control. The right hand knob is your volume control.

Full Range Personal Tone Control

With the new Wagner personal tone control, you can adjust the tone to suit your mood, from extra low pitch to high treble. Not just three or four "steps" of control, but a full range control, with the richest tone known to radio.

Quiet Automatic Volume Control

With the new Wagner there is no noise between stations. The new perfected quiet automatic volume control means technically, the suppression of inter-carrier noise, the incorporation of a circuit effectively suppressing all static and signals from a predetermined level, which you set when you tune. The enormous reserve power of the Wagner brings in the distant stations with the clarity and strength of locals. Fading is minimized, distance is almost forgotten, as you bring in station after station, from coast to coast. The mighty Wagner 10-tube chassis is a perfectly synchronized high powered, high gain receiver of tremendous selectivity and sensitivity. The mighty Wagner uses 10 RCA Radiotron tubes, the new super-power Superphonic genuine Radiotrons that have brought a new meaning to radio performance and radio enjoyment.

The WAGNER SYMPHONIC

10-Tube Super-Powered Superheterodyne

New!! The mighty Wagner 10-tube set in luxurious console cabinet of genuine Walnut. Everything you want in radio—everything that radio can give you—is offered in this new Wagner. The cabinet is of beautiful design, built of selected Burl Walnut over selected solid American cabinet wood, with graefully shaped and fluted front, finished all over in hand rubbed lacquered Walnut, size 41 in. high, 24 in. wide, 14 in. deep. Has super-power dynamic speaker hidden behind special silk Tapestry Speaker a perfectly matched to the output of the set, bringing out the low notes and the high notes clear and balanced. The set comes complete with ten RCA genuine Radiotrons, the new super-power Superphonic tubes. Backed by the John Flare 100% guarantee.

9R78599 PRICE Complete **$99.50**

The Mighty
WAGNER
10-Tube Chassis

New perfected RCA Superheterodyne circuit, using the new super-power Superphonic Radiotrons. Sturdy "battleship" construction, that maintains absolute rigidity and hairline balance. Has tremendous reserve power under perfect control.

Super POWERED Super HETERODYNE

THE WAGNER COMMANDER

8-Tube Super-Powered Superheterodyne

The new Wagner Super-Powered Superheterodynes have special features of design and construction that never before were available in any radio receiver. Tone that is lifelike and REAL, of a new intensity, a certain delightful mellowness impossible of description. You actually forget you are listening to a radio, for the orchestra, the announcer or performers seem to be standing in your very room.

Personal tone control enables you to adjust the tone of your Wagner radio to suit your moods and every type of program, giving every gradation from extra low pitch to high treble. Full vision spot light tuning, with an electrical beam of light that spot lights your dial in place of a pointer. Quiet automatic volume control, that eliminates noises between stations, that brings in the distant stations with the clarity and strength of locals. Perfected new RCA Superheterodyne circuit, using eight of the new Superphonic Radiotrons as follows. Three type 56, one type 57, two type 58, one type 47, one type 80.

The beautiful lowboy console cabinet is built of selected American cabinet wood, with matched Butt Walnut front; finished hand rubbed lacquer Walnut, also 40 in. high, 24 in wide, 13½ in. deep. Shipping weight complete about 60 lbs.

The new Wagner has enormous reserve power, under perfect control. It is the power that delivers the REAL and lifelike tone, and permits reception of distant stations with no interference, without distortion. The new Wagner and all equipment is backed with the John Finn 100% guarantee. The set comes complete with genuine Radiotrons, operates direct from any light socket of 110 to 120 volts, 60 cycle alternating current.

9R78598 PRICE Complete. **$79.50**

Every Wagner Radio has extra wide tuning range. Gets Police Calls everywhere—no attachments needed.

THE WAGNER SKY LARK

8-Tube Super-Powered Superheterodyne

New!! The Mighty Wagner 8-tube Super-Powered Superheterodyne in beautiful table model cabinet finished in rich Walnut and Burl Walnut front. Contains the new perfected 1933 Wagner 8-tube chassis, with every notable development of radio science. Eight new RCA Radiotron Superphonic tubes—four Pentodes—makes automatic volume control—perfected RCA Superheterodyne circuit. Spot light tuning with full vision dial. You tune with a spot of light instead of a pointer! Full range personal tone control. Handsomely "pilasred" speaker opening faced with special silk tapestry. Concealed super-powered dynamic speaker, perfectly matched to the output of the set. Balanced tone with no hum or distortion, no background of noises or scratches. The low notes and high notes are all brought out clear and balanced. Amazing sensitivity—there's a station on every point of the dial when you have the power turned full on! Amazing selectivity, with no interference between the stations! The cabinet measures 18 in. high, 16 in. wide, 11½ in. deep. Shipping weight 36 lbs., complete with set of eight matched super-power Superphonic RCA Radiotron tubes.

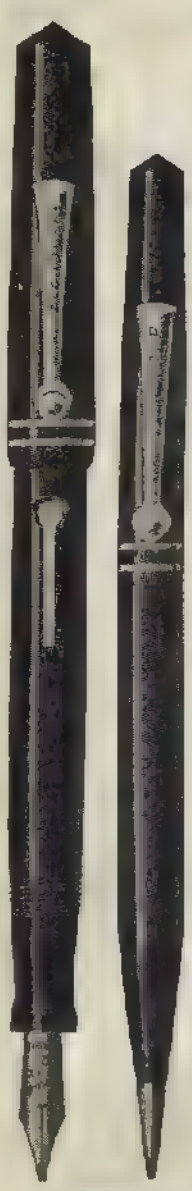
Super POWERED Super HETERODYNE



Wahl Eversharp Equi Poised Fountain Pens and Pencils

A new line of Wahl-Eversharp fountain pens and pencils at prices astonishingly low, considering the quality of the merchandise.

Made in the new equi-poised shape (equally balanced). Up to the present time, this shape has been obtainable only in much higher-priced merchandise. Now, Wahl-Eversharp has combined this feature with its quality reputation with the lower priced line and put out a pen that is far superior to any made at the same price.

The pens are made of unbreakable material in the flashing colors so familiar to the Wahl-Eversharp line: Jade Green, the popular Black and Pearl, the new Kashmir Pearl, at present one of the most popular of colors; and Wahl's latest and most modern color, the Flamingo. The pen points are of 14K solid gold tipped with iridium, insuring lasting quality to this new product.

Wahl-Eversharp has put into the pencil made to match these pens its new three-action movement which in addition to propelling the lead, also repels and expels it. Extra leads and eraser are kept under the slip-off cap.

All trimmings on both pens and pencils are gold filled and made to match perfectly.

Summing up all the above, we can truthfully say that these pens and pencils are worthy of the name "Wahl-Eversharp," which has a world-wide reputation as a trade-mark of quality.

Genuine Trimo Pipe Wrenches

The improved Trimo in addition to the exclusive features and designs which have been distinctive in this wrench offers a new handle tremendously strengthened by a scientific heat treatment and a reinforced frame. Two strong lugs, a part of the handle, prevent spread when the user resorts to a side pull.

Drop forged bar steel hardened jaw with insert jaw for handle. Steel frame with nut guards to hold in place. Polished head and jaws.

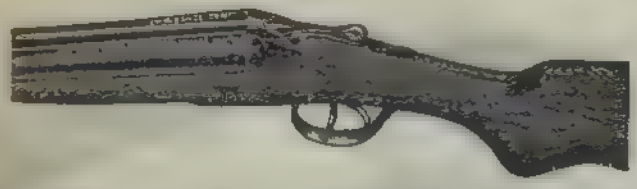
HAMMERLESS DOUBLE BARREL SHOT GUNS

Western



The Western Arms Corporation's "LONG RANGE DOUBLE" is a well finished, medium priced, double barrel, hammerless gun. It has a genuine walnut pistol grip stock and fore-end, not checkered but finished in Duco. The stock is 14 in. in length with a drop at heel of about 2⅞ in. Highest grade steel locks, matted top rib and unusually smooth trigger pull.

The 12 gauge, 32 in. guns have both barrels full choke bored, all other gauges and lengths are left barrel full choke, right barrel modified choke.

C3402G1—12 gauge, 28, 30 or 32 in., for 2¾ and 2¾ in. shells, w't 7¼ to 7¾ lbs. ..... each $17.50

C3406G1—16 gauge, 28 or 30 in. barrels, for 2 9/16 in. shells, w't about 6½ lbs. ..... each $17.50

C3400G1—20 gauge, 28 in. for 2½ and 2¾ in. shells, w't about 6¼ lbs. ..... each $17.50

C3404G1—.410 gauge, or 44 caliber, 26 in., adapted to .410 gauge shells (any length), 44 WCF and 44 XL cartridges, w't about 5¾ lbs. ..... each $17.50

The .410 gauge has a smaller frame than the 12, 16 and 20 gauge guns.

Ithaca

Three separate safety indicators. Popular rotary bolt fastening. D. & E. snap forearm fastening. The lock mechanism is a new application of the fast coil main spring, to an unbreakable hammer and sear, which retains the lock speed of Ithaca guns.

Barrel—Smokeless powder steel, very durable for nitro powder, matted concave rib with bolted extension, plain extractor.

Stock—Black walnut, good color, highly finished, full pistol grip, hand checkered stock and fore-end, ornamented rubber butt plate. Stock set into frame to prevent splitting and spreading.

Frame—Case-hardened, automatic safety and all locks forged from same steel as used on higher grade Ithaca guns.

Field Grade

C3442G0—12 gauge, 30 in. barrel, for 2¾ and 2¾ in. shells, left full choked, right modified choke bored, w't 6¼ to 7¼ lbs., each $40.55

C3446G0—16 gauge, 28 or 30 in. barrel, for 2 9/16 in. shells, left choke, right modified choke, w't 6¼ to 7 lbs., each $40.55

C3440G0—20 gauge, 28 in. barrel, for 2½ and 2¾ in. shells, left full choke, right modified choke, w't about 6 lbs., each $40.55

Lefever

Single Trigger Nitro Special Model 1

A sturdy single trigger gun at a low price. The trigger is set to shoot first the right and then the left barrel. The mechanism is simple and durable. The full pistol grip stock has a length of about 14 in., drop at heel 2¾ in. Every gun is proof-tested with an extreme load. Left barrel full choke, right modified choke bored.

C3512G1—12 gauge, 30 in. for 2¾ and 2¾ in. shells, w't 7¼ to 7¾ lbs. ..... each $28 35

Lefever

Two Trigger Nitro Special Model 1

A well finished, medium priced, double barrel, hammerless. Non-breakable coil springs. Stocks securely fastened to frame with a draw bolt running up through grip of stock to frame. Top snap may be tripped by simply pressing down with thumb, on a trip pin which comes up through face of frame.

The full pistol grip stock has a length of about 14 in., drop at heel 2¾ in. except in the .410 gauge which has a stock 13½ in. long.

All gauges are bored left barrel full choke, right modified choke except: 12 gauge, 32 in., both barrels full choke bored.

Every gun is proof-tested with an extreme load.

C3412G1—12 gauge, 28, 30 or 32 in., for 2¾ and 2¾ in. shells, w't 7¼ to 7¾ lbs. ..... each $23.75

C3416G1—16 gauge, 28 in., for 2 9/16 in. shells, w't 6¼ lbs., each $23.75

C3410G1—20 gauge, 28 in., for 2½ and 2¾ in. shells, w't about 6¼ lbs. ..... each $23.75

C3414G1—.410 gauge or 44 caliber, 26 in., adapted to .410 gauge shells (any length), 44WCF and 44XL shot cartridges, w't about 5¾ lbs. ..... each $23.75

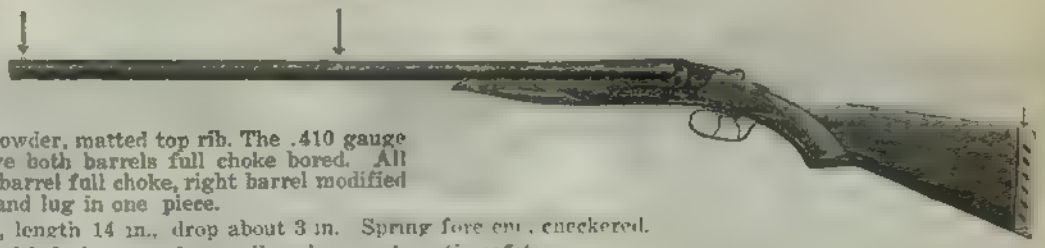
The .410 gauge has a smaller frame than the 12, 16 and 20 gauge guns.

ONE IN A BOX TEN IN A CASE

HAMMERLESS DOUBLE BARREL SHOT GUNS

Springfield

Model 3151 with Jostam Anti-Flench Recoil Pad and Two Lyman Ivory Bead Sights



Barrels—Blued steel, bored for nitro powder, matted top rib. The .410 gauge and 12 gauge, 32 in. barrels, have both barrels full choke bored. All other gauges and lengths are left barrel full choke, right barrel modified choke. Plain extractor. Barrel and lug in one piece.

Stock—Walnut, pistol grip, checkered, length 14 in., drop about 3 in. Spring fore end, checkered.

Frame—Case-hardened. Top lever and bolt in one piece, coil springs, automatic safety.

ONE IN A BOX. TEN IN A CASE

WESTINGHOUSE ELECTRIC FANS

The motors have built into them all the experience and skill gained in the construction of millions of motors. All 12 and 16 in. fans have slow speed motors, which makes for more quiet operation and longer life.

Oscillating Mechanism

An enclosure case around the oscillating mechanism keeps oil from dripping on table covers. Oscillation can be stopped or started while the fan is running. An automatic safety clutch stops oscillation should the guard strike an obstruction—but the fan continues to operate without burning out or overturning. It automatically resumes oscillating as soon as the obstruction is removed.

The Blades: The 10, 12 and 16 in. fans are equipped with MICARTA blades. The 8 in. fans have metal blades. MICARTA is a moulded non-conductor, stronger and much lighter than metal. It will not warp and can easily be cleaned with soap and water. If bent the blades will spring back in position. The greater angle at which these blades are set gives maximum air delivery with minimum noise and compensates for the slow speed motor. These fans can be easily tilted back or forward or mounted on bracket or wall.

It is necessary to lubricate these fans, with cup grease, only once in a season.

Complete with 8 ft cord and soft rubber plug. All fans listed are for operation on 100-120 volt 60 cycle alternating current Fans in other frequencies and voltages or for direct current can be supplied from factory.

8 in. non-oscillating, single speed switch, 28 watts, 375 cu. ft. air per minute, w't boxed 5 lbs.

H738P3 .....each $6.50

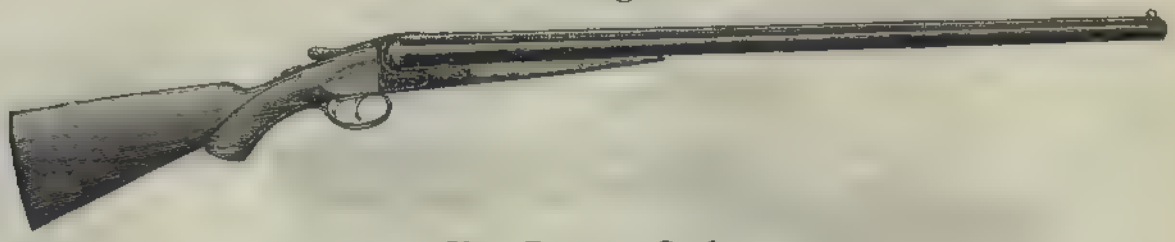
HAMMERLESS DOUBLE BARREL SHOT GUNS

Fox-Sterlingworth



Plain Extractor Grade

Barrels—Sterlingworth fluid compressed steel, thoroughly testedfor strength and shooting qualities, blued.

Stock—American walnut, full pistol grip, capped and checkered, length 14 in., drop at heel, 2¼ in., hard rubber butt plate; checkered, snap fore-end.

C3462G0—12 gauge, 30 in. barrels, left full and right modified choke bored, or 30 in. barrels both full choke bored, for 2⅝ and 2¾ in. shells, w't 7¼ to 7¾ lbs. ..... each **$39 50**

C3466G0—16 gauge, 28 in. barrels, left full and right modified choke bored or 30 in. barrels both full choke bored, for 2¾ in. shells, w't 6¾ to 6¼ lbs. ..... each **$39.50**

C3460G0—20 gauge, 28 in. barrels, left full and right modified choke bored, for 2½ and 2¾ in. shells, w't 5¾ to 6 lbs., each **$39 50**

Parker

Trojan Grade

Barrels—Trojan steel, black finish, all gauges bored left full choke, right modified choke.

Stock—American walnut, neatly checkered, full pistol grip, no cap, drop about 2¾ in., length about 14 in., hard rubber butt plate.

Frame—Nicely finished, all parts of the bolting system are made of carefully selected materials hardened and perfectly fitted, top lever is a forging of alloyed steel and connects directly to the bolt without intermediate linkage of any kind. This makes the simplest and most efficient bolting system in use. Fitted with coil top lever spring.

C3472G0—12 gauge, 28 or 30 in. barrels, for 2⅝ and 2¾ in. shells, left full, right modified choke, plain extractor, w't about 7½ lbs., each **$60.50**

Winchester

Model 21—Standard Grade

The two barrels are not brazed but are interlocked at the breech, by a dovetail process, making this probably the strongest obtainable double barrel gun. The lines of the gun are modern and pleasing. All the materials are carefully selected and the metal parts have been heat-treated to insure long wearing qualities.

Barrels—Nickel steel, blued.

Stock—American walnut, half pistol grip stock and fore-end, neatly checkered, no cap, length 14 in., drop at comb 1⅝ in., drop at heel 2¼ in., hard rubber butt plate.

Plain Extractor

C4012G0—12 gauge, 30 in. barrels, left full, right modified choke bored, for 2⅝ and 2¾ in. shells, w't about 7¼ lbs., each **$65 50**

ONE IN A BOX. TEN IN A CASE

POLICE AND RIOT SHOT GUNS

Short barrel guns, cylinder bored, to shoot buck shot loads. These guns are preferred for use in police squad cars, by bank and express messengers, prison guards and for all riot purposes. The standard buck shot riot shells contain 12 large, lead pellets, making these riot guns more accurate when shot from automobiles, or against a mob, than would be revolvers or pistols.

Remington Autoloading

Model 11R—Riot Grade, Hammerless—5 Shots

Barrel—Remington highest quality steel, blued finish.

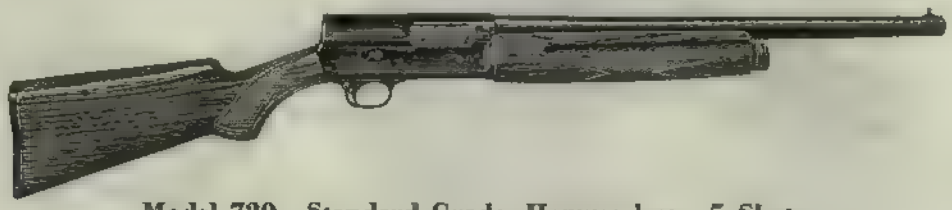
Stock—Selected American walnut stock and fore-end, full pistol grip, checkered, length 14 in., drop at heel 2½ in., drop at comb 1⅝ in., hard rubber butt plate.

Frame—Take down, solid breech, 4 shots in magazine and 1 in chamber, blued, side ejection, cross bolt safety, top of receiver matted, chambered for 2⅝ and 2¾ in. shells, adjustable for light or heavy loads.

Plain Barrel

C5192G2—12 gauge, 20 in. cylinder bored, w't about 7½ lbs. ..... each **$43.40**

Savage Automatic



Model 720—Standard Grade, Hammerless—5 Shots

Manufactured by the Savage Arms Corporation.

Barrel—High pressure smokeless steel, blued finish.

Stock—Selected American walnut stock and fore-end, full pistol grip, checkered, length 14 in., drop at heel 2⅝ in., drop at comb 1¾ in., hard rubber butt plate.

Frame—Take-down, solid breech, 4 shots in magazine and 1 in chamber, blued, side ejection, safety, top of receiver channeled and matted, adjustable for light or heavy loads, chambered for 2⅝ and 2¾ in. shells.

Plain Barrel

C7222G1—12 gauge, 20 in. cylinder bored, w't about 7¾ lbs. ..... each **$36.50**

Winchester Repeating

Model 97—Riot Grade, Hammer—6 Shots

Barrel—Rolled steel, blued.

Stock—American walnut stock and fore-end, full pistol grip, length 13¾ in., drop at heel 2⅜ in., drop at comb 1¾ in., hard rubber butt plate.

Frame—5 shots in magazine and 1 in chamber, blued, side ejection, chambered for 2⅝ and 2¾ in. shells.

Plain Barrel

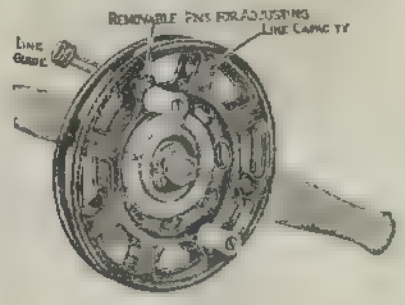
C3082G0—Solid frame, 12 gauge, 20 in. cylinder bored, w't about 7 lbs. ..... each **$34 45**

C3092G0—Take-down, 12 gauge, 20 in. cylinder bored, w't about 7 lbs. ..... each **37 20**

ALL ABOVE, ONE IN A BOX, TEN IN A CASE

Winona Fish Reels

Diameter of reel 4¾ in. Normal capacity 100 yds. 15 lb. test line can be increased to 200 yds. by removing adjustable pins.



Spool nickel-silver black finish. Hub and Reel-seat bright nickel and aluminum. No gears, is self spooling, noiseless, free from back lashes. Thumbing done on hub instead of spool of wet line. New Thumb-drag brake on lower side of reel-hub when casting, and when rod is transferred to left hand is in correct position for left thumb. Adjustable pins for increasing line capacity, w't 5 oz.

No Spool-incloser, no Click, with Thumb-Drag brake and Line-capacity Adjusting Pins.

C305G2 .....each $5.50

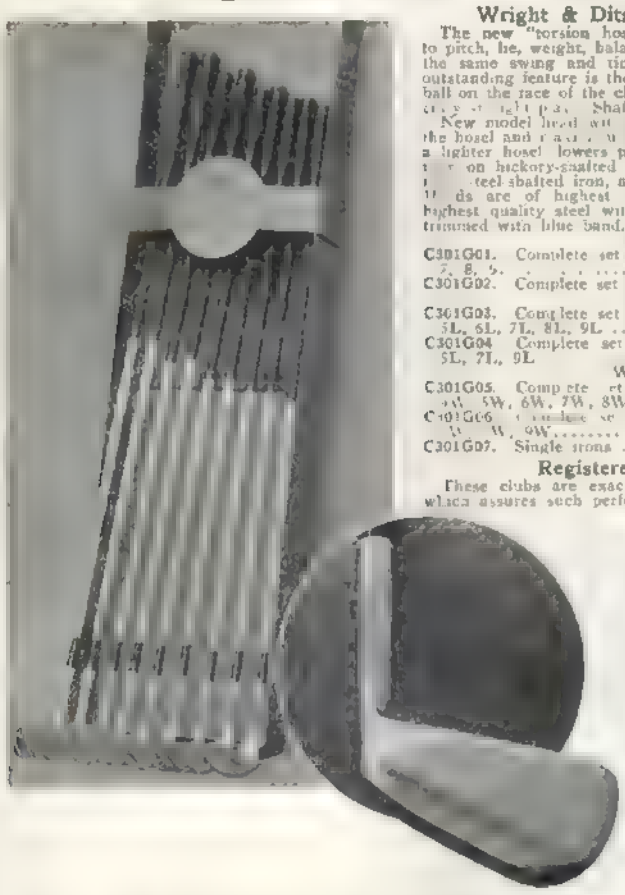
Wright & Ditson's Best — New Torsion Hosel



Wright & Ditson Registered Irons—Steel Shafts

The new "torsion hosel" registered irons are scientifically related as to pitch, lie, weight, balance and feel. So perfectly are they matched that the same swing and timing is correct for every club in the set. The outstanding feature is the torsion hosel which absorbs shock and holds the ball on the face of the club that fraction of a second necessary to consistently [illegible] right pass. Shafts are riveted above torsion point and cannot turn.

New model head with flange sole, comprising a minimum of weight in the hosel and maximum weight in the blade. Sole flange together with a lighter hosel lowers point of percussion, puts it nearly 2 inches lower than on hickory-shafted iron and nearly an inch lower than on the ordinary steel-shafted iron, and gives the sweetest feel yet known in an iron head. Heads are of highest quality steel, chromium plated. Shafts are of highest quality steel with a pyratone sheath, black fiber collar at hosel, trimmed with blue band. Selected calfskin grips with [illegible]

Registered Wood Clubs—Steel Shafts

These clubs are exactly related to each other, matched with a skill which assures such perfect relation that the change from one to another does not interfere with the player's ability. Each club is registered by number, which permits the [illegible] of exact duplicates at any time.

Heads are formed from selected air-dried persimmon wood, finished in a dark mahogany, high [illegible] lacquered wood on face.

Shafts are of highest quality steel, covered with pyratone sleeve with 3-inch black collar. Men's selected black calfskin grips with [illegible]

Matched in pairs—driver and brassie, or sets of three—driver, brassie and spoon. Also sold singly if desired.

C301G08, 09, 10, 11, 12—Medium upright lie; deep face, slightly bulged; new type [illegible] steel sole plate; lead weights; specially designed dot and diamond inserts on faces.

No. 39F67. Each $43.20

X-RAY REFLECTORS

X-Ray Reflectors are "hand-made" being produced by the glass blower in one piece from very tough glass of the highest quality obtainable.

The various types are properly shaped for certain light control, to break up streaks and shadows, and effect a remarkable smoothness of light.

Each reflector is plated with pure silver, the most efficient reflecting surface known. This reflecting surface is protected by a double elastic green enamel and by the glass itself.

Must be shipped by express. Too fragile for parcel post shipment.

Price Is for Reflector Only

To the luckiest men in the world

A FATHER AND SON WHO ARE PALS

THIS Christmas give your son a present that will cement the partner-ship between you—and do more—help him to become quick-thinking and resourceful. Such a gift is a Lionel Electric Train. For Lionel Trains are more than toys. They teach boys how to develop skill with their hands and brains. They help boys form the habit of thinking problems out for themselves. Your boy will not only have the fun of building and operating a model railroad, but the opportunity to tackle actual problems of railroad operation

Help him learn as he plays

Take [illegible] to a Lionel dealer and get FREE *Boys' Manual of Model Railroading*. It tells about [illegible] and how to operate them. Section 2 tells what to get to make it true to life in miniature. Section 3 tells how to get started. Lionel dealers [illegible] and we will send you an expensive book if you send 10¢ to cover handling and mailing costs.

Chug! Chug! Chug!

Now Lionel Electric Trains are [illegible] look like real trains [illegible] like real locomotives. The ELECTRIC EYE [illegible] an engine. Lionel Electric Trains [illegible] Lionel Electric Trains [illegible] from $5.00 to $150.00 (Prices subject to change).

Tune in on Lionel's thrilling "True Railroad Adventures." Every Wednesday at 5:00 P. M. and Sunday at 1:00 P. M., E. S. T., over N B C - W J Z Network starting November 4th. Look up your newspaper under "True Railroad Adventures."

LIONEL CORPORATION, Dept. 0-2, 15 East 26th St., N. Y. C.

I enclose 10c to cover handling and mailing costs for my copy of the new Lionel Railroad Planning Book.

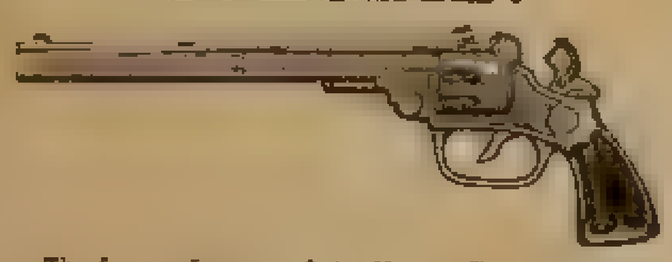
INTRODUCING KENTON'S

FOUR-WAY Safety CAP PISTOL

SPECIAL!



The famous features of the Kenton Two-Time Pistol are now available in the new Two Time Jr. which shoots both caps and rubber bands separately or simultaneously. A wonderful jobbing item to retail at ten cents.

The well known Kenton Rat Gun has many improved features for 1933. Realistic. Shoots rolls of caps. A 25c retail price will bring eager buyers and offers plenty of profit to both retailer and jobber.

....shoots regular caps, rubber bands, discs and pellets

HERE is a real value in cap pistols, offering more selling feature than ever before. A cap pistol that is a four-way type! With the Kenton Four-Way Safety Cap Pistol, the child can either fire caps, rubber bands, cardboard discs, or pellets such as beans, peas, or wooden slugs. Combination firing also is possible.

There are safety features which prevent cap particles flying and there is not enough force behind the rubber bands, discs or pellets for them to prove harmful.

This 1933 cap pistol is packed in an attractive carton which will greatly add to its sales. This is a fine demonstration item which will sell on sight. Rubber bands, discs and wooden slugs supplied.

Orders are now being taken . . . we can give quick delivery.

A Real Sensation

An Electric Pencil that writes in color on almost any material

With this wonderful electric pencil, any person can easily and quickly write on cloth, leather, cellophane, glass, china, paper, wood, enamel, cardboard, linen, silk, etc.—in beautiful gold or other colors.

Drawings, monograms, cartoons, designs, photographs, fancy letterings, etc., can be reproduced with marvelous results. All that is necessary is to plug into any electric socket (either A. C. or D. C.). When the point is hot it writes on a specially prepared foil which transfers the color to the surface to be inscribed. Writes with gold, silver, black, white, blue, brown, green, purple, red, yellow and many other colors and shades.

Made of durable materials and finished in 12 attractively colored handles with electric cords to match. Packed in a fancy box. Has a specially constructed ***heat-control*** so that a child can operate it with ease and safety. Used like an ordinary lead pencil, and is literally "the pencil of a thousand uses."

Patent Applied For

Ray Electric Pencil

DE LUXE MODEL

$2.50
Complete

Fascinating Endless Variety

This remarkable pencil because of its endless variety appeals strongly to ***adults and children alike***. It offers a new source of year-round profit, is an educational item of unusual merit and is accurately made and carefully tested. Furnished complete with a supply of gold and other colored foils.

The ease of writing and transferring lettering or designs to leather and other materials makes the RAY ELECTRIC PENCIL an outstanding seller wherever shown or demonstrated. ***Exclusive selling rights*** are being given to selected stores—so act quickly and secure this profit-making proposition for your territory. Remember, every pencil purchaser becomes a steady customer because of the repeat business created for the ***additional foil*** that will be needed.

FOR YOU, TOO! Every dealer can find many uses for the pencil in his own store—for making signs and showcards, to emboss names or monograms on bill-folds, purses, pipes, fountain pens, pencils, suit cases, books, greeting cards, announcements, linings, etc. It is also unsurpassed as a ***check protector***.

Easel-back Display Card and a supply of Demonstrating Material furnished each dealer.

Brussels Griffons, Lord Fauntleroy, Rosemont Babette and Nonon de Chez Des Orphelines owned by Mrs. D. G. Tapping

The Toy Terrier From Brussels

That's what his doggy friends call him. Officially he is introduced as the Griffon Bruxellois from the Belgian capital. In America he is the Brussels Griffon. Once you've seen him you can't forget him. There is that something about him that catches your fancy. . . . Maybe it is because those who created the Griffon used the Irish terrier, the King Charles spaniel and the Yorkshire terrier . . . quite an unbeatable combination. The Irish terrier imparted the harsh, wiry, rather long and thick coat. The short retroussé nose undoubtedly came from the toy spaniel, while the Yorkshire terrier, known as "an elegant morsel" contributed the finish that makes the Griffon a lady's pet toy terrier. He is most appealing because he is intelligent, sprightly and of robust appearance. He captures your attention with his almost human expression. All in all he deserves your consideration especially if you like a lot of real dog in a small bundle . . . (Griffons vary in weight from five and one-half to ten pounds) and a dog that is smart, because everybody doesn't own one. They still have the merit of distinctiveness . . . and that amounts to something if you are in revolt against things in general. The best way to go about buying a Brussels Griffon, or any of the other ninety-odd breeds to be found in this country is to write to some of the kennels advertised here in Vanity Fair. Only registered dogs from reliable breeders can be advertised in The Dog Directory, as the censorship is strictly maintained. Incidentally, if you've never bought a dog by mail, you may be surprised to learn that most registered dogs are bought that way. Just tell the breeder the breed, sex, age, size, and color of the dog you have in mind, the surroundings in which you will keep him and the price you expect to pay. The breeder will handle all the details.

But should you fail to find advertised here the kind of dog you want, write to us and we'll help you find him, no obligation on your part. It's just part of Vanity Fair's service to readers. Address: The Dog Directory of Vanity Fair, 1929 Graybar Building, Lexington at 43rd, New York.

For a Healthy, Happy Dog—
TRIM YOUR DOG YOURSELF

It's Fun. It's Easy with this New Shear. No More Clipping or Plucking.

GIVE that dog relief from the summer heat he needs—give his coat—yourself—with Dr. Egan's New Dog Trimming Shear. It will keep him healthy and happy—safe from allergies caused by the heat.

Dr. Egan's Shear is a scientifically constructed safety instrument that makes plucking and clipping unnecessary. Keeps your dog's disposition sweet—the weight unbalance of clipping. Anyone can use it with perfect ease—and perfect results. It cannot gouge the coat.

Costs only $2.00. If will be worth your while to write for the whole interesting story—now—today—before you forget. Money back if within 10 days you decide you are not completely satisfied with it. Write today for circular—IT'S FREE.

One of the Unemployed

Miniature Schnauzer Ch. Gayla v. Arnegambo

You think me aloof? It's only a pose while I look you over, to decide whether you'd make a good master for a Schnauzer. Perhaps you couldn't do me justice on canvas, the way my ancestors' masters, Durer and Rembrandt, did—

But if you can smile at my overgrown beard and my perpetually surprised eyebrows and the unexpected curls of my bristly hair—and love me for my gallant heart—

Then you'll do. All I ask of you is a brain to command me, a heart to love me, and a sense of humor to forgive me my looks. And once I'm yours, I'm yours forever, tail-wagging without end.

I know how to act in an Hispano-Suiza, or in your most rat-ridden hay-barn. I move into a well-run town apartment as if I'd come on a formal call, and I never forget I'm a friend, not a nuisance. I boast a flair for understanding your highest gaiety and your least sorrow. I've been educated in the methods of keeping vigil over the family jewels, and a word of command from you will teach me the cleverest tricks and the weightiest tasks.

Oh yes, you'll like me. You can't help it. And to make it easier for you to fit me into your life, I come in three sizes—small, medium, and large. Quality uniform throughout.

Some of the kennels advertising in Vanity Fair are sure to have the one you fancy. You may rely on the dogs offered here, as the rigid requirements of Vanity Fair permit only the advertisements of registered dogs from reliable breeders, known to our Kennel Department. Just tell the breeder the particular dog you want (you have over eighty breeds to choose from), and he'll have him shipped to you. It's quite a simple matter, and most people are ordering their dogs this way. But if you don't see yours here, ask the very understanding gentleman who runs the Dog Directory and he'll help you find him. There is no obligation on your part. Address: The Dog Directory of Vanity Fair, 1929 Graybar Building, Lexington at 43rd, New York.

WHEN WRITING TO KENNEL ADVERTISERS

When you write to one of these kennel advertisers it is a good plan to specify, in your first letter, the breed, sex, age, size, color of the dog you have in mind, as well as the sum you care to pay. It is also advisable to tell the breeder the environment in which you expect to place the dog, that is, whether it is an apartment or a city or a country home.

All of these facts will help the breeder to make a more intelligent selection for you, and at the same time clarify the negotiations incident to the purchase of a pedigreed dog. And we suggest that you mention *Vanity Fair* in writing.
